Through its Center for English Proficiency (CfEP), the university also conducts Intensive English programs designed to develop university-level English language skills in students requiring additional language study before commencing university.

The university’s faculty possess appropriate academic credentials. Furthermore, many are or have been practicing professionals of note. In terms of faculty composition, North Americans have the highest representation of any national group.

AUD’s multi-complex facility has been conceived with the objective of supporting the university's programs (both academic and extra-curricular) to an American standard. The campus surroundings include Dubai Internet City and Media City.

**AUD Mission Statement**

The Mission of The American University in Dubai is to fulfill the broad educational needs of a culturally diverse student body by achieving excellence in teaching and learning, ultimately resulting in the intellectual, personal, and professional success of its graduates and the advancement of society.

**Philosophy and Purpose of the University**

The university community believes it has a special commitment to support each individual’s goals. To this end, the university places emphasis on the educational, professional and personal growth of each student. Programs, policies and activities — which have been designed to implement this philosophy and purpose statement — are evaluated periodically and changed, as necessary, to meet the needs of the student body and the institution. AUD, as an international institution of higher education, encourages global understanding by providing an atmosphere of cultural diversity and opportunities for international education.

**Purpose-Related Goals of the University**. In support of its Philosophy and Mission, AUD’s Goals, Vision and Values are as follows:

**Goals**

- To cultivate and reward excellence, especially as it affects the imparting, acquisition, and advancement of knowledge;
- To guide students in the use of their knowledge and skills for personal and professional fulfillment;
- To foster an appreciation of the history and on-going development of human culture;
- To develop critical thinking, effective communication and lifelong learning skills;
- To promote the value of ethical behavior, responsibility, and commitment;
- To provide academic programs, services, facilities, and technologies that offer diverse opportunities for learning;
- To recruit and retain a diverse faculty of qualified educators, providing them with the environment and opportunity to flourish;
- To foster intercultural understanding as a basis for preparing students as members of a global community;
- To contribute to the economic and societal development of Dubai, the United Arab Emirates and beyond.

**Vision**

- Enhanced standards and quality in program offerings;
- Selective diversification in program portfolio;
- The liberal arts as the wider context for life-long learning and professional readiness;
- Ever more “American” in terms of the total educational experience;
- Strengthened integration with local community (university as a “point of reference”);
- Expansion of facilities on an “as-needed” basis and technology applied to pedagogical and service enhancement.
Values

There are seven (7) values that underpin AUD’s operations and development and that characterize its dealings with students, faculty, staff, and other constituents:

Whole Person Education – AUD values the intellectual, personal and professional development of its students.

Excellence – AUD values excellence in all that it does and is committed to continuous improvement in its educational offerings and services.

Integrity – AUD values honesty and transparency and has high standards of legal-adherence, morality and ethics.

Service – AUD values all of its constituencies and partners with its stakeholders in the achievement of their objectives and aspirations.

Diversity – AUD values diversity in all its manifestations and recognizes its contribution to the quality of university life.

Tolerance – AUD values respect and open-mindedness as proper responses to concepts, opinions and customs that are diverse, new or unfamiliar.

Accountability – AUD believes that all members of the university community are responsible for fulfilling their roles in support of the institutional Mission and Purpose-related Goals and that evaluation of individual performance should be based on the degree to which this responsibility is satisfied.

Statement on Integrity

As an institution committed to quality, The American University in Dubai views integrity as an underlying tenet to its Mission and Purposes. The university uses the integrity tenet as a foundation for all of its operations, services and programs. Integrity serves as an integral foundation to university governance at the level of the Governing Board and in all university operations, institutional representations, advertising, marketing, and services. Honesty and integrity are essential to these functions and serve as the basic contract defining the relationship between the university and its constituencies. The intention of the university is to advance the intellectual and social condition of learners in a diverse society through quality academic programs, services and other learning opportunities. The university strives to provide students with a learning environment anchored by the highest caliber of instruction built on a solid intellectual and ethical foundation.
What Makes AUD American

In fulfillment of its mission as one of the few American-accredited institutions of higher learning in the Gulf, The American University in Dubai seeks to duplicate the American recipe for successful higher education. Syllabi and textbooks are the same as those used in the United States. In addition, the preponderance of American and American-trained faculty further ensures that the university remains American in substance as well as in name. Expectations of academic performance either match or exceed those prevailing on a “typical” American campus.

Several factors explain the excellence which underpins American higher education and guides AUD in the expression of its American character:

- A curriculum that imparts general knowledge but allows for significant specialization;
- A program of extra-curricular activities designed to cultivate the student’s humanistic outlook and social skills;
- Faculty who combine scholarship and technique in exercising their classroom duties;
- Teaching methods that develop strong skills in critical reasoning and precise and persuasive self-expression;
- The maintenance of high academic standards via clear and consistent policies; and
- Instilling an appreciation for life-long learning.

One might observe that the description above portrays all universities. Yet, it is widely believed that something sets American universities apart. We maintain that in the final analysis, it is a series of values/perspectives that distinguish American higher education. It is ultimately AUD’s adoption of these values and their translation into operating policy that make AUD American. Key specifics follow:

Individuality . Individuality is of the utmost importance at AUD. The university promotes creativity and independent thinking. AUD students are free to express their opinions in class and are encouraged to think for themselves. This concept extends beyond the classroom, as the student actively participates in the process of negotiating internships, seeking work outside the university, conferencing with instructors and confronting problem situations. An AUD education is heavily influenced by a work ethic that maintains that effort and personal integrity lead to success.

Self-Reliance . The responsibility for learning and being informed about university policies also ultimately rests with the student. If a lengthy reading assignment is given, instructors expect and demand that students understand and comprehend the information in the reading even if it is not discussed in class. Instructors are there to help, but students are expected to speak up and question if they do not understand a concept or idea. Students should take initiative and seek to complete assignments with minimal guidance. This includes locating resources, both printed and electronic. In summary, at AUD, students are expected to be resourceful, knowledge-seeking individuals who are highly motivated and desire success. Being told what to do and how to do it are not the norms. Students should strive to fully understand all aspects of AUD’s academic life and rules and regulations.
Diversity. The environment at AUD is one of tolerance and respect for the more than eighty nationalities represented in the university community. Central to AUD’s American character is a profound regard for the culture and religion of its students and the people of the U.A.E. This appreciation for diversity extends to the classroom. The climate prevalent in our courses often varies from instructor to instructor. Curricula are not totally standardized. Academic freedom is integral to AUD’s philosophy.

The Honor Code. An honor system is standard practice in all respected American universities. Thus, cheating on tests, plagiarizing (presenting another’s ideas as your own) and turning in assignments completed by others are all prohibited. (See section on Honor Code). Violation of the Code can result in failure of a course or even dismissal from the university. AUD takes the Honor Code very seriously and is diligent in the monitoring of and application of penalties.

Critical Thinking. At AUD, the emphasis is on developing critical thinking skills more than accumulating facts. Students are taught to assess critically a situation or problem and develop a solution. Learning involves experimenting with new ideas and synthesizing material. Application of knowledge is more important than memorization.

Participation/Communication. Active participation is expected of students in most courses. Frequently, courses allot a percentage of the grade for class participation. This may include presentations, taking part in class discussions, a display of effort, initiative, professionalism, role-playing, simulations, asking questions, etc. Consistent with the American tradition, students are taught to aspire to become great communicators – orally and in writing.

Group Work/Teamwork. AUD encourages both group work and teamwork, offering students ample opportunities to work in a variety of situations and contexts. Students are reminded to read the AUD Honor Code, and specifically the part on cheating and plagiarism. They should pay careful attention to their instructors regarding group projects. Unless specifically authorized, students must work individually and refrain from seeking collaboration of parties other than the instructor.

Social and Academic Dimensions. Access to social development is important as well. AUD offers a wide variety of extracurricular activities. All students are encouraged to be well-rounded with ongoing participation in activities outside the classroom. There is value in joining clubs, playing sports, engaging in community service, and working part-time. Extracurricular involvement will also have an added advantage, as many employers are looking for individuals who have demonstrated a mix of academic, social and leadership capabilities.

Student-Instructor Relationships. Students are encouraged to develop professional relationships with their instructors and meet with them during office hours for clarifications or to discuss concerns. Instructors have high expectations of students, and students should strive to meet these expectations. Instructors at AUD go to great lengths to help students meet those expectations. A deep concern on the part of instructors for student welfare and a sense of responsibility on the part of students make for a dynamic environment where learning takes place.
**Non-Negotiable Deadlines.** Punctuality and deadlines are important. Students are expected to hand in assignments on the due date at the specified time. Inventing excuses doesn’t help. Extensions of deadlines are rarely possible. Late assignments often lose points or letter grades. Some instructors will not accept late assignments.

**Part-Time Employment.** It is not uncommon for university students to work at part-time jobs during their education. In fact, in most American universities this practice is encouraged. AUD is no exception. Students can gain valuable work experience by working for pay or volunteering throughout their university career. Most employers welcome and think highly of CVs that list work beyond the classroom. In today’s world, jobs are at a premium and competition often demands ongoing work experience prior to graduation. On campus and off campus part-time jobs and internships offers are listed at the Career Services Office.
AUD TIMELINE

AUD opened its doors in the Fall of 1995. Its clear-cut, well-defined objectives and standards have enabled it to achieve recognition as a reference point for American higher education in the Gulf.

*AUD Student Handbook, 2013-2014*
AUD TRADITIONS
American Graduation Ceremony

The American University in Dubai follows the standards of academic dress and protocols followed by hundreds of American institutions of higher education. Students wear black gowns with accompanying caps. The mantle, worn over the shoulders, is distinguished by AUD’s colors of blue and white and an accompanying border distinguishing the particular discipline. Faculty wear the academic dress from the institution from which they received their highest degree or an American University in Dubai academic costume. Students wear the cap or “mortar board” in black with a black tassel. The tassel is worn on the right until a degree has been conferred. At that point, the tassel is moved to the left by AUD’s President during the actual ceremony. Students who have achieved academic honors are designated by honor cords which are worn around the neck and visible at the front of the gown. The academic procession is led by a marshal carrying the university's flag. Master candidates are first, followed by the Bachelor candidates. After the students enter, another marshal leads the faculty and staff. They are then followed by the members of the faculty and administration along with the Keynote Speaker. The procession ends with two marshals carrying the flags of the United Arab Emirates and the United States of America. Keynote speakers have included James Baker, Ray LaHood, Steve Forbes, Seymour Hersh, George Mitchell, Bill Clinton, Sandy Berger, Madeline Albright, Christiane Amanpour, Cherie Booth Blair, Margaret Spellings, Colin L. Powell, Lou Dobbs, Robert Gibbs, Dennis Kucinich, and most recently, Arianna Huffington and Antonio Villaraigosa.

AUD Gala Dinner/Awards Ceremony

Held in spring of each academic year, the AUD Gala Dinner is a formal event that honors AUD graduates as well as other students, faculty and staff. In addition to the distribution of the Departmental Awards and the esteemed President’s Awards, the other awards are granted as a result of nominations from the AUD community.

Desert Safari

At the beginning of spring semester, Student Services and the Student Government Association jointly host the AUD Desert Safari. Hundreds of students, faculty and staff attend this yearly event that includes dune-bashing, a desert barbecue, and sand boarding.

Orientation Welcome Week

Each year the Office of Student Services organizes a series of orientation trips/gatherings to allow new AUD students to connect with the orientation leaders, as well as the AUD community at-large. These events are designed to foster a sense of community and encourage new students to get involved in campus life.

International Night

AUD truly capitalizes on its international student population by holding an annual International Night. Students are encouraged to dress in their national dress, showcase their unique cultural traditions and share their heritage with the entire AUD community. Dances, poetry readings, singing, fashion shows, and plays by AUD’s various cultural groups are some of the highlights of this event.
Spirit of Volunteerism
AUD has made great efforts to foster a spirit of volunteerism in its students. Volunteer service provides students the opportunity to apply communication and administrative skills, enables them to use analytical and problem-solving skills and on a higher level, serves to heighten their awareness of the need to serve society.

U.A.E. National Day
All AUD students, faculty and staff are invited to join in the celebration of U.A.E. National Day, hosted by AUD’s Emarati students.

International Environment
AUD students live and learn in an international setting with students from nations throughout the world. AUD believes this multicultural environment is the optimum way for students to gain the knowledge, skills, and experience required to become highly desirable candidates in the international job market. To this end, AUD emphasizes a global perspective in its academic programs, providing daily interaction with students and faculty from a multitude of nations. AUD is strategically positioned to help students develop an international perspective.
STUDENT RIGHTS AND RESPONSIBILITIES
Introduction
AUD believes all students should have equal access to all of AUD's facilities, programs, activities, and sports without regard to age, color, religion, national origin, marital status, gender, or handicap. All students are granted certain rights and have certain shared responsibilities as members of the AUD community. AUD encourages students to make their own decisions and assume full responsibility for all consequences of their actions. Students are expected to adhere to federal and local laws of the United Arab Emirates. The rights and the responsibilities below outline a system designed to safeguard and protect the rights, safety, and property of all in the university population, which ensures a fully operative and well-managed community of learning.

Freedom of Assembly
The university recognizes the rights of all students to seek knowledge, debate ideas, form opinions, and freely express their views while respecting the rights and freedoms of others. The university recognizes the right of freedom of assembly, but student gatherings must not disrupt or interfere with the operation of the Institution. Any recognized student organization, after receiving approval of time and space, may hold group meetings inside a university building. The use of public address and sound equipment systems is prohibited outside the university facilities. Any use of this equipment inside the university facilities must maintain a reasonable sound level. Any recognized student organization may invite persons from outside the university to speak. This is subject to approval by the Student Activities Coordinator(s), the faculty/staff advisor of the specific student organization, and the Marketing Communications Manager if the event is open to the public.

Freedom of Expression
Posters, flyers, advertisements and other announcements need to be approved by Student Services prior to posting. Display of unauthorized postings or posters in unapproved locations (see Campus Posting Policy) will be removed immediately. Anyone found to have posted any unauthorized material, especially if it is offensive or disrespectful to any group or individual or in violation of the U.A.E. laws and/or cultural practices, will be subject to disciplinary action.

Students’ Role in Institutional Decision Making
AUD considers its students to be an important part of its operations and values their opinions and suggestions related to the university. Students at AUD are involved and participate in institutional decision-making. Students voice concerns and criticisms of AUD at the annual Student Forum which examines all aspects of the university. Additionally, students have the right to file written concerns/suggestions related to any aspect of the university’s operations.

Student Forum
The AUD Student Forum is designed, executed, and managed by the AUD Student Government Association (SGA), under the guidance of the Student Activities Coordinator(s). The Forum is held during the Spring semester and is a means by which the university collects student feedback about AUD issues. A general survey is conducted by the SGA, which reviews all issues related to sports, residence halls, student activities,
general academic issues, and general non-academic/administrative issues. The Director of Institutional Effectiveness provides the SGA members with the results of the Student Satisfaction Survey. These results are combined with the results from the SGA survey and both are used to create presentations for the Student Forum. A report is generated and distributed to the student body following the Forum in order to track progress and provide follow-up information, as necessary.

**Student Records Access and Release**

The university has established a policy for the release of records containing information on students.

- Each student attending AUD shall have the right to inspect and review the contents of his or her education records, including grades, records of attendance and other information. Parents are not entitled to inspect and review financial records of their students. Parental access to a student’s records will be allowed without prior consent if the student is a dependent as defined by UAE Law.

- A student’s education records are defined as files, materials, or documents including those in electronic format that contain information directly related to the student and are maintained by the institution. Access to a student’s education records is afforded to school officials who have a legitimate educational interest in the records, such as for purposes of recording grades, attendance, and advising, and determining financial aid eligibility.

- Students may request a review of their education records by submitting a written request to the Provost/Chief Academic Officer. The review will be allowed during regular school hours under appropriate supervision. Students may also obtain copies of their education records for a nominal charge.

- Students may request that the institution amend any of their education records, if they believe the record contains information that is inaccurate, misleading or in violation of their privacy rights. The request for change must be made in writing and delivered to the Registrar with the reason for the requested change stated fully. Grades and course evaluations can be challenged only on the grounds that they are improperly recorded. The instructor or staff member involved will review the request, if necessary meet with the student, and then determine whether to retain, change, or delete the disputed data. If a student requests a further review, the Provost/Chief Academic Officer will conduct a hearing, giving the student a full and fair opportunity to present evidence relevant to the disputed issues. The student will be notified of the Provost/Chief Academic Officer’s decision. Copies of student challenges and any written explanations regarding the contents of the student’s record will be retained as part of the student’s permanent record.

- Directory information is information on a student that the university may release to third parties without the consent of the student. AUD has defined directory information as the student’s name, address(es), telephone number(s), email address, birth date and place, program undertaken, dates of attendance, credential awarded. If a student does not want some or all of his or her directory information to be released to third parties without his or her consent, the student must present such a request in writing to the Registrar within the term of the student’s initial enrollment.
• The written consent of the student is required before personally identifiable information from education records on that student may be released to a third party, except for those disclosures referenced above, disclosures to accrediting commissions and government agencies, and other disclosures permitted by law. All students are requested to complete the Release Form as part of the admission process.

• A student who believes that AUD has violated his or her rights concerning the release of or access to his or her records may file a complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202-4605.

Disclosure
Students are encouraged to share personal experiences while participating in classes at AUD. However, students must be aware that should they disclose to any AUD faculty member or staff information that may cause harm to themselves or others, faculty members and staff are required to report such information to the Deans, Associate Deans, Chairs, Provost/Chief Academic Officer, or President.

Intellectual Property

Purpose. AUD seeks to endorse an environment that encourages the generation of new knowledge by its university personnel. Thus, the following document is intended to be a guideline of patent and copyright matters that are of interest to university personnel. University personnel will henceforth be used to denote faculty, staff, students and person in a “visiting appointment” position. The policy is to provide a mechanism for protecting certain property rights of the university and its personnel and the basis for such rights.

Definitions

Copyrights. Protection by law that covers books, periodicals, lectures, dramatic or dramatic-musical compositions, maps, works of art, drawings or plastic works of a scientific or technical nature, photographs, pictorial illustrations, labels, motion pictures and video tapes, and audio recordings. The copyrightable material need not be novel; it must only be the original product of the creator.

Invention. This term covers such items as computer software, general instructional materials (i.e. video tapes, etc.) devices, production procedures and methods, etc…

Patent. Grant by the US-Patent Office or any equivalent foreign office to an inventor of the right to exclude others for a limited time from making, using, or selling his or her invention in a specified geography. To be patentable, an invention must be novel, useful, and non-obvious.

Policy. AUD’s policy affirms a commitment to the personal ownership of intellectual property rights in the works of the intellect by the individual creator, whether or not the creator worked alone or with another and if they worked privately or as part of the greater AUD community.
Intellectual property developed by a faculty or staff member or student will be the exclusive property of the inventor(s) or author(s) if all of the following conditions exist:

- The university has contributed nothing substantial or essential to the production and development of such intellectual property in funds, space, facilities, or time of a faculty or staff member or student;
- The intellectual property is not related or similar to any university research then in progress known to the faculty member, or to which the university is committed, and with which, in either case, such faculty or staff member or student is connected; and
- The intellectual property was developed by the inventor(s) or author(s) on their own time without any expense to the university.

It is acknowledged that there are times intellectual property is within the scope of “part” ownership of the university. “Part ownership” designates that AUD has the right to claim ownership along with the inventor/author if the following conditions exist:

- If the university has contributed with funds, facilities, materials and production of the intellectual property;
- If there is similar research already taking place within the university and the intellectual property is an extension of the existing research being developed by the university;
- If the university creates or commissions works on its own behalf, thus entering into a written agreement with authors on mutually agreeable terms;
- If the university grants paid release time for a project to be completed.

If such conditions arise, an agreement will be signed between the President and Provost/Chief Academic Officer (for faculty and students)/Executive Vice President (for staff) of the university and the concerned party(ies) as to the joint ownership as well as any percentage of allocation for remuneration.

Moreover, exempt from this policy and recognized as sole ownership of the author, inventor, etc. are course materials arising from preparing for courses, teaching, course notes, exams and other relevant materials. However, the university has rightful ownership over all syllabi and descriptions of courses used within its programs.

**Artwork Material Property Waiver Form**

**Purpose**. The American University in Dubai often commissions students, faculty, staff or freelance designers with creating artwork for the university including but not limited to catalogs, handbooks, logos, posters, flyers and brochures. This policy is in place to maintain proper archives of all commissioned artwork material and to confirm AUD’s ownership of the said material.

**Policy**. To maintain a proper archive of all commissioned artwork material and to confirm AUD’s ownership of the material, the university requires that all commissioned designers sign an **Artwork Material Property Waiver Form**.
Protocol. All designer (AUD students, faculty, staff or freelance designers)-commissioned artwork for AUD is considered the property of AUD. The Artwork Material Property Waiver Form is to be systematically signed for any commissioned work. The Marketing Communications Department (Marcom) is to receive a copy of all artwork material created on a CD (files should include the original artwork in Microsoft Publisher®, Adobe Illustrator®, Adobe Photoshop®, Adobe InDesign® or any other Adobe Suite® program with all links: pictures and fonts used). A copy of this waiver, once signed, is also to be sent to Marcom.

Principles Governing Student Access to Quizzes/Examinations

The following principles govern university policy regarding student access to quizzes and examinations:

- **Students have the right to know** their grade on each and every component that enters into the determination of their final grade for the course, as soon as their work has been graded by the instructor.
- **Students have the right to review** all of their graded work and discuss it with the instructor. Graded work may include homework assignments, research reports, tests, quizzes, mid-term examinations, final examinations, and any other work submitted and/or presented by the student, evaluated by the instructor and included in determining the student’s final grade. It is expected that instructors will initiate this review process by taking up all graded work during the term in class and going over answers, solutions, etc., and grades assigned for each part while the students are reviewing their graded work. It is also expected that instructors will allocate sufficient time during their office hours to discuss graded work with students.
- **It is a major violation** of the most elementary principles of “natural justice,” a serious denial of a basic student right and an incomprehensible failure to use students’ graded work as a device for enhancing student learning, for an instructor (1) to inform students of their grades but not allow them to review their graded exam papers, assignments, etc., or, worse still, (2) not to inform students of their grades (i.e., keep them in the dark) and not allow them to review their work after it has been graded.
- **A special note on final examinations**: Students do have the right to see their graded final examination papers and should be allowed to exercise this right. (Normally, few would.) This should be done in the instructor’s presence, and the student should return the paper to the instructor after reviewing it.
- **Another note on grade appeals**: Students have the right to appeal a grade within one month following the assignment of the grade. The procedure for grade appeals is described on pp. 121-122 of this Handbook. Obviously, students cannot exercise this right if they are denied their right to know their grades and their right to see their graded work and discuss it with the instructor, as described above. The latter right requires that instructors not dispose of students’ graded work in their possession for at least one month after the final grade submission date at the end of each term.

General Statement of Philosophy on Student Conduct

AUD believes strongly in promoting the development of personal and social responsibility and also believes in a humanistic approach to discipline conducive to academic pursuits; however, AUD recognizes that its responsibility for the protection of personal and institutional rights and property is a primary focus of the disciplinary process. The administration reserves the right to develop any policy or take any action(s) deemed appropriate to maintain the safety and wellbeing of any or all students.
**Conduct Integrity**

AUD maintains not only high academic standards, but also expects students to maintain conduct integrity and be a good AUD citizen. This means demonstrating courteous behavior and professional conduct at all times. Students are expected to maintain an exemplary level of maturity displaying behaviors and dress that do not violate in any way U.A.E. norms, practices, beliefs and expectations of personal conduct. AUD students are subject to all local and national laws.

AUD students are subject to Dubai law, which prohibits consumption or possession of alcoholic beverages for Muslims and individuals under 18 years of age. The university does not permit alcohol to be brought onto or consumed on its property at any time regardless of age or religion. No alcohol is either served or permitted at university functions, whether on or off campus. The penalty for the consumption and/or possession of alcohol on university grounds is dismissal from the university.

**AUD Dress Code**

**Policy**. The American University in Dubai, in accordance with the laws of the UAE, adheres to specific guidelines regarding appropriate attire. As a result, students are expected to respect themselves and others by dressing properly while on campus. Inappropriate attire will not be tolerated and violations are subject to disciplinary action.

**Inappropriate attire** is defined as, but not limited to:

- Tight or revealing clothing;
- Short shorts and micro-skirts;
- Cleavage-baring tops or dresses;
- Sagging jeans or jeans with suggestive holes or markings;
- T-shirts with inappropriate logos or language;
- Midriff-baring, open-back or halter tops.

**Procedure**. Those responsible for the enforcement of the Dress Code Policy are: the Security Supervisor and security staff, and the Office of Student Services. If students, faculty or staff determine that a student is in violation of the Dress Code Policy, they may report the information to the Office of Student Services. A four-step system is in place for dealing with students who violate the Dress Code Policy.

1. Students who are deemed to be in violation of the Dress Code will be stopped by security staff. At that time, students must present their student ID for verification purposes, and must report immediately to the Office of Student Services. **Students who refuse or fail to present their ID to security staff and report to the Office of Student Services will be subject to disciplinary action including removal from campus and refusal to re-enter until all requirements are met.**

2. The Dean of Student Services or designated Student Services staff will notify the student of the violation while reinforcing the Dress Code Policy. Students may be required to leave campus at any time as deemed appropriate by the Office of Student Services. **Students will not be eligible to return to campus until he or she is wearing appropriate attire.**
3. **First-time violators** name(s), ID number and date of violation will be entered into the Dress Code Database Management System.

4. **Repeat violators** will be subject to disciplinary action in accordance with the Violations of Conduct.

**Smoke-Free Campus**

**Policy**. It is common knowledge that exposure to second-hand smoke and the use of tobacco products are significant health hazards. In order to maintain a healthy environment at AUD and to promote the prevention of illness and encourage students, staff and faculty to lead a healthy lifestyle, a smoke-free campus policy has been put in place to reduce the use of tobacco products on campus. The objectives are to reduce the number of smokers on campus and to support those who wish to stop smoking; discourage freshmen students from starting the habit as university students; and to raise awareness on the dangers of smoking.

“Tobacco products” include but are not limited to any lighted cigarette, cigar, pipe, midwakh, dokha, bidi, electronic cigarette or any other smoking device, along with any form of smokeless or spit tobacco such as dip, chew, or snuff.

Each and every member of the AUD community is responsible for maintaining this policy.

**Procedure**. Those responsible for the application of the policy are the Security Supervisor and Security Staff, Student Services Department, and Human Resources Department.

Three isolated areas on campus have been designated for smokers, equipped with benches and ashtrays: behind the School of Architecture, Art and Design building, behind the School of Business Administration building, and behind the School of Engineering building.

A three point warning system is in place for AUD students, faculty and staff members caught smoking outside these designated areas.

**AUD Students**

- First time violators: the student’s AUD ID card will be confiscated. The student will need to register with the Security Supervisor and can collect the ID card one week after the incident.
- Second time violators: should the student be caught violating the policy again, he or she will be put on Registration Hold for the subsequent semester.
- To remove the Hold, the student must visit either the Health Center Director or the Student Support Manager in order to register.
- Third time violators: a third violation will lead to the President and Dean of Student Services meeting to discuss giving the student a written warning or putting the student on probation.

**AUD Staff and Faculty**

- First time and second time violators: the employee will receive a verbal warning from the Human Resources Department.
- Third time violators: a third violation will be factored into the employee’s annual performance evaluation.
Use of AUD Social Media Channels

With social media, the AUD Community grows beyond the walls of the university to include the whole world. AUD’s Facebook®, Twitter®, LinkedIn®, Instagram®, and YouTube® profiles have been created to share news and events about the university and its community. It is important that we remain respectful of the environment in which we are in, mindful of other people and constructive in our day-to-day postings. The following guidelines will keep AUD’s social media profiles up to standard.

Posting comments: while feedback and criticism are always welcome, they need to be constructive. No political, religious, racist, commercial, sexual, alcohol and tobacco-related or potentially offensive content may be posted on AUD’s social media profiles. Material deemed offensive by the Administrators will immediately be deleted, and the student will be blocked.

Advertising and Promotions (Anti-Spam): some promotions and advertising pertaining to the AUD Community may be welcome but requires the Administrators’ approval. Abuse on AUD’s social media profiles will be considered as spam and dealt with accordingly. Advertising and promotions deemed as spam by the Administrators will immediately be deleted and the person and/or company will be blocked.

The full policy is available online at AUD’s website www.aud.edu.

Code of Student Conduct

AUD is an academic community committed to the educational and personal growth of its students. Behavior that infringes upon rights, safety or privileges or that impedes the educational process is unacceptable and may lead to sanctions up to and including dismissal from the university.

**Offenses Related to Offensive Material.** AUD’s professional environment requires that all students respect the following policy concerning offensive materials:

• AUD’s computer resources must not be used to produce, view, store, replicate, or transmit harassing, obscene, or offensive materials. This includes, but is not limited to, material from the Internet and screen savers. In addition, printed copies of such material, including those from magazines are not permitted in the school;
• As in the workplace, there is “zero-tolerance” for any students who violate this policy, and immediate dismissal may result. Personal opinions as to what constitutes “offensive material” may vary, but the following describes what is typically understood to be offensive. Staff or students using AUD facilities who find materials being displayed to be offensive have a duty to act assertively by informing the Dean of Student Services.

**Offensive material includes, but is not limited to the following:**

• pornographic, nude, semi-nude or other similarly lewd images;
• material displaying excessively violent or graphic content;
• material of racist or sexist or similarly demeaning content; or
• any material that in general is understood to be socially and/or culturally offensive.

**Offenses Related to Unlawful Harassment.** AUD strives to promote a productive environment based upon respectful treatment of all staff, faculty, and students. AUD is committed to providing an environment that is free from physical, psychological, or verbal harassment. All students, employees, and applicants, as well as contractors, vendors, clients, and customers, have the right to be educated in or work for an organization free of any type of harassment, including sexual harassment. Harassment can occur as a result of a single incident or a pattern of behavior the purpose or effect of which is to create a hostile, offensive, or intimidating environment. AUD will not tolerate conduct that harasses, disrupts, or interferes with the learning or work performance or which creates an intimidating, offensive, or hostile work environment. Harassment encompasses a broad range of physical or verbal behavior. Offenses related to harassment include, but are not limited to:

• repeated abusive or demeaning conduct or language based on a person’s race, gender, sexual orientation, color, religion, national origin, physical or other disability, age, political beliefs or affiliations, or veteran or socioeconomic status;
• verbal comments; physical comments; mail, email, or phone calls, graffiti, or the display of offensive material; unwanted sexual attention of a persistent or abusive nature; or sexually-oriented remarks, jokes, comments and/or behavior;
• unwelcome sexual advances or touching;
• a display in the university facility of sexually suggestive behavior, objects, pictures, drawings, or cartoons;
• a display in the university facility of racially or culturally offensive objects, pictures, drawings, or cartoons;
• physical assault; and
AUD has zero tolerance for harassment of any kind. AUD prohibits any form of harassment by students, employees, co-workers, outside vendors, contractors, clients, supervisors, and managers, and views such actions very seriously. Harassment and other unacceptable activities that could influence acceptance to the university, employment, or personnel decisions, or would create a hostile work environment are specifically prohibited. Any member of the AUD community engaging in such harassment or other unacceptable activities is subject to immediate disciplinary action, up to and including discharge from employment or dismissal from the university.

If any student believes that he or she has been the subject of harassment or if any student is aware of or witnesses a situation that he or she believes to be based upon or involving harassment, the student must report the matter immediately to the Dean of Student Services. Any such reports will be immediately and thoroughly investigated. Investigations will be conducted, to the extent possible, maintaining the confidentiality of all concerned parties. Students are expected to and required to cooperate with any investigation. In no case should any student allow improper conduct to go unreported.

AUD prohibits and will not tolerate any coercion, intimidation, retaliation, interference, or discrimination against a student for reporting harassment, for filing a complaint of harassment, or for assisting in any investigation of a harassment claim. No adverse action of any type will be taken against a student for bringing a complaint in good faith under this policy. A student or employee who is found, after appropriate investigation, to have engaged in inappropriate behavior or the unlawful harassment of another student or employee, will be subject to disciplinary action, up to and including dismissal. In addition, any student or employee who is found, after appropriate investigation, to have made an intentionally false allegation of harassment will likewise be subject to disciplinary action, up to and including dismissal. All students are responsible for helping the university ensure that all types of harassment are prevented at AUD.

Violations of the Dress Code and Smoke-free Campus policies are considered violation of the AUD Code of Student conduct.

**Violations of Conduct**

Students are expected to conduct themselves with an exemplary level of maturity. All violations of AUD’s Code of Conduct are taken very seriously and are dealt with fairly and judiciously. Certain conduct violations are subject to the university’s Conduct Council.

**Standard List of Conduct Violations with Accompanying Disciplinary Actions**. Adjudication and mediation by the Dean of Student Services will often resolve a conduct issue. This may involve issuance of a Disciplinary Verbal Reprimand. The Dean, in consultation with the President, may judge that the conduct violation warrants dismissal or the calling of a Conduct Council. The following summarizes possible violations, indicating those that require convening a Conduct Council (unless waived by the student) and
the options for disciplinary action by the Dean of Student Services (in consultation with the President) or Council. Violations, which – if proven – require dismissal, are also indicated:

**Notes**

*Inappropriate Conduct on Campus Level 1*: Behavior that violates U.A.E. norms, practices, laws, beliefs and expectations of personal conduct. This includes “public” (i.e., anywhere on campus) displays of affection.

*Inappropriate Conduct on Campus Level 2*: Behavior that is extreme in nature, offensive and violate universal practices, beliefs, and expectations of university student conduct. This includes “public” (i.e., anywhere on campus) displays of affection.

**Disciplinary Reprimand**: A verbal disciplinary reprimand may be given to a student whose conduct violates any aspect of AUD’s Code of Conduct. Such a reprimand does not necessarily restrict the student in any way but does signify that he or she is being given the opportunity to conduct him or herself in a more appropriate manner and that any further violation will result in additional disciplinary actions. A written record of the reprimand will be placed in the student’s file in the Office of the Dean of Student Services.
**Disciplinary Written Warning:** A disciplinary written warning is an official written statement to a student indicating that his or her behavior is of such a nature that further disciplinary action may be necessary.

**Disciplinary Probation:** Disciplinary probation requires that a student is closely monitored during a certain period of time. Should any disciplinary infraction occur during this time period, the student will be subject to further disciplinary action which could be as serious as dismissal from the university. Disciplinary probation can be for a specified period of time or for as long as the student is enrolled at AUD. Any behavioral infraction of any aspect of AUD’s Code of Conduct during the probationary period may result in dismissal from the university. This form of probation is generally imposed after repeated violations of policy or for serious behavioral infractions.

**Reimbursement or Replacement:** A student who damages university property may be required to pay actual repair or replacement costs. Failure to pay may result in Conduct Registration Hold, Transcript Hold and/or additional disciplinary actions. Registration and/or Transcript Hold prevents the student from registering for the next semester or prohibits him or her from obtaining a transcript until he or she reimburse the university for the costs of the damage.

**Volunteer Work:** A student who engages in a conduct violation may on occasion be requested to complete volunteer work on campus. This will be negotiated and approved by the Dean of Student Services in consultation with departments in need of volunteers.

The Dean of Student Services, after consultation with other administrators within the university, reserves the right to recommend other forms of disciplinary action that fit the violation. Any disciplinary action recommended by the Dean of Student Services is effective immediately unless otherwise stipulated.

Dates for completion for volunteer work or reimbursement/replacement will also be stated. Counseling may be conducted by the Dean of Student Services for students who need additional clarification and explanation of AUD’s Code of Conduct.

Students who do not complete educational projects, volunteer service, or other disciplinary requirements in a timely fashion will be put on Conduct Registration Hold until they complete the requirements.

**Conduct Council**

The Conduct Council is a committee of academics, administrative staff, and students, which serves to investigate alleged breaches of the AUD Code of Conduct, determine culpability, and prescribe penalty. The Council operates on an ad hoc basis under the chairmanship of the Dean of Student Services. The Conduct Council adjudicates issues of conduct related offenses; recommends disciplinary sanctions designed to fit the nature of the offense; increases understanding of university rules and regulations; and helps students transform inappropriate and unacceptable behavior.
Procedures

- A faculty member, administrator, staff member or student who has reason to believe that a violation of the Conduct Code has been committed by one or more students must notify the Dean of Student Services in writing.

- The Dean of Students will investigate and gather evidence relevant to the case and listen to student testimonies. The Dean of Student Services reserves the right to consult with the Director of Central Services, Security Office, the Housing Manager, the Executive Vice President and/or the President for recommendations in determining disciplinary actions.

- Based on this investigation, the Dean of Student Services or his or her designee decides whether the evidence warrants further action through either a Conduct Council or a standard disciplinary sanction.

- Students who receive a disciplinary sanction of disciplinary probation or dismissal have the right to appeal their case to the President of the university. The President of the university reserves the right to convene a Conduct Council if necessary to further investigate the case. Students have the right to waive their right to appeal before the Conduct Council by completing an appropriate form.

- If it is deemed necessary, the Dean of Student Services or his or her designee notifies the President in writing whether or not the evidence warrants convening a Conduct Council.

- The Dean of Student Services or his or her designee then selects two faculty members and one administrative staff to serve on the Conduct Council. The Dean also informs the SGA for student representation.

- If there is a case for convening a Conduct Council, the Dean of Student Services or his or her designee notifies in writing the student(s) suspected of committing the violation of the date, time and place of the Conduct Council’s meeting. Notification to a student’s AUD email address of record is considered official.

- The Conduct Council reserves the right to take adequate time to schedule and conduct its proceedings. These proceedings will include interviewing the student(s) involved and, if required, calling witnesses to testify and conducting a follow-up investigation prior to reaching a decision on the innocence or guilt of the student(s) involved and, in the latter case, deciding appropriate disciplinary measures.

- The Conduct Council must inform the student(s) involved in writing of the alleged violation of the Conduct Council and of the verdict reached and disciplinary measures decided by the Conduct Council. The letter to the student(s) must be dated and signed by the Chair of the Conduct Council, and a copy must be sent to the President, Director of Central Services, the Registrar, the Chief Financial Officer (if the student is dismissed from the university), and the Housing Manager (if the student is dismissed from the residence halls).

- Before any final disciplinary action may be taken against the student(s) for violation of the Conduct Code, the student(s) is/are entitled to have 72 hours (three working days) to appeal the Conduct Council’s verdict to the President. The AUD Grievance Officer is available to guide the student through the appeal process.

- The President will respond to the appeal in writing. A copy of the President’s dated and signed response to the student(s) will be sent to the Chair of the Conduct Council.

- The President has the right to overturn the Conduct Council’s verdict or suggest a reconvening of the Conduct Council to reexamine the case. In exceptional cases, the President will inform the Chair of the Conduct Council in writing of the decision to overturn the verdict and the reasons behind this decision.
• A student can waive the right to appear before the Honor or Conduct Council. The student should complete a *Waiver of the Right to Appear Before Conduct or Honor Council* available through the office of the Dean of Student Services and the office of Provost/Chief Academic Officer.

**Hearing**

• At the start of each Conduct Council, the Chair informs all members of the confidentiality of the case and their obligation to uphold complete confidentiality throughout the university community.

• The Chair presents a short overview of the case. The overview should contain all information and evidence pertinent to the case including evidence such as videotape and physical evidence. The Council may request experts from the university community in the case that the evidence is too technical or difficult for the Council to comprehend.

• The suspected student must appear at the scheduled hearing unless he or she has completed a *Waiver of the Right to Appear Before Conduct or Honor Council*. If the student encounters an unforeseen emergency, he or she must present acceptable documentation supporting the emergency.

• The Council may also call in witnesses if it is felt that their presence and testimony will provide information pertinent to the case. Character witnesses are not permitted nor are friends or family members of the suspected violator. All witnesses have a responsibility to truthfully provide information related to the case.

• The Council will then individually question the suspected violator and witnesses involved with the case. During this period, all members of the Conduct Council are free to question the suspected violator and the witnesses.

• At the start of the Council, the Chair asks the suspected violator if he or she understands the suspected violation and how he or she wishes to plea. All evidence will be shared with the suspected violator.

• Following the testimony provided by the suspected violator and witnesses, the Council will deliberate and come to a conclusion regarding the case. The conclusion will also include a recommendation of a suitable sanction/punishment. All members of the Council will vote on the matter.

• The Chair will then compose a letter to the suspected violator informing him or her of the decision of the Conduct Council and its recommendation. This letter will be shared with all faculty/administrative members of the Council to ensure accuracy and proper wording. If approved by members of the Council, the letter will be sent to the student with copies also going to members of the Conduct Council, the President, the Director of Central Services, the Registrar, the Housing Manager (if the student is a Housing student), and the Chief Financial Officer (if needed, should the student be dismissed). The outcome of the decision will be communicated to all relevant parties.

• All letters will be kept in the student’s permanent file in the Registrar’s Office.

**Appeal**

• Students desiring to appeal the decision of the Conduct Council have 72 hours (three working days) from the receipt of the decision letter to appeal the decision. All appeals must be made in writing to the President.

• The granting of appeals is rare. Appeals may be granted if the Conduct Council penalty was inappropriate based on penalties described below, new evidence becomes available, the case was mishandled, and/or a decision was made without the testimony of the suspected violator in the case of a documented emergency.
If the decision of the Conduct Council is overturned by the President, a new letter indicating the decision will be sent to those who served on the Conduct Council, the President, the Director of Central Services, the Registrar, the Housing Manager (if appropriate) and the Chief Financial Officer (if appropriate), and the instructor, if necessary.

No Council member shall sit in review of any decision he or she previously rendered which comes before the Council for review. This prohibition applies to situations in which the Council’s decision is actually being challenged and applies in situations where there may be an appearance of impropriety for a Council member to review a decision based on either direct or indirect contact with the matter in question.

**Government Regulations**

The American University in Dubai complies with all laws and regulations of the territorial jurisdiction in which its campus is located. Furthermore, as an American-accredited institution, AUD complies with the spirit of relevant United States legislation in so far as is possible/advisable given the cultural, historical, architectural, and legal contexts within which the university operates in the United Arab Emirates.

**Students With Special Needs/Disabilities**

**Non-Discrimination Statement**. AUD does not discriminate against individuals on the basis of physical or mental disability and is fully committed to providing reasonable accommodations, including appropriate auxiliary aids and services, to qualified individuals with a disability, unless providing such accommodations would result in an undue burden or fundamentally alter the nature of the relevant program, benefit, or service provided by AUD.

**Support Services**. The American University in Dubai is committed to providing reasonable accommodations and equal access to university programs and activities for students with documented disabilities/special needs. A reasonable accommodation is one that is consistent with academic standards of the university and does not require substantial course or program alteration. The Office of Student Support welcomes and encourages students with disabilities to identify themselves and to seek access to needed accommodations.

*It is the responsibility of all special needs students to contact the Assistant Dean of Student Services for an interview and needs assessment prior to their first term of enrollment.* To ensure that accommodations are provided in a timely fashion, AUD strongly encourages students to submit accommodation requests well in advance of the start of any coursework for which the accommodation is requested. The Assistant Dean maintains a file on each special needs student including specifics on needed accommodations and adaptations.

This information will be kept confidential with the exception of relevant faculty and staff potentially being informed if they are expected to provide accommodations or if emergency treatment may be required.

For more information, please contact Student Support within the Office of Student Services.
Civil Rights Compliance
AUD does not discriminate on the basis of race, religion, age, national origin, gender, sexual orientation, or handicap among qualified persons in the recruitment and admission of students, the operation of any of its educational programs and activities, or the recruitment and employment of faculty and staff. The university provides a means to ensure a prompt resolution of all complaints regarding violations of the above policies and a means to ensure due process to all employees and students who believe that the university’s policy of non-discrimination is being violated or that they have been victims of sexual harassment.

Drug-Free Environment
As a matter of rigorous policy, AUD prohibits the manufacture and unlawful possession, use, sale or distribution of illicit drugs and alcohol by students and employees on its property and at any university activity. Further information on the university’s policies can be found in this Student Handbook. Any violation of these policies will result in appropriate disciplinary actions up to and including dismissal in the case of students and termination in the case of employees, even for a first offense. Violations of the law will also be referred to the appropriate law enforcement authorities. Students or employees may also be referred to abuse help centers. Information on the school’s drug-free awareness program and drug and alcohol abuse prevention program may be obtained from the Office of the Dean of Student Services.

Policy on Academic Record Retention and Storage
In order to fulfill its commitment to the security, confidentiality and integrity of its student academic records, The American University in Dubai follows a Policy on Academic Record Retention and Storage. Details of this Policy are available in the Office of the Registrar and the Office of Institutional Effectiveness.

Abandoned Property
Any personal property that is found in a building will be held for one semester in an unsecured storage facility. Any items not claimed by the end of the semester will be sold, destroyed, discarded, maintained for use by the university, or donated to charity.

Medical Insurance
Private health insurance covering care in the U.A.E. is mandatory for all AUD students except U.A.E. nationals. In order to meet this requirement by enrolling in the AUD-sponsored health insurance plan, students are charged a non-refundable fee on their Fall semester bill covering the period September 1 through August 31.

For this fee to be waived, students are required to provide evidence of currently valid private health insurance covering care in the U.A.E. (Original Insurance Card) to the Finance Office. Deadline to do so is the last day of the Fall semester Drop/Add period (see AUD Academic Calendar).

Failure to provide this evidence before the deadline will result in cancellation of the option to waive the health insurance coverage and associated fee.
Health History
AUD prides itself in offering quality health services. To maintain our standards and fully address the health and medical needs of our students, the AUD Health Center requires that all AUD students submit the Student Health History Form (available at the AUD Health Center) to the Health Center. This Form must be endorsed by a physician.

All health information is confidential. Only the following staff members have access (as needed): President, Executive Vice President, Dean of Student Services, and Housing Manager (for housing students). All student medical records are kept under a locked filing system, and they are not released to others without the written consent (Authorization of Health Information Release) of the student or his or her parents.

Campus Crime

Campus Security/Crime and Safety Prevention Program. AUD is concerned about the safety and welfare of its students and employees. Therefore, AUD has implemented a security policy for the protection of students, staff and faculty. This policy is in compliance with the Student Right-to-Know and Campus Security Act. AUD maintains a log of all crimes committed and reported on its campus. Information is updated annually. Updated information for the prior calendar year is made available, upon request, to all continuing students, faculty and staff each year.

Crime and Safety Precautions. AUD is committed to providing a safe and secure environment conducive to learning. Crimes at AUD are minimal and personal safety is a major priority of the university. There are 24-hour security guards posted throughout the campus. AUD has an internal security supervisor who supervises all security operations at the university. All AUD students, guests, visitors, family members, and maintenance workers are required to present a valid ID to enter the university. Upon deposit of the ID, visitors are issued a visitor badge, which they display when they are on campus. IDs are returned when visitors leave the university and turn in the visitor badge.

Procedures for Fire and Medical Emergencies are in Place. AUD maintains a close relationship with the Dubai Police in the event of a severe emergency or problem. For emergency situations, students are asked to call the UNIVERSITY HOTLINE at 04-3183555. A security guard will get in touch with the appropriate authority or university staff member for appropriate action. AUD encourages its students to be prepared and take reasonable precautions against all potential crimes and hazards. Specifically students should:

- not leave personal belongings unattended for any length of time. This includes purses, mobile phones, notebooks, textbooks, laptop computers, book bags, money, jewelry, art supplies, clothing, and all other personal belongings. Leaving belongings unattended is an open invitation for a dishonest individual to steal. AUD will not assume responsibility for lost and stolen items;
- lock their residence hall rooms any time they leave;
- know where all fire exits are located and how to get out if exits are blocked;
- know where all fire alarm pull stations, fire extinguishers and the nearest phones are located;
- know how to report a fire or other emergency;
- not panic in emergency situations, remain calm, and follow proper procedures;
- log off from AUD’s computers after completing work.
The Dean of Student Services will inform special needs students personally of procedures which apply specifically to them.

Campus Crime Reporting Procedures. AUD strives to maintain a safe and secure campus environment. Crimes at AUD are minimal, but in the event of a serious incident, the following procedures should be followed:

- Report all crimes to the Dean of Student Services 04-318 3130. The victim of the crime should fill out a Campus Incident Report Form, and the Dean will prepare a written report on the crime and report it to the proper authorities within the university. Every attempt will be made to handle the incident and determine the proper action within the university environment. However, depending on the nature, scope and severity of the crime, the incident may be referred to the Dubai Police;
- If the Dean of Student Services is unavailable, the incident should be reported to the Director of Central Services 04-318 3122. If the Director of Central Services is unavailable, the incident should be reported to the Security Supervisor 04-318 3502;
- If the incident occurs after working hours, it should be reported to the Security Supervisor 04-318 3502 who will in turn inform one of the individuals above if the location of the incident and the pertinent details;
- Campus Incident Reports with accompanying details will be kept on file in the Dean of Student Services office for one calendar year;
- The AUD senior administrators (President and Executive Vice President) will be notified immediately of all serious crimes by the Dean of Student Services or delegate;
- In the event that the known perpetrator of the reported crime was another AUD student, the Conduct Code as outlined in this Student Handbook will be applied. If at all possible, any and all evidence related to the crime will be preserved.

Campus Evacuation Procedures. In all buildings, elevators must not be used in case of emergency evacuation.

Administration. When the fire alarms sound, building occupants must evacuate immediately through either the ground floor main entrance near the main reception or through the two side exits opposite the School of Architecture, Art and Design, and the School of Business Administration Academic buildings. It is the responsibility of all students to check their mail on a regular basis. Housing mail is distributed via the security gates in the Housing. All other mail is distributed through the Administrative Assistant in Student Services. Students are encouraged to collect their mail regularly and obtain an outside post office box if possible. AUD provides this as a service to students only. AUD Alumni should not use the AUD post office box as a mailing address. Only students who are enrolled at AUD are eligible to use the AUD mailing address. Mail is held for one semester. At the end of the semester, all unclaimed mail is discarded.
Students should request that family and friends write their complete name in English and indicate:

Student Computing and Network Resources Use Policy

The American University in Dubai provides information technology resources to faculty, staff and students for the purpose of furthering and assisting the academic goals of learning, teaching and research and for assisting in the administrative operations that support these goals. As members of the American University in Dubai community, all users have the responsibility to use computing and network resources in an effective, efficient, ethical and legal manner. Ethical standards, which apply to other university activities (Honor Code, Academic Honesty, Student Rights and Responsibilities, and all local, federal and international laws), apply equally to use of the university’s computing facilities.

Use of computing and network resources is limited to members of the American University in Dubai community. Users of these resources are expected to act responsibly to maintain the integrity of university computer and network resources. Students are responsible for reporting any activities that they believe to be in violation of this policy, just as students are responsible for reporting Honor Code violations.

AUD computing and network resources must not be used to produce, view, store, replicate, or transmit harassing, obscene, or offensive materials. This includes, but is not limited to, material from the Internet, screen savers, etc. Improper behavior that could disrupt the computing resources may be grounds for termination of your access or for other penalties deemed appropriate by AUD Administration.

Appropriate Use of Computing Facilities. AUD’s computing facilities are available to all students. Students are encouraged to use the university computing systems in an effective, efficient, ethical, and lawful manner. Violations include, but are not limited to, the following:

- Sharing of passwords with other individuals is considered a security violation. Passwords should be changed regularly;
- Downloading or copying any software without the appropriate authority from the software provider violates the terms of software licensing agreements;
• Transmitting offensive, obscene or harassing material on university’s systems is an inappropriate use of the computing facilities;
• Copying, storing, displaying, or distributing copyrighted material using university computing resources without the express permission of the copyright owner except as otherwise allowed under the copyright law, is prohibited;
• Playing computer games is not allowed in computing facilities and such behavior could lead to suspension from the use of the computing facilities.

**Student-Owned Laptop Computers**. Students are permitted to use personal notebook computers on the university network in furtherance of their academic studies, under the following conditions:

- Note book computers can be connected to the university’s wireless network in designated locations only. Designated locations include classrooms, labs, library, common areas and other locations as specified by the Information Technology Support Services department. Students shall not disconnect or otherwise disturb any university-placed computer such that it becomes disconnected from the university communications network.
- All personal computers used on campus must meet the following requirements:
  - Latest antivirus software and virus definitions;
  - Latest Operating System Service Packs and Software Updates.
- It is the student’s responsibility to purchase, install and maintain all software necessary to meet these requirements.
- Use of peer-to-peer file sharing software, such as Kazaa, BitTorrent, Morpheus, eDonkey or any other similar software commonly used in the illegal distribution of copyrighted materials, is prohibited.
- Any costs incurred in meeting the above conditions are the sole responsibility of the student.

Students are responsible for protecting their own computer resources. The university recommends students install and use a personal firewall.

**Data Backup**. It is the responsibility of students to have a backup of their data and coursework on a personal data storage medium (such as External Hard Disks, USB flash drives or CD/DVD disks).

**Systems Monitoring**. The university reserves the right to monitor computer and network system activities at any time. Only designated staff of Information Technology Services have authorization to engage in systems monitoring.

**Privacy**. All individuals are required to respect the privacy of other authorized users, including security of files, confidentiality of data, and the ownership of their own work. Nonetheless, in order to enforce the policies of the university, designated Information Technology Services staff are permitted to monitor activity on local computer systems.

**Disciplinary Actions**. Use of the university’s computer resources is a privilege, not a right. Any violation of university computer usage policies will be investigated and may result in termination of access, disciplinary review, or other disciplinary action.
**Email Services**. University email services shall not be used for purposes that could reasonably be expected to cause directly, or indirectly, excessive strain on computing resources or unwarranted and unsolicited interference with others’ use of email or email systems. Engaging in any use that would interfere with students’ and employees’ work or disruption of the intended use of network resources is prohibited. Examples of interference include but are not limited to:

- Sending or forwarding chain letters;
- “Spam,” that is, exploitation of email, list servers or similar broadcast systems for the widespread distribution of unsolicited email. Spamming is considered bad netiquette and very unethical because it not only wastes everyone’s time, but also costs money.
- “Mail Bombing”, resending the same email repeatedly to one or more recipients to interfere with the recipient’s use of email.

Please use email services responsibly.

**Internet Services**. Students may access the Internet through computers in university computer labs, through personal laptops connected to the university’s network, and through wireless network access points provided in designated locations and student housing common rooms (See Housing/Access to the Internet). Student access to the Internet conforms to the laws of the United Arab Emirates, including the monitoring and filtering of Internet content. Any attempt to circumvent or disable Internet access controls set by the university or the government of the U.A.E. is a violation of university policy and will result in disciplinary action.

**Student Housing/Access to the Internet**. Internet access points are provided in each room for student residents. Internet services to the residence halls are provided using an independent circuit from our service provider. Students are required to conform to all usage policies as defined by the university and the Service Provider. Misuse and/or abuse will result in disciplinary action.

All computers must conform to the university’s policy for student-owned computers (See requirements under Student-owned Laptop/Notebook Computers). The university reserves the right to monitor or physically inspect all computers. Any computer that does not meet university IT requirements will be disconnected from network.

Students are advised to protect their own computer resources. The university recommends students install and use a personal firewall.

**School of Architecture, Art and Design Student Laptop Policy**

The School of Architecture, Art Design at AUD acknowledges laptop computers have become an integral part of the commercial industries related to the programs offered by the School. To advance computing skills required to enter and succeed in today’s competitive job market, School learning objectives require all students to own a laptop when they begin their second year. This will greatly enhance the learning process and will address instances of limited availability of or access to AUD-supplied computers and software.
Specialized software demands of these career fields require laptops which must meet or exceed the hardware, software, and accessories specified in the respective department checklists below. Policy specifications will be updated on a regular basis matching industry changes. Students will not be required to purchase new laptops when specifications change if they already have one meeting previous specifications. Students are expected to use their laptops when no desktop is available in the School’s facilities.

To best provide options for students to purchase laptops, the School of Architecture, Art and Design provides several solutions. Students may purchase directly from recommended vendors who offer educational prices. In addition, the School works with the university’s IT Services Department and local vendors to offer several hardware options, which can be purchased with the assistance of AUD for deeper discounts. Software used by most programs in the School are available free of charge or at educational discounts to students directly from vendors or may be preinstalled through the local vendors option.

Survey Administration Policy

Purpose. This policy is aimed at ensuring that surveys administered to the AUD community are well structured, organized and respect participants’ privacy. Well planned surveys and administration procedures are integral to the success of any research project.

Types of Surveys. Surveys can be divided into two categories: questionnaires and interviews. Questionnaires can be individually administered using paper-and-pencil or online instruments or group administered, in which a sample of respondents is brought together and asked to respond to a structured sequence of questions. Interviews can be classified as personal interviews, telephone interviews, or email interviews.

Policy. Before a survey is administered to the university community, it will be evaluated by the appropriate university administrators and/or academic leaders. The approval process depends on the purpose of the surveys and the relationship between survey administrators and participants.

Survey administrators requiring official approval before administering surveys include:

- Members of the university community seeking to evaluate opinions and behaviors of other university community members as part of academic research;

Email Addresses
AUD provides each student with an AUD email. The email account is firstname.lastname@mymail.aud.edu. To access email students should type mymail.aud.edu in the browser and the user ID is firstname.lastname. Students are held responsible by the university for information sent to their AUD email accounts. Students should contact the Registrar’s Office if they have trouble accessing their email accounts. All official email notification will be sent to students via the AUD email address.

Online Student Complaint System
In an effort to continuously improve communication within the AUD Community, IT Services, Registrar and Institutional Effectiveness offices have developed an online “Student Complaint System” to replace the previous paper-based one.
The application complaints.aud.edu is accessible through the AUD website under the My AUD Portal section. The Student Complaint System is focused on providing feedback to problems/issues raised by AUD students.

**Procedure**. It is advised that students should first directly communicate with the person/department with whom they have a complaint. If the students still wish to formalize the complaint with the relevant academic or administrative head, then they log into the Student Complaint System application complaints.aud.edu available under the My AUD Portal section on the AUD website www.aud.edu/myaud/index.asp.

Once a complaint is submitted, the academic or administrative head receives a notification email prompting him or her to log into the application and follow up on the complaint. Students will receive an update on the status of their complaint via email within 5 working days. If input is not received within this timeframe, students are requested to follow up with the Office of Institutional Effectiveness.

The Student Complaint System is not relevant for grade or academic standing appeals.

In the event that the above procedure does not yield reasonable outcomes, students may consult the Grievance Officer by following the AUD Grievance Process described below.

**AUD Grievance Process**

*(This process applies to all members of the AUD community. Specifically, it applies to all academic grievances, including those related to academic freedom, as well as to those related to administrative, interpersonal and other non-academic issues.)*

**Grievance Officer**. The Grievance Officer facilitates the resolution of grievances within the AUD community through the Grievance Process as outlined below. The Grievance Officer 04-318 3180, offers confidential, informal, independent, and neutral dispute resolution services by providing mediation, information, advice, and referrals as appropriate.

**Procedure**. To resolve an issue,

- Grievants should *directly communicate* with the person with whom they have a complaint. It is the grievant's responsibility to do this before any further action is pursued;
- If grievants wish to formalize the process; they are required to seek the counsel of the **Grievance Officer within ten working days** of the incident leading to the complaint;
- If the grievant wishes to pursue the matter further, he or she should submit a written complaint to the Grievance Officer with the following information:
  - his or her description of the incident(s);
  - the name of the person with whom he or she has a concern/complaint;
  - a suggested remedy.
- The Grievance Officer will then contact the respective Dean, Associate Dean or Chair (academic issues), Department Director (non-academic issues), or Supervisor (as appropriate) and provide them with the information regarding the complaint;
• The Dean, Associate Dean or Chair (academic issues), Department Director (non-academic issues) or Supervisor will then begin the investigation of the complaint;
• The Dean, Associate Dean or Chair (academic issues), Department Director (non-academic issues) or Supervisor will provide a report reflecting the findings and giving recommendations within ten working days of the filing of the written complaint;
• If a written report is not received within this timeframe, the Grievance Officer will forward the grievance to the Provost/Chief Academic Officer (academic issues), Dean of Student Services (non-academic issues), or respective Senior Supervisor;
• The Grievance Officer in consultation with the Provost/Chief Academic Officer (academic issues), Dean of Student Services (non-academic issues) or Senior Supervisor, will summarize the decision and rationale in writing within ten working days to the grievant, the respondent, and the Dean, Associate Dean or Chair (academic issues), Department Director (non-academic issues) or Supervisor.
  - Appropriate action will be taken by the Dean, Associate Dean or Chair (academic issues), Department Director (non-academic issues), or Supervisor within five working days after receiving the summary of the decision/rationale.
  - Confirmation in writing that action has been taken will be provided to the Grievance Officer within five working days.

If at anytime during this process, input is not provided within the stated timeframe, the Grievance Officer will collaborate with the appropriate parties to move the process forward. It is the responsibility of the Grievance Officer to keep the university Complaint Log. In the event that a grievance filed in Summer I or Summer II cannot be processed within the prescribed timeframe because one or more of the parties to the grievance are not available, the grievance will then be processed within the ten-day period immediately following the start of the Fall semester.

Grievance Appeal Process. In the event that the above procedure does not yield a satisfactory resolution, the grievant may appeal to the President in writing. The grievant may seek the counsel of the Grievance Officer in preparing the appeal.
• This appeal must be received in the Office of the President within five working days after the grievant, the respondent, and the Dean, Associate Dean or Chair, Department Director or Supervisor have received written notification of the action.
• The decision previously made can only be overturned by the President if additional extremely compelling information is deemed relevant to the case outcome.

Dean of Student Services

The Dean’s Office, in the person of the Dean of Student Services, assists students with the assimilation process so they can readily become part of the university community. The Dean helps students interpret, clarify and understand university policies and procedures and receives and addresses student complaints, suggestions, and concerns. The Dean may also assist students through the university grievance process. The Dean serves on all honor, conduct and grade appeal councils. One of the primary responsibilities of the Dean is to safeguard and represent students’ interests. The Dean of Student Services manages and provides direction to all divisions of Student Services and is available to meet with students and parents who have concerns related to any aspect of university life.

Athletics

The AUD Athletics Office promotes and strengthens individuals’ leadership, teamwork, and collaboration skills through a wide range of athletic opportunities, including sports team competitions, intramurals, drop-in sports, and fitness-related activities.

For the highly competitive student-athlete who is interested in competing against universities from the U.A.E. and elsewhere, AUD offers a number of intercollegiate team sports. Tryouts for students who desire to join the AUD teams are carried out at the beginning of each semester.

AUD Athletics also has a program for all students who are interested in staying fit. Please see p. 143 of this Handbook for a description of sports facilities. Athletics facilities are open to all in the AUD community when official games and practices aren’t scheduled. The AUD Housing also have two fully equipped student gyms available only to Housing students.

Career Services

The AUD Career Services Office assists students and alumni to successfully explore and prepare for rewarding and meaningful careers. These services will allow students and alumni to develop and maintain a competitive advantage in the emerging employment market.

Career advisors ensure that students successfully bridge the transition from university life to work life through equipping them with career guidance, interview tactics, job search skills, marketplace readiness preparation, and a network of employment opportunities.

Students are strongly encouraged to register with Career Services during their first academic year and work closely with a career advisor to develop their career plan in parallel with their studies. Early exposure to the work environment is also encouraged, as it solidifies students’ academic commitment and allows a better understanding of the relationship between the classroom and the marketplace.

The Career Services Office liaises with regional and multinational companies, creating a business network to offer employment and internship opportunities to AUD students and alumni. Through a series of workshops and on campus events, students, graduates and employers are brought together to ensure that AUD’s
talent is employed by the market’s leaders. The annual Career Fair is the epitome of the division’s efforts in achieving student and employer networking.

**Registration Process.** Career counseling sessions and workshops are provided to all students and alumni. However, students need to register with Career Services in advance, in order to gain access to counseling, career resources, employer events and job vacancies.

**Internship Program.** The opportunity to participate in university approved internships is an option available to students in all majors, and students are encouraged to take advantage of this program. The Career Services Office in collaboration with academic departments ensures that an adequate number of quality internship opportunities are available for selection by students. Students can view a list of AUD internship affiliated partners under the Student Services webpage or contact a career advisor. Students participating in internships can complement their classroom experience and earn credits toward their degree in an approved off-campus employer that provides practical learning in a professional setting.

Senior year students are eligible for accredited internships after completing course work and other minimum requirements as specified by their School/Department. All internships must be completed within the United Arab Emirates. Exceptions are assessed and approved on a case-by-case basis by Deans, Associate Deans or Chairs and are subject to a final approval by the Provost.

Internships may be completed in any of the academic semesters including Summer I and Summer II. **Before students can register and start their internship, the Dean, Associate Dean or Chair must approve the host company and the internship program.** The total amount of internship credit must not exceed three credit hours towards completion of the student’s degree program. An exception to this limit, approved by the Dean, Associate Dean or Chair, may be granted in the case of students with double majors. In all cases, it is imperative that students identify and register for the internship before the start of the academic semester/term during which the internship is set to take place. Credits cannot be claimed for internships that were completed without students being registered in advance.

**Upon completion of the internship program, students must submit a work report to the faculty internship advisor as per the Department’s requirements.** Additionally, the host company supervisor must submit to the faculty internship advisor a written evaluation of the student’s internship performance. A final Pass (P) or Fail (F) grade is assigned by the allocated faculty internship advisor.

Students can learn more about the internship program by visiting the Career Services Office or downloading the Internship Program Manual at the Student Services webpage.

**Housing**

The AUD Student Housing Office provides residential students with a safe and well-maintained living/learning environment that supports individual progress and provides quality services and programming. These facilities were designed to establish a sense of community coupled with responsible, independent and shared living.

AUD student housing consists of four residential buildings, two for males and two for females. The male and female residence halls are totally segregated. On the ground floor of each building there is a fully equipped kitchen, a student lounge, a laundry room, and a TV room. AUD has clear guidelines for what constitutes inappropriate behavior in student housing. It is the responsibility of students to abide by these rules at all times.

The Housing Manager oversees security and arranges for maintenance and repairs in the student housing, handles roommate conflicts and general complaints, enforces housing rules and regulations, and offers emotional support to students, to ensure a safe, comfortable, and peaceful living and learning environment. There are a number of important rules and regulations that govern student housing. The AUD Housing Kit contains all housing information.
Resident Assistants work in both the residence halls and the Housing Office. They report directly to the Housing Manager and assist with various duties. These duties include, but are not limited to receiving maintenance requests, recording complaints, answering questions, making appointments for the Housing Manager and conducting tours for prospective students and their parents. In addition, Resident Assistants report any violations of housing rules, damage to residence halls, maintenance needs and suggestions for improvements in the residence halls. Resident Assistants, working in close collaboration with the Housing Manager and Student Activities Coordinator(s), plan and host various housing activities and programs. Any housing student interested in applying for a Resident Assistant position should contact the Housing Manager.

**Student Activities**
The AUD Student Activities Office creates an inclusive community, in which students engage in a variety of social, cultural, intellectual, and leadership programs and activities. This community is developed through governance, club involvement, and civic engagement/service opportunities.

Involvement in student activities at university is an important component of student life. AUD’s American educational philosophy stresses a well-rounded student experience. Through participation in clubs and organizations, students not only become involved in university life, but also strengthen their socialization, team-building, leadership, event planning and organizational skills. Membership in student clubs and organizations also enables students to share mutual interests with fellow students. The memories created on campus, through activities, is an essential part of the holistic development of a university student. The Office of Student Activities aims to create and offer those opportunities for AUD students. The Coordinator of Student Activities, with assistance from the Student Government Association, creates and plans numerous activities for students throughout the year. These activities, designed to be both social and cultural, include desert safaris, dhow trips, beach parties, guest lectures, dinners, international celebrations, plays, music nights, and other events.

AUD-sponsored activities introduce students to many of the diverse social and cultural events held in each city. A calendar of events is available on the university’s website (www.aud.edu). Any student having a suggestion for a student activity should contact the Student Activities Coordinator(s).

**Student Support**
The Student Support Office enriches the educational, intellectual, and personal growth of AUD’s diverse student population by assisting them in developing skills and strategies to effectively respond to academic challenges. These support programs will help students achieve academic success and embrace life-long learning habits.

The Office of Student Support offers a range of services to help students develop their own educational goals and succeed in their chosen program of study. Student Services Programs

Academic Support Workshops. Workshops on topics of concern to all students are offered each semester. Past workshops have focused on time management, test taking anxiety, skills and strategies, academic reading and writing, working in groups, improving memory and presentation anxiety. Students should contact the Student Support Manager for information on upcoming workshops. Informational brochures on the above topics are also available for students.

General Housing Meetings. General housing meetings are held once per semester for all of AUD’s housing residents. All residents have the opportunity to freely voice their concerns and ask questions. The Housing Manager and Dean of Student Services facilitate the meetings. The Student Support Manager, the Student Athletics Coordinator and the Student Activities Coordinator(s) may also attend these meetings.

Orientation. All new undergraduate students are required to participate in orientation activities. During orientation, student orientation leaders acquaint students with the campus environment and the city of Dubai, explain policies and procedures; explain AUD’s Honor Code, and conduct a variety of activities to introduce the students to the university experience. Further orientation takes place throughout the year through student activities, which may include seminars, workshops, tours, and informal discussion sessions. AUD distinguishes itself with a unique student orientation program planned and orchestrated by AUD Student Orientation Leaders. All second through fourth year students are eligible to apply for this student leadership opportunity. Applications are available through the Dean of Student Services.
Professional Development Series. The Career Services Office offers several opportunities for students to network with employers and gain a perspective on various careers and fields. Industry professionals are invited to offer on-campus presentations related to corporate life, professional career preparation and industry trends. In an effort to equip students with marketplace knowledge and life skills that extend beyond the classroom, Career Services offers several workshops such as CV Building, Job Hunting Strategies, Interview Preparation, Internship Experience and many more.

Tutoring/Peer Tutoring. The Student Support Manager maintains a list of tutors for use by all members of the AUD academic community. Student tutors must complete an application; sign the AUD Student Tutor Agreement Form; provide a copy of their CV, transcript, and two letters of reference. Faculty and community tutors provide a copy of their CV. All tutors agree to abide by the AUD Tutoring Guidelines.

The university does not endorse nor recommend any of the students or instructors on the list. Specific information regarding tutoring charges (instructors), session length, meeting dates, and locations must be negotiated directly with the tutor.

When do I need a Tutor? It is important that students recognize some of the warning signs indicate that the extra help of a tutor may be beneficial. Here are some signs:

STUDENT CLUBS AND ORGANIZATIONS

**Introduction**

Involvement in student organizations is important for making new friends and provides the opportunity to share mutual interests with fellow students. The student activities program strengthens students’ socialization skills and offers encouragement to those who are making a transition to university life. AUD sponsored activities introduce students to many diverse social and cultural events and intellectual experiences.

Student organizations are responsible for the conduct of all persons at university-related functions. All students and guests must conform to the U.A.E. law. Please note that the Student Conduct Code contained in this Handbook applies to all student activities on or off campus. Additional, detailed, and/or current activity and club rules and regulations are available in the Office of Student Activities. Every organization has the responsibility to take all reasonable steps to prevent any infraction of the university rules and U.A.E. laws related to the activities of the organization. Any individual/group whose conduct is in violation of the Student Code of Conduct will be subject to disciplinary action. In addition, outlined penalties and disciplinary procedures will apply. Such action may include suspension or dismissal of individuals from a particular activity or club.

The university has authority over all student organizations and activities. To provide for the efficient use of AUD’s buildings and facilities and to protect the integrity and reputation of the university, student organizations must complete an online request at least two to three weeks prior to any event, depending on the size and scale of the event. Prior approval for use of AUD facilities is required. This procedure is done with the Coordinator of Student Activities.

AUD’s various clubs and organizations are encouraged to communicate their club events and activities through various means such as the Student Services Calendar on the university website, the Electronic Notice boards and bulletin boards throughout the campus. Posters and other marketing instruments must be approved by the Student Activities Coordinator(s) and placed in appropriate locations around campus. Please see pp. 48-49 for the Campus Posting Procedures.

**Active Student Clubs/Organizations**

*Note: All AUD students have the right to be a member of any organization. For a full listing of student clubs/organizations, please refer to the Student Services section of the AUD website.*

**Cultural Clubs**. The AUD community is incredibly diverse. With nearly 100 nationalities represented on campus, AUD’s Cultural Clubs play a unique role in fostering tolerance, understanding, and appreciation within the university community. **Performance Clubs**. AUD Performance Clubs provide students with an opportunity to explore new interests and hobbies or to refine an already established skill. These clubs often perform productions for the AUD community and public at large.

These clubs provide a variety of outlets for students to explore their interests, get involved in their community, make a difference in the world, as well as have a little fun along the way.

**Departmental Clubs**. AUD Departmental Clubs serve as professional organizations that address the special needs and interests of students in specific areas of study. They encourage members to explore their interests and talents and organize major specific activities such as lectures, seminars, professor’s lunches, competitions, exhibitions, workshops and field trips. The clubs also serve as a liaison between the student body and faculty of each department.

A new club application must be completed to reinstate disbanded clubs. The newly established club will remain in a probationary state for one semester. If the club fulfills all club guidelines during the probationary period, it will be removed from probation. Clubs may be dissolved due to the failure to fulfill club regulations or guidelines, unlawful behavior or occurrences under club operation or a club event (as deemed by the Student Activities Coordinator(s) and the Dean of Student Services), or the inability to make an officer team of a minimum of four students and a Club Advisor during the year. Clubs are highly encouraged to regain status as an AUD student club if dissolved for the above reasons, with new leadership or new goals and determination. The Club Renewal Form, obtained from and submitted to the Student Activities Coordinator(s), must be filled out by the new club officers in order to process the renewal and re-establish its presence at AUD.
Club Advisors
Advisors have a unique role in the development and growth of student organizations, serving as a vital link between the university and the students. Significant interaction with faculty and staff along with involvement on campus, increase student learning both inside and outside the classroom. A significant way to interact with students is to advise a club/organization.

Advisors serve as valuable resources, mentors, and role models for students, particularly in the areas of leadership, communication, organization and personal growth. They provide continuity and stability to a group whose officers and membership are continually changing.

The university requires that all campus-recognized clubs have an official Club Advisor. The Club Advisor must be a full-time AUD faculty/staff member who is willing to provide support and guidance to the club. Club Advisors are volunteer full time faculty and staff members who, out of personal interest and dedication, give of their time and talent to promote and support extracurricular programs at AUD.

Responsibilities of a Club Advisor
It is the duty of a Club Advisor to maintain productive close contact with the club officers and members, providing support and leadership when necessary.

• Ensure that the club president submits monthly financial statements that outline all the club’s outstanding expenditures.
Policy for Changing Club Advisors

If a club’s student leaders feel the need to change its club’s faculty/staff advisor, the Student Activities Coordinator(s) should be informed prior to the new advisor being approached or the old advisor being asked to step down from his or her position. The students have the right to choose their Club Advisor. The process for changing a Club Advisor:

STUDENT GOVERNMENT ASSOCIATION
Introduction
The Student Government Association (SGA) serves as a liaison between university staff and students and plays an active role in planning and coordinating student activities. Students have a voice in the governance of the university through the Student Government Association. The SGA is recognized as the official representative voice of the student body at the American University in Dubai. Students can freely and openly express their views to SGA officers who will ensure appropriate follow-up when necessary. The primary commitment of the SGA is to provide responsible and equitable student leadership and to mirror the opinions and concerns of all segments of AUD’s multinational student body. The SGA attempts to motivate students to participate in campus life and form a close-knit interdisciplinary, multinational student community at AUD.

The SGA is composed of executive and representative members. Specialized committees are created to focus on particular tasks and operations. Regular scheduled meetings are held throughout the academic year. The primary SGA responsibilities include: representing students’ interests to the AUD administration, supporting the Student Activities Coordinator(s) in the running of campus activities, assuming financial responsibility for SGA funds and financial records, running the SGA Bookstore, and striving to uphold and promote the AUD Honor Code. All students at AUD are eligible for membership.

Article 6 – Requirements for Remaining in SGA Good Standing as an Officer
SGA members are bound to their responsibilities as defined by their job profile and their commitment to work as part of the Student Government Association team. Part of the responsibility of being an officer of the SGA is adhering to the duties of one’s position and to the rules and regulations of the university in general and to the SGA in particular.

Attendance at meetings and throughout all SGA events is mandatory. In exceptional cases, non-attendance at a meeting may be permitted based on a case-by-case emergency basis, but prior notification is required and is subject to approval from the SGA Advisor(s). Failure to obtain prior approval will result in a formal warning by the SGA Advisor(s) as part of the three point warning system. Two tardy attendances (lateness to meetings or events) are regarded as one absence.

SGA officers who fail to fulfill their responsibilities will also be given a warning according to the system in place.
All SGA officers must be enrolled as full-time students at AUD throughout the academic year (Fall and Spring Semesters) and must remain in good academic standing throughout their office term.

If an officer’s GPA falls below the established guidelines they will be removed from their official position by Executive Order and may be considered for a Member-at-Large position.

**Article 7 – Warnings**. The SGA works on a three point annual warning system. Each officer is expected to follow the rules of the Association and to abide by his or her responsibilities as defined in the relevant job profile. Those who fail to fulfill their responsibilities and obligations will be given warnings by the Student Activities Coordinator(s) according to the following system:

**First Warning**
A verbal warning is issued. Signature of the officer confirms receipt.

**Second Warning**
A written warning is issued via electronic mail/email to the student’s AUD email address. Probation will be in effect.

**Third Warning**
The officer will be dismissed in writing from the position and may be considered for a Member-at-large position. Dismissal must be approved by both the Student Activities Coordinator(s) and the Dean of Student Services. Warnings must be sent via electronic mail to the student’s AUD email address, and via postal mail to the student’s official address on file with the Registrar.

Please note that Three warnings result in termination and a forfeiture of SGA recognition.

**Article 8 – Resignation**. The SGA President upon wishing to resign from office must submit a letter of resignation to the SGA Advisor(s) and the SGA Vice President. The letter should be submitted two weeks prior to the actual date of resignation. All other resignations must be in writing and submitted to the SGA President with copies to the SGA Advisor(s) at least one week in prior to the actual date of resignation. If there is an opening in one of the key officer positions (this includes the positions of President and Vice President), a re-election will be held within two weeks after the resignation. The Vice President will stand in as the President of the SGA between the former President’s time of resignation or dismissal and the re-election time.

If an individual, who holds an SGA position other than the President or Vice President, resigns, the remaining officers will appoint an individual to serve in the vacant position and seek approval of the decision by a majority vote of the official SGA Officers and Representatives (not including Members-at-Large). If a decision cannot be reached, the position will be opened to the general student body, and a campaign will be conducted.

Any SGA member resigning from a position cannot be considered for another elected position. Resigning members may only assume the post of Member-at-large and may not participate as a candidate in any future elections.
**Article 9 – Removal from Office.** SGA members may be removed from office according to the three point warning system. As noted in Articles 6 and 7, warnings are issued for a variety of reasons that may include unexcused absences from official SGA meetings, non-performance and/or non-participation in SGA events.

The Student Activities Coordinator(s) will then officially communicate the removal decision to the SGA President or Vice President, who should promptly call for an extraordinary meeting of the SGA remaining members to ratify the “Removal from Office” decision.

Two thirds of the SGA membership vote is required for ratification of the removal decision. Written notification will be sent to the party in question within 24 hours of the SGA extraordinary meeting. Members may also be removed by Executive Order, from the Office of Student Activities, and upon approval of the Dean of Student Services.

SGA members may be removed from office for violations of AUD’s Honor and Conduct Codes, and Housing Rules. Procedures for Honor and Conduct Councils are outlined in this Catalog.

A full description of AUD’s Housing Rules and the violation points system is included in the AUD Housing Brochure. Should students be dismissed from AUD Housing for conduct, they will also be removed from their SGA office. Appeal processes for both Honor and Conduct Council decisions will also be followed.

Members can also be removed by Executive Order if their GPA falls below the minimum required level outlined in their position requirements.

**Article 10 – Annual Student Forum.** The AUD Student Forum is designed, executed and managed by the AUD Student Government Association. The AUD Student Forum is traditionally held during the Spring Semester. The Student Forum is a means of collecting student feedback about issues and topics at AUD. These include general academic issues that are not specific to a certain department and general nonacademic issues that do not include sports and Housing issues. General surveys, which review all issues, related to sports, residence halls, student activities, general academic issues, and general non-academic issues are also distributed. The Director of Institutional Effectiveness provides the SGA members with results of the AUD Student Survey. These results are coupled with the results from the SGA surveys and together are used to create the PowerPoint presentation for the General Student Forum.

**Student Forum Procedures**

1. Several weeks in advance of the Forum, SGA members distribute a survey that has been designed to elicit information regarding student perception of AUD academic and non-academic issues.
2. At this time, a general advertising campaign is conducted to create an awareness of the Student Forum among the student body at large. Advertising should be varied and include posters, flyers, handouts, notices in electronic newsletters, informational brochures and other forms of advertising. It is the responsibility of the SGA to ensure that all members of the campus community are invited and to solicit student participation.
3. Two weeks before the Student Forum, the SGA members, who are facilitating the Forum, meet with the Director of Institutional Effectiveness to review the results of the yearly AUD Student Surveys. Following this meeting, an SGA officer prepares a presentation of the survey results for the Senior Administration.

4. The presentation is then shared with the Student Activities Coordinators, and a meeting is scheduled with the Administration.

5. The responses of the Administration to the issues raised in the survey will be gathered at that meeting and via email following the meeting. These responses will be included in the PowerPoint™ presentation shown at the Forum.

6. The PowerPoint™ presentation will then be created by two assigned SGA members and shared with the Student Activities Coordinator(s) one week prior to the Forum. The Student Activities Coordinator(s) will share the presentation with the Dean of Student Services and the Senior Administration prior to the Forum.

7. The General Student Forum begins with an overview by the SGA Officers and Representatives of the issues that are of concern to the students. The presentation will feature the responses provided by the Senior Administration prior to the Forum. Following this presentation, the President, Provost/Chief Academic Officer, and Executive Vice President, will respond to an open question-and-answer session.

8. The Student Activities Coordinator(s) takes minutes of each forum. These minutes are shared with the individuals named above following the forum.

Article 11 – Student Bookstore. The SGA Bookstore is the place for students who wish to buy and sell their used textbooks. The Bookstore maintains a database, which includes all listings of books and also tracks purchases. The Bookstore has set timings which are posted outside the SGA Office. Books are reasonably priced according to their condition. The SGA Bookstore Manager operates and oversees the running of the bookstore. The Bookstore Manager may be contacted through the Student Activities Coordinator(s).

All students leaving books at the SGA Bookstore for sale are required to collect any unsold material within one year’s time. Failure to do so will result in loss of the materials, and no monetary reimbursement will be provided.

Learning Environment Preservation

All AUD faculty, staff, and students are expected to create and maintain a learning environment committed to an effective learning process. Any behavior and/or events determined to be detrimental to success in any AUD-related academic pursuit, at any location where the AUD learning process takes place, are prohibited. This includes, but is not limited to, the conduction of unauthorized tours of AUD facilities; bringing unauthorized visitors, e.g., children, friends, or other family members, to the campus or any location where the AUD learning process takes place; and usage of cell phones, radios, or radio headsets, especially in the campus library, classrooms, team rooms or any location where the AUD learning process takes place. Specifically, cellular phones and beepers must be turned off during class. A warning is issued for the first failure to respect the rights of classmates. A second failure to follow this rule may result in a penalty to the student, and this penalty is at the discretion of the instructor. AUD requests that all faculty adhere to this rule.

Unless approved by the President, Executive Vice President, or the Marketing Communications Department, unauthorized visitors are not permitted in AUD classrooms, team rooms, studios, non-instructional areas, or any location where the AUD learning process takes place.

Authorized visitors, those visitors approved by the President or delegate, are not allowed past the designated reception area without an official escort. It is the responsibility of AUD faculty, staff, and students to meet their authorized visitors in the designated reception area at a prearranged time. No authorized visitors are to be left unsupervised by their escorts at any location where the AUD learning process takes place, including, but not limited to, libraries, cafes, or lounges. Disciplinary action may be taken should a violation of this provision occur.

AUD is not responsible or liable for injuries or harm caused by the intrusion of unauthorized or unsupervised visitors on AUD campus facilities, at official AUD functions, or at any location where the AUD learning process takes place.

Academic Advising Center

The AUD Academic Advising Center (AAC), located in Admin 109, provides advising services to students. The AAC assists students in adopting a program of study and creating an individual program of study document. Prior to the beginning of each term, these students are required to meet with the Advisor to whom they are assigned in order to review the status of their degree progress, to discuss university policies and departmental requirements, and to select courses. Policies governing the use of the Center and required approvals are found on p. 109.

Mission. The Academic Advising Center aims to enhance each student's university experience. This is accomplished through the assessment and monitoring of and response to student needs by providing services that result in student development and academic success.
**Goals.** In accordance with our statement and AUD’s vision of promoting student learning and development, the Center’s goals are to:

- Impart accurate, judicious and timely information on AUD policies, academic programs, and campus resources;
- Form educational advising partnerships with advisees and encourage the shared responsibility of academic decisions with advisors;
- Contribute to the student’s personal development and effective decision-making skills; and
- Evaluate and re-assess the AAC services to better serve the advisees’ needs and enhance their educational experience at AUD.

**Outcomes**

- Students will read and accurately interpret AUD policies and academic program requirements and will recognize campus resources.
- Students will value the advising partnership and select an appropriate course sequence accordingly.
- Students will understand how their academic performance impacts their individual progress towards graduation.
- Prospective graduates will acknowledge the academic guidance provided by the AAC.

**Academic Advising/Registration**

Students receive advising and are registered for their first term at AUD by an Admissions Coordinator.

During subsequent terms (up to the completion of 60 credit hours), undergraduate students receive advising and obtain authorization to register from an Academic Advisor housed in the AUD Academic Advising Center (AAC). A student who has earned greater than 60 credit hours is assigned a faculty member who acts as his or her advisor. With the exception of candidates in Engineering, upon completion of 60 credit hours, students no longer need to obtain an Advisor’s approval in order to register. (Engineering students must obtain approval from their AAC Advisor throughout their residency at AUD.)

Students are encouraged to maintain close contact with their Advisor during their time at AUD. Advisors provide them with information and perspective related to academic policy and concerns, specific course-related problems/issues and other academic or professionally related matters. Nonetheless, students are expected to assume responsibility for program planning and course selection since ultimately the responsibility for fulfilling degree requirements rests squarely with the student. They are required to become intimately familiar with the various program requirements and necessary requisite coursework and sequencing.

The basic tasks of the university’s academic advising program are to help students identify and achieve their academic goals and to become self-directed learners and decision-makers.
An Advisor should:
- help the student navigate the academic and administrative processes and programs of the university;
- aid the student in understanding standards and requirements and offer a perspective on the likelihood of success in certain areas of study;
- engage the student in discussions on educational and career objectives and how they relate to current or expected courses of study;
- assist the student in formulating a course of study after giving advice about courses;
- serve as a contact for referral to other campus resources;

A student should:
- be proactive and search out information needed for course scheduling, program planning, and successful completion of all graduation requirements;
- gather academic and career information needed to be successful;
- earn about the policies, procedures, and rules of AUD;
- come to advising sessions well prepared with questions and relevant materials and forms;
- listen carefully and follow procedures;
- ask questions and monitor their own academic progress;
- initiate contact with their advisor as needed.

Responsibility for advising Graduate students rests with the Graduate Program Director or designate.

Advising and Registration Operational Plan
AUD undergraduates with less than 60 credit hours (Undecided students; B.A.I.S., B.B.A., B.C.I.S., B.Arch., and B.F.A. candidates) and candidates for the Civil, Computer, Electrical and Mechanical Engineering degrees – regardless of credit hours completed – are automatically placed on Advising Hold at the beginning of each term to ensure that they meet with their academic advisors. Students are required to clear all holds, including the Advising Hold, in order to have access to online registration.

Students Not Eligible for Online Registration. Online registration is available to all AUD students except in the following cases which require manual paper-based registration; students who
- have an existing hold;
- have failed a developmental course – i.e., UNIV 100, ENGL 100, MATH 098, MATH 099;
- are appealing prerequisites and corequisites;
- are petitioning for course overloads.

Students are reminded that regardless of the mode of registration, they assume full responsibility for fulfillment of their degree requirements.

### Official Student Schedule

Students are advised that their official schedule is that recorded by the Registrar at the end of Drop/Add. To make sure that they have completed the online registration and/or drop/add properly, students should print a copy of the schedule from the AUD website (www.aud.edu/Registrar/RegAdv.asp) or via direct link (schedule.aud.edu).

### Academic Integrity

**Academic Honesty.** At AUD, students are expected to demonstrate academic integrity by completing their own work, assignments and assessments. Effective planning and progress must be accomplished for students to be successful in their degree program of study. Submission of work from another person, whether it is from printed sources or someone other than the student; previously graded papers; papers submitted without proper source citation; or submitting the same paper to multiple courses without the approval of all instructors involved can result in a failing grade or be reported to the Dean, Associate Dean or Chair for appropriate sanction or disciplinary actions. All students are expected to maintain the standards as set forth in the Code of Student Conduct and Statement on Academic Honesty.

**AUD Honor Code Pledge.** The administration, faculty and student government of AUD believe strongly in the concept of an honor system. This belief is based on the knowledge that in competitive professional environments, greater emphasis is placed on originality and integrity of ideas and work. With the freedom to pursue an AUD degree comes the obligation to abide by the rules of the AUD Honor Code. All members of the AUD academic community, including faculty, students, and administration, are expected to assist in maintaining the integrity of the university, which includes reporting incidents that violate the Statement on Academic Honesty. To this end, all students are asked to sign and adhere to an honor pledge that reads as follows:

“As a student of The American University in Dubai, I pledge that all tests taken by me and that all work submitted by me will be original and solely the results of my own efforts. Furthermore, as a student and member of the academic community of The American University in Dubai, I am bound
to uphold standards of personal integrity and honesty and to accept my personal, academic and professional responsibilities in the community.

Specifically, I pledge:

- to adhere to the university’s policy on cheating and plagiarism;
- not to lie or steal in my university undertakings;
- not to evade the truth or deceive;
- to inform the appropriate faculty member and Dean, Associate Dean or Chair of any and all cases of academic dishonesty and violations of the Honor Code.”

Definitions

Cheating. Cheating is using or attempting to use unauthorized materials, information, or study aids in any academic exercise. It includes the following:

- For both in-class and out-of-class academic exercises, using books, notes, materials, calculators, CD ROMs, Internet, Intranet, WWW or communication or collaboration with others which has not been authorized by the instructor.
  - Examples include but are not limited to the following: mobile phones, tape recorders, texts, friends, relatives, tutors and others.
- Having someone else take an examination in your place.
- During an examination, copying from another student’s examination paper, facilitating other students’ copying, or allowing another student to copy from one’s own paper.
- Presenting or handing in a paper, sketch, artwork, project, take-home exam, costume, photographs or any other work written, prepared or completed in full or even in part by someone else.
- Unauthorized access to or use of examinations, tests or quizzes.
  - If a student inadvertently sees an exam, it is his or her responsibility to report this immediately to the instructor or relevant Dean, Associate Dean or Chair.
- Fabrication - Intentional and unauthorized falsification or invention of any information or citation in an academic exercise; for example, listing sources that were not used in the academic exercise.
  - Making up the names of books, page numbers, data, charts, tables, etc.
- Using an essay, paper, artwork, sketch, etc. for one course to satisfy the requirements of another without the permission of the instructors involved. This includes repeating the same course and handing in work completed during the previous unsuccessful attempt. (If a student wishes to use a previously completed assignment as a starting point for additional research and development, he or she must receive the approval of both instructors and provide them with a copy of the original assignment.)
- Handing in the same assignment simultaneously in two or more courses without the full knowledge and approval of all instructors involved.
Plagiarism. Plagiarism is the use of someone else's ideas, words, projects, artwork, phrasing, sentence structure or other work without properly acknowledging the ownership (source) of the property (item). Plagiarism is dishonest because it misrepresents the work of someone else as one's own.

It is intellectual theft as it robs someone else of credit for his or her work. Plagiarism takes many forms and includes the following:

- Using someone else's words without putting these words in quotation marks.

Original version: On this small planet where the actions of people across the globe have a profound influence on our daily lives and our futures, we must understand something about the lives of people across oceans and the way they view the world, if we are to successfully interact with them. This is the mission of anthropology: to understand the differences and similarities, the understanding, expectations, and desires of peoples living in a wide variety of conditions, circumstances and environments.

Student version: As the world is such a small place our lives and futures are heavily influenced by what others do. Therefore, we must understand something about the lives of people across oceans and the way they view the world, if we are to successfully interact with them (McCaffrey and Marcus i).

Why is this plagiarism? The student has copied the underlined text word-for-word from the original text. As the copied text has not been placed in quotation marks, the text has been stolen. Even though the student has cited the source, that is, indicated in brackets the authors of the source, the student is still guilty of plagiarism.

- Using unique, original ideas, phrases, sentences, paragraphs, etc. from a single source or a variety of sources such as a text, journal, web page, electronic source, design, artwork etc. in one's work without citing (all) the source(s).

Original version: Everyone knows that we live in a global world. Today, children with inexpensive personal computers send and receive messages across the globe in seconds using technology that was once only available to scientists and statesmen. Native people in the most remote villages in the high mountains of South America gather around a village television set to watch [MTV] and the X-files. Colombian peasants without running water in their homes watch CNBC financial news to decide when to sell their coffee harvest, while high school janitors in Little Rock, Arkansas, keep track of the Singapore stock market to decide when they can retire.

Student version: We live in a shrinking world in which children can communicate with others around the world using computer technology that is much cheaper now than it was several decades ago. In addition, people in remote areas increasingly have access to information from far-flung corners of the globe. For example, South Americans in isolated mountain villages watch MTV and X-files on a communal television set, while Colombian peasants, with no access to running water, tune in to CNBC financial news before they sell their coffee beans.

Why is this plagiarism? The student has clearly used the ideas and thoughts of McCaffrey and Marcus. Even though the ideas and thoughts have been put into the student's own words, the source of the ideas has not been given to the reader. Therefore, the student is guilty of plagiarism.
Original idea: The Pet Rock – This was an original idea that was marketed in the United States in the 1970s. Basically, for those who could not tolerate live pets, an alternative was a “pet rock” that could be treated like a pet. Strange, but true.

Why is this plagiarism? If today one were to claim the same idea as one’s own, this would be plagiarism of an original idea.

• Taking a design from a piece of a web page or artwork and only changing the colors.

Why is this plagiarism? The design was original; it does not matter that the colors were changed. It is still the property of someone else. It is very important that students exercise extreme caution in using original ideas which belong to someone else. These should never be disguised as one’s own thinking and proper credit should be given to the originator by citing sources.

• Unacceptable paraphrasing: Paraphrasing means putting someone else’s thoughts into one’s own words. “One’s own words” means exactly that: the words one uses to express the ideas in any passage should be very different from the original and the sentence structure in any passage should be very different from the sentence structure of the original.

Original version: World War II fundamentally reoriented anthropology towards its origins as a world science. The war moved people around the globe on an unprecedented scale. Fought on every continent, the war linked previously ignored sections of the globe through new military communications networks, supply lines, and political interdependencies. The seemingly timeless and isolated tribes and village communities that anthropologists had studied before the wars were now permanently transformed. After the war, when anthropologists returned to the field sites of the colonial worlds, they found everywhere the direct effects of outside forces: whole villages wiped away by advancing armies, abandoned military hardware, electric generators for field stations… international bankers and U.S. and U.N. advisers attempting to organize the reconstruction and still unresolved conflicts generated by the war.

Student version: The advent of WWII moved anthropology back into the realm of world sciences. People were displaced on a massive scale by the war which was fought on every continent. The war also linked previously ignored sections of the globe through new military communications networks, supply lines, and political interdependencies. Many rural inhabitants that anthropologists had studied before the wars were now permanently transformed. After World War II anthropologists went back to areas that had been colonized. They found whole villages wiped away by advancing armies, abandoned military hardware, electric generators for field stations… international bankers and advisers were trying to rebuild the communities and sort out still unresolved conflicts generated by the war (McCaffrey and Marcus xiii).

Why is this plagiarism? This attempt to paraphrase is not acceptable, as the student has not changed enough words. The underlined text shows that the student has kept most of the language and sentence structure of the original, and has used no quotation marks. The underlined text is therefore plagiarized. The citation (authors’ names and page number in brackets) is correct, but this does not compensate for the unacceptable paraphrasing.
The following paraphrase is acceptable (i.e., does not constitute plagiarism). It expresses the ideas of the original, but in the student’s own words. The sentence structure of the original has also been changed. Finally, the source of the ideas has been cited at the end.

**Student version:** The WW II profoundly changed anthropology, taking it back to its roots as a world science. On the one hand, the war-displaced people on every continent like never before. On the other hand, new military communication networks, supply lines and connected previously isolated communities around the world. In all, the war permanently changed the lives of tribes and villagers that had been untouched by time. At the end of the war anthropologists who returned to colonized areas found total devastation after the war including villages that had been completely destroyed, and military hardware and power generators that had been left deserted. In addition, they found international financiers and American and United Nations personnel trying to rebuild communities and resolve the war related conflicts (McCaffrey and Marcus xiii).

Even when students seek to summarize the main points of any passage(s), they should take care to use their own words; that is, the summary must differ considerably from the original in terms of both vocabulary and sentence structure. Every attempt has been made to ensure that the definitions above and accompanying examples are comprehensive. However, students should understand that examples of cheating and plagiarism other than those listed above are equally unlawful. Any form of plagiarism or cheating, as well as any other form of academic dishonesty, is in violation of the AUD Honor Code and hence in breach of the university’s desired standard of integrity.

(The original text used in the examples above is reprinted with the kind permission of Dr. A Marcus, editor of Anthropology for a Small Planet; Culture and Community in a Global Environment.)

**Other Forms of Academic Dishonesty.** Students who have falsified or omitted academic information from applications and other university documents have also violated the AUD Honor Code.

**Administration of the University’s Academic Integrity Policy**

The university uses a two-level process for reviewing suspected violations of academic integrity. The first level is the **Dean of the school** in which the violation is suspected to have been committed. The second level is the **University Honor Council (UHC)**.

The Provost oversees all aspects of administration of the university’s academic integrity policy; both of the preceding levels are answerable directly to the Provost on all matters pertaining to this process.

**I. Review and Decision at the School Dean Level**

A A faculty member, staff member or student who has reason to believe that a violation of the Honor Code has been committed by one or more students must notify the Dean of the school in which the violation is suspected to have been committed, in writing.

B The Dean carries out the initial investigation of the suspected violation in consultation with the instructor of the course and with the Registrar, to determine if there are previous guilty verdicts for breaches of academic integrity in the student’s record.
Based on this investigation, the Dean of the academic unit offering the course decides whether the evidence warrants further action. If no further action is warranted, the case is dismissed.

If further action is warranted, the Dean of the academic unit offering the course determines which of the two following courses of action is appropriate: (1) school level decision on guilt/innocence and penalty in case guilt is established, or (2) referral to the UHC.

As a rule, decisions on violations involving graded work that is worth not more than 10% of the course grade are made at the school level, i.e., by the Dean. All other offenses will be referred directly to the UHC.

An appropriate penalty, commensurate with the offense, will be applied from the menu below (Section VI).

Regardless of the weight of the graded work involved, the offense will count as a first offense.

Regardless of the weight of the graded work involved, a second offense will always be referred by the school Dean directly to the UHC.

Within two working days, the Dean must inform the student, in writing, of the violation of the Honor Code, of the verdict reached, and the penalty. The letter to the student must be dated and signed and a copy must be sent to the course instructor, the Registrar (for filing in the student's file), the Dean of the student's school, and the Provost.

Before the decided penalty may be carried out against the student for violation of the Honor Code, the student is entitled to appeal the Dean's verdict and penalty within three working days. In this case, the student will address his/her appeal in writing (signed and dated) to the UHC Chair. The school Dean will then refer the case in writing, with all documentation, evidence and the basis for the Dean's verdict and penalty, to the UHC.

If a student chooses to appeal the Dean's verdict and penalty to the UHC (per I.J above), the UHC's decision will be final and not subject to further appeal to higher levels.

II. Review and Decision by the UHC

The UHC is a body of academics, administrators, and student representatives whose functions are (1) to examine all suspected violations of the Honor Code that are referred to it by school Deans (including cases referred to the UHC by a school Dean as a result of a student appeal (I.J above), or because the case is a potential second offense (I.H above), (2) to reach reasoned decisions on the innocence or guilt of students involved in such suspected violations, and (3) to decide appropriate disciplinary measures for students found guilty of violating the Honor Code.

The UHC is answerable directly to the Provost.

The UHC will serve for a two year-term.

The Chair of the UHC will be a school Dean appointed by the Provost for a two-year term.

Besides the Chair, the UHC will consist of eight representatives:

1. one academic member from each of the five schools other than the school whose Dean chairs the UHC will be selected by the UHC Chair in consultation with the other school Deans (these members must have been in AUD's employ for at least one full academic year),
2. one member from Student Services (Dean of Student Services or designate), and
3. two Student Government Association (SGA) representatives who must have completed at least three semesters of full-time study at AUD and must not be currently registered in the same section of the course in which the violation of the Honor Code is suspected to have occurred.
For each of the UHC members including the Chair, an alternate member will be designated in order to avoid delays in case of inability of regular members to attend.

III. UHC Procedures

A Upon receiving a case of a suspected academic integrity violation from a school Dean, the UHC Chair notifies, by letter, the student(s) suspected of committing the violation of the date, time and place of the UHC’s meeting. The student should be instructed to collect the letter from the office of the UHC Chair.

B If, during the investigation, the student admits committing the breach of academic integrity, the UHC Chair will have the student sign a written admission. The UHC will decide an appropriate penalty based on the available evidence and the student’s written admission.

C The UHC proceedings will include interviewing the student(s) involved and, if required, calling witnesses to testify, as well as conducting a follow-up investigation prior to reaching a decision.

D Within two working days, the UHC Chair must inform the student(s) involved in writing of the alleged violation of the Honor Code, of the verdict reached, and penalties decided by the UHC. The letter to the student(s) must be dated and signed by the UHC Chair, and copies must be sent to the Registrar (for filing in the student file(s)) and to the Provost.

E Before any final disciplinary action may be taken against the student(s) for violation of the Honor Code, the student(s) is/are entitled to appeal the Honor Council’s verdict and penalty in writing (signed and dated) to the Provost within three working days.

F The Provost will respond to the appeal in writing. A copy of the Provost’s dated and signed response to the student(s) will be sent to the UHC Chair.

G The Provost has the right to overturn the UHC’s verdict and/or penalty. In such exceptional cases, the Provost will inform the UHC Chair in writing of the decision to overturn the verdict and/or penalty and the reasons behind this decision.

H A final appeal may be made to the President of the university. The Grievance Officer is available to guide the student through this stage of the appeal process.

I A student can waive the right to appear before the Honor Council. The student should complete a Waiver of the Right to Appear Before Conduct or Honor Council available through the Office of the Dean of Student Services and the office of the Provost.

IV. The UHC Hearing

A At the start of each UHC hearing, the Chair informs all members of the confidentiality of the case and their obligation to uphold complete confidentiality throughout the university community.

B The UHC Chair presents a short overview of the case. The overview should contain all information and evidence pertinent to the case including evidence such as papers, exams, videotapes, photos, etc. The UHC may request the assistance of experts from the university community if the evidence is too technical or difficult for UHC members to comprehend.

C The suspected student must appear at the scheduled hearing unless he or she has completed a Waiver of the Right to Appear Before Conduct or Honor Council. If the student encounters an unforeseen emergency, he or she must present acceptable documentation supporting the emergency or the absence.
D The UHC may also call in witnesses if it is felt that their presence and testimony will provide information pertinent to the case. Character witnesses are not permitted nor are friends or family members of the suspected violator.

E At the start of the hearing, the UHC Chair asks the suspected violator if he or she understands the suspected violation and how he or she wishes to plead. All evidence will be shared with the suspected violator.

F The UHC then questions the suspected violator and witnesses involved with the case.

G Following the testimony provided by the suspected violator and witnesses, the UHC will deliberate and come to a conclusion regarding the case. The conclusion will also include a recommendation of a suitable sanction/punishment. All members of the UHC will vote on both guilt/innocence and the sanction/punishment. Voting will be by secret ballot and members are required not to disclose how they voted to anyone (including other UHC members) during and after the meeting.

H The UHC Chair will then compose a letter to the accused student informing him or her of the UHC decision regarding guilt or innocence and the penalty in case of guilt. This letter will be shared with all UHC members to ensure accuracy and proper wording. If approved by the UHC, the signed and dated letter will be sent to the student with copies to UHC members, the instructor of the course in which the violation took place, the Registrar (for filing in the student’s permanent file), the Chief Financial Officer (if needed, should the student be dismissed), the Housing Manager (if the student is dismissed and if he or she resides in the residence halls), and the Provost.

V. The Appeal Process

A Students who believe they have a valid basis to appeal the decision of the UHC have three working days from the receipt of the decision letter to appeal the decision. All appeals must be made in writing to the Office of the Provost.

B Granting of appeals is exceptional. Appeals may be granted if the UHC penalty was inappropriate (based on the penalties below), if new evidence becomes available, if the case was mishandled, and/or if a decision was made without the testimony of the suspected violator in the case of a documented emergency.

C If the UHC decision is overturned by the Provost, a new letter indicating the new decision will be sent to the UHC members, the instructor of the course in which the violation took place, the President, the Registrar and, if appropriate, the Chief Financial Officer and the Housing Manager.

VI. Penalties for Academic Integrity Violations

A Following careful consideration at the school Dean level (I.F above) or deliberation at the UHC level (III.D above), a penalty commensurate with the seriousness of the offense and the degree of student culpability will be determined from the menu below:

1. Zero on the graded work involved in the offense (normally applied to offenses reviewed at the school Dean level, although more severe penalties may not be ruled out)
2. A grade of F in the course
3. A grade of F in the course plus suspension in the academic term following the term in which the offense was committed
4. A grade of F in the course in which the offense was committed, immediate withdrawal from all courses in which the student is enrolled, and immediate dismissal from the university (dismissal is subject to ratification by the Provost before going into effect).

B. The penalty for second-time offenses can never be less than VI.A.3 above.

C. Students who aid in someone else’s cheating or plagiarism are equally at fault and will be sanctioned accordingly.

Students in need of clarification of the university’s Academic Integrity Policy may consult the Dean or Associate Dean of their School or their Department Chair.

**Computer Proficiency Examination**

Students who believe that on the basis of computer proficiency acquired prior to joining university they should be exempt from taking COMP 101 may sit for the AUD Computer Proficiency Examination. *If exempted, the student will be required to substitute COMP 101 with COMP 103, COMP 110 or ENGG 140. (Engineering Majors are not required to substitute any course if they have been exempted from COMP 101.)*

**Academic Support**

Academic support services include: individualized academic support counseling, access to tutoring and peer-tutoring, workshops and disability support services. These services are available in the Office of Student Services through the Student Support Manager.

**Academic Support Services**

Through the Math Tutor Center and the Writing Center, AUD provides valuable and complementary services for members of its community.

**Math Tutor Center**

The Math Tutor Center provides students enrolled in mathematics courses (including Math 098, 099, 111, 160, 191, 210, and 220) the opportunity to receive assistance in their efforts to be successful in these courses. The Center operates as a walk-in service. There is no need to make an appointment. The tutors who staff the Center include students who have demonstrated an excellent ability to understand mathematics as well as an ability to help others understand. Additionally, there are several full-time and adjunct faculty members who also help to staff the Center. Students are encouraged to utilize the Center as often as needed. The Center operates throughout the semester (except for the first week of classes and the week of final exams) and is open Sunday through Thursday.
Writing Center
The American University in Dubai offers the services of a Writing Center where all members of the AUD community (students/staff/faculty) can receive one-to-one assistance on writing tasks. Students can receive assistance on assignments at various stages of the process of completion. Assistance is provided by full- and part-time instructors on writing tasks in any discipline with a focus on developing overall academic writing skills. Throughout each semester, Writing Center staff offer workshops for all AUD members on various topics related to writing (i.e., sentence combining, in-text documentation).

Student Attendance
Students are expected to be in class for all scheduled class periods (including makeup classes). All matters related to student absences (making up work missed, tests missed, etc.) are specified in the course syllabus. Because the university believes that attendance in classes is an indispensable part of the learning experience, the following rules regulate attendance and grading:

- There is no difference between excused and unexcused absences. An absence is an absence;
- **Excessive absence, defined by the equivalent of two weeks (semester) or one week (summer session), may lower the student’s class participation grade.** The degree to which the class participation grade is lowered is at the discretion of the instructor, as clearly defined in the course syllabus;
- Absences are counted from the first day of the term.
- Students are expected to be in class on time.

The instructor will be responsible for denoting the attendance policy (including tardiness) and including guidelines for assessing class participation on the class syllabus. The policy for handing in assignments late is determined by the instructor and is stated on the class syllabus.

At the discretion of the Office of Academic Affairs, absences incurred due to participation in AUD-sponsored activities or sports tournaments may not figure in the calculation of a student’s total absences. The Provost/Chief Academic Officer in consultation with the Athletics Coordinator will determine if the tournament deserves official excused absence status (usually accepted tournaments include AUD hosted tournaments, overseas tournaments, and U.A.E. Higher Education Sports Federation Tournaments). Student-athletes are expected to notify their instructors as soon as they are aware they will be missing a class due to a status approved athletic competition.

Any student who is experiencing psychological distress and is unable to attend his or her scheduled classes must first see the AUD Counselor. The Counselor will carefully assess the student’s psychological state. Should the Counselor determine the student is unable to attend classes, the Counselor will immediately contact the Provost/Chief Academic Officer and inform him of the student’s condition. Respecting the confidentiality policy of counseling services, the Counselor will only disclose the minimal information needed to explain the situation. The Provost/Chief Academic Officer will authorize any absences, if any, from the course. (The student retains the options of withdrawing or seeking an Incomplete.)
**Faculty Delays**
There may be times when an instructor is delayed for class. The Administration requires that students wait 15 minutes after the scheduled beginning of the class for the instructor to appear. Should the instructor not appear within this 15-minute waiting period, the class is considered cancelled. Classes, which are cancelled due to instructor delay, will be made up.

**Grade Appeal**
Questions and concerns about grades often the result from misunderstandings about grading practices and expected standards. Direct communication between instructors and students usually clear up these misunderstandings. In some cases, however, a grade appeal is warranted.

Students have the right to appeal a grade and request a reconsideration of the assigned grade; however, they must provide sufficient, tangible evidence to support their request for a re-examination of the assigned grade. Reasons for reconsideration of a grade appeal may include:
- Miscalculation of marks;
- Misgrading of a paper, project or exam;
- Application of an evaluation or grading system which was not specified in the course syllabus;
- A departure from the instructor's previously announced standards;
- Assignment of a grade on some basis other than the student's performance in the course;
- *Demonstrable* evidence of discrimination or prejudice in the assignment of the grade;
- Arbitrary assignment of grade (lack of consistent and equitable standards for grading).

Grade Appeals will be dismissed if:
- Allegations by the student do not indicate erratic grading;
- The basis of the disagreement is with the instructor's particular grading standards;
- The appeal is not submitted within the given one month period subsequent to the issuance of the grade.

Students should follow the steps listed below to clarify any questions about a particular grade or the instructor's grading policy:
- The student should make an appointment with the appropriate instructor when there is any question about a particular grade or the instructor's grading policy. Students in the Study Abroad Program (SAP) may contact the instructor via telephone or email;
- The student seeking additional clarification related to grading should make an appointment with the appropriate Dean, Associate Dean or Chair;
- The student seeking further recourse related to a grade received should make an appointment with the Provost/Chief Academic Officer. The Provost/Chief Academic Officer will discuss the questions raised with the instructor, give the student a perspective regarding the grade and review the mechanism for appeal. The Grievance Officer is available to guide the student through the appeal process;
- The student may request a Grade Appeal Council to review the matter. Composition/operations of the Council parallel those of the Honor Council;
• In the event that the grade in question is received in a course taught by the Provost/Chief Academic Officer, the Dean, Associate Dean or Chair will discuss the matter with the President, give the student a perspective regarding the grade and review the mechanism for appeal. All grade appeals must be submitted within one month subsequent to issuance of the grade;
• If a student chooses to appeal a decision beyond the Grade Appeal Council decision, all documentation can be submitted to the Provost/Chief Academic Officer for review.

Additional information/documentation on the grade appeal process can be obtained at the Office of the Provost/Chief Academic Officer.

Scholarships for In-School Students
Scholarships will cover either 50% or 100% of tuition (for one academic year or one academic year and one summer session). Books, fees, housing, etc. are not covered by in-school scholarships.

Only two (2) scholarships per school or program will be in effect at any given time (e.g., the School of Business Administration has two scholarships, the School of Engineering has two scholarships).

Eligibility Criteria*. Students must:
• have achieved “senior status” (i.e., completed all but 30-32 credit hours) in their degree program.
• have a minimum CGPA of 3.5
• not have committed any Conduct Code violations.

General Education Exit Examination
As part of its assessment of student acquisition of general education competencies, The American University in Dubai administers General Education Entrance and Exit Examinations to entering freshmen and graduating seniors, respectively. *Sitting for these Examinations is mandatory.*

The General Education Exit Examination is administered twice yearly – once in each of the Fall and Spring semesters. The dates for these Examinations are announced within the first two weeks of the semester. Students completing degree requirements in either of the Summer sessions should sit for the Examination scheduled in the Spring semester.

**Fulfillment of a student’s request for a diploma will not be finalized until the Director of Institutional Effectiveness (see p. 124) confirms that the student has taken the General Education Exit Examination**

**Graduation/Diploma**
A student may not request a diploma any earlier than the scheduled date of graduation. An Intent to Graduate Form must be completed and returned to the Registrar’s Office prior the end of the student’s final semester. Failure to complete the *Intent to Graduate Form* by the specified date may result in either a delay in receiving the diploma or an additional charge.

Diplomas are available for personal pick-up by students at the Registrar’s Office. A student who prefers an alternative for collecting or receiving his or her diploma should consult the Registrar’s Office. (For purposes of graduation verification, the university can provide a letter [stamped] to the student until their diploma is issued.)

**Graduation Modalities**
In order to qualify for graduation, students must meet the following eligibility requirements:

**Academic**
- Minimum CGPA of 2.0 (3.0 in the case of M.B.A. candidates);
- Clearance by their Dean, Associate Dean or Chair and Provost/Chief Academic Officer that all program requirements have been met;
- Separately, only those students who complete the last 30 credit hours at AUD are eligible to be awarded an AUD degree.

**Administrative**
- Clearance by the Student Financial Affairs Officer for all financial aid requirements and financial obligations (including AED500 Diploma Processing Fee);
- Clearance by the Library for all financial obligations (if applicable);
- Clearance by Central Services if the student is on a university-sponsored visa.
Diploma
• Clearance by the Director of Institutional Effectiveness that the student (undergraduates only) has taken the General Education Exit Examination;
• Taking the Completion Survey (administered online);

AUD will award degrees at the end of the academic semester or summer session. A student may not request a diploma any earlier than the scheduled graduation date. For the purposes of graduation verification, the university will provide a letter (stamped) to the student until his or her diploma has been provided.

Participation in Annual Graduation Ceremony
The American University in Dubai holds its Commencement Exercises once a year following the Spring semester.

Undergraduate Candidates
In order to be eligible to participate, candidates for undergraduate degrees:
1. must be in good academic standing (cumulative GPA of 2.0 or higher) as of the end of the Spring semester; and
2. must have not more than two courses remaining for completion of their degree requirements (including thise for the minor, if any) by the end of the Spring semester preceding the graduation ceremony; and
3. must complete and sign an application form for participation in the graduation ceremony (available in the Registrar’s Office and online), which includes a commitment to take their remaining courses and complete their degree requirements as soon as those remaining courses are offered.

Students who are approved for participation in the graduation ceremony before completing all degree requirements, as described above, are not eligible for school awards or for recognition of graduation honors (Summa Cum Laude, Magna Cum Laude, Cum Laude) at the graduation ceremony. However, these designations will be reflected on transcripts and diplomas if they are justified by the students’ CGPA upon completion of all degree requirements.

Graduate Candidates
In order to be eligible to participate, graduate degree candidates:
1. must be in good academic standing (cumulative GPA of 3.0 or higher) as of the end of the Spring semester; and
2. must have not more than one course (3 credits, including Thesis or Internship) remaining for completion of their degree requirements by the end of the Spring semester preceding the graduation ceremony; and
3. must complete the remaining course not later than the Fall semester of the same academic year; OR (in the case of a Thesis) must have an approved Thesis Proposal with a completion timeline and an assigned Thesis Advisor; OR (in the case of an Internship) must have written confirmation of an approved Internship to be completed not later than the Fall semester of the same calendar year); and
4. must complete and sign an application form for participation in the graduation ceremony (available in the Registrar’s Office), which includes a commitment to take their remaining course and complete their degree requirements as soon as that remaining course is offered (not later than the Fall semester of the same calendar year, including Internships), OR, in the case of Theses, within the time limit for completion as governed by graduate program policy.

Graduate students who are approved for participation in the graduation ceremony before completing all degree requirements, as described above, are not eligible for the Graduate Award.

**Online Access To Grades**

All AUD students have the capability to access their grades online through the student portal. This practice is highly encouraged at AUD. Students should contact the Registrar’s Office on how to access the student portal.

**Special Programs**

**Study Tours**. One of the exciting opportunities for students at AUD is the opportunity to earn academic credit toward their degree while traveling on university-sponsored study tours. In the past, study tours have included New York, Paris, Milan and Florence. *A student may only receive credit (three hours) towards graduation for one study tour.* In order to register for a second study tour, a student must obtain the written approval of the Study Tour Advisor. Academic credit will be granted and a grade assigned for the second tour, but not in fulfillment of degree requirements.

Withdrawals from study tours are not permitted. Study tours are used by students to fulfill General Elective requirements and carry the following course codes: NYST 275 (New York) and ITST 275 (International). Professional Elective credit for study tours may be granted subject to assessment and approval by the head of the academic unit in which the student is enrolled, if activities included in the tour itinerary and the assignments included in the course syllabus for the tour sufficiently justify granting Professional Elective credit.

Should students majoring in a given discipline wish to take a study tour specific to that discipline, the Office of the Provost will, on the recommendation of the head of the academic unit housing that discipline, consider authorizing such a tour to fulfill Professional Elective requirements. In such cases, the course discipline-specific code will be used (e.g., BUSI, VICD,IDES).

Study Tours are graded on a Pass (P or P+)/Fail (F) basis.

**Cultural Tours**. The Division of Student Activities organizes non-credit cultural trips. These are great opportunities for AUD students to broaden their horizons by visiting new countries and learn about other cultures while having FUN with fellow AUD students. Past trips have included winter trips to France, Austria and Switzerland. Further information about AUD cultural trips can be obtained from the Coordinator of Student Activities. Students participating in study and cultural tours will be required to abide by rules and regulations established for the trip, the AUD Waiver of Liability, and the AUD Disclaimer to Parents.

ABOUT AUD CAMPUS/CITY
Rich in Islamic tradition and supported by oil and tourism revenue, Dubai is a modern city rooted in centuries of Arab culture and values. Since the formation of the United Arab Emirates in 1971, Dubai has emerged as a Middle Eastern hub for multinational businesses and a playground for sport enthusiasts. Skyscrapers tower above traditional mosques and women in burkha (traditional head and face covering worn by Muslim women) share city sidewalks with business executives. The “Pearl of the Gulf” combines the bustle of a busy port city and international business center with a reverence for Muslim tradition to create a city abundant with opportunities.

Arabic is the official language of the United Arab Emirates, but English is also used widely in business and casual conversation. With a blend of the traditional and modern, as well as a high level of respect for various customs and religions, Dubai is a favorable destination.

Several excellent guidebooks are published about Dubai and the United Arab Emirates. Additionally, comprehensive web sites highlight events, activities, sports, shopping, and businesses.

The campus of The American University in Dubai is the material expression of the university’s mission and character. Two words come to mind in describing this campus – American and world-class: “American” because of its sobriety and Jeffersonian architectural rigor; “world-class” because of the notable quality of the physical plant and accompanying facilities.

Indeed, the facilities that comprise the multi-edifice campus are nothing less than impressive, whether they be found in the academic wings, Student Center, student and faculty housing or administrative complex. Specifically, 15 buildings dot the campus today, a Student Center, housing indoor sports facilities, food court, 50 offices and 20 classrooms/labs in addition to several other amenities being the latest addition.

Advanced technology supports all aspects of campus operations; most appropriately, the delivery of the university’s academic programs. Specifically, 8 computer labs with both IBM and Macintosh hardware form the basis for instruction in information systems and business administration. Two language laboratories serve to enhance teaching effectiveness in the university’s intensive/academic English courses. The Blackboard system is deployed to provide instructional support in all courses offered by the university, and students can access it from any location in the world where there is Internet connectivity.

The School of Architecture, Art and Design maintains several studios, labs, and other spaces that provide a fully professional setting for AUD students enrolled in the School’s programs. The studios represent the wide-ranging tasks students in these programs are required to complete: a 2D Design studio, an Advertising Studio, a Graphic Design Studio, a Painting/Drawing Studio, a Photography and general use Studio, a B&W Photography Darkroom, a Lighting Studio, a Senior Studio, and two PC Computer/Design Studios (combined 38 PCs). Likewise, the labs available in the School provide appropriate facilities for a variety of tasks/projects: a Digital Media Computer Lab/Studio (18 Laptop Stations, 4 Mac Pro Editing Suites), One Computer Lab (21 Workstations), One PC Computer Lab/Design Lounge (18 Macs), and two Computer Labs with 41 Workstations. All labs are fully equipped with the latest software, such as Auto CAD, CS, Final Cut Pro, Cinema 4D. Labs are also equipped with a full range of scanners and other creative arts peripherals. In addition to the computer resources, the School also maintains a dedicated Model and Furniture Making Workshop, a fully equipped Exhibition Gallery, and extensive printing facilities with two-color A3 size
printers, two Xerox® 7800DN, a Xerox® 7760GX, an Epson® Pro 4800 Mini Plotter, three HP® large format plotters, and an Epson® 9900 large format photography printer. Other spaces in the School include two fully-equipped lecture halls, two lecture rooms, and a resource room where students can check out materials/equipment.

Outside the School’s main building, students and faculty have access to three additional structures, all with professional-quality facilities. The School Annex houses ten faculty offices, a laser-cutting shop, two Architecture Studios, a Printmaking Lab, and a 3D Studio and Woodworking Shop. The recently constructed Design Center serves as a resource, both for research and in terms of outreach to the region’s architectural community. Finally, the Glass House includes two Architecture Studios and one large Studio/Student Lounge.

The Mohammed Bin Rashid School for Communication (MBRSC) provides its students in Digital Production/Storytelling and Journalism programs with state-of-the-art facilities to assist them in the completion of their tasks/projects. A CISCO TelePresence™ 3210 resides in MBRSC’s Global Classroom and serves as a high-technology medium for lectures by the most accomplished media academicians and professionals from around the world. The School houses a fully equipped, soundproof TV studio and control room with three cameras, state-of-the-art lighting, vision and audio mixers, lighting console and a multi-viewer screen. For other assignments, students have access to “shooting kits” which contain HD cameras as well as lighting and sound equipment. For post-production work, the School provides its students with two Mac Computer Labs (total 36 stations) and six individual editing suites that run Final Cut Pro™ and Avid™ editing software. To its list of facilities, the MBRSC recently added a 36-seat Screening Room, which is equipped with a high caliber projector and sound system.

AUD’s School of Engineering houses several labs. The Physics Lab is equipped with Pasco® equipment for conducting a broad range of experiments in motion dynamics, electricity and magnetism. The Engineering Computer Labs house over 100 PC’s, equipped with educational and professional Engineering software including MatLab®, Maple™, PSPICE®, AutoDesk®, Primavera®, GeoSuite™, ETABS®, SAFE™, SAP2000®, and Haestad Methods® software.

The Electrical and Computer Engineering Labs comprise 14 stations with complete sets of oscilloscopes, digital multimeters, triple DC power supplies, logic analyzers, function generators, operational amplifiers, and semiconductor curve tracers. The labs are also equipped with educational equipment for electric power systems including DC motors, 3-phase motors, transformers, induction motors, and variables speed drives. The Civil Engineering Labs are equipped with concrete and steel testing equipment, theodolites and total stations for field surveying, environmental water and air quality measurement and water treatment systems, and material and geotechnical equipment for specific gravity, hardness, toughness, soil classification, compaction, permeability, consolidation, direct shear and triaxial testing. The Mechanical Engineering Labs house heat and mass exchange units, as well as a fully equipped Engineering shop with CAD and CNC machines, and 3D printers. The Civil and Mechanical Labs also house an Instron® Universal Testing Machine, as well as multiple workstations for fluid dynamics and hydraulic experiments.
The accomplishment of AUD’s objective to deliver a genuinely American education is facilitated by the sports facilities (soccer field, outdoor track, tennis/volleyball/basketball courts, swimming pool) and other space that provide students with the opportunity to engage in extracurricular activities which constitute student life on a typical US-based campus. A 900-seat auditorium serves as a venue for student assemblies, conferences, and cultural events. A Student Center, housing indoor sports facilities, was inaugurated in September, 2008. A central indoor stadium is designed so that it can be dismantled into two independent courts used for indoor football, handball, basketball or volleyball. This stadium has a capacity of 2,500 spectators, in addition to an outdoor spectator’s gallery that faces the soccer field and accommodates a public of 300. Separately, there are two squash playgrounds and a 1,600-square feet gymnasium for males and females and an aerobics/dancing/music room.
FINANCIAL INFORMATION
**Tuition and Fees (eff. Academic Year 2013-2014)**

University institutional policy requires all students to pay tuition and fees in advance. A student whose account is delinquent will not be allowed to register for the subsequent semester until the balance owed is paid in full.

Students are advised that the levels of tuition and fees reflected apply to Academic Year 2013-2014. Recent (i.e., last three years) tuition increases have been in the range of the 4-5% per annum. Any future hikes in tuition, if any, are expected to be within this range.

Study Abroad Program (SAP) students receiving financial aid may be allowed a tuition deferment based upon the anticipated receipt of funds. This is granted solely at the discretion of AUD, based on the official notice of approval from the granting or lending agency.

The university evaluates institutional tuition and fee rates in the second semester of each academic year, and rates may be subject to change at the beginning of the following academic year.

*(The standard academic year is comprised of the Fall [September] and Spring [January] semesters. There are two Summer sessions [May and July].)*

In order to meet this requirement by enrolling in the AUD-sponsored health insurance plan, students are charged a non-refundable fee on their Fall semester bill covering the period September 1 through August 31.

For this fee to be waived, students are required to provide evidence of currently valid private health insurance covering care in the U.A.E. (original insurance card) to the Finance Office. Deadline to do so is the last day of the Fall semester Drop/Add (see AUD Academic Calendar).

Failure to provide this evidence before the deadline will result in cancellation of the option to waive the health insurance coverage and associated fee.

**Explanation of Fees and Expenses**

**Application Processing Fee**. A non-refundable application processing fee of AED200 must accompany the Application for Admission.

**Reservation Deposit**. A reservation deposit (non-refundable) of AED5,000 (for undergraduate applicants) and AED2,000 (for graduate applicants), which is fully applied toward tuition, is required upon acceptance for admission (provisional or other). Due to the high number of applicants, undergraduate students are requested to pay this deposit within two months of the start of the term of entry. No application will be accepted after this date without the reservation deposit. **The reservation deposit is non-refundable unless the application is rejected by the Admissions Office.**

**Entrance Exam Fee**. AED300 (non-refundable)

**Late Registration Fee**. A late registration fee of AED1,000 will be charged for those registering after the final advising and registration date set for the semester (see AUD Academic Calendar).

**Books**. Students are responsible for buying their own books. Book expense is not included in the tuition.

**Graduation Processing Fee**. A non-refundable diploma fee of AED500 will be billed to students earning degrees.

**Middle Eastern Studies Certificate fee**. A non-refundable fee of AED200 will be billed to students to cover processing and production of the Middle Eastern Studies Certificate.

**Part-Time Undergraduate Students**. An undergraduate student taking less than 12 credit hours per semester is considered part-time. The fee per 1 credit hour is AED3,250.

**Health Insurance (Mandatory)**. A fee of AED1,800 per year is mandatory for Health Insurance. Students showing proof of having their own private health insurance plan will be exempted.

- AED12,500* (single)

A one-time, refundable security deposit of AED1,000 is required. This one-time security deposit is payable with the student's first housing payment. Housing charges are subject to change. In the summer sessions, housing fees are AED5,700 for a shared room and AED8,500 for a single room*.

* Single rooms are not available and will not be guaranteed at all. In the event that there are cancellations and there is availability of rooms, applications for single rooms will be considered.

A housing reservation fee of AED2,500 is required to reserve a place in the residence halls. This is payable according to the following schedule:
