FROM THE OFFICE OF THE PRESIDENT...

It is my pleasure to preface the AUD 2011-2012 Undergraduate Catalog. The university’s scope and its two-pronged approach to education (i.e., career preparation and “whole person” development) are reflected throughout its pages.

His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, for whose support The American University in Dubai is infinitely grateful, recognizes that it is ultimately through education that the UAE and Dubai will achieve the goal of sustainable prosperity and peace – requisites for a society in which each individual can contribute according to his or her unique capabilities. At AUD – Dubai’s American university – it should be no surprise, therefore, that a commitment to excellence, societal relevance, and an appreciation for lifelong learning sets the context for how education enriches the individual as a means to impacting society.

This AUD Undergraduate Catalog provides a snapshot of the academic programs, degree requirements, and policies presently in force at AUD. It also serves to profile the university, providing a useful look at its Mission, Philosophy, and Goals. Current and prospective students should consult the Catalog for information pertinent to their area of study. Other members of the university’s constituencies will derive valuable insight into the breadth of educational endeavor at The American University in Dubai.

Our schools and departments would be pleased to answer any questions the reader may have on Catalog contents. Comments are appreciated.

Lance Edward de Masi
President

- AUD Degree Profile
OVERVIEW

The American University in Dubai is a private, non-sectarian institution of higher learning founded in 1995. AUD’s enrollment in 2010-2011 averaged 2,628 students. In Spring 2011, ninety-four nationalities were represented in the AUD student body.

AUD offers both undergraduate and graduate degrees and a Certificate in Middle Eastern Studies.

A four-year Bachelor’s (B.B.A.) degree is offered in Business Administration (with optional majors in Accounting, Economics, Finance, Management, Marketing, and Marketing Communications). B.F.A. (Bachelor’s of Fine Arts) degrees are offered in Visual Communication (with majors in Advertising [Creative], Digital Media, Graphic Design, Photography, and Studio Art), and Interior Design (with an optional emphasis in Integrated Computational Design).

The university also offers the Bachelor’s of Science degree in Computer and Information Technology (B.S.C.I.T.)* with optional majors in Application Development for Commerce and Industry, Database Development and Operations and Network Infrastructure Design and Administration and a Bachelor’s of Communication and Information Studies (B.C.I.S.) with majors in Digital Production and Storytelling, and Journalism. The AUD School of Engineering, established in 2001 through collaboration with the Georgia Institute of Technology, offers the Bachelor’s of Science (B.S.) degree in Civil, Computer, Electrical, and Mechanical Engineering.

AUD’s five-year undergraduate degree offering is the B.Arch. (Bachelor of Architecture).

The Master’s of Business Administration (M.B.A.) is offered as a generalist degree, with the option to specialize in Finance or Marketing. It consists of a twelve-course curriculum delivered in the evening.

Effective Fall 2011, The American University in Dubai offers four new degree programs: the Bachelor of Arts in International Studies (B.A.I.S.), Bachelor of Science in Computer Science (B.S.C.S.), Master of Education (M.Ed.), and Master of Science in Construction Management (M.S.C.M.).

In addition to courses in their chosen program/major, undergraduate students in all disciplines must follow a curriculum in Arts and Sciences. This is in fulfillment of the general education portion of their degree requirements.

Through its Center for English Proficiency (CfEP), the university also conducts Intensive English programs designed to develop university-level English language skills in students requiring additional language study before commencing university.

The university’s faculty possess appropriate academic credentials. Furthermore, many are or have been practicing professionals of note. In terms of faculty composition, North Americans have the highest representation of any national group.

AUD’s multi-complex facility has been conceived with the objective of supporting the university’s programs (both academic and extra-curricular) to an American standard. The campus surroundings include Dubai Internet City and Media City.

Lebanese Baccalaureate (1986)
The American University in Dubai seeks to duplicate this American recipe for success. Syllabi and textbooks are often the same as those used in similar courses taught in the United States. In addition, the predominance of American and American-trained faculty further ensures that the university be American in substance as well as in name. Expectations of academic performance either match or exceed those prevailing on a “typical” American campus.

But as with any institution of higher learning, The American University in Dubai – although working within an American framework – has developed a character of its own. This is in large part inspired by its sensitivity to the needs of the student populace of the Middle Eastern terrain in which it operates. While the university’s faculty tend to be more teaching-than research-oriented, there are several members who enjoy a professional status of note.

AUD’s curricula across its degree-granting disciplines is built on the need to achieve specific learning outcomes, often required by the professions. Everything, from academic advising to the approach to faculty-student interaction in- and outside the classroom, in addition to career counseling, is implemented...
with attention to the needs of the individual student. It is for this reason that class sizes are relatively small, and all faculty follow an “open door” policy with regard to consultation. Finally, the globalization of business and communications makes it imperative that the university’s educational programs be delivered with an international perspective and that a tolerance for cultural diversity be promoted through both curricular and extra-curricular activities.

The American University in Dubai remains convinced that since its opening in 1995, it has made great strides towards developing a culture of excellence by combining the heritage of traditional American education with those perspectives it has matured locally. The university looks forward to further collaboration with the local community in its continuous search for relevant educational programs delivered to global standards.

ACCREDITATION AND LICENSURE

SUMMARY

- The American University in Dubai is accredited by the Commission on Colleges (COC) of the Southern Association of Colleges and Schools (SACS) to award Bachelor’s and Master’s degrees (see www.sacscoc.org). Contact the COC at 1866 Southern Lane, Decatur, Georgia, 30033 or call 404-679-4500 exclusively for matters specific to the accreditation of The American University in Dubai.

- AUD is officially licensed by the Ministry of Higher Education and Scientific Research of the United Arab Emirates. The Ministry has accredited the university’s programs in International Studies, Business Administration (both undergraduate and graduate), Communication and Information Studies, Engineering, Computer and Information Technology, Computer Science, Architecture, Visual Communication and Interior Design, Education (graduate), and Construction Management (graduate), in addition to a Certificate program in Middle Eastern Studies.

- AUD is approved to operate by the State of Georgia Nonpublic Postsecondary Education Commission (NPEC).

UAE Ministry: PO Box 45133, Abu Dhabi, UAE; tel: +971-2-642-7772

NPEC: 2082 East Exchange Place, Suite 220, Tucker, Georgia 30084-5305; tel: +1-770-414-3300
• The American University in Dubai has received specialized accreditation for its business programs through the International Assembly for Collegiate Business Education (IACBE), located in Olathe, Kansas. The business programs in the following degrees are accredited by the IACBE:

  - Bachelor of Business Administration (B.B.A.), with majors in Accounting, Economics, Finance, Management, Marketing and Marketing Communications

  - Master of Business Administration (M.B.A.), with concentrations in Finance and Marketing,

IACBE: PO Box 3960, Olathe, Kansas 66063 USA; tel: +1-913-631-3009

• The university’s undergraduate majors in Marketing Communications and Advertising (Creative) have been accredited by the International Advertising Association (IAA) in New York.

IAA World Service Center: 521 Fifth Avenue, Suite 1807, New York, NY 10175; tel: +1-212-557-1133

• The Civil, Computer, and Electrical Engineering programs of AUD’s School of Engineering are accredited by the Engineering Accreditation Commission of ABET.

ABET: 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, tel: +1-410-347-7700

• The Bachelor of Science in Computer and Information Technology (B.S.C.I.T.) program is accredited by the Computing Accreditation Commission of ABET.

ABET: 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, tel: +1-410-347-7700

MISSION AND GOALS
AUD Mission
The Mission of The American University in Dubai is to fulfill the broad educational needs of a culturally diverse student body by achieving excellence in teaching and learning, ultimately resulting in the intellectual,
personal, and professional success of its graduates and the advancement of society.

**Philosophy and Purpose of the University**

The university community believes it has a special commitment to support each individual’s goals. To this end, the university places emphasis on the educational, professional and personal growth of each student. AUD, as an international institution of higher education, encourages global understanding by providing an atmosphere of cultural diversity and opportunities for international education. Programs, policies and activities – which have been designed to implement this Philosophy and Purpose Statement – are evaluated periodically and changed, as necessary, to meet the needs of the student body and the institution.

**Purpose-related Goals of the University**

In support of its Mission and Philosophy, AUD’s Goals are as follows:

• To cultivate and reward excellence, especially as it affects the imparting, acquisition, and advancement of knowledge;

• To guide students in the use of their knowledge and skills for personal and professional fulfillment;

• To foster an appreciation of the history and on-going development of human culture;

• To develop critical thinking, effective communication and lifelong learning skills;

• To promote the value of ethical behavior, responsibility, and commitment;

• To provide academic programs, services, facilities, and technologies that offer diverse opportunities for learning;

• To recruit and retain a diverse faculty of qualified educators, providing them with the environment and opportunity to flourish;

• To foster intercultural understanding as a basis for preparing students as members of a global community;

• To contribute to the economic and societal development of Dubai, the United Arab Emirates and beyond.
Excellence – AUD values excellence in all that it does and is committed to continuous improvement in its educational offerings and services;

Integrity – AUD values honesty and transparency and has high standards of legal-adherence, morality and ethics;

Service – AUD values all of its constituencies and partners with its stakeholders in the achievement of their objectives and aspirations;

Diversity – AUD values diversity in all its manifestations and recognizes its contribution to the quality of university life;

Tolerance – AUD values respect and open-mindedness as proper responses to concepts, opinions and customs that are diverse, new or unfamiliar;

Accountability – AUD believes that all members of the university community are responsible for fulfilling their roles in support of the institutional Mission
and Purpose-related Goals and that evaluation of individual performance should be based on the degree to which this responsibility is satisfied.

STATEMENT ON RESEARCH
The American University in Dubai is a teaching-focused institution of higher learning. This is consistent with the university’s belief that the most relevant contribution it can make is to graduate students prepared to meet the needs and challenges of a dynamic Middle East and world subject to constant and rapid change. In addition to engaging in on-going efforts to improve pedagogical effectiveness, faculty exercise their role in the achievement of this objective through professional interaction and scholarly activity. The latter may take the form of applied or non-applied research and serves to either expound or expand a body of knowledge, while enhancing the currency of the faculty member’s knowledge base.

AUD’s Policy on Support for Faculty Research, Scholarly and Creative activities, found in the Faculty Handbook, outlines mechanisms such as course buyouts for faculty members who secure external grant funding, competitive faculty-student mentorship grants, teaching load reductions for faculty members who teach graduate-level courses, and a competitive faculty teaching offset program for faculty members who submit well-developed research, scholarly or creative activity plans.

FACILITIES
The campus of The American University in Dubai is the material expression of the university’s Mission and character. Two words come to mind in describing this campus – American and world-class: “American” because of its sobriety and Jeffersonian architectural rigor, “world-class” because of the notable quality of the physical plant and accompanying facilities.

Indeed, the facilities that comprise the multi-edifice campus are nothing less than impressive, whether they be found in the academic wings, student and faculty housing or administrative complex. Specifically, 14 buildings dot the campus today, a Student Center, housing indoor sports facilities, food-court, 50 offices and 20 classrooms/labs - in addition to several other amenities - being the latest addition.

The accomplishment of AUD’s objective to deliver a genuinely American education is facilitated by the sports facilities (soccer field, outdoor track, tennis/volleyball/basketball courts, swimming pool) and other space that provide students with the opportunity to engage in extracurricular activities which constitute student life on a typical US-based campus. A 900-seat auditorium serves as a venue for student assemblies, conferences, and cultural events. A Student Center, housing indoor sports facilities, was inaugurated in September, 2008. A central indoor stadium is designed so that it can be dismantled into two independent courts used for indoor football, handball, basketball or volleyball. This stadium has a capacity of 2,500 spectators, in addition to an outdoor spectator’s gallery that faces the soccer field and accommodates a public of 300. Separately, there are two squash playgrounds and a 1,600-square feet gymnasium for males and females and an aerobics/dancing/music room.

Advanced technology supports all aspects of campus operations; most appropriately, the delivery of the university’s academic programs.
Specifically, 15 computer labs with both IBM and Macintosh hardware form the basis for instruction in IT, business administration and the applied arts. Two language laboratories serve to enhance teaching effectiveness in the university’s intensive/academic English courses.

The Blackboard system™ is deployed to provide instructional support in all courses offered by the university, and students can access it from any location in the world where there is Internet connectivity.

AUD’s School of Engineering houses several labs, including those used by students in the Computer Science and CIT programs. The physics lab is equipped with Pasco equipment for conducting a broad range of experiments in motion dynamics, electricity and magnetism. The engineering computer labs house over 100 PC’s, equipped with educational and professional engineering software including MatLab, Maple, PSPICE, AutoDesk, Primavera, GeoSuite, ETABS, SAFE, SAP2000, and Heastad Methods software.

The Electrical and Computer Engineering Labs comprise 14 stations with complete sets of oscilloscopes, digital multimeters, triple DC power supplies, logic analyzers, function generators, operational amplifiers, and semiconductor curve tracers. The labs are also equipped with educational equipment for electric power systems including DC motors, 3-phase motors, transformers, induction motors, and variable speed drives. The Civil Engineering Labs are equipped with an Instron Universal Testing Machine, a concrete cruscher, and materials and geotechnical equipment for specific gravity, hardness, toughness, soil classification, compaction, permeability, consolidation, direct shear and triaxial testing. The labs also house multiple workstations for fluid dynamics and hydraulic experiments, as well as theodolites, and total stations for field surveying.

**STATEMENT ON INTEGRITY**

As an institution committed to quality, The American University in Dubai views integrity as an underlying tenet to its Mission and Purposes. The university uses the integrity tenet as a foundation for all of its operations, services, and programs. Integrity serves as an integral foundation to university governance at the level of the Governing Board and
in all university operations, institutional representations, advertising, marketing, and services. Honesty and integrity are essential to these functions and serve as the basic contract defining the relationship between the university and its constituencies.

The intention of the university is to advance the intellectual and social condition of learners in a diverse society through quality academic programs, services and other learning opportunities. The university strives to provide students with a learning environment anchored by the highest caliber of instruction built on a solid intellectual and ethical foundation.

INSTITUTIONAL EFFECTIVENESS
AUD is committed to continuous improvement of its academic programs and student services. Assessment at AUD is an ongoing process that evaluates the effectiveness of every aspect of the university. Data are regularly gathered and analyzed for the purpose of making improvements where needed. The university’s model of institutional effectiveness and planning is based on the student as the center of the educational experience. Thus, students, along with all other university stakeholders, may be asked to participate in various types of assessment activities, including surveys, focus groups, and faculty review of course outcomes.

Stakeholder confidentiality is protected in all university assessment processes.

The information gathered from assessment activities is used to improve student learning, services, and the overall institution. AUD requests student involvement in the assessment process to further enhance the benefits to students and their educational experience.

MISSION
The Mission of the Admissions Office at AUD is to provide excellent service to all prospective students and to ensure that the admissions process is completed in a timely and comprehensive manner.

PURPOSE
Pursuant to the Mission of AUD, the Admissions Office consists of a professional team that assists prospective students gain accessibility to opportunities in higher education. The Admissions team is held to a high level of integrity and is charged with providing quality service and accurate information to all students. AUD admits to its degree programs students who possess appropriate credentials and the demonstrated capacity and potential to successfully complete the educational programs provided by the university and meaningfully participate in the total educational experience offered by AUD.

GOALS
• To provide accurate information on educational opportunities to prospective students; and
• To recruit students consistent with AUD’s goals;
• To provide quality services to prospective and new students;
• To provide access to higher education.

ADMISSIONS PHILOSOPHY
A hallmark of AUD is its culturally diverse student population. AUD students come from many different countries and backgrounds and bring a wide range of viewpoints, special interests and talents to enrich the learning community. Selection of students is based on an individual assessment of each applicant. Final acceptance is not granted until the university has received all required admissions documents. To assist the admissions personnel in making informed decisions, an admissions interview may be required.
First-Time Freshman
AUD seeks well-rounded students who demonstrate a probability for success in the institution’s programs of study. To this end, AUD will take into consideration such factors as high school completion, recommendations from school personnel familiar with the potential of applicants, leadership and student activity records, scholastic achievement test scores, evidence of school and community service, student work or employment records, and distinctive talents or abilities possessed by applicants.

College Transfer Students
AUD seeks students who can build on their previous university educational experiences and move successfully to complete degree programs of study. In applicable academic programs, transfer credit may be accepted by AUD from recognized institutions. Courses accepted for transfer must be relevant to the program of study, and the content and outcomes must be considered as equivalent to the courses and outcomes of the AUD degree program.

Other
Applications from Visiting and Study Abroad Students are also welcome.

GENERAL

Documentation
Students should be aware that all original records, letters and other documents provided to AUD as part of the admissions process will remain university property. Physical records for rejected applicants and “no-shows,” which are not collected within two years of submission, are destroyed.

High School Certificate Attestation
Applicants from schools in the UAE who intend to seek UAE Ministry of Higher Education and Scientific Research attestation of their university degrees should consult the Ministry for the requirements of high school attestation/equivalency prior to commencing their studies at AUD.

• High school diplomas and transcripts obtained in the UAE must be attested by the UAE Ministry of Education

High school diplomas and transcripts obtained abroad must be attested by:
(1) the Ministry of Education of the country of study; (2) the Ministry of Foreign Affairs in/of that country; and, (3) the UAE Embassy in that country or the Embassy of the country of study in the UAE and the UAE Ministry of Foreign Affairs.

Process/Requirements
The university reserves the right to evaluate the adequacy of all credentials submitted for admission. Furthermore, students are reminded that omission or falsification of information constitutes sufficient reason for rejection or dismissal. This dismissal, requiring the President’s approval, may occur at any time during a student’s residence at AUD; that is, upon discovery of the omission/falsification.

All students seeking admission to the university must submit the following:
• A completed Application for Admission.
• Non-refundable application fee of AED 200. A reservation deposit (non-refundable) of AED 5,000, which is fully applied toward tuition, is required upon acceptance (including conditional) for admission. Due to the high number of applicants, students are requested to pay this deposit within two months of the start of the term of entry. No application will be accepted after this date without the reservation deposit.
• An official UAE high school/secondary school certificate or its equivalent as approved by the Ministry of Education.
and an official high school/secondary school transcript (academic record) in the original covering the last three years and reflecting a good academic standard. (Required averages vary by school systems. Students should consult an AUD Admissions Coordinator for pertinent requirements.)

For British qualifications, the following standard applies to IGCSE/GCE: grade “C” or above. AS-level and A-level will also be considered. A combination of seven subjects (O/AS/A) or four subjects (AS/A) may be submitted. Proof of 11 years of school is required for students applying with IGCSE subjects.

• International TOEFL® score of 550 (CAT 213) + TWE of 4.0 or Internet-based TOEFL score of 79-80 + writing skills range 24-30 is required or the equivalent score on another internationally-recognized exam (English). AUD’s international code for TOEFL® is 0063.

• The SAT Reasoning Test or the appropriate score on the university-administered ACCUPLACER™ Exam (Math). AUD’s international code for SAT is 2688. Students in possession of SAT scores, provided the sum of the Critical Reading and Math is at least 1,000 (with a minimum of 320 in Critical Reading and a minimum of 560 in Math) for B.A.I.S., B.B.A., B.S.C.E./B.S.COM.P.E./B.S.E.E./B.S.M.E., and B.S.C.S., will be exempt from taking the ACCUPLACER™ Exam (Math). For B.C.I.S., B.Arch. and B.F.A. applicants, the sum of the Critical Reading and Math must be at least 900 (with a minimum of 320 in Critical Reading and a minimum 550 in Math) for exemption from taking the ACCUPLACER™ Exam (Math).

Placement in Mathematics for applicants to the Bachelor of Architecture program is described on p. 30 of this Catalog.

The SAT is required for Engineering applicants (see p. 29 of this Catalog).

• An official letter of recommendation from one referee (high school teacher) endorsing the student’s ability to successfully complete university work. The letter should be in the original, on letterhead, stamped and sealed. If they prefer, students may use the reference forms found in the AUD Admissions Kit for this purpose.

Transfer and visiting students (see below) are not required to submit letters of recommendation.

• Two passport-size photographs and colored passport photocopy.

TRANSFER STUDENTS

In addition to the above requirements, students transferring into AUD should submit:

• official transcripts reflecting courses for which transfer credit is sought (Transfer Students must be in good academic standing [i.e., with a minimum 2.0 CGPA on a 4.0 scale or equivalent] at the institution from which they are transferring. AUD may require higher than this 2.0 minimum CGPA. As this depends on the university from which the student is transferring, all transfer applicants should consult the AUD Admissions Office for the requirement pertinent to his/her institution).

• course descriptions and syllabi for all courses for which transfer credit is sought (Students should be aware that they will be held responsible for enrolling in any course at AUD prior to receipt of required course descriptions.).

•
Separately, requests for transfer credit that accompany late applications (i.e., those received two months or less prior to the original date of entry) may not be processed prior to the beginning of the semester of first enrollment.

Transfer credit is accepted by AUD solely at its discretion. In the case of courses taken five (5) or more years prior to enrollment, the “age” of such courses may be reason for refusal of transfer credit, contingent upon the assessment of the Dean or Chair of the academic unit for which transfer credit is sought.

In order for AUD to consider transferring credit from an institution, this institution must be licensed or officially recognized by the Department/Ministry of Education of the country where it is in operation.

Regulations governing the awarding of transfer credit are contained on pp. 99-100 of this Catalog. Transfer students should read these pages carefully.

**VISITING AND STUDY ABROAD STUDENTS**

*Students joining AUD for one semester or more with the intention of transferring credits back to their home institution (i.e., visiting) should submit the following documents:*

- A completed *Application for Admission*.
- Non-refundable application fee of AED 200. Due to the high number of applicants, students are requested to pay a (non-refundable) deposit of AED 5,000, which is fully applied toward tuition within two months of the start of the term of entry. No *Application will be accepted after this date without the reservation deposit.*
- Official transcript from university. A minimum CGPA of 2.0 on a 4.0 scale or the equivalent of good academic standing is required.
- Letter of approval from the student's university for the courses to be taken at AUD and are targeted for transfer to the student's program at the home institution.
- International TOEFL® (min. score required is 550/CAT 213 and 4.0 TWE or Internet Based 79-80 + writing skills range 24-30) or the equivalent score on another internationally-recognized exam (English). Original TOEFL® score required for verification. AUD’s international code for TOEFL® is 0063. *This requirement may be waived for non-native English speakers who are studying at American-accredited institutions.*
- Two passport-size photographs and colored passport photocopy.

**ADVANCED STANDING CREDIT**

Students desiring to request credit evaluations for advanced standing credit, including standardized assessments and proficiency examinations, should contact the Admissions Office for information on university processes and procedures for advanced standing.

**STANDARDIZED ASSESSMENT**

In addition to college credit earned at accredited postsecondary institutions, the
following can also be evaluated for lower-level academic credit equivalency at AUD:

- College-Level Examination Program (CLEP) or DANTES Examination (DSST)
- Advanced Placement (AP) Examination

NOTE: Transfer credit or proficiency credit awarded for CLEP, AP or DANTES cannot be used to meet the university’s residency requirement.

Applicants should contact the Admissions Office for Advanced Standing requirements.

CLEP is a national (i.e., USA) program of credit by examination to obtain recognition of college level achievement. AUD is a registered CLEP credit granting institution and students should consult www.collegeboard.com to find a CLEP examination center in their area. AUD awards proficiency credit for lower level comparable coursework based on CLEP examination scores as recommended by the American Council on Education (ACE) for the respective lower level course requirements. Students must submit an official CLEP score report to be evaluated for this proficiency credit award.

DANTES Subject Standardized Tests (DSST) provide another option for students to demonstrate competencies for learning in non-traditional ways. Originally designed for military service members, DANTES examinations are now available to both military and civilian learners. More information on study guides and examination options is available at www.getcollegecredit.com. Proficiency credit is awarded for passing scores according to ACE recommendations for the respective lower level course requirements. Students must submit an official DANTES score report to be evaluated for this proficiency credit award.

Examinations are available in the following areas:
- Business
- Composition and Literature
- Foreign Languages
- History and Social Sciences
- Science and Mathematics

Advanced Placement (AP) Examinations provide students with the opportunity to complete college-level coursework while in high school and to gain valuable skills and study habits for college. If a student achieves a qualifying score of 3 or higher on the respective AP Examination, proficiency credit is awarded according to ACE recommendations for the respective lower level course requirements. Students must submit an official AP score report to be evaluated for this proficiency credit award.

ACADEMIC PROFICIENCY ASSESSMENT
As previously noted, selection of students for admission into degree programs of study is based on an individual evaluation of each applicant’s capability or potential for successful completion of the program. To assist the institution in academically advising students, assessment of academic proficiency is required for all undergraduate first time applicants and transfer students who have not satisfied the institution’s English/Mathematics requirements. AUD will use the results of this assessment to determine appropriate academic placement and the need for developmental course work.

If it is determined that a student does not possess the minimal standards of proficiency in language, reading or mathematics, he or she will be enrolled in the appropriate developmental course.
DEVELOPMENTAL STUDIES

Developmental studies courses enable the university to accept students (either into mathematics courses or the Intensive English Language Program [IELP]) who require academic support to develop basic academic proficiency in the areas of Mathematics and English.

Enrollment in all developmental courses is determined by placement exam scores. Developmental courses carry no university credit; however, these courses will appear on the student’s transcript and will be calculated in a student’s academic progress. Students in the IELP Program have not been accepted into the university as degree candidates.

“P” is the minimum passing grade in all developmental courses.

First year incoming students who are placed into ENGL 100 (Developmental English) must matriculate as follows:

- In the first semester, students will take ENGL 100 + UNIV 100 + three other courses from a pre-approved list;

- Students are required to successfully complete all developmental courses (ENGL 100, MATH 098, MATH 099, UNIV 100) within their first 30 hours;

- Students who fail to successfully complete their developmental courses by the end of 30 hours will the next term be enrolled in only those developmental courses remaining for completion.

Intensive English Courses (IELP)

Descriptions for the following Developmental English courses (non-credit) are listed under the section of this Catalog entitled “Center for English Proficiency Program” (pp. 234-239):

IELP 096 Basic Intensive English
IELP 097 Low Intermediate Intensive English
IELP 098 High Intermediate Intensive English
IELP 099 Advanced Intensive English

ENGL 100

Students accepted into the university as degree candidates, but who do not achieve a sufficiently high score on the ACCUPLACER™ or another internationally-recognized exam are placed in ENGL 100.

This is a non-credit course. Advancement into ENGL 101 requires passing ENGL 100.

ENGL 100 | DEVELOPMENTAL ENGLISH
Prerequisite: placement by ACCUPLACER™ or other internationally-recognized exam | F, S, SI, SII

The last of the five non-credit English courses, ENGL 100 prepares students for university level English classes. It focuses heavily on mastering basic writing skills - creating a thesis statement, providing specific and relevant support, using transitions and other paragraphing conventions and proofreading for accuracy in spelling, grammar and punctuation. Students in ENGL 100 may take four other courses concurrently with ENGL 100; however, any student who does not earn a P+/P in the course may not be allowed to take additional courses while he or she repeats ENGL 100.

MATH 098 | DEVELOPMENTAL MATHEMATICS I
Prerequisite: placement by ACCUPLACER™ | F, S, SI, SII

The first of two courses to provide skills presupposed by college level mathematics. Topics include a review of arithmetic and elementary geometry and algebra.
MATH 099 | DEVELOPMENTAL MATHEMATICS II
Prerequisites: placement by ACCUPLACER™ or a grade of P+/P in MATH 098 | F, S, SI, SII
The second of two courses to provide skills presupposed by college level mathematics. Topics include the study of polynomial, rational and radical expressions, exponents, solutions of linear equations and systems of equations, quadratic equations, graphing and applications.

COMPUTER PROFICIENCY EXAMINATION
Students who believe that on the basis of computer proficiency acquired prior to joining university they should be exempt from taking COMP 101 may sit for the AUD Computer Proficiency Examination. 
If exempted, the student will be required to substitute COMP 101 with a course in the Social Sciences. (Engineering majors are not required to substitute any course if they have been exempted from COMP 101.)

APPLICANTS FOR A SECOND DEGREE
Applicants for a second undergraduate degree must provide a written petition explaining the rationale behind their application. An applicant may not apply for a second degree in the same field of study. The petition will be evaluated by the head of the academic unit (Dean or Chair) offering the second degree to determine the level of similarity between the first and second degrees, and approval of the petition may or may not be granted accordingly. Once enrolled, an applicant for a second degree may not change his/her program without the approval of the Provost/Chief Academic Officer. Credits from the first undergraduate degree are transferable following the same policies and procedures as for regular transfer students.

READMISSION FOLLOWING INTERRUPTION OF DEGREE PROGRESS
Students who seek re-entrance following a period of suspension must follow the procedures listed on p. 97 of this Catalog under “Readmission from Academic Suspension.”

Regardless of his/her academic status at the time of leaving AUD, if the period of interruption of degree progress is for one calendar year or more, the student must reapply to the university through the Admissions Office. Returning students
will be required to complete the degree requirements as stated in the *Undergraduate Catalog* in effect at the time of their re-enrollment. Should the student have taken courses at another institution during his/her absence from AUD, a minimum CGPA of 2.0, supported by an official transcript, is required for re-admission. The granting of transfer credit is at AUD’s discretion. AUD may require higher than a 2.0 minimum CGPA. As this depends on the university from which the student is returning to AUD, all returning students should consult an AUD Admissions Coordinator for the requirement pertinent to the institution attended during the interruption of degree progress.

**ADMISSIONS – MOHAMMED BIN RASHID SCHOOL FOR COMMUNICATION**

In addition to satisfying AUD’s general admissions requirements, applicants for the B.C.I.S. program offered by the Mohammed Bin Rashid School for Communication must submit the following documents:

- **One written essay as part of the application process.** Student should write the essay in Arabic or English depending on the track the student will be following. Essay topics can be downloaded from the AUD website: [www.aud.edu](http://www.aud.edu).

- A portfolio online (mbrsc@aud.edu) consisting of art work, articles, other audio-visual work, or any creative work done by the applicant.

**ADMISSIONS – SCHOOL OF ENGINEERING**

- Admission to the School of Engineering is contingent upon satisfying either of the following two requirements:
  - **Minimum SAT Reasoning Score:** Applicants must take the SAT Reasoning Test and secure a sum of at least 1000 in the Critical Reading and Math sections, with a minimum score of 320 in Critical Reading and a minimum score of 560 in Math. For each time they have taken this test, students should have their scores sent to AUD. It is highly recommended that this test be taken by November of the senior year of high school.

  - **Successful Completion of the AUD Pre-Engineering Program:** Applicants must successfully complete the AUD Pre-Engineering Program. The Program consists of a sequence of Math, Science and Computing courses, which must be all taken at AUD. Details of the AUD Pre-Engineering Program requirements are outlined in the School of Engineering section of this *Catalog*. Students who fail to complete the AUD Pre-Engineering Program may be granted admission to the School of Engineering only upon securing the minimum SAT Reasoning score.

- **Math readiness and placement into an appropriate math course will be determined by the university-administered ACCUPLACER™ Exam. Students who have the equivalent of MATH 210 transferred from another recognized university will be exempted from taking this Exam. It should be noted that Precalculus (MATH 191) credit will not be considered in fulfillment of any of the School of Engineering program requirements.**
• Engineering students must have completed secondary school course work in Physics and two other laboratory sciences. Applicants who have not completed such course work at the secondary school level will be required to do remedial course work in science prior to admission into the School of Engineering.

• Engineering students are required to take the university’s Computer Proficiency Exam prior to their first term of admission into Engineering. A student who fails the Exam will be required to enroll in and pass COMP 101 within his/her first term of admission. In such cases, COMP 101 credit will not count towards any of the School of Engineering program requirements.

• Students who fail to secure admission into Engineering may continue their studies at AUD in a discipline other than Engineering, provided they are accepted for admission into a new program. The university does not assume any responsibility for loss of credit due to the student’s change of program (i.e., from Pre-Engineering to another program).

ADMISSIONS – ARCHITECTURE
In addition to satisfying AUD’s general admissions requirements, students who are admitted to the B.Arch. program must submit a portfolio online (archportfolio@aud.edu), consisting of:

• Three (3) art works of the student’s production, which may include but are not limited to paintings, drawings, photographs, models, calligraphy or animation – please note that relevance to architecture is encouraged;

• A short paragraph commenting on each work of art;

• Photos of three (3) buildings selected worldwide;

• A short paragraph justifying the choice of each of the three (3) buildings.

In order to place in MATH 195 (Precalculus for Architecture), students must achieve the following: 550 in Math and 320 in Critical Reading, plus a minimum of 900 combined, or achieve the required score on the university-administered ACCUPLACER™ Exam (Math). AUD’s international code for SAT is 2688. Architecture students may begin their Math sequence with MATH 099.

ADMISSIONS - CERTIFICATE IN MIDDLE EASTERN STUDIES
General Requirements
In order to qualify for admission to the Certificate in Middle Eastern Studies program, students must:

• Be in good academic standing at AUD or their primary university of study;

• Be pursuing or having pursued a bachelor’s degree at an institution accredited by the MOHESR in the UAE or by the relevant national or regional institutional accrediting body in the case of international applicants; or have earned a bachelor’s degree at an institution accredited by the MOHESR or by the relevant national or regional institutional accrediting body in the case of international applicants;

• Have successfully completed ENGL 102 (Advanced Composition and Research) or its equivalent;

• Satisfy all other requirements for admission to AUD (see pp. 23-25 of this Catalog);
• Satisfy the English language requirements.

**English Language Requirements**

All students must achieve a TOEFL® score of 550 and 4.0 on the TWE (CBT 213, Internet-based TOEFL® 79-80 + writing skills range 24-30) or an equivalent score on a test approved by the MOHESR in order to qualify for admission at AUD.

Exceptions:

• A native speaker of English who has completed his/her undergraduate education in an English medium institution in a country where English is the official language;

• A student admitted to and graduated from an English medium institution who can provide evidence of having achieved a TOEFL® score of 500 or its standardized equivalent approved by the MOHESR upon admission to the undergraduate program;

• A visiting student, Study Abroad Program student, or exchange student.

**Transfer Credits**

Please see p. 77 of this *Catalog*.

Note: AUD students should apply for the Certificate Program by completing the *Interest in Pursuing the Certificate in Middle Eastern Studies* Form available in the Registrar’s Office.
FINANCIAL INFORMATION/SCHOLARSHIPS

- Tuition and Fees
- Medical Insurance
- Refunds
- The HH Sheikh Mohammed Bin Rashid Al Maktoum Scholarships for Academic Achievement
- Mohammed Bin Rashid School for Communication Scholarship
- The William Jefferson Clinton Scholarship at The American University in Dubai
- The Daniel Newell Pendergrass Memorial Scholarship
- Scholarships for In-school Students
For this fee to be waived, students are required to provide evidence of currently valid private health insurance covering care in the UAE (original insurance card) to the Finance Office. *Deadline to do so is the last day of the Fall semester Drop/Add (see AUD Academic Calendar).* Failure to provide this evidence before the deadline will result in cancellation of the option to waive the health insurance coverage and associated fee.

**REFUNDS**

All refund requests will be processed within 30 days. Refunds are governed by the following regulations:

**(1) Tuition (except IELP)**

In the event that a student withdraws or is dismissed from all classes during the term, refunds of tuition and fees will be calculated according to the following schedule:

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>During the first week*</td>
<td>75%</td>
</tr>
<tr>
<td>During the second week**</td>
<td>50%</td>
</tr>
<tr>
<td>During the third week</td>
<td>25%</td>
</tr>
<tr>
<td>After third week</td>
<td>0%</td>
</tr>
</tbody>
</table>

In the event that a student withdraws from partial classes during the term, refunds will be calculated according to the following schedule:

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Until the end of Drop/Add***</td>
<td>100%</td>
</tr>
<tr>
<td>After Drop/Add</td>
<td>0%</td>
</tr>
</tbody>
</table>

**(2) Tuition (IELP)**

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Until the end of Drop/Add</td>
<td>75%</td>
</tr>
<tr>
<td>After Drop/Add</td>
<td>0%</td>
</tr>
</tbody>
</table>

**(3) Housing Fees and Charges**

The one-time, housing security deposit is refundable at the end of the semester if no dorm damage has occurred.

The housing reservation fee is non-refundable and nontransferable unless the student’s application for admission is rejected or the student cancels their admission (including conditional) one month prior to the start of the semester for which he/she has paid.

---

* 100% for new students in the first semester of attendance with the exception of the reservation and enrollment deposit of AED 5,000 which is non-refundable.
** Sunday-Thursday
*** The refund amount will be a credit to the student’s account and carried forward to the following semester. Non-returning students will receive a refund within 30 days of submitting a request form. Check the AUD Academic Calendar for dates of Drop/Add.
Note: AUD has a Refund Policy specific to legal residents of the U.S. State of Georgia. This Policy has been written to be in compliance with Standard Nine of Georgia’s Minimum Standards and Criteria for NPEC Institutions. The existence of this Policy is announced during Student Orientation and referenced at the time of exit from AUD (during the account settlement process) of any Georgia resident who requests a refund. A copy of this Policy is available in the Finance Office, the Registrar’s, and the office of the Director of Institutional Effectiveness.

THE HH SHEIKH MOHAMMED BIN RASHID AL MAKTOUTM SCHOLARSHIPS FOR ACADEMIC ACHIEVEMENT

Background and Objective
In May, 1999, on the occasion of the Second Commencement Exercises of The American University in Dubai held under his patronage, His Highness Sheikh Mohammed Bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE and Ruler of Dubai, announced the creation of scholarships for eligible prospective AUD students. The university’s Administration has designated the scholarships to carry Sheikh Mohammed’s name, citing how His Highness’ gesture reflects a deep commitment to education as the driving force in the accomplishment of Dubai’s and the UAE’s public agenda. The HH Sheikh Mohammed Bin Rashid Al Maktoum Scholarships for Academic Achievement have been conceived with the objective of rewarding academic excellence and responding to financial need; as such, they will act as an incentive and reward for superior scholastic performance, as well as providing an economic contribution to the acquisition of an American-accredited university degree.

Eligibility
In order to be eligible for a Scholarship, a new student must be an applicant to one of AUD’s degree programs. High school applicants should have at least a 90% grade average (or equivalent).

Selection Criteria
Academic performance will be determined by a high school average or CGPA of the last three years. Academic letters of recommendation and TOEFL®/SAT scores will be used in case of ties. It is expected that recipients will have earned an academic status well above the minimum required for admission or continuance in a degree program.

Financial need as demonstrated by insufficiency of financial support to fund educational expenses.

Coverage/Renewal
A Scholarship entitles the recipient to a waiver of tuition for one academic year (two semesters) until graduation. The Scholarship
**Financial Information/Scholarships**

*does not cover either overloads or courses taken in the Summer terms.* The Student must enroll for two successive semesters and carry a full load of academic credits (12 to 16 hours) each semester. Scholarships are renewed on a yearly basis and students are expected to maintain a Grade Point Average of 3.0 or above by the end of each academic year. Failure to comply with any of the above could result in the withdrawal of the scholarship*.

* Changes in major (program) may result in student forfeiture of the scholarship.

**Application Process**

In order to apply, a new student must fill out an AUD application for The HH. Sheikh Mohammed Bin Rashid Al Maktoum Scholarships for Academic Achievement no later than July 15. Upon examination of a student’s academic status and the submission of updated documents, renewal of a scholarship for existing holders will be reassessed once a year prior to beginning of the Fall semester.

**Repeating a Course**

The Scholarship program will not cover the repetition of any course previously taken and passed at AUD.

**Withdrawal from a Course**

Students are allowed to withdraw from a maximum of two courses during the entire period of Scholarship coverage.

The penalty for exceeding this two-course withdrawal is reflected in the *Tuition, Fees and Expenses* section of this Catalog (see p. 344).

**MOHAMMED BIN RASHID SCHOOL FOR COMMUNICATION SCHOLARSHIP**

**Eligibility**

In order to be eligible for a Scholarship, a new student must be an applicant to the Arabic track of the B.C.I.S. degree program, concentrating in either Digital Production and Story Telling or Journalism. High school applicants should have at least a 90% grade average (or equivalent). Transfer students must have a minimum 3.0 CGPA or equivalent.

**Selection Criteria**

Applicants must be exceptional students with an outstanding high school average; i.e. among the top performers in the class, whether from a private or public school. In addition, applicants must submit a portfolio consisting of samples of their literary/artistic work, along with one qualifying essay in Arabic.

**Coverage/Renewal**

A Scholarship entitles the recipient to a waiver of tuition, visa/renewal and health insurance fees (subject to approval) for one academic year (two semesters/30 credit hours) until graduation. The Scholarship does not cover either overloads or courses taken in the Summer terms. The student must enroll for two successive semesters and carry a full load of academic credits (12-16) each semester.

Scholarships are renewed on a yearly basis, and students are expected to maintain a Grade Point Average of 3.0 or above, measured at the end of each academic year. Failure to comply with any of the above may result in the withdrawal of the Scholarship*.

* Changes in major (program) may result in student forfeiture of the scholarship.

**Application Process**

In order to apply, a new student must fill out an *AUD Application for the Mohammed Bin Rashid School for Communication Scholarship* no later than July 15. Upon examination of a student’s academic status and the
THE WILLIAM JEFFERSON CLINTON SCHOLARSHIP PROGRAM AT THE AMERICAN UNIVERSITY IN DUBAI

Introduction
The William Jefferson Clinton Scholarship at the American University in Dubai seeks to further the goals of the Clinton Foundation to strengthen the capacity of people in the United States and throughout the world to meet the challenges of global interdependence. In partnership with the American University in Dubai, the program will provide American students based in the US the opportunity to expand their educational and cultural horizons by studying in the Arab world.

Eligibility
In order to be eligible for a scholarship, a student must currently be enrolled as a full-time undergraduate degree candidate at an accredited four-year college/university in the United States. It is expected that recipients will demonstrate exemplary academic achievement.

Preference will be given to students who show interest in being exposed to the Middle Eastern and Islamic cultures for the first time.

Program Information
Clinton Scholars will receive:
- A full waiver of tuition for one term;
- Dormitory housing at the American University in Dubai on a shared-room basis

Scholars must carry a full load of academic credit (12-16 hours) during each semester of study and 9 credits during the summer session. If scholars fail to remain in good academic standing as defined by AUD’s academic standards or fail to adhere to the AUD code of conduct, program participation will be terminated. Board, texts, transportation and extracurricular activities are the financial responsibility of the student.

submission of updated documents, renewal of a Scholarship for existing holders will be assessed each year prior to the beginning of the Fall semester.

Repeating a Course
The Scholarship program will not cover the repetition of any course previously taken and passed at AUD.

Withdrawal from a Course
Students are allowed to withdraw from a maximum of two courses during the entire period of Scholarship coverage.

The penalty for exceeding this two-course withdrawal is reflected in the Tuition, Fees and Expenses section of this Catalog (see p. 344).
Application Process
In order to apply, a student must complete an application for *The William Jefferson Clinton Scholars at The American University in Dubai*. A student must complete and submit together the following for the application to be deemed complete:

- *The Clinton Scholars Application Form*;
- A 500-word personal statement addressing the qualities that distinguish the applicant for The William Jefferson Clinton Scholars Program;
- One letter of recommendation;
- Official copy of the applicant’s current undergraduate transcript showing that the applicant
  - is in good academic standing [i.e., 3.0 CGPA or equivalent] at the institution from which he/she is applying;
  - has completed or is completing one full year of study as a full-time student at a four-year accredited U.S. college or university;
- A résumé indicating work and leadership experience;
- Written approval from his/her advisor at his/her educational institution, indicating that the applicant is eligible to study abroad and have credits earned at AUD counted towards his/her degree program;
- Students of consent age or their legal guardian(s) must sign the *Clinton Foundation Waiver*;
- *Disclosure of Educational Records Form*.

Submission deadlines are as follows:

<table>
<thead>
<tr>
<th>Term</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>April 15</td>
</tr>
<tr>
<td>Spring</td>
<td>October 15</td>
</tr>
<tr>
<td>Summer I</td>
<td>February 15</td>
</tr>
</tbody>
</table>

**THE DANIEL NEWELL PENDERGRASS MEMORIAL SCHOLARSHIP**

In memory of Daniel Pendergrass, Instructor in English (CfEP) at the time of his death in 2007, each year the university awards a full-tuition scholarship to the highest-ranking entering student who is placed in IELP 097. Provided that the recipient maintains adequate academic performance, the scholarship is renewable through to completion of IELP 099. Further details and application procedures are available in the Admissions Office.

**Repeating a Course**

The Scholarship program will not cover the repetition of any course previously taken and passed at AUD.
Withdrawal from a Course
Students are allowed to withdraw from a maximum of two courses during the entire period of Scholarship coverage.

The penalty for exceeding this two-course withdrawal is reflected in the Tuition, Fees and Expenses section of this Catalog (see p. 344).

SCHOLARSHIPS FOR IN-SCHOOL STUDENTS

Scholarships will cover either 50% or 100% of tuition. Books, fees, housing, etc. are not covered by in-school scholarships.

Only two (2) scholarships per school or program will be in effect at any given time (e.g., the School of Business Administration has two scholarships, the School of Engineering has two scholarships).

Eligibility Criteria*

Students must:

- Have achieved “senior status” in their degree program.
- Have a minimum CGPA of 3.5.
- Not have committed any Conduct Code violations.

* Individual academic units may add additional criteria

Application Procedure

1. Applications must be submitted during the student’s junior year (before the end of the Spring semester.)

2. An application packet must be submitted to the Scholarship Committee of the academic unit housing the student’s degree program.

Application packets must include:
- cover sheet;
- letter of application;
- letters (two) of recommendation from faculty;
- AUD transcript (unofficial);
- Statement of Need to be considered as a basis for awarding of the scholarship (optional);
- evidence of change in financial status of fee-paying agent.

3. The Scholarship Committee
- meets to review application packets;
- interviews highest ranking candidates;
- forwards to the Academic Unit Head a list of approved candidates and their application packets.

4. Academic Unit Head forwards list of recommended candidates and their application packets to the Office of the Executive Vice-President for final approval of awarding of scholarship(s).
OFFICE OF THE REGISTRAR

- Mission
- Purpose
- Goals
- Policies
The Registrar’s Office supports AUD’s academic initiatives by fulfilling the following functions:

- maintaining student academic information;
- conducting and managing the process of registration;
- monitoring and reporting on student satisfactory academic progress and academic eligibility such as degree completion, probations and suspensions, honor roll and graduation roll;
- coordinating and issuing official enrollment and academic certifications as required by the students, such as proof of enrollment letters, ID cards and transcripts and diplomas;
- posting of transfer credits for new and in-school transfers;
- checking and updating student grades and degree audits;
- furnishing data for advising, instruction and policy development.

MISSION
The Mission of the AUD Registrar’s Office is to support the educational goals of the institution, with an emphasis on conducting registration and keeping academic records.

PURPOSE
The purpose of the Registrar’s Office is to provide students, faculty and administration with those support services required in the planning/implementation of academic activities. The Registrar’s Office strives to fulfill its Mission by creating and maintaining records that accurately reflect student achievement; and endeavors to accomplish this through an effective scheduling and registration process; database management and reporting as well as other daily services required by its constituents.

GOALS
- To ensure the implementation of academic policies and procedures that support the Mission of the institution;
To facilitate the student registration process enabling students to become more efficient in planning for their needs and to improve retention;

To support the university’s efforts to provide quality service for students making office-related functions as efficient and seamless as possible;

To support AUD’s continuous assessment process by providing timely and accurate information for administrative purposes and accreditation bodies;

To contribute significantly to improving academic support infrastructure by collaborating with both academic and administrative departments.

**Policies**

**Policy on Academic Record Retention and Storage**

In order to fulfill its commitment to the security, confidentiality and integrity of its student academic records, The American University in Dubai follows a Policy on Academic Record Retention and Storage. Details of this Policy are available in the Office of the Registrar and the Office of Institutional Effectiveness.

**Directory Information Changes**

It is the responsibility of the student to contact the Registrar’s Office immediately in the event of any address, telephone number or email address changes. An online request form for Directory Information Changes is available on the Registrar’s webpage (www.aud.edu/Registrar/forms.asp).

**Undergraduate Classification**

A student’s enrollment status or classification is based upon the number of credit hours completed. A student with 0-30 credit hours is a freshman, a student with 31-60 credit hours is a sophomore, a student with 61-90 credit hours is a junior and a student with more than 90 credit hours is a senior.

**Release of Grades**

Final grades are released by the Registrar’s Office one week after the end of each academic term. All grade reports are mailed to the student’s mailing address of record.

**Registration**

The Office of the Registrar is responsible for overseeing the registration process and maintaining students’ records. The registration period for Freshmen, Sophomore, Juniors and Seniors is limited to the exact time assigned in the registration schedules (www.aud.edu/registrar/RegAdv.asp).

When the student has an overdue library book, an incomplete admissions file, is in possession of school property or is delinquent in the payment of fees, he/she will not be allowed to register until the irregularity is remedied.

**Drop/Add**

Students may make schedule changes without penalty during each academic term’s Drop/Add period. Only those students with less than 60 credit hours and Engineering, Computer and Information Technology, and Computer Science students must obtain their advisor’s approval to drop/add a course. Drop/Add is not allowed outside this period.

**Withdrawal from Courses**

A student is allowed to withdraw officially (grade ‘W’) from a course no later than the
end of the ninth week of the semester (end of the fourth week in a summer session). Students are not permitted to withdraw after this deadline. A grade of ‘\textit{W}’ is also used to denote withdrawal of students in case of dismissal by a Conduct Council.

Students on scholarship must follow the relevant scholarship rules and regulations concerning withdrawal. Failure to do so entails financial penalties (see p. 344 of this Catalog).

Withdrawal from the University
AUD students intending to withdraw from the university must submit a written notice to the Registrar’s Office. Any outstanding tuition or fee charges owed must be paid at the time of withdrawal. Student requests for official or unofficial AUD transcripts are not honored until outstanding charges are paid.

The Last Date of Attendance is used as the official date of withdrawal in all cases for refund calculations. \textit{W or F grades will be assigned to all courses based on whether the withdrawal occurs before (W) or after (F) the term withdrawal date specified in the university Calendar.}

A student desiring to re-enroll at AUD after a period of one year from the official date of withdrawal is considered a new student. Students in this situation must contact the Admission’s Office to re-activate their files. They will be required to provide updated information and pay the current Reservation and Enrollment deposit. A student desiring to re-enroll after less than a one year period since the official date of withdrawal should contact the Registrar’s Office to initiate the reenrollment process.

Official Student Schedule
Students are advised that their official schedule is as recorded by the Registrar at the end of Drop/Add. Students may view this schedule from the AUD website (http://aud.edu/myaud/index.asp) or via direct link (http://schedule.aud.edu.).

Request for Transcripts
Requests for transcripts from The American University in Dubai must be made by filling out an online request form on the Registrar’s webpage (www.aud.edu/Registrar/forms.asp). The fee for each official transcript is AED 20.\textsuperscript{20} The student should allow two to four working days for the processing of transcript requests. Students can request special mail services at an additional cost.

\textit{No official transcripts are issued to a student whose file is incomplete. Transcript cannot be released to a third party without a Consent to Release Education Records Exception Form signed by the student.}

\textsuperscript{20} The university prefers payment by money order, cashier’s check or cash. If payment is made by personal check, transcripts will be held for 10 full days or until the check has cleared.

Certificates of Enrollment
Students may request a certificate of enrollment or a formal letter from the Office of the Registrar by filling out the \textit{Letter Request Form}, available on the registrar’s webpage (www.aud.edu/Registrar/forms.asp). \textit{Two to four working days for the processing of letter requests should be allowed.}

Names on Diplomas
The name that appears on a student’s diploma will be consistent with the name that appears in the student’s file upon admission and is corroborated by a passport or identity card.

Diploma Replacement
If an original AUD diploma is destroyed or lost, a duplicate may be ordered from the Registrar’s Office.
The *Duplicate Diploma Request Form* must be filled by the graduate; and any evidence that the original diploma was lost, stolen or destroyed must be attached to the *Request Form* (e.g., police report, fire department report). If the original diploma is damaged, the *Duplicate Diploma Request Form* must be submitted to the Registrar’s Office with the damaged diploma attached. The reverse side of the duplicate diploma will be stamped with the words, “Duplicate issued on MM/DD/YY to replace lost/destroyed original diploma.” In order to receive this duplicate, graduates must pay the university’s diploma fee.

**Attestation of Diplomas**

The Office of the Registrar is responsible for processing the issuance of all diplomas and transcripts for attestation by the UAE Ministry of Higher Education and Scientific Research. *Obtaining the actual attestation is the student’s responsibility.*
EXTERNAL RELATIONS

- Mission
- Purpose
- Goals
- Collaborative Relationships
- AUD Alumni Association
MISSION
The Mission of the External Relations Office is to build and sustain enduring relationships between the university and its alumni and with academic, corporate and government entities that will help increase visibility and awareness of AUD while ultimately benefiting members of the university community, most notably the students and faculty.

PURPOSE
The External Relations Office aims to establish and manage local, regional and international relations, alumni relations and special projects/events that will help further increase the visibility and awareness of AUD’s programs and activities while fostering intercultural understanding among its students and preparing them for the global community.

GOALS
- To establish relationships locally, regionally, and internationally with different entities and to build programs such as student exchange/study abroad programs, internships, and scholarships;
- To ensure recruitment and participation of students in study abroad and exchange programs;
- To organize workshops, conferences, and activities to cultivate and maintain AUD’s relationship with its students and external partners;
- To identify external events/activities/conferences beneficial to our students/faculty while encouraging them to take part and serve as AUD Ambassadors;
- To properly implement an action plan for increasing awareness of AUD’s External Relations Office by liaising with respective departments at AUD;
- To establish a solid Alumni Association through varied activities and programs.

COLLABORATIVE RELATIONSHIPS
The American University in Dubai maintains a series of collaborative relationships with universities, government entities, and corporations in the private sector. These relationships are designed to service the interests of students and faculty, in addition to helping to fulfill those dimensions of the university’s Mission and Purpose-related Goals that deal with service to AUD’s other constituencies.

The university has signed agreements with the following institutions of higher learning, which among other collaborative measures, provide opportunities for student/faculty exchange:

- **Florida International University, Miami, Florida** (www.fiu.edu) – student exchange for undergraduate level in: Business Administration, Communications and Information Studies (Journalism), Engineering, Information Technology, Visual Communications (Advertising);
- **Georgia Tech, Atlanta Georgia** (www.gatech.edu) – student/faculty in Engineering;
- **International University in Geneva, Geneva, Switzerland** (www.iun.ch) – student/faculty exchange in Business Administration and Media and Communications;
• **Siena Heights University,**
  **Siena Heights, Michigan** (www.sienaheights.edu) – student exchange for undergraduate level in: Business Administration, Communication and Information Studies (Journalism), Information Technology, Visual Communication;

• **Università Commerciale Luigi Bocconi, Milan, Italy** (www.unibocconi.eu) – student/faculty exchange in Business Administration;

• **University of St. Gallen, St. Gallen, Switzerland** (www.unisg.ch) – student/faculty exchange in Business Administration;

• **University at Albany, State University of New York (Albany, New York)** (www.albany.edu) - student exchange for undergraduate level in: Business Administration, Communication and Information Studies, and Information Technology.

To avail themselves of such opportunities, students/faculty must consult and obtain authorization from their Dean or Chair and make application through the External Relations Office.

In addition, AUD has signed an agreement with the following institution:

• **Florida International University Middle Eastern Studies – Miami, Florida** (www.fiu.edu);

Please refer to p. 100 for eligibility requirements for participation in student foreign exchange.

The provisions of this Agreement cover various spheres of collaboration, including curricular consultancy and opportunities for professional development and faculty/student exchange.

Students wishing to spend a **term (i.e., semester or summer session[s])** abroad at one of the universities listed above may seek authorization to do so with the intention of transferring up to 15 credit semester hours or equivalent. If a student wishes to study abroad
with other universities (subject to AUD approval), they also are allowed to transfer up to 15 credit semester hours or equivalent. Students should familiarize themselves with AUD’s Transfer Credit Policy on pp. 99-100 of this Catalog.

CONFERENCES AND EVENTS
It is the role of the External Relations Office to identify conferences and events that will help increase awareness of AUD’s visibility and that are beneficial to our students who will serve as AUD Ambassadors.

The AUD’s International AID Society at CGI U

The Clinton Global Initiative University (CGI U), based on the successful model of the Clinton Global Initiative (www.clintonglobalinitiative.org), was launched in 2007 and is hosted by President William Jefferson Clinton every year bringing together students, national youth organizations, and university officials to discuss global challenges, while joining hands as they take real, concrete steps towards solving.

In 2011, for the fourth year in a row, AUD was the only educational institution from the Middle East to participate in CGI U’s annual meeting held in San Diego, California. Members of the AUD International Aid Society (AIA), along with Clinton Scholar alumni students, joined thousands of students from around the world, each with their own commitment in mind, but working together to learn about the different steps to “making a difference.” During one of the Education Working Sessions, the AIA Society presented an update of their ongoing commitment to build a school in Umbissa, which started in 2008 and is 60% complete. Located in the North West Province of Cameroon, this project will ultimately benefit 250 students, as well as its community.

Over the last three years, AIA has committed to many initiatives locally, regionally and internationally, and student participation at CGI U four years now has provided guidance and exposure to best practices in sustaining initiatives.

For further information on this event and to learn more about the AUD International Aid Society, please contact the External Relations Office.
AUD at Harvard

The American University in Dubai (AUD) has partnered three times with the Harvard College in Asia Program (HCAP). In 2011, AUD ambassadors from various nationalities joined students from premier academic institutions from Istanbul, Seoul, Hong Kong, Mumbai, and Tokyo, along with delegates from Harvard University, to attend HCAP’s conference themed *Global Healthcare Systems: a Changing Landscape*. The conference consists of two phases, allowing students to participate in an exchange conference lasting one week in each of Boston and Dubai. The objective of the conferences is to create unique, global, and holistic experiences that address the same issues with a variety of different approaches. (AUD is the only university from the Middle East Region participating in these conferences.)

The conference consists of a well rounded interactive program aimed at challenging the delegates academically, socially and culturally. This program includes lectures from professors and industry leaders/ practitioners with panel discussions, as well as visits to medical schools in both regions, all important elements of the HCAP academic experience. For further information on this event and to learn more about HCAP, please contact the External Relations Office.

AUD ALUMNI ASSOCIATION

The AUD Alumni Association (AUDAA) is the student’s link to the university after graduation. The Association extends the AUD community beyond graduation, forging a lifelong bond with the university.

The purpose of the Association is to promote excellence in all aspects of its alumni, establish a relationship between each graduate and the university, and promote communication amongst graduates and the community, and to create a powerful professional network.

To learn more about the Alumni benefits, Alumni events and ways to give back to the AUD community, contact audalumni@aud.edu or check the AUD webpage [http://www.aud.edu/AlumniRelations/index.asp](http://www.aud.edu/AlumniRelations/index.asp).
STUDENT SERVICES

- Mission
- Purpose
- Goals
- Divisions of Student Services
- Student Services Programs
A UD faculty and staff work with students from the time of their admission to their graduation and beyond to ensure their academic and professional success, and their social integration and general well being. These caring professionals are available to help students in many ways, providing support and referrals as needed. AUD prides itself in taking an active role in the Dubai community, and offers its students unparalleled opportunities to be part of Dubai’s development through participation and interaction with the local community organizations and initiatives.

The Student Services Office plays a vital role in the campus community. The Office provides personal counseling referrals, special needs assistance, academic support and tutoring, career services, student activities planning, sports and recreational programs, health and housing services.

MISSION
The Office of Student Services supports the university’s Mission and Purpose by providing support and resources for orientation, transition, retention and graduation, and eventual employment of AUD students, so that they may be prepared both personally and professionally throughout their university experience and careers.

PURPOSE
The purpose of the Office of Student Services is to assist students in the integration process so that they can readily become part of the university community. In addition, a range of services, such as tutoring, workshops, academic support, job placement, psychological counseling, and athletic, cultural, and recreational activities are offered to help students attain their professional and personal goals.

GOALS
• To support the purpose and goals of the institution;

• To provide services that will enable students to become more effective and efficient in utilizing and enhancing their knowledge;

• To provide the individual student with experiences to promote self-discipline, self-assurance and mastery of the intricacies of personal and professional challenges;

• Together with the Office of Academic Affairs, to produce graduates for the business and professional communities who possess the integrity, determination, judgment, motivation, ability and education to assume responsible positions of leadership and who can meet the demanding challenges posed by contemporary society; and

• To liaise with employers to provide internships and employment opportunities for in-school and graduating students.

DIVISIONS OF STUDENT SERVICES
Dean of Student Services
The Dean’s Office, in the person of the Dean of Student Services, assists students with the assimilation process so they can readily become part of the university community. The Dean helps students interpret, clarify and understand university policies and procedures and receives student complaints, suggestions, and concerns. The Dean serves on all honor and conduct councils. One of the primary responsibilities of the Dean is to safeguard and represent students’ interests.
The Dean of Student Services manages and provides direction to all divisions of Student Services and is available to meet with students and parents who have concerns related to any aspect of university life.

**Health Services**

Health Services, headed by the Health Center Director (Registered Nurse) and supported by two staff nurses, offers both preventive and daily health care and health education designed to support the physical and emotional health of students and staff. Health services are available 24 hours a day. The Health Center is open weekdays from 8:00 a.m. – 9:30 p.m. (during Summer II, 8:00 a.m. – 6:00 p.m.). After working hours and during weekends, emergency health services are provided by staff nurses who reside on campus and are on call. Students who need to contact the nurse on call for emergency cases should call the University hotline 555. The security guard on duty will then contact the nurse on duty who will attend to the student’s needs. There are two treatment rooms equipped for emergencies in the Male and Female Dormitories. First Aid Guides are posted in all dorm rooms, in the Library, in the Adjunct Rooms, at the Main Reception, and at all the security guard locations.

Health services are available for all students, faculty and staff. Services include treatment for minor health emergencies and conditions, dispensing medication for minor health problems, providing individuals with medical referrals, and offering information on health-related issues.

The university Health Center maintains a close relationship with the American Hospital in Dubai (AHD). The university Health Center refers students to this facility and others in the area. Special AUD student rates are offered at the AHD.

Preventive medicine is also emphasized at AUD. The university Health Center promotes health awareness and education through health days conducted throughout the academic year. Past sessions have included Nutrition and Eating Disorders, Blood Drives, Drugs and Narcotics Awareness, Sexually Transmitted Diseases, Anxiety and Stress Management, Stop Smoking Campaign, Healthy Skincare, Health Hazards in Youth, and Vision Disorders.

The university Health Center maintains health records on all AUD students. Students should make sure that their health records
are current and up-to-date. Newly enrolled students complete a medical history form that is kept on file in Student Health Services. All students are required to have this form completed by a licensed physician. Students with medical problems or disabilities that may require care or restrict their campus activities must submit to the Health Director and/or Student Support Manager a letter from their family physician describing their conditions, restrictions, and special requirements. Information about a student's health is not released to those not involved in the student's immediate care without the expressed permission of the student. All health forms are included in the AUD admissions packet.

Blood testing for residence visas is facilitated and organized through the AUD Health Center. This service is offered only to students and staff sponsored by the university.

**AUD Health Services does not issue statements or excuses for class absence.**

**Housing**
The motto of AUD Housing is “Making our dorm your home.” The Housing Division does this by ensuring safe, clean, and comfortable housing for students who require on-campus housing. The Housing Manager, assisted by two Dormitory Controllers, and eight Student Resident Assistants, manages the Division. AUD student housing consists of four residential buildings, two for males and two for females. The male and female dormitories are totally segregated. On the ground floor of each building there is a fully equipped kitchen, a student lounge, a laundry room, and a TV room. AUD has clear guidelines for what constitutes inappropriate behavior in student housing. It is the responsibility of students to abide by these rules at all times.

The Housing Manager oversees security, receives and arranges for maintenance and repairs in the dorms, handles roommate conflicts and general complaints, enforces housing rules and regulations, and offers emotional support to students to ensure a safe, comfortable, and peaceful living and learning environment. There are a number of important rules and regulations that govern student housing. The **AUD Housing Kit** contains all housing information.

Resident Assistants work in both the dormitories and the Housing Office. They report directly to the Housing Manager and assist with various duties. These include, but are not limited to: receiving maintenance requests, recording complaints, answering questions, making appointments for the Housing Manager, and conducting tours for prospective students and their parents. In addition, Resident Assistants report any violations of housing rules, damage to dormitories, maintenance needs and suggestions for improvements in the dorms. Resident Assistants, working in close collaboration with the Housing Manager and Student Activities Coordinator, plan and host various dorm activities and programs. Any dorm student interested in applying for a Resident Assistant position should contact the Housing Manager.

**Counseling**
Students face a variety of challenges which affect their personal growth, emotional wellbeing and success in university. Conflicts and problems often arise which prevent students from reaching their full-potential. Students may find that their usual ways of handling problems are not working well for some reason.

That is why AUD offers one-on-one personal counseling services. The Personal
Counselor’s role is to assess the problem and provide support and guidance for students experiencing personal problems. The confidentiality of the counseling sessions is protected by the counselor’s code of ethics.

Students can talk about the problems they are facing, explore related thoughts, feelings and understand their personal resources. For some students, one conversation is all they need to make things better, while others may return for several appointments. The Personal Counselor provides referrals to qualified, certified, and experienced counselors, psychologists, psychiatrists and therapists equipped to aid students with psychological problems, learning disabilities, and/or other serious issues. This list is also available to students who wish to obtain external counseling.

Counseling Services also offer seminars and workshops on mental health detection and prevention. These are designed to help students identify, understand and respond to general mental health issues.

**Student Activities**

Involvement in student activities at university is an important component of student life. AUD’s American educational philosophy stresses a well-rounded student experience. Through participation in clubs and organizations, students not only become involved in university life, but also strengthen their socialization, team-building, leadership, event planning and organizational skills. Membership in student clubs and organizations also enables students to make new friends and share mutual interests with fellow students. The memories created on campus, through activities, is an essential part of the holistic development of a university student. The aim of the Office of Student Activities is to create and offer those opportunities for AUD students.

The Coordinator of Student Activities, with assistance from the Student Government Association, creates and plans numerous activities for students throughout the year. These activities, designed to be social and cultural, include desert safaris, dhow trips, beach parties, guest lectures, dinners, international celebrations, plays, music nights and other events.

AUD-sponsored activities introduce students to many of the diverse social and cultural events held in each city. A calendar of events
is available on the university's website (www.aud.edu). Any student having an idea for a student activity should contact the Coordinator of Student Activities.

**Athletics**
The AUD Athletics Office provides an athletic outlet for all students, faculty, and staff. The AUD athletic program offers unique opportunities to “get involved.”

For the highly competitive student athlete who is interested in competing against universities from the UAE and elsewhere, AUD offers a number of intercollegiate team sports.

The AUD Intramural Program for student, faculty and staff is offered as per the schedule for each semester. Students who are unable to commit to the mandatory training that is involved with playing on an intercollegiate team may want to consider this alternative. The Athletics Coordinator also offers guidance and assistance to students who want to organize new sports activities, or who want to start new athletics clubs.

See p. 15-16 of this Catalog for a description of sports facilities.

**Career Services**
The Career Services Division manages the student’s job-seeking process. The Career Services team is committed to assisting students and alumni in seeking rewarding and meaningful careers through developmental career counseling, hosting networking driven events, and facilitating career planning workshops.

AUD offers full-time Career Services that provide degree seeking AUD students and AUD alumni the opportunity to receive individualized career guidance and job search assistance throughout all stages of students’ career development. A wide spectrum of individualized services is offered, including CV and cover letter writing, interview techniques, job search strategies, professional development, aptitude assessment, and general career counseling.

With the increasing competition of today’s global marketplace, students need every competitive advantage available; consequently, AUD encourages students to complement their academic background with solid work experience, ensuring that upon graduation they will meet the high expectations of future employers. Early exposure to the work environment will solidifies students’ academic commitment, and allows a better
understanding of the relationship between the classroom and the marketplace. Entering students are strongly encouraged to register with Career Services during their first academic year and work closely with the Career Services advisors to develop their career plan parallel with their academic studies.

The Career Services Manager liaises with regional and multinational companies, creating a business network to offer employment and internship opportunities to AUD students and alumni. Through a series of activities and events, AUD student community and companies are brought together with the aim of a mutually beneficial collaboration, ensuring that the university’s talent is employed by the market leaders in their future endeavors. The annual Career Fair is the epitome of the division’s efforts in improving student and employer networking.

Internship Program
The opportunity to participate in university approved internships is an option available to students in all Majors, and students are encouraged to take advantage of this program. Students participating in internships can complement their classroom experience and earn credits toward their degrees in an approved off-campus program that provides practical learning and application in a real-life corporate or professional setting.

Undergraduates are eligible for internships after completing course work as specified by their School/Department. Additional School/Department requirements (including minimum CGPA) may apply. Host companies for internships must be located in the UAE. The Career Services Division ensures that an adequate number of quality internship opportunities are available for selection by students. To this end, the Career Services Division, in consultation with the appropriate Dean or Chair, contacts companies and organizations that can potentially provide quality internships. Arrangements with host companies include a detailed program for each internship opportunity, showing what activities the student intern will be engaged in during the full term of the internship as well as details of the allocated company mentor who will be supervising the student during that period.

Before students can register and start their internship, the Dean or Chair must approve the host company and the internship program. The total amount of internship credit must not exceed three credit hours towards completion of the student’s degree program. An exception to this limit, approved by the Dean or Chair, may be granted in the case of students with double majors. In all cases, it is imperative that students identify and register for the internship before it begins. Credits cannot be claimed for internships that were completed without students being registered in advance.

During the internship, students are expected to be punctual, polite, conscientious, and professional at all encounters. Students should be aware that they are representing AUD, and professionalism in their approach to internship reflects on AUD and its student community, potentially leading to an enhanced relationship with the employer and greater employment opportunities.

Each internship must be completed in accordance with each Department’s requirements and an approved plan for the internship program.

Upon completion of the internship program, students must submit a work processed
report to the faculty internship advisor as per the Department’s requirements.

The report format and content must be of professional quality and must include the daily log, a description of learning activities undertaken, and a summary of the student’s key findings and recommendations based on the internship experience. Additionally, the host company supervisor must send the Career Services Division a written evaluation of the student’s internship work. The Career Services Division forwards the host company’s evaluation to the faculty internship advisor and the Dean or Chair. A final Pass (P) or Fail (F) grade is assigned by the allocated faculty internship advisor.

Student Support
The central Mission of the Office of Student Support is to enrich and support the educational, intellectual and personal growth of AUD’s diverse student population. The Student Support Manager assists students in developing skills and strategies to help respond effectively to specific academic challenges and to ultimately achieve academic success through life-long learning habits.

The Office of Student Support offers a range of services to help students develop their own educational goals and succeed in their chosen program of study. These academic support services include: individualized academic counseling, access to tutoring and peer-tutoring, workshops and disability support services. The Student Support Manager also retains a list of tutors who offer individual tutoring sessions for students in need of academic assistance.

STUDENT SERVICES PROGRAMS

Academic Support Workshops/Brochures
Workshops and brochures on topics of concern to all students are offered each semester. Past workshops have focused on time management, test taking anxiety, skills and strategies, academic reading and writing, working in groups, improving memory and presentation anxiety. Students should contact the Student Support Manager for information on upcoming workshops and brochures.

General Student Forum
The AUD Student Forum is designed, executed and managed by the AUD Student Government Association, under the guidance of the Student Activities Coordinator. It is held during the Spring semester and is a means by which the university collects student feedback regarding university-related issues. These issues include general academic issues that are not specific to an academic unit and non-academic issues.
General Housing Meetings
General housing meetings are held once per semester for all of AUD’s dorm residents. All residents have the opportunity to freely voice their concerns and ask questions. The Housing Manager and Dean of Student Services facilitate the meetings. The Student Support Manager, the Student Athletics Coordinator, and the Student Activities Coordinator may also attend these meetings on a periodic basis.

Orientation
All new students are required to participate in orientation activities. A portion (5%) of the student’s grade for UNIV 100 (The University Experience), required during the student’s first semester at AUD, is derived from participation in orientation. During orientation, student orientation leaders acquaint students with the campus environment and the city of Dubai, explain policies and procedures, and conduct a variety of activities to introduce the students to the university experience. Further orientation takes place throughout the year through student activities, which may include seminars, workshops, tours and informal discussion sessions. AUD distinguishes itself with a unique student orientation program planned and orchestrated by AUD Student Orientation Leaders. All second through fourth year students are eligible to apply for this student leadership opportunity. Applications are available through the Dean of Student Services.

Student Organizations/Athletics
Involvement in student organizations/athletics is important for making new friends and provides the opportunity to share mutual interests with fellow students. The student activities program strengthens students’ socialization skills and offers encouragement to those who are making a transition to university life. AUD-sponsored activities introduce students to many of the diverse social and cultural events held in the city. Information regarding campus student organizations can be found in the AUD Student Handbook.

Student organizations are responsible for the conduct of all persons at university-related functions. All students and guests must conform to the UAE law. Please note that the Code of Student Conduct contained in this Catalog applies to all student activities on or off campus. Every organization has the responsibility to take all reasonable steps to prevent any infraction of the university rules and UAE laws related to the activities of the organization. Any individual/group whose conduct is in violation of the Code of Student Conduct will be subject to disciplinary action. In addition, outlined penalties and disciplinary procedures will apply. Such action may include suspension or dismissal of individuals or suspension or termination of a particular activity or club. The university has authority over all student organizations and activities. To provide for the efficient use of AUD’s buildings and facilities and to protect the integrity and reputation of the university, student organizations must complete an online Proposed Event Form two weeks prior to any event. Prior approval for use of AUD facilities is required. Details are available with the Student Activities Coordinator.

AUD Student Leadership Programs
AUD is pleased to offer a number of leadership programs for students. Through these leadership programs, AUD students are provided with the opportunity to develop their leadership, management, and public relations skills.

Student Orientation Leaders
Student Orientation Leaders assist in all student orientation programs. AUD’s
Orientation Leaders welcome new students and their parents to AUD and facilitate the transition of new students into the academic, social, extracurricular and cultural and career dimensions of the AUD educational experience. Orientation Leaders act as group facilitators during AUD’s orientation programs and acquaint new students with campus activities, facilities, rules, procedures and policies.

Peer Tutors
AUD Student Tutors provide academic support and encouragement for those students who are experiencing academic distress. Tutors assist students with content-related issues and questions; discuss difficult academic concepts and provide novel and creative approaches to understanding them; listen attentively and provide clear explanations of academic problem areas and create a welcoming environment for students in academic distress.

Peer Advising Leaders (PALs)
Peer Advising Leaders are trained Junior and Senior students who are available to first-year and other new students in order to answer general academic questions and address concerns. These student leaders will contribute to the academic and personal growth of new students by offering their insights and experiences into academic issues primarily affecting freshman and undeclared students.

Peer Advising Leaders will help these students:

- Understand the course sequences of their programs;
- Connect with campus resources;
- Evaluate different majors (if undecided);
- Make the most of the new student orientation and the first year experience; and
- Participate in study skills workshops.

Resident Assistants
AUD Residence Assistants (RAs) work as an administrative link between residents and the Housing Office. RAs help residents with personal problems, roommate conflicts and other dorm-related issues. RAs also keep the Housing Office advised of residents’ concerns and issues. They play a major role in presenting programs in the dorms that provide residents with a variety of educational, cultural, recreational, and social activities.

*All students who fulfill the obligation of their student leadership contract are invited to attend the annual Student Leadership Luncheon held in the spring of each academic year.

AUD Annual Gala Dinner and Awards Ceremony
The AUD Gala Dinner/Awards Ceremony is an annual AUD event held in the spring of each academic year. The Awards Ceremony recognizes students who have strongly contributed and brought glory to AUD through athletics, club activities, community service, leadership and academics. The ceremony is scheduled during the middle of April with a reception following the ceremony.

Student Leadership Awards
These awards are presented to students who have demonstrated outstanding leadership on campus. This is a highly selective award only given to those students who have helped unite others, created and orchestrated activities/
events, and/or emerged as leaders at the university.

**Student Service Awards**
These awards are presented to active students who have volunteered regularly and consistently over the course of the academic year and/or intensively for a particular project. Students must show consistent effort, dedication, and commitment.

**Student Government Awards**
These awards are presented to any student, who through an active role in the SGA for the current academic has truly made a difference to university life.

**Outstanding Student Organization**
Awarded to the one student organization/club that met regularly through the course of the academic year, hosted at least two events per semester, had an agenda for development, and an organizational plan.

**Outstanding Event of the Year**
Awarded to the one student-created and executed activity that has been the most successful as demonstrated by high attendance at the event.

**AUD Ambassador Awards**
Awarded to students who bring distinction to AUD by placing first in external competitions and participating in community projects.

**Outstanding Male Athlete**
Awarded to the male athlete who has excelled athletically, was deemed to be the most valuable to the team, and who embodies the spirit of AUD Athletics (sportsmanship, citizenship, team work, and understanding the spirit of the game).

**Outstanding Female Athlete**
Awarded to the female athlete who has excelled athletically, was deemed to be the most valuable to the team, and who embodies the spirit of AUD Athletics (sportsmanship, citizenship, team work, and understanding the spirit of the game).

**President's Awards**
- **Student Excellence**
  Awarded to a student who has excelled at AUD through academics and leadership as well as participation and involvement in several university activities. The selected student emulates AUD's values and beliefs.
- **Teaching Excellence**
  Awarded to the faculty member who has contributed to the university through extraordinary performance as a teacher. Evaluation criteria include service to students/mentoring outside the classroom.

- **Institutional Effectiveness**
  Awarded annually to a faculty or staff member for a superlative contribution to AUD's institutional effectiveness initiatives. The basis for this Award will be an outstanding achievement within the IE sphere (e.g., assessment/measurement, continuous improvement, strategy formulation, establishment of learning outcomes, etc.) resulting in a significant enhancement in the achievement of AUD's Mission.

- **Distinguished Service**
  Awarded to a faculty or staff member who has made significant ongoing contributions to AUD above and beyond the call of duty. The selected faculty or staff member is one whose impact on the institution is formidable and universally recognized.
LIBRARY

- Mission
- Purpose
- Goals
- Library Overview
GOALS

The Library’s operational goals include facilitating access to information through:

- the development of the library print collection, electronic information resources and access to external information sources;
- the library’s organization and arrangement for access;
- appropriate reference services and user education programs;
- the maintenance of facilities of an adequate size and quality to house collections, resources, and equipment and to provide adequate space for patrons and library personnel.

MISSION

The Library has both primary and complementary Missions. The primary Mission of the American University in Dubai Library is to provide information resources and services to support the instructional programs and educational goals of the university; namely, to help students prepare for a career, develop life-long learning and critical thinking skills and to promote diversity in the student body and educational programs. The complementary Mission is to support the research and staff development needs of AUD faculty and staff.

PURPOSE

The AUD Library supports the institution’s goal to prepare students personally and professionally for their careers. The Library, along with the AUD administration, is committed to acquiring resources and establishing services that support and enhance the curriculum and respond to the needs of patrons.

LIBRARY OVERVIEW

The Library at the American University in Dubai provides books, magazines/journals and electronic resources to enrich the university’s educational program. AUD’s Library has a large English language collection of approximately 104,000 print/e-books. The Library provides a rich collection of
approximately 63 online resources offering access to full-text journals, magazines and international newspapers. The Library also provides over 340 print journals, magazines and newspapers. The collection is particularly strong in resources for disciplines in which AUD grants degrees: business, communication and information studies, interior design, visual communication, computer and information technology, computer science and engineering.

An interlibrary loan agreement is maintained with the British Library to enable students to access information not found in the AUD Library.

The Library catalog and many databases can be accessed both on-campus and off-campus. Such access creates a “library without walls” open 24/7 for students.

The AUD Library provides the tools needed to complete research and create presentations. It contains two computer labs (24 computers) and one teaching lab (24 computers) in addition to 11 computer workstations in the Reference area, photocopier, two printers, three scanners and four study rooms.

AUD’s library staff is committed to the student. Their knowledge of information resources, professionalism and willingness to assist, provides a learning environment where students feel comfortable knowing they can always receive help. Professional library staff acquaint students with various search techniques and offer advice about which resources to use for their information searches. Course-integrated library sessions are provided to ensure that students develop the skills needed to research the full range of information resources. Workshops are held regularly to increase the students’ ability to navigate the databases.
GENERAL POLICIES

- Institutional Change
- Government Regulations
- Civil Rights Compliance
- Drug-Free Environment
- Unlawful Harassment
- Student Records
- Student Records Access and Release
- Health History
- Students with Special Needs/Disabilities
- Campus Security/Crime and Safety Prevention Program
- Disclosure
- General Statement of Philosophy on Student Conduct
- Code of Student Conduct
- Conduct Council
- AUD Technology Use Policy
- Grievance Process
- Conflict of Interest Clause
- Interruption of Degree Progress
- Transfer of Credit from AUD to Other Colleges and Universities
Furthermore, as an American-accredited institution, AUD complies with the spirit of relevant United States legislation in so far as is possible/advisable given the cultural, historical, architectural, and legal contexts within which the university operates in the United Arab Emirates.

**CIVIL RIGHTS COMPLIANCE**

AUD does not discriminate on the basis of race, religion, age, national origin, gender, sexual orientation, or handicap among qualified persons in the recruitment and admission of students, the operation of any of its educational programs and activities, and the recruitment and employment of faculty and staff. The university provides a means to ensure a prompt resolution of all complaints regarding violations of the above policies and a means to ensure due process to all employees and students who believe that the university's policy of non-discrimination is being violated or that they have been victims of sexual harassment.

**DRUG-FREE ENVIRONMENT**

As a matter of rigorous policy, AUD prohibits the manufacture and unlawful possession, use, sale or distribution of illicit drugs and alcohol by students and employees on its property and at any university activity. Further information on the university's policies can be found in the Student Handbook. Any violation of these policies will result in appropriate disciplinary actions up to and including dismissal in the case of students and termination in the case of employees, even for a first offense. Violations of the law will also be referred to the appropriate law enforcement authorities. Students or employees may also be referred to abuse help centers. Information on the school's drug-free awareness program and drug and alcohol abuse prevention program may be obtained from the Office of the Dean of Student Services.

**UNLAWFUL HARASSMENT**

AUD is committed to the policy that all members of the university community, including its faculty, students, and staff, have the right to be free from unlawful discrimination in the form of sexual harassment by any other member of the
university community. Should a student or staff member feel that he/she has been unlawfully harassed, they should immediately inform the Dean of Student Services (students) or supervisor (staff)*. Unlawful harassment refers to behavior that is not welcome, which is personally offensive or undesirable to the recipient. All students and employees must be allowed to work and study in an environment free from unsolicited and unwelcome sexual overtures and advances. Unlawful harassment undermines the employee/student/university relationship, and it will not be tolerated.

STUDENT RECORDS
AUD practices the standard of developing and implementing effective management systems that ensure integrity, confidentiality, security and accurate interpretation of institutional records. As such, AUD has implemented policies and procedures to protect the security of the student records in our electronic database (CampusVue), created adequate backup procedures, and updated procedures for approving grade changes.

The integrity and confidentiality of student record information continues to be one of the highest priorities of the university.*

* AUD upholds the commitment to respect and protect the privacy of student information according to AUD policy and the Family Educational Rights and Privacy Act (FERPA) of 1974.

STUDENT RECORDS ACCESS AND RELEASE
The university has established a policy for the release of records containing information on students.

- Each student attending AUD shall have the right to inspect and review the contents of his/her education records, including grades, records of attendance and other information. Parents are not entitled to inspect and review financial records of their students. Parental access to a student’s records will be allowed without prior consent if the student is a dependent as defined in Section 152 of the Internal Revenue Code of 1986 (USA).

- A student’s education records are defined as files, materials, or documents
and course evaluations can be challenged only on the grounds that they are improperly recorded. The instructor or staff member involved will review the request, if necessary meet with the student, and then determine whether to retain, change, or delete the disputed data. If a student requests a further review, the Provost and Chief Academic Officer will conduct a hearing, giving the student a full and fair opportunity to present evidence relevant to the disputed issues. The student will be notified of the Provost/Chief Academic Officer’s decision. Copies of student challenges and any written explanations regarding the contents of the student’s record will be retained as part of the student’s permanent record.

- Students may request that the institution amend any of their education records, if they believe the record contains information that is inaccurate, misleading or in violation of their privacy rights. The request for change must be made in writing and delivered to the Registrar with the reason for the requested change stated fully. Grades and course evaluations can be challenged only on the grounds that they are improperly recorded. The instructor or staff member involved will review the request, if necessary meet with the student, and then determine whether to retain, change, or delete the disputed data. If a student requests a further review, the Provost and Chief Academic Officer will conduct a hearing, giving the student a full and fair opportunity to present evidence relevant to the disputed issues. The student will be notified of the Provost/Chief Academic Officer’s decision. Copies of student challenges and any written explanations regarding the contents of the student’s record will be retained as part of the student’s permanent record.

- Directory information is information on a student that the university may release to third parties without the consent of the student. AUD has defined directory information as the student’s name, address(es), telephone number(s), email address, birth date and place, program undertaken, dates of attendance, credential awarded. If a student does not want some or all of his or her directory information to be released to third parties without his/her consent, the student must present such a request in writing to the Registrar within the term of the student’s initial enrollment.

- The written consent of the student is required before personally identifiable information from education records on that student may be released to a third party, except for those disclosures referenced above, disclosures to accrediting commissions and government agencies, and other disclosures permitted by law. All students are requested to complete the Release Form as part of the admission process.

- A student who believes that AUD has violated his or her rights concerning the release of or access to his or her records may file a complaint with the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, S.W., Washington, D.C. 20202-4605.
HEALTH HISTORY
AUD prides itself in offering quality health services. To maintain our standards and fully address the health and medical needs of our students, the AUD Health Center requires that all AUD students submit the Student Health History Form (available at the AUD Health Center) to the Health Center. **This Form must be endorsed by a physician.**

All health information is confidential. Only the following staff members have access (as needed): President, Executive Vice President, Dean of Student Services, and Housing Manager (for dorm students). All student medical records are kept under a locked filing system, and they are not released to others without the written consent (**Authorization of Health Information Release**) of the student or his/her parents.

STUDENTS WITH SPECIAL NEEDS/DISABILITIES
Non-Discrimination Statement
AUD does not discriminate against individuals on the basis of physical or mental disability and is fully committed to providing reasonable accommodations, including appropriate auxiliary aids and services, to qualified individuals with a disability, unless providing such accommodations would result in an undue burden or fundamentally alter the nature of the relevant program, benefit, or service provided by AUD.

**Special Needs**
The American University in Dubai is committed to providing reasonable accommodations and equal access to university programs and activities for students with documented disabilities/special needs. A reasonable accommodation is one that is consistent with academic standards of the university and does not require substantial course or program alteration.

The Office of Student Support welcomes and encourages students with disabilities to identify themselves and to seek access to needed accommodations.

*It is the responsibility of all special needs students to contact the Assistant Dean of Student Services for an interview and needs assessment prior to their first term of enrollment.* To ensure that accommodations are provided in a timely fashion, the university strongly encourages students to submit accommodation requests well in advance of the start of any coursework for which the accommodation is requested. The Assistant Dean maintains a file on each special needs student including specifics on needed accommodations and adaptations.

This information will be kept confidential except that relevant faculty and staff may be informed if they are expected to provide accommodations or if emergency treatment may be required.

For more information, students should contact Student Support within the Student Services Department.

CAMPUS SECURITY/CRIME AND SAFETY PREVENTION PROGRAM
AUD is concerned about the safety and welfare of its students and employees. Therefore, AUD has implemented a security policy for the protection of students, staff and faculty. AUD maintains a log of all crimes committed and reported on its campus. Information is updated annually. Updated information for the prior calendar
and institutional rights and property is a primary focus of the disciplinary process. The administration reserves the right to develop any policy or take any action(s) deemed appropriate to maintain the safety and well-being of any or all students. Policies and procedures on offenses related to persons, property, campus operations and welfare, health or safety can be found in the AUD Student Handbook.

DISCLOSURE
Students are encouraged to share personal experiences while participating in classes at AUD. However, students must be aware that should they disclose to any AUD faculty member or staff information that may cause harm to themselves or others. Faculty members and staff are required to report such information to the Deans or Chairs, Provost/Chief Academic Officer, or President.

GENERAL STATEMENT OF PHILOSOPHY ON STUDENT CONDUCT
AUD believes strongly in promoting the development of personal and social responsibility and also believes in a humanistic approach to discipline conducive to academic pursuits; however, AUD recognizes that its responsibility for the protection of personal and institutional rights and property is a primary focus of the disciplinary process. The administration reserves the right to develop any policy or take any action(s) deemed appropriate to maintain the safety and well-being of any or all students. Policies and procedures on offenses related to persons, property, campus operations and welfare, health or safety can be found in the AUD Student Handbook.

CODE OF STUDENT CONDUCT
AUD is an academic community committed to the educational and personal growth of its students. Behavior that infringes upon rights, safety or privileges or that impedes the educational process is unacceptable and may lead to sanctions up to and including dismissal from the university. An explanation of violations of university regulations can be found in the AUD Student Handbook.

CONDUCT COUNCIL
The Conduct Council is a committee of academics, administrative staff and students which serves to investigate alleged breaches of the AUD Code of Student Conduct,
determine culpability and prescribe penalty. The Council operates on an ad hoc basis under the chairmanship of the Dean of Student Services. Its composition and mode of operation mirror that of the Honor Council (see AUD Student Handbook), except that an administrative staff member replaces the Dean or Chair of the unit alleging disintegrity.

AUD TECHNOLOGY USE POLICY
Information technology resources include all university-owned computers, peripherals, and related equipment and software; voice and data communications infrastructure, all other associated tools, instruments, and facilities; and the services that make use of any of these technology resources. Users are encouraged to use the university computing systems in an effective, efficient, ethical, and lawful manner.

AUD invests in technology resources in order to accomplish more effectively university-specific tasks, goals, and learning objectives. As expected in a contemporary environment, the presence of technology on campus is pervasive. University operating processes and procedures are nearly always computer-supported, and course syllabi more frequently than not reflect the imparting of technological learning outcomes and the use of technology in pedagogy.

Computer users at AUD are required to use proper social and professional etiquette when using the AUD systems. Use of the network implies consent for monitoring of traffic that is necessary for smooth administration of the resource. University computing resources shall not be used for purposes that could reasonably be expected to cause directly, or indirectly, excessive strain on computing systems or unwarranted and unsolicited interference with use of email or email systems.

AUD does not condone the use of inappropriate language and visuals when storing, replicating or transmitting messages by/to instructors, staff or students. The AUD computing facilities and network infrastructure is a distributed and shared environment. Improper behavior that could disrupt the computing resources may be ground for termination of access or other penalties deemed appropriate. Anyone accessing or utilizing university computer systems, related data files, and information shares the responsibility for the security, integrity, and confidentiality of information.

GRIEVANCE PROCESS

Grievance Officer
The Grievance Officer facilitates the resolution of grievances within the AUD community through the Grievance Process as outlined below. The Grievance Officer offers confidential, informal, independent, and neutral dispute resolution services by providing mediation, information, advice and referrals as appropriate.

Grievance Procedure
To resolve an issue,

- Grievants should *directly communicate* with the person with whom they have a complaint. It is the grievant’s responsibility to do this before any further action is pursued;

- If grievants wish to formalize the process; they are required to seek the counsel of the **Grievance Officer within ten working days** of the incident leading to the complaint;
If the grievant wishes to pursue the matter further, he/she should submit a written complaint to the Grievance Officer with the following information:
- his or her description of the incident(s);
- the name of the person with whom he/she has a concern/complaint;
- a suggested remedy.

The Grievance Officer will then contact the respective Dean, Chair or Program Director (academic issues), Department Director (non-academic issues), or Supervisor (as appropriate) and provide them with the information regarding the complaint;

The Dean, Chair or Program Director (academic issues), Department Director (nonacademic issues) or Supervisor will then begin the investigation of the complaint;

The Dean, Chair or Program Director (academic issues), Department Director (non-academic issues) or Supervisor will provide a report reflecting the findings and giving recommendations within ten working days of the filing of the written complaint;

If a written report is not received within this timeframe, the Grievance Officer will forward the grievance to the Provost and Chief Academic Officer (academic issues), Dean of Student Services (non-academic issues) or respective Senior Supervisor;

The Grievance Officer in consultation with the Provost and Chief Academic Officer (academic issues), Dean of Student Services (non-academic issues) or Senior Supervisor, will summarize the decision and rationale in writing within ten working days to the grievant, the respondent, and the Dean, Chair or Program Director (academic issues), Department Director (nonacademic issues) or Supervisor.

Appropriate action will be taken by the Dean, Chair or Program Director (academic issues), Department Director (non-academic issues) or Supervisor within five working days after receiving the summary of the decision/rationale.

Confirmation in writing that action has been taken will be provided to the Grievance Officer within five working days.

If at anytime during this process, input is not provided within the stated timeframe, the Grievance Officer will collaborate with the appropriate parties to move the process forward. It is the responsibility of the Grievance Officer to keep the university Complaint Log. In the event that a grievance filed in Summer I or Summer II cannot be processed within the prescribed timeframe because one or more of the parties to the grievance are not available, the grievance will then be processed within the ten-day period immediately following the start of the Fall semester.

Grievance Appeal Process
In the event that the above procedure does not yield a satisfactory resolution, the grievant may appeal to the President in writing. The grievant may seek the counsel of the Grievance Officer in preparing the appeal.

This appeal must be received in the Office of the President within five working days after the grievant, the respondent, and the Dean, Chair or Program Director, Department Director or Supervisor have received written notification of the action.
• The decision previously made can only be overturned by the President if additional extremely compelling information is deemed relevant to the case outcome.

CONFLICT OF INTEREST CLAUSE
No Council member shall sit in review of any decision he or she previously rendered which comes before the Council for review. This imperative applies to situations where the Council’s decision is actually being challenged and applies in situations where there may be an appearance of impropriety for a Council member to review a decision based on either direct or indirect contact with the matter in question.

INTERRUPTION OF DEGREE PROGRESS
When a student interrupts progress towards completion of his/her degree for one calendar year or more, he/she must re-apply to the university in order to resume their studies. The application for re-admission will entail a review of the student’s record by the Admissions Office which, in consultation with the Office of Academic Affairs, may require the student to fulfill (in all or in part) the degree requirements in effect at the time readmission is requested. These requirements may differ from those in effect at the time the student was first admitted to the university.

TRANSFER OF CREDIT FROM AUD TO OTHER COLLEGES AND UNIVERSITIES
AUD neither implies nor guarantees that credits completed will be accepted by other institutions. Each institution has policies that govern the acceptance of credit from other institutions. Transfer of credit is a privilege granted by the institution to which a student may seek admission. Students seeking to transfer credits earned at AUD to other postsecondary institutions should contact the college or university to which they seek admission to inquire as to that institution’s policies on credit transfer and acceptance.

OFFICE OF ACADEMIC AFFAIRS

The office of Academic Affairs (synonymous with the Office of the Provost/Chief Academic Officer) is responsible for the design and delivery of AUD’s academic programs and the quality of academic life at the university.

Provost/Chief Academic Officer

The Provost/Chief Academic Officer oversees the appointment and promotion of all academic staff (Deans, Chairs, Directors, faculty members and academic support staff), chairs the Academic Council, serves on the Administrative Council, and chairs or is a member of various standing and ad hoc committees whose work impacts academic life at the university.

The Provost/Chief Academic Officer also performs external outreach and representation functions that are aimed at building collaborative relationships and promoting the academic well-being and reputation of the university with the academic and professional communities and with government bodies, locally, regionally, and internationally.

MISSION

As the Chief Academic Officer of The American University in Dubai, the Provost/Chief Academic Officer is responsible for overseeing all aspects of academic affairs at the university. Working closely with the President, the primary Mission of the Office of the Provost/Chief Academic Officer is to lead the development and supervise the implementation of academic strategies, policies and procedures whose purpose is to ensure the fullest achievement of the university’s educational Mission and Goals.

To this end, the Provost/Chief Academic Officer collaborates with the President and the Executive Vice President in allocating resources to the different academic units and academic support functions through the budgetary process.

PURPOSE

The purpose of the Office of the Provost/Chief Academic Officer is to ensure that students are provided with an educational experience of the highest quality. Corollary to this purpose is the provision of an academic environment that is conducive to faculty members’ growth and accomplishment through excellence in teaching, scholarly and professional contributions, and service.

GOALS

- To foster academic leadership in all academic units at AUD;
- To help new faculty to integrate quickly and successfully into AUD’s teaching-focused, student-centered culture;
- To pursue excellence in student learning by continually upgrading the quality of teaching and enhancing teaching effectiveness;
- To enhance communication between faculty, Deans and Chairs, and the Provost/Chief Academic Officer’s Office;
- To recognize, publicize, and celebrate faculty accomplishments;
- To oversee the planning and budgeting process for academic units;
- To upgrade the organizational and administrative setup of the academic units for higher effectiveness in program delivery and student learning;
- To provide faculty with opportunities for professional involvement and outreach.
that would serve the community and enhance student learning.

FACULTY RECOGNITION
In addition to the President’s Award for Teaching Excellence, Institutional Effectiveness, and Service, the following Awards, granted annually by the Provost/Chief Academic Officer, serve to recognize faculty achievement in teaching, research and other spheres of endeavor:

Provost’s Award for Innovation in Teaching
Awarded according to the following criteria:
  • evidence of effective use of the innovation to enhance student learning;
  • support for the innovation by academics, both within and outside AUD, and by professionals in the discipline;
  • potential for continued use and long-term impact of the innovation on teaching and learning.

Provost’s Award for Outstanding Research
Awarded according to the following criteria:
  • track record of activity and productivity in research and scholarly work;
  • originality and quality of the research or scholarly work;
  • local and international recognition of the research or scholarly work;
  • contribution of research to conceptual knowledge in the academic discipline;
  • contribution of research to applications and practices in the professional discipline.

Provost’s Award for Creativity in Design and the Visual Arts
Awarded according to the following criteria:
  • originality of the creative work;
  • evidence of local and international recognition of the creative work such as participation in local and international exhibitions, displays, competitions, etc., and/or presentation at adjudicated conferences and/or publication in adjudicated journals;
  • evidence (e.g., through media coverage) of cultural and social significance of the creative work and its impact on the human experience and on public opinion.
Provost’s Award for Outstanding Literary Achievement
Awarded according to the following criteria:
• originality of the literary work;

• evidence of local and international recognition of the literary work such as interviews with the author, discussions in the media, citations, participation in local and international literary competitions and contests, presentations at adjudicated literary events, publication in adjudicated journals;

• evidence (e.g., through media coverage) of cultural and social significance of the literary work and its impact on the human experience and on public opinion.

ACADEMIC SUPPORT SERVICES
Through the math tutor center and the writing center, AUD provides valuable and complementary services for members of its community. Hours of operation are published at the beginning of every academic term.

Writing Center
The American University in Dubai offers the services of a Writing Center where all members of the AUD community (students/staff/faculty) can receive one-to-one assistance on writing tasks. Students can receive assistance on assignments at various stages of the process of completion. Assistance is provided by full- and part-time instructors on writing tasks in any discipline with a focus on developing overall academic writing skills. Throughout each semester, Writing Center staff offer workshops for all AUD members on various topics related to writing (e.g., sentence combining, in-text documentation).

Math Tutor Center
The Math Tutor Center provides students enrolled in mathematics courses (including Math 098, 099, 111, 160, 191, 210, and 220) the opportunity to receive assistance in their efforts to be successful in these courses. The Center operates as a walk-in service. There is no need to make an appointment. The tutors who staff the Center include students who have demonstrated an excellent ability to understand mathematics as well as an ability to help others understand. Additionally, there are several full-time and adjunct faculty
members who also help to staff the Center. Students are encouraged to utilize the Center as often as needed. The Center operates throughout the semester (except for the first week of classes and the week of final exams) and is open Sunday through Thursday.

**ACADEMIC ADVISING CENTER**
The AUD Academic Advising Center (AAC), provides advising services to students who have completed fewer than 60 credit hours. An Advisor’s signature is required in order for these students to register*. The AAC assists each student in adopting a program of study and creating an individual program of study document. Prior to the beginning of each term, these students are required to meet with the Advisor to whom they are assigned in order to review the status of their degree progress, to discuss university policies and departmental requirements, and to select courses.

* See p. 88 for a description of how these services and requirements vary by academic program

**Mission**
The Academic Advising Center aims to enhance each student’s university experience. This is accomplished through the assessment and monitoring of and response to student needs by providing services that result in student development and academic success.

**Goals**
In accordance with our statement and AUD’s vision of promoting student learning and development, the Center’s goals are to:

- Impart accurate, judicious and timely information on AUD policies, academic programs, and campus resources;
- Form educational advising partnerships with advisees and encourage the shared responsibility of academic decisions with advisors;
- Contribute to the student’s personal development and effective decision-making skills; and
- Evaluate and re-assess the AAC services to better serve the advisees’ needs and enhance their educational experience at AUD.

**Outcomes**
- Students will read and accurately interpret AUD policies and academic program requirements and will recognize campus resources.
- Students will value the advising partnership and select an appropriate course sequence accordingly.
- Students will understand how their academic performance impacts their individual progress towards graduation.
- Prospective graduates will acknowledge the academic guidance provided by the AAC.

- Graduation with Honors
STATEMENT ON ACADEMIC FREEDOM

Academic freedom is the freedom for faculty to discuss all relevant matters in the classroom, to pursue other professional academic activities related to student learning and research, and to explore all avenues of inquiry, learning and instruction in an institution of higher learning. However, academic freedom is accompanied by academic responsibility, which implies faithful performance of assigned academic duties and obligations including a presentation of course content that meets the requirements and learning objectives of each course. Academic responsibility also requires that faculty members make clear that they are not speaking for the institution, unless expressly authorized to do so by AUD, particularly in areas of politics, topics related to religious beliefs, and commercial endorsements. Faculty members should at all times act with integrity, express themselves within the confines of law and competent authority, show respect for the rights of others to hold differing opinions, be accurate, exercise appropriate restraint, be culturally sensitive, and make every effort to indicate that statements they make express their own views and not those of AUD.

The American University in Dubai recognizes and will uphold for all its faculty, full-time and adjunct, the freedom to pursue knowledge wherever it may lead, the freedom to test received wisdom, and the freedom to research, review and put forward new, controversial, or unpopular ideas or opinions within the standards of scholarly inquiry and professional ethics, without interference and without placing themselves in jeopardy of losing their jobs or any of their rights or privileges as AUD faculty.

DEFINITION OF “PROGRAM” AND “MAJOR”

Per AUD nomenclature “major” means a specialization within a program. Hence, Business Administration, Communication and Information Studies, International Studies, Computer and Information Technology, Computer Science, Architecture, Visual Communication and Interior Design are programs. Marketing Communications, Finance and Management are examples of majors within the Business Administration program. AUD’s School of Engineering offers six degree programs: Civil, Computer, Electrical, Mechanical Engineering, Computer Science and Computer and Information Technology*. The number of credit hours required by each program is clearly stated in the appropriate sections of this Catalog.
Optional majors (where applicable) are also listed, together with the required credit hours for each.

* No longer accepting students effective Spring 2011

**DECLARATION OF PROGRAM/MAJOR**
All undergraduate students must declare both their choice of a degree program and, if applicable, major prior to their Junior year (i.e., by the completion of 60 credit hours). Undecided students must do so by submitting the required form to the Registrar’s Office. Students wishing to change their degree programs and/or major must obtain the required approvals and submit the form for this purpose to the Registrar.

**MULTIPLE MAJORS**
A student may choose multiple (i.e., more than one) major within a degree program. Any course listed in this Catalog under more than one major may be used to satisfy the requirements of each major under which it is listed. This reduces the credit-hour burden for students pursuing double or triple majors, while essentially preserving the specialization represented by each major. Credit hours are not, however, applied more than once in the calculation of total hours earned.

**ACADEMIC PROGRAM/MAJOR CHANGES**
Students may change their program of study at anytime with the approval of the Dean or Chair of the new program. *It is the prerogative of the new department to set the conditions (if any) for approving these changes.* Students are advised to discuss changes with the appropriate Dean or Chair as these may cause a delay in graduation. Formal notification of an unapproved change is forwarded to students in writing by the office of the Registrar. All approved changes are reflected in the students’ degree audits in the term following the approval of the changes.

**ACADEMIC MINORS**
An undergraduate minor is a cluster of courses taken in a field of study outside the student’s major. The minor consists of a minimum of 15 credit hours of coursework beyond the requirements of the major and is intended to broaden the student’s knowledge beyond the immediate field of study. Minors offered by the various academic units are listed in the appropriate sections of this Catalog.

In addition to the student’s major, a student is permitted to pursue up to two minors. Students declaring a double major are not permitted to pursue a minor. *A course counting toward a minor will not be counted toward other degree requirements. A course may not be used to fulfill the requirements of more than one minor.*

Students planning to declare a minor are required to complete the Minor Declaration Form, obtain the necessary approvals, and submit the form to the Registrar’s Office prior to their senior year (i.e., before completing 90 credit hours). The Minor Declaration Form is available at the Academic Advising Center. Only students enrolled in a major at AUD may pursue an AUD minor. A student is not allowed to pursue a minor in the same discipline as the major. Notation of the minor will appear on the transcript only upon completion of the student’s undergraduate degree requirements. No reference to the minor will be made on the diploma.

A minimum of nine credits counting toward the minor must be taken at AUD. Internships and pass/fail courses may not count toward a minor. Courses counting toward the minor must be completed with an overall minor Grade Point Average of 2.00 or higher. Academic units may set higher academic requirements in the specified minor.

Students are required to consult with the head of the academic unit offering the minor
regarding specific restrictions or requirements pertaining to the minor they wish to pursue.

TIME LIMIT FOR COMPLETION OF UNDERGRADUATE DEGREE PROGRAMS
All course work and other requirements for baccalaureate degrees must be completed no later than ten calendar years from the date of initial admission to the program. Study terms and inactive terms, during which the student was not registered in any courses, will all be counted in determining adherence to this time limit.

ACADEMIC ADVISING/REGISTRATION
Students receive advising and are registered for their first term at AUD by an Admissions Coordinator.

During subsequent terms (up to the completion of 60 credit hours), undergraduate students receive advising and obtain authorization to register from an Academic Advisor housed in the AUD Academic Advising Center.

A student who has earned greater than 60 credit hours is assigned a faculty member who acts as his/her advisor. With the exception of candidates in Engineering, Computer and Information Technology and Computer Science, upon completion of 60 credit hours, students no longer need to obtain an Advisor’s signature in order to register. (Engineering, Computer and Information Technology, and Computer Science students must obtain a signature from their AAC Advisor throughout their residency at AUD.)

Beyond 60 credit hours, each student is assigned a faculty member who acts as Academic Advisor. Students are encouraged to maintain close contact with their Advisor during their time at AUD. Advisors provide them with information and perspective related to academic policy and concerns, specific course related problems/issues and other academic professionally related development. Nonetheless, students are expected to assume responsibility for program planning and course selection since ultimately the responsibility for fulfilling degree requirements rests squarely with the student. They are required to become intimately familiar with the various program requirements and necessary requisite coursework and sequencing.

ACADEMIC YEAR
AUD defines the academic year as a period of time in which a full-time student is expected to complete two semesters (Fall, Spring) of instructional time. A full-time student is expected to complete a minimum of 24 credits within the academic year. (Students on the university’s visa must register for 15 credits per semester in the Fall and Spring semesters in order to maintain the required full-time status.)

AUD’s academic calendar operates on the semester system with each semester consisting of 15 weeks of scheduled classes plus a 16th week for study/make-up classes and final examinations. The Summer sessions are optional and fall outside the academic year. A detailed Academic Calendar is included in this Catalog.

ACADEMIC CREDIT HOURS
One unit of academic credit is generally awarded for each scheduled class hour (clock hour) per week; i.e., three hours of academic credit is equal to approximately three hours in the classroom per week. Therefore, for every three hours of academic credit awarded, the student receives approximately 45 hours of instruction per term. Summer sessions entail a higher number of weekly
hours. The relationship between hours spent in labs or studios and credit hours varies by discipline/course and is reflected in the *UNDERGRADUATE COURSE DESCRIPTIONS* section of this *Catalog*.

**COURSE LOAD**
The normal academic load at the university is 15 credit hours per semester and 9 credit hours for either Summer term. Students wishing to carry additional hours may do so with the approval of their advisor. Overloads are permitted only for students in good academic standing (i.e., carrying a minimum 2.0 CGPA); and occasionally, depending on the courses comprising the student’s proposed schedule, a higher CGPA may be required.

**AUDITS**
A student may audit a course at his/her discretion and with the approval of the Dean or Chair of the academic unit offering the course. *An audited (i.e., not-for-credit) course may not be taken for credit at a later date.* The normal fee schedule governs audited courses.

**COURSE SEQUENCING**
While it is difficult to generalize from program to program (and student to student), the university has firm beliefs concerning course sequencing in terms of what makes academic sense and will enable students to complete their degree requirements by the expected date of graduation.

*Students should consult the course sequencing charts in the program-specific sections of this *Catalog*. See pp. 110-114 of this *Catalog* for regulations regarding the satisfaction of Arts and Sciences requirements.*

**ENGLISH AS A PREREQUISITE**
University-level competency in English is instrumental in student success at AUD. Where ENGL101/102 are indicated as specific prerequisites to a course, the prerequisites will be rigorously enforced. Furthermore, even if not stated as a prerequisite, students are advised not to register for a 300 or 400 level course without completing ENGL102. It is likewise advisable that students complete ENGL 101 prior to registering for 200 level courses unless it is recommended that the course be taken concurrently with ENGL101. The completion of ENGL101/102, required by all academic programs, will help students complete program-specific course work successfully. Students should consult their academic advisor if they have any questions.

**FIRST YEAR EXPERIENCE**
AUD recognizes the challenge of attending a university for the first time and supports the success of all new undergraduate students through a first year experience program. The program includes a comprehensive campus Orientation, workshops, and a course on university success. *The UNIV 100 (The University Experience)* course helps to maximize a student’s ability to benefit from higher education and to ease his or her transition into the university environment.

**UNIV 100**
To be successful at The American University in Dubai, students need to understand and adapt to the standards, approaches and expectations of the American university system. Because these may differ significantly from the standards, approaches and expectations that incoming students have experienced in previous educational institutions, it is important for AUD to facilitate the socialization process. Therefore, all students entering The American University in Dubai* are required to take *UNIV 100 (The University Experience)*. In this course,
first year students are introduced to the structure, norms and expectations which underpin American education and which guide the university’s assessment of student performance. These aspects of American education give priority to critical thinking, oral and written communication skills, goal-directed behavior, personal initiative, ethics and cultural tolerance. In essence, UNIV 100 enables students to adopt the posture of “student-as-a-professional” and to reach their full potential during their tenure at AUD and beyond.

*Except those who have completed five courses (semester basis) and three courses (quarter basis) at a recognized college or university.

Students who delay UNIV 100 will not be exempted from this requirement.

REQUIRED ARTS AND SCIENCES COURSES (INCLUDING DEVELOPMENTAL)
All candidates for an AUD degree are required to complete successfully ENGL 101 (Composition and Rhetoric), ENGL 102 (Advanced Composition and Research), ENGL 103 (Introduction to Literature), COMP 101 (Introduction to Computers); and depending on their Major and placement test results, MATH 111 (Mathematics for the Arts) or MATH 160 (Mathematics with Business Applications) within their first 60 credits earned.

If applicable, ENGL 100 (Developmental English), MATH 098 (Developmental Mathematics I), and MATH 099 (Developmental Mathematics II) must also be successfully completed within one year of initial registration. Failure to do so will result in the student’s non-eligibility to register for any for-credit courses until the remaining developmental courses are completed successfully.

Math requirements for Engineering and Architecture students vary, and students should consult their advisors for Years I and II sequencing.) All eligible first year students must take UNIV 100 (The University Experience) within their first 30 credits earned.

Failure to comply with this Policy may result in dismissal from the university.

STUDENT ATTENDANCE
Students are expected to be in class for all scheduled class periods (including make-up classes). All matters related to student absences (making up work missed, tests missed, etc.) are specified in the course syllabus. Because the university believes that attendance in classes is an indispensable part of the learning experience, the following rules regulate attendance and grading:

- There is no difference between excused and unexcused absences. An absence is an absence;

- Excessive absence, defined by the equivalent of two weeks (semester) or one week (summer session), may lower the student’s class participation grade. The degree to which the class participation grade is lowered is at the discretion of the instructor, as clearly defined in the course syllabus;

- Absences are counted from the first day of the term.
Students are expected to be in class on time.

_The instructor will be responsible for denoting the attendance policy (including tardiness) and including guidelines for assessing class participation on the class syllabus._ The policy for handing in assignments late is determined by the instructor and is stated on the class syllabus.

At the discretion of the Office of Academic Affairs, absences incurred due to participation in AUD-sponsored activities or sports tournaments may not figure in the calculation of a student’s total absences. Students must complete an _Absence Notification Form_ at least two weeks prior to the actual absence. This Form is available from the Student Activities Coordinator. Prior authorization by the Office of Academic Affairs is required.

Any student who is experiencing psychological distress and is unable to attend his/her scheduled classes must first see the AUD Counselor. The Counselor will carefully assess the student’s psychological state. Should the Counselor determine the student is unable to attend classes, the Counselor will immediately contact the Provost/Chief Academic Officer and inform him of the student’s condition.

Respecting the confidentiality policy of counseling services, the Counselor will only disclose the minimal information needed to explain the situation. The Provost/Chief Academic Officer will authorize any absences, if any, from the course. (The student retains the options of withdrawing or seeking an Incomplete.)

**GRADING SYSTEM**

Grade reports are issued to students at the completion of each semester/term. Grades are based on the quality of work as shown by written tests, laboratory work, term papers, and projects as indicated on the course syllabus. Earned quality points are calculated for each course by multiplying the quality point value for the grade received for the course times the credit hour value of the course. For example, a three-credit course with a grade of B would earn nine quality points [credit value of course (3) times quality point value of B (3)]. The Cumulative Grade Point Average (CGPA) is calculated by dividing the total earned quality points by the total attempted credits.

All IELP courses and developmental Math courses (098/099) are graded P+, P, and F, with P as the lowest passing grade. It is also the lowest passing grade in ENGL 100 and UNIV 100. Internships and study tours are graded on a P+, P and F scale.

An incomplete (I) is issued no sooner than the last two (2) weeks of the semester to a student who has satisfactorily completed a substantial portion of the course work, but for **nonacademic reasons beyond the student’s control**, he/she is unable to meet the full course requirements on time. The course instructor issues this grade, subject to approval by Dean or Chair and the Provost. The incomplete course work must be completed by the end of the subsequent semester/summer session. If the student does not complete the work within the stipulated time, the incomplete is changed automatically to the grade of F.

An incomplete must be processed at the time of the concession (e.g., authorized suspension of attendance, accepted tardiness/non-completion of assignments, etc.). **The university does not grant incompletes retroactively.**

**AU** No credit is given for audit (AU) classes, nor is the grade included in the student’s academic average. Students must receive written approval from the Dean or Chair to audit a class, or classes, prior to the first day of the semester. Instructor approval may be required for some courses.
A student is allowed to withdraw officially from a course no later than the end of the ninth week of the semester (end of the fourth week in a summer session). The W is not calculated in the CGPA. Students are not permitted to withdraw after this deadline. W is used to denote withdrawal of students in the case of dismissal by a Conduct Council.

APPLICATION OF GRADES AND CREDITS/REPEATING A COURSE
The previous chart describes the impact of each grade on a student’s academic progress. For calculating rate of progress (see below), grades of F (Failing), W (Withdrawal), and I (Incomplete) are counted as hours attempted, but are not counted as hours successfully completed.

A student may repeat a course either to replace a failing grade with a passing grade or to try to improve a passing grade achieved the first time the student took the course. A previously passed course may be repeated only once. A previously failed course which is repeated and failed again may be retaken only one more time, for a total of three attempts. A course in which a grade of C or higher is received may only be repeated within one year from receiving the initial grade or as soon as the course is offered again if it is not offered during this one-year period. A student who has completed all degree requirements will not be allowed to repeat courses for the purpose of improving grades.

When a course is repeated, the best grade received is calculated into the CGPA. The lower grade(s) will be followed by an asterisk (*) indicating that the course has been repeated. Both original and repeated credits will be counted as attempted credits in rate of progress calculations. In the case of repeating a course from which the student has previously withdrawn, a W remains on the student’s transcript, while the new grade (also shown on the transcript) substitutes for the W in the calculation of the CGPA.

In order to receive credit, the student must repeat any required course in which a grade of F or W is received.

In the case of students who have been accepted to the university as degree candidates (including those whose programs are “undecided”), failing and/or withdrawing a required course (other than developmental courses) three times may be grounds for dismissal. Such dismissal will be determined by the Dean or Chair of the Academic unit housing the student’s degree program (Arts and Sciences in the case of undecided students). When a student registers for a course the third time, he/she may only do so subject to the conditions set by the appropriate Dean or Chair.

MID-SEMESTER REPORTS
The university informs the student at midterm when his/her grade in any course is less than C. This is done in person by the instructor; and the report provides reasons for the poor performance as determined by the instructor.

ACADEMIC RECOGNITION AND DEAN’S LIST
Undergraduate full-time students earning a semester Grade Point Average of 3.67 or above will be named to the Dean’s List. The Dean’s List designation applies only to undergraduate bachelor’s degree programs and is only made for the two semesters (Fall and Spring) of the academic year.

GRADE APPEAL
Questions and concerns about grades often result from misunderstandings about grading practices and expected standards.
Direct communication between instructors and the students usually clear up these misunderstandings. In some cases, however, a grade appeal is warranted.

Students have the right to appeal a grade and request a reconsideration of the assigned grade; however, they must provide sufficient, tangible evidence to support their request for a re-examination of the assigned grade. Reasons for reconsideration of a grade appeal may include:

- Miscalculation of marks;
- Misgrading of a paper, project or exam;
- Application of an evaluation or grading system which was not included in the course syllabus;
- A departure from the instructor’s previously announced standards;
- Assignment of a grade on some basis other than the student’s performance in the course;
- Demonstrable evidence of discrimination or prejudice in the assignment of the grade;
- Arbitrary assignment of grade (lack of consistent and equitable standards for grading).

Grade Appeals will be dismissed if:

- Allegations by the student do not indicate erratic grading;
- The basis of the disagreement is with the instructor’s particular grading standards;
- The appeal is not submitted within the given one month period subsequent to the issuance of the grade.

Students should follow the steps listed below to clarify any questions about a particular grade or the instructor’s grading policy:

1. The student should make an appointment with the appropriate instructor when there is any question about a particular grade or the instructor’s grading policy. Students in the Study Abroad Program (SAP) may contact the instructor via telephone or email;

2. The student seeking additional clarification related to grading should make an appointment with the appropriate Dean or Chair;

3. The student seeking further recourse related to a grade received should make an appointment with the Provost and Chief Academic Officer. The Provost and Chief Academic Officer will discuss the questions raised with the instructor, give the student a perspective regarding the grade and review the mechanism for appeal;

4. The student may request a Grade Appeal Council to review the matter. Composition/operations of the Council parallel those of the Honor Council;

5. In the event that the grade in question is received in a course taught by the Provost and Chief Academic Officer, the Dean or Chair will discuss the matter with the President, give the student a perspective regarding the grade and review the mechanism for appeal. All grade appeals must be submitted within one month subsequent to issuance of the grade;

6. If a student chooses to appeal a decision beyond the Grade Appeal Council
decision, all documentation can be submitted to the Provost and Chief Academic Officer for review. Final review may be requested of the university’s Grievance Officer.

Additional information/documentation on the grade appeal process can be obtained at the Office of the Provost/Chief Academic Officer.

**ACADEMIC HONESTY**

At AUD, students are expected to demonstrate academic integrity by completing their own work, assignments and assessments. Effective planning and progress must be accomplished for students to be successful in their degree program of study. Submission of work from another person, whether it is from printed sources or someone other than the student; previously graded papers; papers submitted without proper source citation; or submitting the same paper to multiple courses without the approval of all instructors involved can result in a failing grade or be reported to the Dean or Chair for appropriate sanction or disciplinary actions. All students are expected to maintain the standards as set forth in the Code of Student Conduct and Statement on Academic Honesty.

**AUD Honor Code Pledge**

The administration, faculty and student government of AUD believe strongly in the Academic Policies and Procedures concept of an honor system. This belief is based on the knowledge that in competitive professional environments, greater emphasis is placed on originality and integrity of ideas and work. All members of the AUD academic community, including faculty, students, and administration, are expected to assist in maintaining the integrity of the university, which includes reporting incidents that violate the Statement on Academic Honesty.

To this end, all students are asked to adhere to an honor pledge that reads as follows:

“As a student of The American University in Dubai, I pledge that all tests taken by me and that all work submitted by me will be original and solely the results of my own efforts. Furthermore, as a student and member of the academic community of The American University in Dubai, I am bound to uphold standards of personal integrity and honesty and to accept my personal, academic and professional responsibilities in the community.

**Specifically, I pledge:**

- to adhere to the university’s policy on cheating and plagiarism;
- not to lie or steal in my university undertakings;
- not to evade the truth or deceive;
- to inform the appropriate faculty member and Dean or Chair of my School or Department of any and all cases of academic dishonesty and violations of the Honor Code.”

Violations of the Honor Code are handled as set forth in the *Student Handbook*. All members of the AUD academic community, including faculty, students and administration, are expected to assist in maintaining the integrity of the university, which includes reporting incidents that violate the Statement on Academic Honesty.
At the end of the next academic term, if he/she achieves a CGPA of 2.0 or higher.

If at the end of the next academic term, immediately following placement on Academic Warning, his/her CGPA remains below 2.0, he/she will be placed on Academic Probation.

Once a student is placed on Academic Probation, he/she has one academic term to achieve good academic standing. A student who, at the end of one academic term on Academic Probation, raises his/her CGPA to 2.0 or higher is removed from Academic Probation and returned to good academic standing.

Students are notified of placement on Academic Warning and Academic Probation in writing.

PENALTIES FOR ACADEMIC INTEGRITY VIOLATION

First-time Offense
Following deliberation, the Honor Council will determine a penalty commensurate with the seriousness of the offense and the degree of student culpability. *This penalty may be as severe as dismissal from the university.*

Second-time Offense
The sanction for second-time offenders is dismissal from The American University in Dubai. A student found guilty will be immediately withdrawn from all courses for which he/she is registered and assigned a grade of F in the course in which the violation occurred. Dismissal from the university must be ratified in writing by the Chief Academic Officer before going into effect.

*Students who aid in someone else’s cheating or plagiarism are equally at fault and will be sanctioned accordingly.*

Students in need of clarification of the above Policy may consult the Dean of Student Services. All other academic staff – faculty/Deans or Chairs – may also be of assistance, particularly as students seek to apply the principles of this Policy to their specific discipline/program of study.

PERIODIC EVALUATION OF ACADEMIC STANDING

All students must maintain satisfactory academic performance in order to remain enrolled at AUD. Academic standing is evaluated periodically by measuring each student’s cumulative Grade Point Average (CGPA). Students are expected to meet minimum CGPA requirements in order for their academic performance to be considered satisfactory. *Undergraduate students are required to maintain a minimum CGPA of 2.0 throughout their enrollment in order to be in good academic standing.* A student’s CGPA will be reviewed at the end of each academic term after grades have been posted to determine whether the student is in good academic standing.

If a student changes his/her program or major, the grades received in the former program or major continue to be calculated as part of the student’s CGPA.

**Academic Warning and Academic Probation**

- A student will be placed on *Academic Warning* at the end of the first academic term in which his/her CGPA falls below 2.0.
Conditions Applicable to Students on Academic Warning and Academic Probation

• Students on Academic Warning and Academic Probation must consult with the Student Support Office prior to selecting their courses for the next academic term and must obtain their academic advisor's approval to register.

• As long as a student remains on Academic Warning or Academic Probation, the Student Support Office will monitor the student's performance and will continue to provide support through regular contact with the student.

• Students on Academic Probation must give priority to repeating all required failed courses, and are advised to repeat other courses in which they obtained failing or low grades.

Academic Suspension

• If a student's CGPA, at the end of one academic term on Academic Probation, is still below 2.00, he/she is placed on Academic Suspension from the university for the next academic term.

• Students are notified of placement on Academic Suspension in writing.

Readmission from Academic Suspension

Students placed on Academic Suspension may be granted readmission to the university if they apply for readmission at the end of their suspension period. See the section below on the Academic Appeals Process.

Students granted readmission from Academic Suspension will be placed on Academic Probation. The course load for these students will be not less than 9 credit hours and not more than 13 credit hours per semester, and must be 6 credit hours in Summer terms. A student's Dean or Department Chair may set other appropriate conditions and expectations regarding courses to be taken and academic performance upon readmission.
Removal of Academic Probation for Students Readmitted from Academic Suspension

Students returning from Academic Suspension are readmitted on Academic Probation. They are expected to achieve good academic standing by attaining a CGPA of 2.0 or higher, upon attempting a minimum of 24 credit hours following readmission. Academic Probation will be removed at the end of the academic term in which this result is achieved.

Academic Dismissal

A readmitted student will be dismissed from the university if, upon attempting a minimum of 24 credit hours following his/her readmission from Academic Suspension, the student fails to achieve a CGPA of 2.0 or higher. A readmitted student will also be dismissed from the university if, at the end of any academic term after removal of Academic Probation, the student’s CGPA once again drops below 2.0. The decision to dismiss must be ratified by the Provost/Chief Academic Officer before the student is notified of the dismissal decision in writing.

THE ACADEMIC APPEALS PROCESS

Students may apply for readmission to the university upon completion of their Academic Suspension period. Students may also appeal Academic Suspension or Academic Dismissal decisions. In each of the preceding cases, students should follow the Academic Appeals Process described below.

Applications for Readmission from Academic Suspension

Students applying for readmission from Academic Suspension must complete the Academic Standing Appeal Form for this purpose. This form is available in the Student Support Office. The student should attach a letter detailing his/her activities during the suspension period and should explain why the student believes his/her academic performance will improve in the future. Other required documentation should be provided with the form.

Completed appeal forms with accompanying documentation must be submitted to the Student Support Manager not later than the appeals submission date published in the Academic Calendar.

Although students who are academically suspended from AUD often choose to take courses at other institutions to improve areas of weakness or to indicate seriousness of continued academic pursuits, they will under no circumstances receive transfer credits for those courses upon their readmission to AUD.

Appeals of Academic Suspension and Academic Dismissal

A student with compelling supporting evidence may appeal an Academic Suspension or Academic Dismissal decision in writing. The Academic Standing Appeal Form, available in the Student Support Office, is to be used for this purpose. The Student Support Manager will assist the student in determining whether there is a case for an appeal and will inform the student of the documentation that needs to be submitted with the completed form if there is a case for an appeal.

Completed appeal forms with accompanying documentation must be submitted to the Student Support Manager not later than the appeals submission date published in the Academic Calendar.
Processing Timeline for Academic Appeals

- Last day to submit Academic Standing Appeal Form to Student Support Manager is seven (7) days before the beginning of classes (five [5] days for summer sessions). See Academic Calendar.
- Last day to appeal a suspension or dismissal to the President is the first day of classes. See Academic Calendar.

TRANSFER CREDIT/RESIDENCY REQUIREMENTS

All students must complete a minimum of 50 percent of their degree program credit requirements in residency at AUD in order to qualify for a degree. The total number of credits in residency required is determined by calculating 50 percent of the total number of credits required for the student’s program of study. Furthermore, all students must complete their last two semesters (i.e., obtain a minimum of 30 credit hours) at AUD to be awarded an AUD degree.

Students enrolled at AUD are required to have on file within their first term of residence official transcripts for any institutions of higher learning previously attended. The Admissions Office will ultimately verify/certify the institution’s eligibility for transfer credit.

In order for AUD to accept transfer credit from an institution outside the UAE, such institution must be licensed or officially recognized by the Education Department or Ministry of the country where it is in operation.

Several transcript evaluation services are available to students. Services which are either recognized by AACRAO (Association of Collegiate Registrars and Admissions Officers) or a member of NACES (National Association of Credential Evaluation Services, Inc.) are acceptable services. Students are responsible for all applicable fees.

Specific requirements for the evaluation and award of transfer credit at AUD include:

- Application for transfer credit, accompanied by all required documentation, must be made in the student’s first semester of residence. Records and documentation received following the first semester will not be considered for transfer credit.

- Students may transfer in a maximum of 50% of the required program credits.

- In those cases in which students present courses for transfer constituting greater than 50% of a program’s credit hour requirement, courses will be eliminated (to get to 50%) per the following order of priority:
  - Major
  - Core
  - Professional Elective
  - Foundation
  - Arts and Sciences

- Official college or military transcripts are evaluated on a course-by-course basis.

- Only courses at the 100 level or above will be eligible for transfer credit.

- In order to be granted transfer credit for 300/400 AUD-equivalent courses, a minimum grade of B or better is required. This does not apply to AUD students enrolled in an exchange program unless the course serves as a prerequisite for which AUD requires a grade of B or higher.
In order for AUD-equivalent courses to be eligible for transfer credit at the 100/200 level, a grade of C or better is required.

3-semester and 4-quarter credit courses may be considered equivalent to AUD’s 3 credit courses. A course-to-course analysis of outcomes may result in credit transfer from accredited institutions of higher learning.

Under no circumstances will the total number of credit hours transferred exceed six (i.e., two courses) of the student’s chosen major.

Under no circumstances will the university grant transfer credit for courses designated as capstone, senior project, portfolio, internship or study tour. Examples include: MGMT 499, MCOM 431, VICD 455/456, IDES 423.

Transfer credit is never granted for upper division (i.e., 300/400 level) courses in the B.S.C.I.T. program.

Following a student’s initial enrollment at AUD, he/she may transfer a maximum of 9 credit semester hours or equivalent, subject to approval by their Dean or Chair. This rule does not apply to students who receive authorization from their Dean/Program Chair to spend a term (i.e., semester or summer session[s]) abroad, either at a university with which AUD has an exchange agreement or another university chosen by the student (subject to AUD approval). In these cases, students may be authorized to transfer up to 15 credit semester hours or equivalent.

In no case may the total number of transfer credits following admission to AUD exceed 15; and these must fall within the 50% of credits earned in residence required to be granted an AUD degree. See pp. 48-49 of this Catalog for those institutions with which AUD has exchange agreements.

After initial enrollment at AUD, students will, subject to prior approval, receive transfer credits only for pre-approved courses from the following sources:

- AUD-approved exchange programs;
- AUD-approved study abroad programs;
- Other AUD-approved institutions.

AUD students who wish to earn credit at another university must obtain prior approval for the courses they intend to take. (Forms for this purpose are available at the Registrar’s Office.) Failure to do so prior to the commencement of study may result in AUD’s denial of transfer credit.

STUDENT EXCHANGE ELIGIBILITY
Students wishing to participate in an AUD-sponsored exchange program, must meet the following criteria:

- Carry a minimum CGPA of 2.5;
- Be in his/her sophomore year or beyond.

STUDY TOURS
One of the exciting opportunities for students at AUD is the opportunity to earn academic credit toward their degree while traveling on university-sponsored study tours. In the past, study tours have included New York, Paris, Milan and Florence. A student may only receive credit (three hours) towards graduation for one study tour. In order to register for a second study tour, a student must obtain the written approval of the Study
Tour Advisor. Academic credit will be granted and a grade assigned for the second tour, but not in fulfillment of degree requirements.

Withdrawals from study tours are not permitted. Study tours are used by students to fulfill General Elective requirements and carry the following course codes: NYST 275 (New York) and ITST 275 (International). Professional Elective credit for study tours may be granted subject to assessment and approval by the head of the academic unit in which the student is enrolled, if activities included in the tour itinerary and the assignments included in the course syllabus for the tour sufficiently justify granting Professional Elective credit.

Should students majoring in a given discipline wish to take a study tour specific to that discipline, the Office of the Provost will, on the recommendation of the head of the academic unit housing that discipline, consider authorizing such a tour to fulfill Professional Elective requirements. In such cases, the course discipline-specific code will be used (e.g., BUSI, VICD, IDES).

Study Tours are graded on a Pass (P or P+)/Fail (F) basis.

GENERAL EDUCATION EXIT EXAMINATION
As part of its assessment of student acquisition of general education competencies, The American University in Dubai administers General Education Entrance and Exit Examinations to entering freshmen and graduating seniors, respectively. Sitting for these Examinations is mandatory.

The General Education Exit Examination is administered twice yearly - once in each of the Fall and Spring semesters. The date for this Examination is announced within the first two weeks of the semester. Students completing degree requirements in the Fall, Spring, or either of the succeeding Summer sessions must sit for the Examination scheduled in the Spring semester.

Fulfillment of a student’s request for a diploma will not be finalized until the Director of Institutional Effectiveness (see below) confirms that the student has taken the General Education Exit Examination.

GRADUATION/DIPLOMA
A student may not request a diploma any earlier than the scheduled date of graduation. A Diploma Request Form must be completed and returned to the Registrar’s Office prior to the end of the student’s final semester. Failure to complete the Diploma Request Form by the specified date may result in either a delay in receiving the diploma or an additional charge.

Diplomas are available for personal pick-up by students at the Registrar’s Office. A student who prefers an alternative for collecting or receiving his/her diploma should consult the Registrar’s Office. (For purposes of graduation verification, the university can provide a letter [stamped] to the student until their diploma is issued.)

GRADUATION MODALITIES
In order to qualify for graduation, students must meet the following eligibility requirements:

- **Academic**
  - Minimum CGPA of 2.0;
  - Clearance by their Dean or Chair and Provost/Chief Academic Officer that all program requirements have been met;
- Separately, only those students who complete the last 30 credit hours at AUD are eligible to be awarded an AUD degree.

- Administrative
  - Clearance by the Student Financial Affairs Officer for all financial aid requirements and financial obligations (including AED 500 Diploma Processing Fee);
  - Clearance by the Library for all financial obligations (if applicable);
  - Clearance by Central Services if the student is on a university-sponsored visa.

- Diploma
  - Clearance by the Director of Institutional Effectiveness that the student has taken the General Education Exit Examination;
  - Taking the Completion Survey (administered online).

AUD will award degrees at the end of the academic semester or summer session. A student may not request a diploma any earlier than the scheduled graduation date. For the purposes of graduation verification, the university will provide a letter (stamped) to the student until his/her diploma has been provided.

PARTICIPATION IN ANNUAL GRADUATION CEREMONY (ELIGIBILITY)
The American University in Dubai holds its Commencement Exercises once a year following the Spring semester. In order to be eligible to participate, candidates for undergraduate degrees:

(1) must be in good academic standing (cumulative GPA of 2.0 or higher) as of the end of the Spring semester; and

(2) must have not more than two courses remaining for completion of their degree requirements by the end of the Spring semester preceding the graduation ceremony; and

(3) must complete and sign an application form for participation in the graduation ceremony (available in the Registrar’s Office), which includes a commitment to take their remaining courses and complete their degree requirements as soon as those remaining courses are offered.
Students who are approved for participation in the graduation ceremony before completing all degree requirements, as described above, are not eligible for departmental awards or for recognition of outstanding academic achievement (Summa Cum Laude, Magna Cum Laude, Cum Laude) at the graduation ceremony. However, these designations will be reflected on transcripts and diplomas if they are justified by the students’ CGPA upon completion of all degree requirements.

GRADUATION WITH HONORS
Bachelor’s degree graduates who have maintained a record of outstanding academic achievement will be recognized as follows:

**Summa Cum Laude** – a student graduating with a cumulative Grade Point Average of 3.90 or above.

**Magna Cum Laude** – a student graduating with a cumulative Grade Point Average of 3.70 – 3.89.

**Cum Laude** – a student graduating with a cumulative Grade Point Average of 3.50 – 3.69.
Introduction
DEGREE REQUIREMENTS

To be recommended by the faculty for graduation with a Bachelor's degree, students must fulfill all degree requirements. Students on a previous curriculum may choose to fulfill the requirements of that curriculum or the current one. Program-specific requirements as they now stand are outlined on the following pages.

CREDIT HOUR REQUIREMENTS

The total number of credit hours required in each degree program is clearly stated in the respective sections of this Catalog.

The same course may not be used to satisfy multiple components of the requirements for a degree. For example, once a course is used to fulfill the Professional Elective or Major component, it may not then be used as a General Elective. Similarly, a course used to satisfy a requirement of the Arts and Sciences Core may not be simultaneously counted as a General Elective. Only in pursuance of the Certificate in Middle Eastern Studies may credit be used to fulfill simultaneously a degree requirement and a requirement for the Certificate.

Requirements for minors are also stated in this Catalog in the section dedicated to the academic unit offering the minor.

In the rare case of a student’s enrollment in more than one program, the amount of credit applicable to any/all degrees will be determined by the Provost/Chief Academic Officer in consultation with the appropriate Deans or Chairs.

STUDENT RESPONSIBILITY

It is the student’s responsibility to fulfill the degree requirements of his/her program. Regulations will not be waived nor exemptions granted based on a student’s claimed lack of awareness of degree requirements as per this Catalog and subsequent changes. Although a number of university personnel (e.g. advisors, faculty, etc.) assist students, it is ultimately the student who is accountable for adhering to the mandates of his/her degree program. Citing as an excuse misinformation provided by university personnel will not exonerate a student from this accountability.

A student must fulfill the requirements of any degree program in which he or she is enrolled.
SCHOOL MISSION

The School of Arts and Sciences exemplifies the tradition that a college education liberates the mind. The School values the pursuit of knowledge for its own sake and believes that all college graduates are capable of studying a broad spectrum of subjects and of following a rational process to draw conclusions and inferences. The Mission of the School of Arts and Sciences is to foster a culture of independent thought and a tradition of academic programs, curricula and external learning opportunities, featuring an interdisciplinary perspective of knowledge and emphasizing collegial interactions between faculty and students.

SCHOOL GOALS

• Facilitate implementation of the mission and goals of the University
• Provide a broad-based general education in language, science and mathematics, the humanities and the social sciences for all students
• Develop in-depth understanding of one or more disciplines anchored by a contextual framework of information, interconnected knowledge and interdisciplinary awareness
• Prepare students for graduate school programs and careers related to various traditional arts and sciences fields
• Inculcate a thirst for knowledge that manifests itself in scholarly activity, lifelong learning and ethical real-world application
• Deliver a high-quality educational experience that features extracurricular programs and alternative learning opportunities

LEARNING OUTCOMES

Students will…

• Demonstrate effective communication skills in reading, writing, and speaking:
• Demonstrate a scientific knowledge of human behavior and recognize global cultural diversity;
• Use an understanding of the historical and social development of current cultures to demonstrate respect for human values and perspectives;
• Demonstrate and value individual thinking, self-awareness, and ethical behavior for responsible global citizenship;
• Demonstrate appropriate technological literacy and skills for personal and professional use;
• Identify and appreciate artistic expressions from historical, philosophical, and cultural perspectives;
• Demonstrate the use of appropriate critical thinking skills to solve problems;
• Demonstrate an understanding of the fundamental concepts of mathematics, science, and scientific methods.

All undergraduate degree programs have incorporated the university’s Arts and Sciences Core requirements. The following apply to all programs; however, degree candidates in Engineering should consult the Programs section of this Catalog for the Arts and Sciences courses that are mandatory to their Core (i.e., substitutes for Arts and Sciences electives.)

The Arts and Sciences Core consists of 36 credit hours of required courses distributed as follows:

Credit Hours

I. General (0 credit hours)
UNIV 100* The University Experience 0

II. Information Systems (3 credit hours)
COMP 101 Introduction to Computers 3

III. Mathematics/Natural Sciences (6 credit hours)
MATH 111 Mathematics for the Arts or
MATH 160 Mathematics with Business Applications** 3
SCIE ELE Natural Science Elective 3

* Unless exempted
** Architecture majors are required to take MATH 195 (Pre-Calculus for Architecture).
IV. **English/Communications (12 credit hours)**

- ENGL 101 Composition and Rhetoric 3
- ENGL 102 Advanced Composition and Research 3
- ENGL 103 Introduction to Literature 3
- PSPK 101 Public Speaking 3

V. **Cultural Studies (6 credit hours)**

- WLDC 201 World Cultures I 3
- WLDC 202 World Cultures II 3

VI. **Islamic Cultural Studies (3 credit hours)**

**Options:**
- MEST 310 Islamic Civilization 3
- MEST 318 Cultures of the Middle East 3
- MEST 319 Politics in the Middle East 3
- MEST 320 The Qur’an: Text, History, and Meaning 3
- MEST 323 Islam: Historical and Societal Aspects 3
- MEST 327 Islamic Politics 3
- MEST 329 Islamic Art and Architecture 3

VII. **Humanities/Fine Arts (3 credit hours)**

**Options:**
- ARTS 200 History of Art I 3
- ARTS 201 History of Art II 3
- ARTS 203 Artistic Forms of Expression 3
- ARTS 215 Multicultural Art Forms 3
- ARTS 305 Art and the Electronic Age 3
- ENGL 210 Creative Writing 3
- ENGL 211 British Literature from the Old English Period to Restoration 3
- ENGL 212 British Literature from Romantic to Present 3
ENGL 221 American Literature from Discovery to Reconstruction 3
ENGL 222 American Literature from the Civil War to the Present 3
ENGL 301 World Literature from the Ancients through 1650 3
ENGL 302 World Literature from 1650 to the Present 3
ENGL 305 The Epic 3
ENGL 311 World Mythology 3
ENGL 312 Biography/Autobiography 3
ENGL 313 Children's Literature 3
ENGL 314 Coming-of-Age Novels 3
ENGL 315 Contemporary Female Authors 3
ENGL 316 Prize-Winning Authors 3
HUMN 275/475 Special Topics in Humanities 3
MEST 317 Middle Eastern Literature in Translation 3
MEST 329 Islamic Art and Architecture 3
PHIL 201 Introduction to Philosophy/Logic 3
PHIL 310 Ethics and Moral Philosophy 3
PHIL 320 Metaphysics and the Study of Human Existence 3
WLDC 250 Music Traditions of the World 3

VIII. Social/Behavioral Sciences (3 credit hours)

Options:
ANTH 201 Introduction to Cultural Anthropology 3
ANTH 301 Globalization 3
GEOG 101 World Geography 3
HIST 201 American History from the Beginnings to Reconstruction 3
HIST 202 American History from the Civil War to Present 3
HIST 212 European History from the Renaissance to the Present 3
HIST 251 World History from Beginnings to 1500 3
HIST 252 World History from 1500 to the Present 3
HIST 310 The U.S. in World Affairs 3
HIST 350 Revolution 3
MEST 210 An Introduction to Middle East History 3
MEST 310 Islamic Civilization 3
MEST 315 History of the Modern Middle East 3
MEST 318 Cultures of the Middle East 3
MEST 319 Politics in the Middle East 3
MEST 320 The Qur’an: Text, History, and Meaning 3
MEST 323 Islam: Historical and Societal Aspects 3
MEST 327 Islamic Politics 3
MEST 330 The Ancient Near East (c. 3500 B.C.E. – 100 C.E.) 3
MEST 333 The Middle East in Late Antiquity (c. 250 – 800 C.E.) 3
MEST 343 Business in the Modern Middle East 3
MEST 350 Religions of the Middle East 3
MEST 352 Conflicts in the Middle East 3
MEST 353 Women and Gender in the Middle East 3
MEST 380 The Gulf: Culture and Economics since 1970 3
MEST 381 North Africa: Nation, Society, and Culture 3
MEST 382 The Levant: Arab Lands of the Eastern Mediterranean 3
MEST 383 Iraq: Reinventing the Nation 3
MEST 384 Egypt: Literature since 1952 3
POLS 200 Introduction to Political Science 3
POLS 201 Comparative Political Systems 3
POLS 320 The United Nations 3
POLS 325 International Organizations 3
PSYC 201 General Psychology I 3
PSYC 313 Social Psychology 3
SOCI 101 Introduction to Sociology 3
SOCI 217 Cross-cultural Relations 3
SSCI 275/475 Special Topics in Social/Behavioral Sciences 3
WLDC 301 Religions of the World 3

Total Arts and Sciences Requirements 36

Any courses in the Arts and Sciences (in- or outside the Core) that are *not used to fulfill the Core requirements* may be used as General Electives except by B.C.I.S candidates who should check their General Electives options on p. 147 of this *Catalog*. 
INTRODUCTION

Living in an era of globalization, people can either watch events unfold from a distance or learn to understand how modern growth and its foundations are related. This world is driven by international banking and finance, telecommunications and information access, and the interactions of geographical regions and peoples. In this world, people encounter historical traditions, political systems which were born under very different conditions, and a diversity of cultures. The Bachelor of Arts in International Studies (B.A.I.S.) degree is designed to provide the educational context in which to understand this “big picture.”

With great pride, The American University in Dubai offers the B.A.I.S. degree as its first Bachelor of Arts degree. AUD seeks to capitalize on the international nature of its host city of Dubai as well as the increasing international nature of existence for people around the world.

BACHELOR OF ARTS IN INTERNATIONAL STUDIES (B.A.I.S.) PROGRAM

Program Mission

The Mission of the B.A.I.S. is to provide students with an interdisciplinary educational experience focusing on Politics, History, Business, and Culture. The program is designed to enhance students’ employment opportunities within the global marketplace and increase their ability to examine global issues from various perspectives.

Program Goals

The B.A.I.S. is an interdisciplinary program combining courses in the areas of business, social sciences and humanities, and arts and sciences. The primary goal of this degree is the development of students as leaders in an increasingly globalized world, while students learn the critical tools
of several disciplines through interdisciplinary study. The wider goals of the program, which reflect this focus, are:

- To promote the diversity of culture against a background of increasing interdependence and globalization at both the economic and political levels;
- To prepare students for international careers in the global marketplace;
- To develop students capable of understanding and analyzing international issues from a variety of theoretical frameworks; and
- To foster collaboration among students, and support the development of research, analytical, and language skills.

Program Learning Outcomes

Upon completion of the degree, students will be able to

- Communicate effectively both orally and in writing at an intermediate level in a language other than English;
- Demonstrate understanding of the connections between culture, business, economics, and politics;
- Apply the principles of political science to analyze key topics in international affairs and the interconnection between local and global geo-political issues and events;
- Synthesize fundamental tenets of business and economics with increased awareness and basic understanding of how international corporations and global markets operate;
- Critically examine personal values, religious beliefs, social norms and issues coming from diverse cultures, world views, and experiences;
- Identify historical events, issues and themes which have shaped current world conditions.

MINOR IN HISTORY

The minor in History is open to students majoring in any field except International Studies. This minor allows students to develop a focused knowledge of history, but is designed to allow the development of that understanding to be spread out among various branches within the field of history. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must complete a minimum of 15 credit hours from the following list of courses and satisfy each category requirement:

<table>
<thead>
<tr>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>American History (choose from HIST 201, HIST 202)</td>
</tr>
<tr>
<td>European History (HIST 212)</td>
</tr>
<tr>
<td>World History (choose from HIST 251, HIST 252)</td>
</tr>
<tr>
<td>Middle Eastern History (choose from MEST 210, MEST 315)</td>
</tr>
<tr>
<td>Elective (choose from HIST 310, HIST 350, HIST 401)</td>
</tr>
<tr>

</tr>
</tbody>
</table>

MINOR IN HUMANITIES

The minor in Humanities is open to students majoring in any field except International Studies. This minor allows students to explore the general field of subjects classified under the category of “Humanities”, but also requires them to investigate different subject areas in order to understand the importance of the humanities. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must complete a minimum of 15 credit hours from the following list of courses and satisfy each category requirement:
<table>
<thead>
<tr>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Philosophy</strong> <em>(choose from PHIL 310, PHIL 320)</em></td>
</tr>
<tr>

</table>

**MINOR IN LITERATURE**

The minor in Literature is open to students majoring in any field except International Studies. This minor allows students to develop a focused knowledge of literature, but is designed to allow the development of that understanding to be spread out among various branches within the field of literature. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must complete a minimum of 15 **credit hours** from the following list of courses and satisfy each category requirement:

| **American Literature** *(choose from ENGL 221, ENGL 222)* | 3 |
| **British Literature** *(choose from ENGL 211, ENGL 212)* | 3 |
| **World Literature** *(choose from ENGL 301, ENGL 302)* | 3 |
| **Elective** *(choose two from ENGL 210, ENGL 311, ENGL 312, ENGL 313, ENGL 314, ENGL 315, ENGL 316, MEST 317, HUMN 275)* | 6 |
| **Total Minor Requirements** | 15 |

**MINOR IN MIDDLE EASTERN STUDIES**

The minor in Middle Eastern Studies is open to students majoring in any field except International Studies. This minor allows students to learn more about the local geographical region, but it also requires them to investigate different subject areas in order to develop a broad understanding of its richness and complexity. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must
complete a minimum of **15 credit hours** from the following list of courses and satisfy each category requirement:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Politics of the Middle East</strong> <em>(choose from MEST 319, MEST 327)</em></td>

</table>
The study of the history, culture, religion, and politics of the Middle East may be of interest to all baccalaureate degree candidates. Students who following graduation will seek employment within the Middle East will gain a deeper understanding of the environment – historical, cultural, and political – which will serve them well, regardless of the profession they choose. Study Abroad students benefit from the structured study of the Middle East as a means of complementing the understanding gained from living in the region. Such study serves to complement the undergraduate degree program in which the student is enrolled, the result being a broadening of cultural knowledge and sensitivity – both of which play a role in professional endeavor and success.

CERTIFICATE IN MIDDLE EASTERN STUDIES

Program Mission

*The Middle Eastern Studies Certificate* is an 18-credit hour program designed to give students in the area an appreciation and understanding of the region in which they are currently studying and in which many will be pursuing professional careers. It is an opportunity for these students to enhance their knowledge of the cultural, historical, and political factors that have shaped the Middle East through time and to a large extent, explain the profile and texture of the current Middle Eastern landscape.

For students outside the region (Study Abroad, etc.), the certificate program offers the unique opportunity to develop their interest in and awareness of Middle Eastern culture by living in a Middle Eastern country while earning credit at an American-accredited university.
Program Goals

The Certificate in Middle Eastern Studies program seeks to:

- Educate students to such a level that they can function successfully in a contemporary global forum with an understanding of other ethnicities and nationalities, specifically those in the Middle East;
- Provide students with a comprehensive understanding of the culture(s) of the Middle East region;
- Provide students with the necessary skills to critically analyze current situations/events in the Middle East region, considering both cultural and historical backgrounds; and
- Provide students with an understanding of the geopolitical role of the region in the context of the current concept of “globalization.”

Program Learning Outcomes

Upon completion of the Certificate in Middle Eastern Studies, students will be able to:

- Demonstrate required familiarity with Modern Standard Arabic;
- Exhibit a geographic knowledge of the region including both physical and economic aspects;
- Identify and discuss the historical underpinnings of the region;
- Explain the basic tenets of the Islamic faith and the role various religions play in the societies of the Middle East;
- Identify and discuss the various cultures whose presence contributes to and presents challenges to the cohesiveness of the region;
- Identify the various political systems historically and currently practiced in the region; and
- Identify significant contributions to human culture by civilizations in the region.

Students interested in pursuing the Certificate should fill out the *Interest in Pursuing the Certificate in Middle Eastern Studies Form.*

### COURSE COMPONENTS (RQ. CR. HRS.)

#### Arabic Language (3)

- MEST 101 Elementary Arabic I
- MEST 102 Elementary Arabic II
- MEST 201 Intermediate Arabic I
- MEST 202 Intermediate Arabic II

#### Required Courses (6)

- MEST 210 An Introduction to Middle East History
- One of the following courses:
  - MEST 310 Islamic Civilization
  - MEST 323 Islam: Historical and Societal Aspects
  - MEST 343 Business in the Modern Middle East
COURSE COMPONENTS (RQ, CR, HRS.) (continued)

Humanities/Social Sciences (3)

MEST 310 Islamic Civilization
MEST 315 History of the Modern Middle East
MEST 317 Middle Eastern Literature in Translation
MEST 318 Cultures of the Middle East
MEST 319 Politics in the Middle East
MEST 320 The Qur’an: Text, History, and Meaning
MEST 323 Islam: Historical and Societal Aspects
MEST 327 Islamic Politics
MEST 329 Islamic Art and Architecture
MEST 330 The Ancient Near East
MEST 333 The Middle East in Late Antiquity
MEST 352 Conflicts in the Middle East
MEST 353 Women and Gender in the Middle East

Religion (3)

MEST 320 The Qur’an: Text, History, and Meaning
MEST 323 Islam: Historical and Societal Aspects
MEST 327 Islamic Politics
MEST 329 Islamic Art and Architecture
MEST 350 Religions of the Middle East

Area Studies (3)

MEST 380 The Gulf: Culture and Economics Since 1970
MEST 381 North Africa: Nation, Society and Culture
MEST 382 The Levant: Arab Lands of the Eastern Mediterranean
MEST 383 Iraq: Reinventing the Nation
MEST 384 Egypt: Literature Since 1952

* All courses carry three hours of credit
COMPLETION REQUIREMENTS

The certificate will be awarded upon a student’s completion of all Certificate requirements. All courses applied towards the Certificate in Middle Eastern Studies program must be completed with a grade of C or above, and students must achieve a minimum 2.0 CGPA for the Certificate.

Students completing the program should request the Certificate from the Registrar’s Office.

COURSE SEQUENCING

The recommended course sequence for students pursuing the Certificate in Middle Eastern Studies is as follows:

<table>
<thead>
<tr>
<th>Semester I (six credit hours)</th>
<th>Semester II (six credit hours)</th>
<th>Semester III (six credit hours)</th>
</tr>
</thead>
<tbody>
<tr>
<td>MEST 210 and MEST 310 or MEST 323 or MEST 343</td>
<td>Arabic language course and MEST Religion course</td>
<td>MEST Area Studies course and MEST Humanities/Social Sciences course</td>
</tr>
</tbody>
</table>

Naturally, Study Abroad students who only take courses within the scope of the Certificate may complete the program in one semester by incurring one overload.
ELIGIBILITY

• Any student pursuing a bachelor’s degree at AUD, attending AUD as a visiting student, in the Study Abroad Program, or as an exchange student.

OR

• Students who have already completed a bachelor’s degree and are only seeking admissions to the Certificate in Middle Eastern Studies program.

A LINK TO FLORIDA INTERNATIONAL UNIVERSITY (FIU)

AUD and Florida International University (FIU)

The American University in Dubai has established a consortial agreement with Florida International University (FIU). Through this agreement, FIU students have the opportunity to enroll at AUD to study courses in the Middle Eastern Studies Program. In addition, AUD students have the opportunity to study at FIU in order to broaden their perspectives of additional regional concepts through FIU’s Certificate Program in Middle East and Central Asian Studies. Students are eligible to receive both the AUD and FIU certificates provided they meet all the requirements for each.
 SCHOOL MISSION

The Mission of the School of Business Administration (SBA), is to provide UAE, GCC and international students with high-quality, forward-looking, career-oriented educational programs in the management of business organizations, with the option of selecting majors in one or more functional areas of business management.

SCHOOL GOALS

• Ensure the highest levels of student satisfaction with the School’s educational experience;
• Ensure that the School’s educational programs are continually aligned with the employment needs of the market for business professionals;
• Ensure the School’s sustainable growth through recruitment and retention of appropriately qualified faculty;
• Provide faculty with a supportive environment that is conducive to their professional growth;
• Continually enhance the School’s reputation and visibility through maintaining a close relationship with the business community.

The School of Business Administration offers two programs, a Bachelor of Business Administration (B.B.A.) and a Master of Business Administration (M.B.A.) program. The curricula in both the undergraduate and graduate programs are rich in conceptual content; however, the primary emphasis of our educational experience is on equipping students with the applied skills and the professional and ethical perspectives necessary for success in the global marketplace.
**BACHELOR OF BUSINESS ADMINISTRATION (B.B.A.) PROGRAM**

**Program Mission**

The Mission of the B.B.A. program is to prepare students with the knowledge, skills and abilities needed to become effective and responsible managers and leaders in today’s global economy. The program prepares graduates for a wide-array of careers in business-related fields and/or graduate studies. The program promotes problem-solving, ethical values, social responsibility, and cultural diversity.

**Program Goals**

The B.B.A prepares graduates who will…

- Possess a comprehensive background in both the theoretical and practical aspects of business education, in preparation for successful entry-level careers in business;
- Effectively communicate to diverse audiences;
- Have developed a broad and deep understanding of the challenges to today’s global businesses;
- Have attained greater awareness of social responsibility and ethical decision-making.

**Program Learning Outcomes**

Students completing the B.B.A. program will…

- Demonstrate a well-rounded foundation in the functional disciplines of business and in the cognate areas;
- Demonstrate a holistic view of the firm and an ability to integrate the different functional areas of business;
- Demonstrate effective use of oral, written and technology-supported communication skills;
- Demonstrate proficiency in the business applications of information technology;
• Demonstrate a global outlook and an appreciation of the international dimensions of business;
• Demonstrate awareness of ethical issues and of the importance of ethical conduct in business practice;
• (For major students) students will gain a broad and deep understanding of their selected functional area of major.

* For those students concentrating in MCOM, this course must be MCOM 301. MCOM 481 (Study Internship) is completed in Summer following completion of all other degree requirements.
MINORS IN THE SCHOOL OF BUSINESS ADMINISTRATION

Minors in business disciplines are open to students majoring in any field. The minors are intended to allow students interested in a business discipline to develop broad knowledge of the discipline. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must complete a minimum of five courses (15 credit hours) per the following:

Accounting
Any course coded ACCG

Economics
Any course coded ECON
FINA 431 International Trade and Finance

Finance
Any course coded FINA
ECON 302 Money and Banking

Management
Any course coded MGMT

Marketing
Any course coded MKTG

Marketing Communications
Any course coded MCOM
BACHELOR OF COMMUNICATION AND INFORMATION STUDIES (B.C.I.S.) PROGRAM

Program Mission

The Bachelor of Communication and Information Studies program at the American University in Dubai prepares practitioners and scholars to work in twenty-first century media. Graduates will be proficient in areas ranging from ethics and media policy to writing and production skills. They will be committed to providing the public with media content that meets local and regional needs and is global in outlook and standard.

Program Goals

Graduates will:

- Possess sophisticated communication skills, in Arabic and English, including the ability to comprehend and comment upon news coverage, elements of media business, and social responsibility of media;
- Be proficient in storytelling using journalism, television, cinema and new media contexts;
- Understand the theoretical and practical elements of the broad historical, cultural, economic, and technological foundations of mass media;
- Appreciate the significance of ethical standards and behavior on the part of all institutions and individuals involved with mass media, including the public’s responsibility to understand the role of media and to wisely gather and disseminate information through the media;
- Relate media theory and practice to fields such as politics, economics, law, business, information science, and the liberal arts;
- Recognize the role of media as an element of individual and global cultures, with particular emphasis on respect for diversity related to race, gender, religion, ethnicity, and other personal characteristics and orientations.
PROGRAM LEARNING OUTCOMES

Students graduating from the B.C.I.S. program will be able to:

- Identify and administer various media platforms to communicate with diverse audiences about a wide range of topics;
- Analyze the complexities of information gathering, evaluate the credibility of sources and ensure the highest possible reliability of information provided to the public;
- Demonstrate proficiency in production aesthetics, particularly in using digital media platforms, to provide various forms of media content to the public;
- Determine and analyze elements of communication theory, including the societal responsibilities and professional practices of news, entertainment, and other media industries;
- Identify various facets of issues, think independently and critically, and make informed judgments;
- Determine the importance of media independence while recognizing legal and ethical principles that govern media practices;
- Appreciate the value of lifelong learning about the constantly changing practices and influence of the mass media, and the importance of being able to innovate within the evolving world of media;
- Recognize the importance of being able to interact with fellow media professionals and the larger public in ways that reflect sensitivity to diverse interests.

**Continued enrollment:** Students must successfully complete all the Curriculum Core courses (total 20 credit hours) with a cumulative GPA for those courses of 2.3 prior to entering into the third year of the program. A student failing to achieve such a CGPA is required to repeat courses. *Failure to do so will cancel their degree candidacy within the Mohammed Bin Rashid School for Communication.* In such cases, the student may choose to pursue studies at AUD in a discipline outside the Mohammed Bin Rashid School for Communication, contingent upon admission into the new program. The university does not assume any responsibility for loss of credit due to the student’s change from the B.C.I.S. to another program.

MINORS

The Mohammed Bin Rashid School for Communication offers the minors shown below. Subject to completion of all prerequisite courses, students may choose these minors for additional credit beyond their degree completion requirements. Prerequisites for the minors are stated in the course description section of this Catalog. Students should familiarize themselves with these prerequisites and should be aware that completion of the minor (15 credit hours) with its prerequisites may require them to complete more credits than the 15 required from the list below.

MINOR IN COMMUNICATION - not open to MBRSC students

Minor Core: students must complete each of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 103*</td>
<td>Media, Culture and Society</td>
<td>3</td>
</tr>
<tr>
<td>COMM 202</td>
<td>Ethical and Legal Responsibilities in the Mass Media</td>
<td>3</td>
</tr>
<tr>
<td></td>
<td><strong>Total Minor Core Requirements</strong></td>
<td><strong>6</strong></td>
</tr>
</tbody>
</table>

Minor Electives: students must earn nine credit hours by completing any combination of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>DPST 301</td>
<td>The Global Art of Entertainment</td>

SCHOOL MISSION

The School of Engineering prepares a culturally diverse student population for successful professional careers in engineering at the regional and global levels. The School’s educational experience provides all students with the knowledge needed for technical excellence in engineering, while emphasizing the role of general education, ethical and social responsibility, and life-long learning in the personal and professional growth of future engineers.

SCHOOL GOALS

• To prepare our graduates for engineering practice, pursuit of advanced degrees, and leadership roles within their professional communities by providing them with a solid engineering education complemented by a general education component;
• To instill in students the importance of critical thinking, cultural diversity, and lifelong learning, and personal and professional skills that will enable them to continually adapt to a global engineering workplace;
• To foster a constructive learning environment through positive faculty-student interactions, recruitment and retention of highly qualified faculty, and promotion of professional and personal growth among all constituents;
• To provide our students with unique traineeship and job placement opportunities by maintaining strong ties with industry professionals and periodically aligning the School’s strategies and curricula with the evolving needs of the engineering industry;
• To effect positive change within the local and regional communities through professional engineering contributions by the faculty and students.

Undergraduate students in the School of Engineering are required to maintain a minimum program (major) Grade Point Average (MGPA) of 2.0 throughout their enrollment. The MGPA is calculated based on the student’s grades in the Engineering Core, Major Core, and Major Electives. An Engineering student whose MGPA falls below 2.0 at the end of an academic term is required to raise the MGPA to a minimum of 2.0 within two semesters of enrollment. If the MGPA remains below 2.0 beyond the specified period, the student may not enroll in any new engineering courses, but may either repeat previously taken courses to raise the MGPA to 2.0, or seek admission into another program at AUD outside the School of Engineering. An Engineering student who has completed all required coursework, but whose MGPA is below 2.0, will **not** be eligible for graduation until he/she raises the MGPA to a minimum of 2.0.
The Pre-Engineering Program is intended to increase the potential for student success in Engineering by ensuring readiness in the areas of Math, Science, and Computing. In order to successfully complete the Pre-Engineering Program, a student must satisfy all of the following requirements:

- Successfully complete:
  - MATH 099 on the first attempt, or place in a more advanced Math course via the university-administered ACCUPLACER™ Exam;
  - MATH 191 or MATH 195 with a minimum grade of C on the first or second attempt, or place in a more advanced Math course via the university-administered ACCUPLACER™ Exam;
  - COMP 101 with a minimum grade of C on the first or second attempt, or place in COMP180 through the university-administered Computer Proficiency Exam;

- Earn a grade of C or higher in:
  - MATH 210;
  - PHYS 201;
  - CHEM 201; and
  - ENGL 102.

A student who fails to complete the AUD Pre-Engineering Program may be granted admission to the School of Engineering only upon securing the minimum SAT Reasoning score. Alternatively, such a student may choose to pursue studies at AUD in a discipline other than Engineering, contingent upon admission into the new program. The university does not assume any responsibility for loss of credit due to the student’s change from Pre-Engineering to another program.
CIVIL ENGINEERING

BACHELOR OF SCIENCE IN CIVIL ENGINEERING (B.S.C.E.) PROGRAM

Program Mission

The Civil Engineering Program prepares a culturally diverse student population for successful professional careers in civil engineering at the local, regional and global levels. The Program is designed to ensure excellence in multiple technical areas within the broad field of civil engineering, while emphasizing the role of general education, ethical and social responsibility, and life-long learning in the personal and professional growth of future civil engineers.

Program Goals

In support of its Mission, the Civil Engineering Program strives to produce graduates who will succeed in their professional careers. The Program's Goals are to prepare graduates who will:

• Pursue successful careers in civil engineering or related disciplines, by building upon the professional skills acquired during their undergraduate studies;

• Engage in further education through graduate studies, professional licensure, technical training, or similar continuing education activities;

• Demonstrate social and ethical responsibility through personal and professional contributions to society;

• Utilize effective written and oral communication skills and teamwork abilities to succeed in multi-cultural environments;

• Promote professional practice by providing opportunities for training, placement, professional development, and research.
Program Learning Outcomes

Civil Engineering graduates will demonstrate...

• Proficiency in both basic and applied aspects of differential calculus, physics, probability and statistics, chemistry, and biology;
• Thorough familiarity with the analytical and quantitative skills needed to identify and solve civil engineering problems, and to analyze and interpret data;
• A strong technical knowledge in structural, geotechnical, transportation, environmental and water resources engineering;
• An ability to conduct laboratory and field experiments, evaluate material properties, and design civil engineering systems and processes using traditional methods, modern tools, and software;
• An aptitude to work effectively on teams in both intra-disciplinary and cross-disciplinary settings;
• Competency in professional writing, oral communication, graphic presentation, project documentation, and construction project management;
• An understanding of ethical and professional issues, and the role of professional licensure in civil engineering practice;
• A recognition of the non-technical constraints on civil engineering systems and processes, including economic, political, social, and environmental factors;
• An awareness of current issues in civil engineering and an appreciation for professional development through educational experiences outside the classroom.

MINOR IN ENVIRONMENTAL ENGINEERING

The minor in Environmental Engineering is open to students majoring in any field except Civil Engineering. This minor allows students to further their knowledge in the areas of environmental engineering and sustainability. The field of environmental engineering is wide but students can choose to focus on a particular area depending on the courses they choose. Students wishing to pursue the minor are responsible for completing all course prerequisites or establishing prerequisite equivalency. In addition to University-wide requirements, students must complete a minimum of 15 credit hours from the following courses:

<table>
<thead>
<tr>
<th>Credit Hours</th>

MINOR IN STRUCTURAL ENGINEERING

The minor in Structural Engineering is open to students majoring in any discipline except Civil Engineering. This minor can be of great value especially to Architecture students who wish to broaden their technical knowledge in structural analysis and design. Architecture students should consult with the Academic Advising Center regarding prerequisite equivalencies to the courses below, since they will have taken prerequisite equivalents as part of their major degree requirements. In addition to University-wide requirements, students must complete a minimum of 15 credit hours from the following courses:

<table>
<thead>
<tr>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 230 Linear Algebra and Complex Variables 3</td>
</tr>
<tr>
<td>ECVL 260 Statics w/Lab 3</td>
</tr>
<tr>
<td>ECVL 268 Mechanics of Materials, w/Lab 4</td>
</tr>
<tr>
<td>ECVL 310 Engineered Materials, w/Lab 4</td>

COMPUTER ENGINEERING

BACHELOR OF SCIENCE IN COMPUTER ENGINEERING (B.S.COMPE.) PROGRAM

Program Mission

The Computer Engineering Program prepares a culturally diverse student population for successful professional careers in computer engineering at the local, regional and global levels. The Program is designed to ensure excellence in the rapidly-evolving field of computer engineering, while emphasizing the role of general education, ethical and social responsibility, and life-long learning in the personal and professional growth of future computer engineers.

Program Goals

In support of its Mission, the Computer Engineering Program strives to produce graduates who will succeed in their professional careers. The Program's Goals are to prepare graduates who will:

• Propose, analyze, design, and implement integrated hardware-software systems under realistic constraints, using knowledge in digital systems, computer networks, and software;
• Remain updated, through graduate studies and professional certification, on the latest hardware and software technologies in the rapidly evolving field of computer engineering;
• Benefit the community through knowledge in computer ethics, network security, and public safety networking;
• Share new knowledge by facilitating opportunities for computer training, certification, and practice in software and hardware design;
• Utilize effective written and oral communication skills and teamwork abilities to succeed in professional multi-cultural environments.
Program Learning Outcomes

Computer Engineering graduates will demonstrate…

• Proficiency in both basic and applied aspects of differential and integral calculus, discrete mathematics, data structures, statistics, and basic science;
• Thorough familiarity with the analytical and quantitative skills needed to identify and solve computer engineering problems, and to analyze and interpret data;
• A strong technical knowledge in microelectronics, digital and computer system design, computer network design, and software engineering;
• An ability to conduct laboratory experiments and simulations, and design complex computer systems by integrating hardware and software components;
• An aptitude to work effectively on teams in both intra-disciplinary and cross-disciplinary settings;
• Competency in professional writing, oral communication, graphic presentation, and engineering project documentation;
• An understanding of ethical and professional issues in computer engineering practice;
• A recognition of the non-technical constraints on computer engineering system designs and processes, including manufacturability, safety, economics, and social and environmental factors;
• An awareness of current issues in computer engineering, and an appreciation for professional development through educational experiences outside the classroom.

ELECTRICAL ENGINEERING

BACHELOR OF SCIENCE IN ELECTRICAL ENGINEERING (B.S.E.E.) PROGRAM

Program Mission

The Electrical Engineering Program prepares a culturally diverse student population for successful professional careers in electrical engineering at the local, regional and global levels. The Program is designed to ensure excellence in multiple technical areas within the broad field of electrical engineering, while emphasizing the role of general education, ethical and social responsibility, and life-long learning in the personal and professional growth of future electrical engineers.

Program Goals

In support of its Mission, the Electrical Engineering Program strives to produce graduates who will succeed in their professional careers. The Program’s Goals are to prepare graduates who will:

- Excel as professionals in power systems engineering, communication systems, or related areas, by building upon the design and problem-solving skills acquired through their studies;
- Develop and implement innovative solutions in technical fields such as energy systems, electronics, or telecommunication engineering;
- Pursue post-graduate learning opportunities including advancement studies, professional training, or engineering licensure;
- Combine technical knowledge, team-work abilities, and communication skills to excel professionally in culturally diverse environments;
- Communicate and share technical innovations through mentorship programs, job placement, internships, and technology transfer projects.
Program Learning Outcomes

Electrical Engineering graduates will demonstrate…

• Proficiency in both basic and applied aspects of differential and integral calculus, complex variables, linear and discrete mathematics, statistics, and basic science;
• Thorough familiarity with the analytical and quantitative skills needed to identify and solve electrical engineering problems, and to analyze and interpret data;
• A strong technical knowledge in microelectronics, communication systems, electromagnetics, and power systems engineering;
• An ability to conduct laboratory experiments and simulations, and design electrical engineering systems using hardware components and software tools;
• An aptitude to work effectively on teams in both intra-disciplinary and cross-disciplinary settings;
• Competency in professional writing, oral communication, graphic presentation, and engineering project documentation;
• An understanding of ethical and professional issues in electrical engineering practice;
• A recognition of the non-technical constraints on electrical engineering system designs and processes, including manufacturability, sustainability, health, safety, and economics;
• An awareness of current issues in electrical engineering, and an appreciation for professional development through educational experiences outside the classroom.

COMPUTER SCIENCE

BACHELOR OF SCIENCE IN COMPUTER SCIENCE (B.S.C.S.) PROGRAM

Program Mission

The mission of the B.S.C.S. program is to graduate students that are equipped to succeed and excel in the computer science field at the industrial and academic levels. They are able to achieve their goals in culturally diverse environments projecting high ethical awareness and very effective communication skills.

Program Goals

The B.S.C.S. program goals are to graduate students that:
- Become successful in the professional and academic computing field and the industry
- Undertake leadership positions in organizations or institutions and have positive contributions.
- Acquire new skills to be successful in different industrial and academic domains
- Formulate and communicate ideas orally and in writing using appropriate mediums
- Become effective members of society while contributing ethically to their profession.

Program Learning Outcomes

Upon completion of the degree, students will be able to:
- Employ mathematical and logical principles to solve computing problems
- Analyze a particular domain problem and articulate the requirements that introduce a proper computing solution
- Design and build advanced computer system applications for specific problem requirements
- Apply computer science theory and practice to various domains and assess its impact
- Independently acquire new computer science knowledge and skills
- Communicate effectively at different technical and professional levels
- Utilize effective team effort to accomplish a particular objective
- Demonstrate high ethical and professional standards

### MINORS

The Computer Science Department offers the minors shown below. Subject to completion of all prerequisite courses, students may choose one or more of these minors (15 Credit hours) for additional credit beyond their degree completion requirements. Prerequisites
for each course in any given minor are stated in the course description section of this Catalog. Students should familiarize themselves with these prerequisites and should be aware that completion of a given minor with its prerequisites may require them to complete more credits than the 15 shown below.

COMPUTER AND INFORMATION TECHNOLOGY

BACHELOR OF SCIENCE IN COMPUTER AND INFORMATION TECHNOLOGY (B.S.C.I.T)

Program Mission

The Computer and Information Technology Program prepares students for professional careers in the identification, design, and creation of computer technology solutions in support of government, business, and societal needs particularly within the UAE and the region. The program also provides graduates with a comprehensive foundation in order to pursue professional opportunities and graduate studies in related fields.

Program Goals

Graduating students will be able to:

• Propose technology solutions and work effectively with business leaders resulting in operational improvements;
• Design, build, operate, and maintain successful information system products in a particular domain;
• Acquire new technical knowledge and skills through professional licensure, graduate studies, or similar opportunities;
• Work individually and in a team to contribute to the computing profession and the community at large while maintaining the highest ethical and professional standards.

* No longer accepting students effective Spring 2011
Program Learning Outcomes

Students graduating from the B.S.C.I.T. program will be able to:

• Have a command of mathematical principles related to logic, relations and Boolean algebra;

• Know the role of computer technology and tools in facilitating practical solutions in particular domains such as business and healthcare;

• Know how to take on a problem statement and translate it into practical computer technology-based solutions, while observing high ethical and professional standards;

• Learn to work with other team members in order to create practical computer technology-based solutions;

• Gain depth in a particular computing domain, e.g. networking, database, application development, etc., which usually involves analysis, design, implementation, operation, administration, and/or security of the domain;

• Have competency in professional writing, oral communication, and professional project documentation.

</tr>
</tbody>
</table>

MAJOR REQUIREMENTS

- Students are expected to take all Computer and Information Technology core courses (ITCC courses) before declaring a major and beginning the third year sequence.

- In order to be able to declare a major and move on to the third year sequence, the student must have taken all the core courses required by the major of interest, and have a CGPA of 2.0+ in these courses as outlined below:
  
  - Application Development: completed with a 2.0+ CGPA for ITCC100, ITCC222, ITCC230;
  - Database: completed with a 2.0+ CGPA for ITCC100, ITCC110, ITCC210;
  - Network Infrastructure: completed with a 2.0+ CGPA for ITCC100, ITCC110, ITCC200.

- Students must complete any leftover ITCC courses by the first half of their third year. Under special circumstances, the Chair may extend this deadline to the end of the third year sequence.
• Under no circumstances will a student be allowed to begin the fourth year sequence without completing all ITCC courses.
• Should a student not have a 2.0+ CGPA in any of the above major core course combinations, then the student will not be allowed to progress and will have the choice of either raising his average in these courses to 2.0 (by repeating D’s and F’s) or changing major, subject to the usual procedure for doing so.

### CIT ELECTIVES 6

Students may choose Computer and Information Technology courses outside their chosen major and the following courses to fulfill this requirement: ITPE 310, ITPE 320, ITPE 330, ITPE 390, ITPE 391, ITPE 410, ITPE 420 and ITPE 421.
BUSINESS/CIT ELECTIVES

Students may use any course in Business Administration or CIT (other than those in the chosen major) to fulfill this requirement. This includes those courses listed under CIT Electives.

BACHELOR OF ARCHITECTURE (B.ARCH.) PROGRAM

Program Mission

The Mission of the Architecture program is to prepare highly qualified graduates for professional employment in the field of architecture by educating students in the fundamental skills and knowledge of architecture, while integrating technological, artistic, socio-cultural, legal, and financial dimensions. The program will promote professional ethical values, cultural diversity, and environmental awareness.

Program Goals

• Prepare students who are able to think in a multidimensional and interactive way, integrating design skills, and human and physical aspects in a professional manner;
• Prepare students for making choices and decisions with regards to technologies available in the market;
• Instill in students a critical attitude in their approach to the history and theory of architecture and product design;
• Prepare students who understand the human, socio-cultural, and economic dimensions of architectural design;
• Prepare students who are aware of the physical context of environmental protection;
• Graduate students who are ethically and technically prepared to embrace the profession of architecture;
• Prepare students who are able to communicate effectively.
Program Learning Outcomes

Upon completion of the B.Arch., students will be able to:

• Generate design that responds to and integrates fundamental design skills with knowledge in history and theory of architecture, building technology, socio-cultural and economic considerations, as well as professional, legal and ethical aspects in an interactive manner;
• Produce design that integrates building technology, construction, systems, and materials in a creative and original manner;
• Produce design that demonstrates knowledge of fundamental design skills, as well as history and theory of architecture;
• Produce design that acknowledges and integrates the human, socio-cultural, and economic aspects at the local, regional, and global levels;
• Produce design that demonstrates awareness, concern, and understanding of the physical context, as well as environmental and ecological issues;
• Produce design that demonstrates understanding of architectural practice in administrative, financial, and legal terms and observes ethical standards;
• Demonstrate the ability to produce and present architectural designs by communicating clearly and effectively in oral, written and graphical forms, as well as in advanced digital software and media.

MINOR IN ARCHITECTURE

The minor in Architecture is open to all students except those majoring in Architecture. This minor allows students to develop knowledge in the areas of theory and history of Architecture, construction and building materials, and architectural design. In addition to University-wide degree requirements, students must satisfy prerequisites as per the Catalog and complete the following courses:

<table>

BACHELOR OF FINE ARTS IN VISUAL COMMUNICATION (B.F.A.) PROGRAM

Program Mission

The Visual Communication Program informs and guides aspiring artists and designers in the UAE so that they can contribute to the art, and design realms. The curriculum encourages the amalgamation of aesthetics, technique, concept development, critical thinking, and digital technology. The program also endeavors to develop awareness and critical perception of the historical, cultural, and theoretical foundation for art and design work. Students graduate from the program with a strong knowledge base along with an appreciation for the roles of authorship and personal expression and the responsibilities of proper communication in the field of a growing multicultural society.

Program Goals

The B.F.A. in Visual Communication prepares graduates who will:
• Demonstrate ingenuity, imagination, and intellect in the subject of visual communication;
• Demonstrate the value of life-long learning while remaining focused on the ever-changing needs of today’s marketplace;
• Demonstrate the skill sets required to become a part of the advertising, art, and design communities.

Program Learning Outcomes

Students graduating from the B.F.A. in Visual Communication will be able to:
• Evaluate contemporary artistic development by analyzing the works of leading artists and designers;
• Effectively articulate and communicate the conceptual underpinnings
• Describe, apply and evaluate the design process, methodologies and techniques that are integral to and required for their chosen professional design/art field of study;
• Recognize the designer’s responsibilities in the design process and the role of ethics in professional design practices.

*It is recommended that students take MEST 329 to fulfill their Islamic Cultural Studies requirements.*
BACHELOR OF FINE ARTS (B.F.A.) DEGREE

Major requirements

- Students must successfully complete all Foundation Courses in Visual Communication before declaring a major.
  - In order to be able to declare a major and begin the third year sequence, the student must have successfully completed all the Foundations courses with a CGPA of 2.0+ in these courses.
- A minimum of a 2.3 CGPA is required for those courses in the declared major. A student failing to maintain a 2.3 CGPA within a major will become ineligible to graduate with that specific major.
- With the Advertising (Creative), Digital Media, Graphic Design, Photography, and Studio Art Major, all course grades below C- must be repeated if a student wishes to continue in that Major.

** May also include courses from any Visual Communication major (except for MCOM 301, MCOM 401, MCOM 421, MCOM 481, and MKTG 301).

Students who concentrate in Advertising (Creative) may use any of the following Marketing Communications Major (School of Business) courses as a Professional Elective: MCOM 491, MKTG 361, MKTG 401.

It is recommended that students concentrating in Studio Art choose their Professional Elective courses from the following: ARTS 301, DESI 210, DESI 401, GRAD 251, ILLS 251, PHOT 202, PHOT 252, PHOT 351, PHOT 452, VICD 251, VICD 302, VICD 358, VICD 412.

BACHELOR OF FINE ARTS (B.F.A.) IN INTERIOR DESIGN PROGRAM

Program Mission

The Interior Design Program at the American University in Dubai is aimed at producing a highly qualified career-oriented graduate who is able to integrate art, design, technology and business practice, with the skills and knowledge to produce highly functional and aesthetically appealing interior environments. In addition, the program enforces ethical values in regards to the profession and ethnic and cultural diversity, as well as environmental considerations.

Program Goals

The B.F.A. in Interior Design prepares graduates who have:
• Learned cutting edge techniques by maintaining close ties with current design practices and industries;
• Developed the necessary skills to be competitive in the global marketplace;
• Developed high ethical values vis-à-vis the profession, cultural diversity, and environmental considerations;
• Acquired high oral and graphic communication skills.

Program Learning Outcomes

Students graduating from the B.F.A. in Interior Design will be able to:
• Demonstrate an integrated method in designing interiors and space planning;
• Discuss architectural conceptual design, history and theory by relating styles, movements and Philosophies to interior design;
• Design interiors that acknowledge and integrate the human, socio-cultural and economic aspects at the local, regional and global levels;
• Demonstrate the ability to produce, analyze and present interior
design by communicating clearly and effectively in oral, writing and graphical forms as well as advanced digital software and media;

- Effectively apply technical skills in the areas of building materials, technologies, interior detailing, lighting, textiles and building codes to design aesthetically appealing and environmentally responsive interiors;

- Produce design that demonstrates understanding of administrative, financial, legal issues as they relate to the practice of the profession of Interior Design and observe ethical standards.

MINOR IN INTERIOR DESIGN

The minor in Interior Design is open to all students except those majoring in Interior Design. This minor allows students to develop knowledge in the areas of textiles, building materials, lighting, furniture design and interior space planning. In addition to University-wide degree requirements, students must satisfy prerequisites as per this Catalog and complete all of the following courses:

<table>
<thead>
<tr>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>IDES 102 Interior Design Studio I</td>
</tr>
<tr>
<td>IDES 214 Textiles for Interiors</td>
</tr>
<tr>
<td>IDES 266 Resources and Materials</td>
</tr>
<tr>
<td>IDES 351 Furniture Design</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Total Minor Requirements 16
IAA Diploma in Marketing Communications

Dedicated to the advancement of standards of education and ethical practice in international advertising and state-of-the-art professional development through education and for the marketing communications industry of tomorrow.

This is to certify that [Name] has fulfilled all requirements and has been awarded the International Advertising Association’s Diploma in Marketing Communications at The American University in Dubai.

Date: [Date]
Diploma No.: [Diploma No.]

Indra Nooyi
Chairman &
CEO, PepsiCo

Shirley Green
Vice President
The Marketing Communications and Advertising (Creative) Majors offered by the School of Business Administration and Visual Communication Department lead to the degrees of B.B.A. and B.F.A. respectively.

The requirements for these degrees are detailed in the appropriate sections of this Catalog (see Business Administration and Visual Communication Degree Requirements).

As these programs are accredited by the IAA in New York, students who complete degree requirements receive upon graduation an IAA Diploma in Marketing Communications in addition to their AUD degree. This is an internationally recognized Diploma which reflects that the student’s undergraduate program meets IAA requirements. Several current and past practitioners teach in AUD’s program, ensuring that curricula remain up-to-date and that students have ample contact with the marketing communications industry prior to graduation.

An internship is required of all candidates for the B.B.A./B.F.A. degrees.

B.B.A. students should note that in addition to successfully completing their course work, a passing grade on a comprehensive exam is required to obtain the Diploma. This exam, which covers the material in all course work of the MCOM Major, is given twice annually (November and June); and Diploma candidates must sit for the exam either concurrent with or immediately subsequent to fulfillment of their degree requirements.

Students who fail the exam the first time will only be permitted to sit for it the next time it is offered.

Pursuance of the Diploma is also open to working professionals who must complete the required Major/other courses and (in the case of business students) pass the comprehensive exam. Courses taken at another university may count towards the Diploma.
All candidates for the IAA Diploma in Marketing Communications must complete the following:

Total Requirements 39

Several of the above courses have prerequisites. Students should consult this Undergraduate Catalog for details. These may be waived provided that a candidate’s academic experience indicates the level of prior preparation required to follow the course without handicap. The Chair of the Visual Communication Department will make the decision regarding prerequisite waivers (if any).
For students whose English language skills need improvement, AUD’s Center for English Proficiency (CfEP) offers a non-credit Intensive English Language Program (IELP). The IELP builds general English proficiency as well as develops the English skills necessary in an academic environment. It is designed for students whose goal is to enter the university, but it is also open for people preparing to enter careers requiring English proficiency, for working professionals, and for those seeking general English skills development. Upon successful completion of this program, students may apply for admission to the university with the status of degree candidate. Those meeting AUD’s admissions requirements will be accepted.

MISSION OF THE CENTER
The Mission of the Center for English Proficiency is to provide non-native English-speaking students with the English language education that they need to succeed academically, professionally, and/or socially. The program promotes cultural awareness, citizenship, critical thinking, and ethical behavior, in addition to effective communication.

THE INTENSIVE ENGLISH LANGUAGE PROGRAM
Program Goals
• To provide students the opportunity to develop into responsible learners by enhancing their critical and intellectual activity through academic and social experiences;

• To improve each student’s ability to read, write and recognize organizational patterns within the English language;

• To improve each student’s ability to use English effectively in its cultural context by developing the appropriate communication approach and increasing cultural awareness;

• To foster critical thinking and ethical behavior;

• To encourage students to become active participants in the learning process.
Program Learning Outcomes
At the completion of the IELP program, students will be able to:

- Demonstrate orally and in writing the ability to think critically by bringing together evidence in support of an argument;

- Exemplify efficient writing and reading abilities by producing and understanding multiple diverse perspectives in a set framework;

- Demonstrate ideas by speaking extemporaneously in a social or academic environment;

- Demonstrate the ability to learn new words and recognize parts of speech in various word forms;

- Respond to questions that call for reasoned analysis of given information.

There are four levels of instruction in the IELP: IELP 096 (basic), IELP 097 (low intermediate), IELP 098 (high intermediate), and IELP 099 (advanced). Students in each level study in instructor-guided classes for four hours daily, Sunday through Thursday. Each course is approximately fifteen weeks in Fall and Spring, and approximately seven weeks in Summer I and Summer II. Each course also develops three skill sets: Reading/Vocabulary, Listening/Speaking, and Writing/Grammar. Initial placement in the IELP must be done through the ACCUPLACER™ assessment, an online test administered on the AUD campus.

Students should be aware that in order to advance to ENGL 100 (Developmental English), they must satisfy the prerequisites of: placement in ENGL 100 by TOEFL® and TWE, ACCUPLACER™ or other internationally-recognized exam.

IELP Attendance Policy
IELP students who miss seven classes or more will be automatically withdrawn from the course and a grade of “W” will be reported to the Registrar.

IELP Program Dismissal
Students who fail, withdraw, or are withdrawn from an IELP course three consecutive terms will be dismissed from the IELP program. Students will be given the chance to write a
petition and provide a credible reason why they were unable to succeed in a particular course, and this petition will be taken into consideration by the Coordinator of the CfEP.

Note: The petition needs to be submitted at least one week prior to the beginning of Drop/Add period for the term for which the student desires to register.

IELP Course Descriptions

**IELP 096 | BASIC INTENSIVE ENGLISH**
Prerequisite: Placement by ACCUPLACER™ or with Program Coordinator’s approval. Limited English is assumed

It is assumed that an incoming student is able to:

- Respond appropriately to simple classroom commands, instructional explanations, and questions;
- Write simple grammatically correct sentences in responses to oral or written cues;
- Read and understand of level appropriate texts especially main ideas by answering questions; and,
- Verbally ask and answer questions and ask for clarification.

For non-native speakers of English who have a basic understanding of English, IELP 096 builds a foundation in speaking, reading, writing, and listening. Students develop their reading skills, build their vocabulary, and learn to write simple paragraphs with grammatically correct sentences.

Class activities include oral and written communicative tasks, short presentations, using an English-only dictionary, research projects, and taking notes from a simple lecture. Students also develop their overall competence in listening, grammar, and computer use.

**IELP 097 | LOW INTERMEDIATE INTENSIVE ENGLISH**
Prerequisite: IELP 096 with a grade of P+/P or placement by ACCUPLACER™

It is assumed that an incoming student is able to:

- Write a paragraph (9-12 sentences) containing multiple ideas with a concise topic sentence that uses parallel structure;
- Write concluding statement which restates the topic sentence;
- Articulate an opinion verbally and in writing through use of descriptive, narrative, and opinion modes;
- Use various strategies to read and understand level-appropriate academic texts and academic vocabulary; and,
- Understand and respond appropriately to classroom instruction, questions, and directions as well as speak extemporaneously for short periods and deliver short prepared speeches.

For intermediate non-native speakers of English, IELP 097 expands existing proficiency in speaking, writing, reading and listening. It also begins to develop academic skills of students whose goal
is to enter the university. Students will build their vocabulary, acquire academic reading strategies, and write complex, well-developed paragraphs with grammatically correct sentences. They participate in group discussions, give informal presentations, and learn to support opinions by giving reasons and explanations. Class activities include grammar review and expansion, oral and written communicative tasks, taking notes from a simple lecture, projects, and computer-based instruction.

IELP 098 | HIGH INTERMEDIATE INTENSIVE ENGLISH
Prerequisite: IELP 097 with a grade of P+/P or placement by ACCUPLACER™
It is assumed that an incoming student is able to:

• Write a topic sentence using parallel structure with three points of discussion (subtopics);
• Write a complex paragraph developing multiple ideas that support the topic sentence and provide adequate explanations and examples;
• Write well-developed paragraphs using various rhetorical modes;
• Write concise concluding sentences which restate the topic sentence using parallel structure;
• Use various strategies to read and understand level-appropriate academic texts and academic vocabulary; and,
• Speak extemporaneously on given topics for short periods and deliver short prepared speeches.

For high intermediate non-native speakers of English, IELP 098 expands proficiency in speaking, writing, reading and listening. It also further develops academic skills of students whose goal is to enter the university. Students participate in more complex listening activities such as listening and taking notes from lectures. They also participate in more challenging speaking activities such as giving formal presentations and discussing causes, effects, and solutions to a problem. They continue to build their vocabulary, acquire reading strategies, and review and expand grammar. They write multi-paragraph essays demonstrating mature thought. This course places more emphasis on communicative tasks, projects, and computer-based learning.
IELP 099 | ADVANCED INTENSIVE
ENGLISH
Prerequisite: IELP 098 with a grade of P+/P or placement by ACCUPLACER™
It is assumed that an incoming student is able to:

- Write a clear thesis statement using parallel structure indicating the content of body paragraphs in the order presented in essay;
- Write topic sentences using parallel structure with three points of discussion (subtopics);
- Write a short five-paragraph essay using multiple rhetorical modes that are sufficiently developed and support the thesis statement by providing adequate explanations and examples;
- Write a concluding paragraph which restates the thesis statement using parallel structure;
- Use various strategies to read and understand level-appropriate academic texts and develop academic vocabulary; and,
- Speak extemporaneously on given topics for short periods and deliver short prepared speeches.

Designed for advanced non-native English speakers bound for university studies, IELP 099 is focused on equipping students with the linguistic and academic competence they will need to succeed in university classes. It focuses on writing essays using sophisticated sentence structure in coherent, well-developed paragraphs. Students will learn to construct an outline, structure an essay, create a thesis statement, provide specific and relevant support, use transitions, and proofread for accuracy. IELP 099 also develops listening and speaking skills useful in university classes, such as note-taking from lectures, writing reports, and making formal presentations. It develops university level vocabulary and advanced proficiency in reading English, with emphasis on using various reading strategies to increase reading speed and comprehension. Vocabulary expansion is accomplished through study of word structure (stems, prefixes, and suffixes), deducing meaning from context, and learning high frequency academic words.
The Center for Executive Programs and Professional Services (CEPPS) is the business and professional outreach arm of The American University in Dubai.

The Mission of CEPPS is to provide top quality executive education, training, professional development and consulting services to private and public sector organizations in the UAE, the GCC region, and the wider Middle East. CEPPS programs and services encompass the entire range of expertise resident at AUD, as well as world-class expertise made available through knowledge partnerships and alliances with leading international providers of executive education and professional know-how.

CEPPS offers a wide range of programs and services designed to satisfy the organization’s needs for relevant, state-of-the-art, application-oriented skills and know-how. The offerings consist of:

- Executive and Professional Development
- Programs (Customized)
- Consulting Services
- Conferences
- Other Professional Services
### COURSE LEGEND

#### Numbering
- 00-99  Developmental Courses
- 100-199  Freshmen Courses
- 200-299  Sophomore Courses
- 300-399  Junior Courses
- 400-499  Senior Courses

This Legend generally applies. Students should consult their advisors to discuss specific exceptions.

#### Hours
The Courses carry the following hours’ legend: *(lecture – lab/studio – credits)*

#### Frequency
The frequency of the course offering is indicated per the following legend:

- **F** = Fall
- **S** = Spring
- **SI** = Summer I
- **SII** = Summer II

#### Prerequisites
If a course does not list a prerequisite, that means that students are allowed to register without previous specific coursework. However, students should be mindful of the considerations made under *ENGLISH AS A PREREQUISITE* on p. 89 of this *Catalog* and any other course sequencing advice provided by an Academic Advisor.
ACCG 201 | PRINCIPLES OF FINANCIAL ACCOUNTING (3-0-3)
Prerequisites: BUSI 101, MATH 160 | F, S, SI, SII
This introductory course focuses on external financial reporting, providing a general overview of basic financial statements and the accounting process that produces them. This course covers topics such as the nature and purpose of accounting and accounting information, fundamental accounting concepts, principles and methods, the accounting cycle, accounting for current and fixed assets, introduction to liability and owners’ equity, with emphasis on sole proprietorship and partnership accounts, and introduction to financial statement analysis. Students must receive at least a C grade in this course in order to register for additional Accounting Major courses.

ACCG 211 | PRINCIPLES OF MANAGERIAL ACCOUNTING (3-0-3)
Prerequisite: ACCG 201 | F, S, SI, SII
The emphasis of this course is on the use of accounting information internally by managers in an organization. Students will gain an understanding of the information needed by managers in planning, control and decision making. This course covers cost concepts and cost behavior, activity based costing, costing systems, operational budgets, standard costing, introduction to capital budgeting, cost-volume-profit analysis and relevant costs in decision making.

ACCG 301 | INTERMEDIATE ACCOUNTING I (3-0-3)
Prerequisite: Completion of ACCG 201 with a grade of C or higher | F, S
This course focuses on theory and applications of financial accounting. It introduces the conceptual framework, the process of creating generally accepted accounting principles, and the fundamentals of financial statements — income statements, balance sheets, and statements of cash flow. Issues examined include cash and receivables, inventories, long-lived tangible and intangible assets. Moreover, the course investigates the foundations and applications of international accounting practices.

ACCG 302 | INTERMEDIATE ACCOUNTING II (3-0-3)
Prerequisite: ACCG 301 | S, SI
This course is a continuation of the Intermediate Accounting I. It continues the in-depth analysis of accounting theory, and procedures underlying preparation of financial statements. Topics covered include short-term and long-term liabilities, stockholders’ equity, including dilutive securities and earnings per share, investments, revenue recognition, income taxes, pension and retirement benefits, leases, accounting changes and errors, statements of cash flows, and full disclosure in financial reporting.

ACCG 311 | COST ACCOUNTING (3-0-3)
Prerequisite: ACCG 211 and completion of ACCG 201 with a grade of C or higher | F, S, SI
This course examines various tools of cost accounting. It also examines means by which control can be exercised and the types of accounting information that allow for different means of planning and control. It covers the behavioral, quantitative, and qualitative aspects accounting, such as the nature of control, responsibility
centers, performance evaluation, pricing of intermediate products, strategic planning, advanced topics in budgeting, costing, the balanced scorecard, executive compensation, and control for differentiated strategies.

**ACCG 341 | ACCOUNTING INFORMATION SYSTEMS (3-0-3)**
*Prerequisite: ACCG 211 and completion of ACCG 201 with a grade of C or higher | F*
This course provides an overview of major accounting subsystems with an emphasis on computer systems and internal control. It provides an overview of the design of information systems that support the accounting function of a firm. It focuses on business transaction cycles and processes, including Order Entry/Sales/Receivables; Purchase/Payables; Payroll/Human Resources; Fixed Assets; Production; Financing, and the General Ledger in the context of Enterprise Resource Systems (ERSs). Topics covered also include Computer Control and Audit; Computer Crime; and Reporting with XRBL.

**ACCG 401 | ADVANCED ACCOUNTING (3-0-3)**
*Prerequisite: ACCG 302 | F, S*
This course focuses on the nature and structure of accounting information that is generated by the business firm. The main emphasis is not on the process through which accounting information is generated, but on how this information can be used in decision making by business managers. Topics covered include key financial statements and their interpretation, ratio analysis and its uses in performance evaluation as well as its limitations, financial planning and budgeting, use of accounting information for more effective control of operations, economic value added vs. ROI, and other approaches to performance measurement.

**ACCG 421 | AUDITING (3-0-3)**
*Prerequisite: ACCG 302 | SI*
This course presents both the theoretical and practical aspects of auditing, including the responsibilities and function of the independent auditor. Topics include auditing objectives and concepts, types of audits, auditing standards, auditors’ professional code of ethics and auditors’ liability, risk and internal control, and the audit process.

**ACCG 431 | U.S. TAXATION (3-0-3)**
*Prerequisite: ACCG 401 | SI*
This course covers knowledge applicable to federal income, estate and gift taxation and its application in practice. The content of this course is consistent with the AICPA Federal taxation specification outline tested in the CPA exam. The course covers topics such as taxation of individuals, corporations, partnerships, estates and trusts, exempt organizations, and preparers’ responsibilities.

**ACCG 441 | INTERNATIONAL ACCOUNTING (3-0-3)**
*Prerequisite: ACCG 401 | F, S, SI*
This course gives a broad overview of the global financial and accounting environment
and addresses three distinct, but overlapping topic areas: financial reporting, financial analysis, and planning and control of multinational enterprises. The course covers topics such as financial reporting regimes, harmonization of international accounting differences, international accounting standard setting process, financial reporting issues relating to segment reporting, international financial ratio analysis, business combinations, intangible assets, foreign currency translation, accounting for changes in exchange rates, translation of financial statements, and managerial accounting issues relating to control of and performance measurement for foreign operations.

**ACCG 491 | SPECIAL TOPICS IN ACCOUNTING (3-0-3)**
*Prerequisite: Senior status or approval of the Chair and completion of ACCG 201 with a grade of C or higher | Upon demand*
This course presents a critical study of theory, research and practical applications related to advanced topics in accounting, not covered in any other accounting course. The specific topics will be determined by the interests of the students and the instructor.

**ADST 401 | ADVANCED STUDIO I (0-4.5-3)**
*Prerequisites: SCUL 202, PRIN 202, VICD 211, PHOT 251, Corequisite: STUD 401 offering | F*
This course focuses on the development of the student’s studio practice. Students will be encouraged to actively discuss the development of their studio work in both form and content. A personal direction regarding choices of media, technique, and content is essential.

**ADST 402 | ADVANCED STUDIO II (0-4.5-3)**
*Prerequisite: ADST 401, Corequisite: STUD 402 | S*
This capstone course is a continuation of Advanced Studio I with the final result being a comprehensive body of work that is exhibited in a gallery setting. The work must be of professional quality. A committee of faculty will examine the final body of work and determine if students are ready to enter their professional discipline.

**ANIM 201 | COMPUTER ANIMATION I (0-6-4)**
*Prerequisites: VICD 207 | F*
This is a skills-based course introducing the basic processes and knowledge necessary to create 3D modeling and computer animation. Students will learn the basics of modeling in a digital 3D environment, as well as animating. Students will be introduced to the different workflows for creation of low-polygon count and high-polygon count projects. Students will gain confidence and competence working on small projects in a 3D digital environment.

**ANIM 351 | COMPUTER ANIMATION II (0-4.5-3)**
*Prerequisite: ANIM 201 | S*
This is an experimental, project-based course creating artwork in a digital, 3D environment. Students are encouraged to pursue their own vision within the 3D digital environment. More advanced processes and workflows are introduced for the creation of 3D models and animation. Different types of outputs are encouraged, from output for the web, to film-oriented output, to printed output of 3D digital projects.
ANIM 451 | COMPUTER ANIMATION III (0-4.5-3)
Prerequisite: ANIM 351 | F
This course is a project-based 3D digital media course. Students pursue their own vision in this course. They work independently on a larger-scale, semester-long project of their own choosing. An atmosphere of creativity and experimentation are fostered in order to help students better articulate their ideas. Students are encouraged to envision experimental, mixed-media outputs for their 3D projects. Professionals from the industry are brought in to critique student work in progress. Students exhibit their work at the end of the course.

ANTH 201 | INTRODUCTION TO CULTURAL ANTHROPOLOGY (3-0-3)
Prerequisite: ENGL 102 | F, SI
This course introduces students to fundamental concepts and theories associated with culture and the study of the interconnection between culture and human behavior. Cultural concepts to be discussed include social relations, language, government, and religion. Awareness of these concepts allows students to appreciate the cultural diversity present in the contemporary world.

ANTH 301 | GLOBALIZATION (3-0-3)
Prerequisite: ANTH 201, ECON 202, POLS 200 | Upon demand
This course provides students with a framework with which to understand and examine the complexities of globalization. The course looks at the impact of globalization on various cultural, political, and economic aspects of societies around the world. Scholarly articles from a wide range of authors and sources are central to this course.

ARCH 101 | ARCHITECTURAL DESIGN STUDIO I (2-4-4)
F, S (Upon demand)
In this foundation course, the student is introduced to the fundamentals of manual drafting and the tools used in this technique. Students will learn basic interior drafting vocabulary, line quality, lettering and drafting conventions for a site, plot, roof and floor plan, interior and exterior elevations, and building sections. This course involves presentation techniques axonometric and perspective drawings. Anthropometrics and ergonomics will also be introduced.

ARCH 102 | ARCHITECTURAL DESIGN STUDIO II (2-4-4)
Prerequisite: ARCH 101 | S, SI (Upon demand)
ARCH 102 builds upon media and process skills gained in ARCH 101. The design exercises emphasize the role of research, analysis, proposition formulation, decision-making, and collaboration in the design process. The semester is divided into three parts. During the first part, students work individually on a series of one-week exercises that take them from research, through problem-formulation, to design development. Next, they spend three weeks putting together a portfolio of their work from ARCH 101 and ARCH 102. During the last part of the semester, they work in teams, focusing on particular aspects (detailing, fabrication) of the projects developed by their peers in the first part of the semester.

ARCH 151 | HISTORY AND THEORY OF ARCHITECTURE I (3-0-3)
F, SI
This is the first of three sequential courses that cover the History of Architecture from the third millennium BC through to the Twenty-first century. This course is characterized by a series of lectures and presentations that
examine the development of architecture and urbanism from the ancient world through to the late medieval period. Knowledge of the language of architecture, its terminology and recognition of period styles are required. Emphasis is placed on the historical and intellectual context of selective examples of architecture, along with their environmental, technological and social relevance.

**ARCH 201 | ARCHITECTURAL DESIGN STUDIO III (0-12-6)**
Prerequisite: ARCH 102 | F, S (Upon demand)
This second year studio course focuses upon the understanding of architectural convention in relation to cultural, sociological and general human related aspects. Based on a socio-cultural understanding of design approach students are encouraged to develop their analytical problem-solving skills which function as the basis for design invention and as the foundation of ethical action in the process of architectural designing.

**ARCH 202 | ARCHITECTURAL DESIGN STUDIO IV (0-12-6)**
Prerequisite: ARCH 201, ARCH 211 | S
This is a studio course that introduces the strategies of architectural design. Students develop an architectural project based on a building program and site. Issues concerning building assemblies, structural systems, building envelope systems, and environmental systems are covered. The integration of these issues into building design is complemented by studio exercises.

**ARCH 211 | MATERIALS AND METHODS OF CONSTRUCTION (3-0-3)**
Prerequisite: ARCH 101 | F, SI
This course introduces students to the role of architectural technology in the design process. Building materials and methods of construction are studied. Students become aware of the appropriate application and performance of construction materials, components, and assemblies. Students acquire the knowledge to make competent choices with regards to building materials and assembly techniques.

**ARCH 212 | CONSTRUCTION PROCESS AND BUILDING ECONOMICS (3-0-3)**
Prerequisite: ARCH 211 | S, SII
This course introduces students to the basic principles and techniques of management and control of a building construction project from conception through occupancy. Students are introduced to the principles and practices of estimating project cost, scheduling methods, and controlling techniques.

**ARCH 252 | HISTORY AND THEORY OF ARCHITECTURE II (3-0-3)**
Prerequisite: ARCH 151 | F, SI
This is the second of three sequential courses that cover the History of Architecture from the third millennium BC through the Twenty-first century. This course is characterized by a series of lectures and presentations that examine the development of architecture and urbanism in Europe and elsewhere from the late medieval period through the Renaissance until the late eighteenth century. Knowledge of the language of architecture, its terminology and recognition of period styles are required. Emphasis is placed on the historical and intellectual context of selective examples of architecture, along with their environmental, technological and social relevance.
ARCH 253 | HISTORY AND THEORY OF ARCHITECTURE III (3-0-3)
Prerequisite: ARCH 252 | S, SII
This is the third of three sequential courses that cover the History of Architecture from the third millennium BC through to the Twenty-first century. This course is characterized by a series of lectures and presentations that examine the development of architecture and urbanism in Europe and elsewhere from the industrial revolution through to the early Modernism period of Europe and North America and on to a world setting for the variations in late Modernism before considering various new movements of the Twenty-first century. Knowledge of the language of architecture, its terminology and recognition of period styles are required. Emphasis is placed on the historical and intellectual context of selective examples of architecture, along with their environmental, technological and social relevance.

ARCH 301 | ARCHITECTURAL DESIGN STUDIO V (2-8-6)
Prerequisite: ARCH 202 | F, S (Upon demand)
This third year studio course focuses upon the understanding of Architectural theories and methodologies, their implication on understanding and approaching design methods. Students are encouraged to develop new ways of analysis and criticism for architectural objects. This will be the basis for the process of design invention of this course.

ARCH 302 | ARCHITECTURAL DESIGN STUDIO VI (0-12-6)
Prerequisites: ARCH 301, ARCH 351 | S, SI (Upon demand)
While the first and second year Architectural Design Studios I through V introduces students to design basics, principles, theory, methods and structure-related issues, this studio course starts to focus and examine the impact of environmental issues with the aim to design an environmentally responsive building within the design process.

ARCH 311 | STRUCTURAL ANALYSIS (3-0-3)
Prerequisite: ARCH 211, PHYS 201 | F, SI
This course explains the relationship between architectural and structural design. Students will study the behavior of structures through an understanding of the concepts of load and load path, internal forces, different types of stress, structural materials, the role of geometry in structural design and finally basic mathematical calculations.

ARCH 312 | STRUCTURAL DESIGN (3-0-3)
Prerequisite: ARCH 311 | S, SII
This course prepares students for structural design decisions based on the necessary knowledge of both conceptual and mathematical aspects of structure. It covers the primary structural materials: steel, wood, concrete and masonry in terms of loads, materials and properties, structural elements and systems and bending systems.

ARCH 321 | ENVIRONMENTAL SYSTEMS (3-0-3)
Prerequisite: ARCH 102 | S, SII
This core course introduces design with climate and site resources for conservation, efficiency, and appropriateness to the local, regional, and global contexts. Fundamentals of thermal, lighting, acoustical, aqueous, and waste are covered. Passive solar heating and cooling are taught as well as HVAC and associated issues of indoor air quality, energy and power consumption. It also enhances the understanding of the principles of building services, complex environmental issues of indoor air/thermal and lighting quality, construction and environmental constraints in relation to the development of sustainable architecture. Details and constructional components of this design project and
regulatory appraisals relating directly to the design project will integrate with other related courses within the curriculum.

ARCH 322 | BASIC ELEMENTS OF LANDSCAPE ARCHITECTURAL DESIGN (3-0-3)
Prerequisite: ARCH 202 | S, SII
This course presents the thoughts and key design theories fundamental to landscape architecture in simple words and illustrations, it also offers the vocabulary, significance, characteristics, potential uses, and design guidelines for landform, plant materials, buildings, pavement, site structures, and water in landscape architectural design. It will help students overcome common mistakes and misconceptions typical in the early phases of their design career and will heighten their understanding and awareness of the major physical components of the outdoor environment.

ARCH 351 | THEORY OF ARCHITECTURE (3-0-3)
Prerequisites: ARCH 253, ARCH 202 | F, SI
This advanced lecture course focuses upon the understanding of architectural theories and methodologies, and their implication on understanding and analyzing architectural design. Students are encouraged to develop new ways of analysis and criticism for architectural objects as well as to reformulate ideas and theories.

ARCH 352 | ENVIRONMENTAL PSYCHOLOGY (3-0-3)
Prerequisite: ARCH 202 | F, SI
This course introduces students to semiotics and behavioral studies. It emphasizes the relationship between cultural values and the perception of the built environment and the way the latter impacts on design.

ARCH 380 | SPECIAL TOPICS IN ARCHITECTURE (3-03)
Prerequisite: ARCH 202 | F, S, SI, SII
This is an advanced course in which students participate in topics to be selected by the instructor, with the approval of the Chair, and which develops an aspect of design and/or presentation. Research, critical analysis, application of the research and analysis to the design, and presentation will be required in the course.

ARCH 401 | ARCHITECTURAL DESIGN STUDIO VII (2-8-6)
Prerequisite: ARCH 302 | F, S (Upon demand)
This is a design studio course that introduces students of Architecture to elements that create a design within an urban context and facilitates their planning of urban layouts. The focus of this course is on implementing analytical methods, representation techniques and provisional approaches that is a capstone of any urban design and physical planning. Through studio-based exercises, students will be introduced to tools that aid their interpretation, visualization, and implementation of urban plans. This will range from mapping of social, geographical, cultural, and historical experiences in that region; also the development of approaches for the provision of infrastructure site parcelization in future developments; massing and their uses and height zoning of the 3rd dimension. A number of studio-based exercises and assignments will place students in a broad range of urban conflicts and situations through various scales and cultural perspectives that give rise to a city.
ARCH 402 | ARCHITECTURAL DESIGN
STUDIO VIII (2-8-6)
Prerequisite: ARCH 401 | S, SI (Upon demand)
Design studio introducing students to the procedure of critical inquiry specifically as it relates to architecture investigations focusing on heritage conservation strategies and technologies. Special awareness to the legibility and amenity of heritage properties; responsive environments; social, aesthetic and economic goals; design guidelines, public and private exercises, heritage and streetscape conservation; local and international case examples. The course is designed to provide students investigational opportunity to focus on cultural landscape history, theoretical and cultural heritage practice in the area and around the world. The course also stresses the multidisciplinary nature of contemporary heritage conservation and design, covering a diversity of topics including community involvement, field study analysis, tourism planning and heritage, and the preservation of heritage buildings. The course provides professional training in enhancement of historic buildings which will facilitate student’s integration of educational study with work experience.

ARCH 422 | SUSTAINABILITY AND ENERGY CONSERVATION (3-0-3)
Prerequisites: ARCH 302, ARCH 321 | F, SI
This course exposes students to the concepts of sustainability and energy conservation at the global, regional, and urban scales by assessing the different forms of energy available and the way each relates to the building industry.

ARCH 423 | SUSTAINABLE URBANISM (3-0-3)
Prerequisites: ARCH202, ARCH321, ARCH422 | S, SII
This course combines expertise in New Urbanism with a thorough understanding of environmental issues and techniques. It also exposes students to a comprehensive and technically informed way on how to design and build places that are environmentally responsible and also gratifying to inhabit.

ARCH 441 | PROFESSIONAL PRACTICE AND ETHICS (3-0-3)
Prerequisites: PSPK 101, ARCH 302 | S, SII
Specific to the practice of Architecture, this course, through lectures and presentations, is designed to introduce business practices and procedures to final year students. The course will relate to private practice and the various members of the design and construction teams. Students will demonstrate their knowledge and understanding of contemporary professional practice through examinations and assignments. Lectures and studio exercises will assist students in marketing themselves by developing the communication skills necessary for professional practice. Field trips to design offices and building sites supplement instruction, and specialists may contribute to class discussions. Students are required to produce portfolios, including electronic, to a professional standard. Interviews by a jury, comprising interior design professionals both practitioners and academics, will constitute the final examination.

ARCH 501 | ARCHITECTURAL DESIGN
STUDIO IX (0-12-6)
Prerequisite: ARCH 402 | F, S (Upon demand)
In this course, students prepare a thesis proposal which consists of collecting, analyzing, and writing a summary about data pertinent to a particular building type and use it to produce a preliminary design to be carried out in detail during the final semester. Students will build a comprehensive
knowledge as to building standards and norms leading to space programming, codes, and regulations and design theory. Throughout the process, students will learn to plan, structure and write a research document as well as developing familiarity with research techniques and methods in the field of Architecture.

ARCH 502 | ARCHITECTURAL DESIGN STUDIO X (0-12-6)
Prerequisites: ARCH 501, ARCH 542 | S, SI (Upon demand)
This is a capstone course in which students implement their thesis research by developing a project that incorporates all the principles of design demonstrating a comprehensive understanding of architectural design and evidence of professional capability. A final presentation of the resulting design to an advisory panel will be required.

ARCH 542 | LIFE SAFETY AND CODES (3-0-3)
Prerequisite: ARCH 401 | F, SI
Life Safety and Codes refer to danger and hazard to life from fire. The Safety Codes deal with those construction, protection, and accumbency possessions necessary to reduce threat to life from the effects of fire flames, including burn-up, smoke, high temperature, and deadly gases produced during flames. The Safety Codes set up the basic criteria for the design of egress amenities so as to allow timely and quick evacuation by occupants from buildings or, where desirable, into protected areas within buildings. Life Safety Codes address and take design measures and plan for proper actions for fire and life safety issues in public and private buildings. They also present proper safety standards. The Safety Codes also tackle protective aspects and systems, building facilities, operating elements, repair operations, and other necessities respecting the fact that accomplishing a satisfactory measure of life safety depends on additional protection to provide proper egress time or safeguarding for occupants exposed to fire. The Safety Codes also tackle other concerns that, while essential in fire situations, supply constant help in other circumstances of use, including non-fire emergencies. The safety Codes tackle the fire prevention with the necessary building construction elements and features.

ARCH 561 | INTERNSHIP (3-0-3)
Prerequisite: Senior status and approval of the Chair | F, S, SI, SII
With the aid of the supervising instructor, the student participates in a practical “on-site” internship in which theoretical principles are applied to work situations under professional supervision.

ARTS 200 | HISTORY OF ART I (3-0-3)
Prerequisite: ENGL 101 | F, S, SI
This is a traditional art and architecture history survey course, which begins with the cave paintings and continues through to the Renaissance. Artworks will be analyzed in their historical, sociological, and political context through slide and video presentations, including major works from Islamic, Chinese, and Mesopotamian cultures.

ARTS 201 | HISTORY OF ART II (3-0-3)
Prerequisites: ARTS 200, ENGL 102 | F, S, SI
This course surveys the major developments in art and architecture from the Baroque era until the present day, comparing the tools used to make works of art, the sociological environment in which they are made, and the changing attitudes of art history. Additionally,
the course covers major works from Mesoamerica, India, and Africa.

**ARTS 203 | ARTISTIC FORMS OF EXPRESSION (3-0-3)**

S

In this course, selected art forms are surveyed and presented as attempts of human beings to express themselves artistically in historical and cultural contexts; literary, theatrical, visual, and musical art forms are covered.

**ARTS 215 | MULTICULTURAL ART FORMS (3-0-3)**

F

This is a survey course on the study of art forms represented in various world cultures. This course introduces the student to a variety of art forms from the world over which has influenced various cultures and their lifestyles.

**ARTS 301 | PHOTOGRAPHY AS AN ART FORM (3-0-3)**

Prerequisites: ARTS 201, PHOT 201 | SI

This course aims to introduce to students a diverse range of photographer’s work from the turn of the century to the contemporary, paralleling some of the major art movements of the 20th century. It will also offer students the opportunity to develop their own visual skills utilizing the digital camera. The course will invite students to address the current state of art photography through a series of presentations, discussions and topic specific projects.

**ARTS 305 | ART AND THE ELECTRONIC AGE (3-0-3)**

Prerequisite: ARTS 201 | S, SI

This course is an overview of each of the main advanced electronic art sectors, including the artists active in each of them. The sectors are: computer art, video art, and installation art. The course aims to give an account of the relationship between the artists and audiences, and to examine how art is received in virtual, public, interactive or traditional spaces. The course will address the current state of electronic art through a series of presentations, discussions and topic specific projects and/or research papers.

**BIOL 201 | PRINCIPLES OF BIOLOGY (3-0-3)**

Corequisite: ENGL 101 (students will not receive credit for both BIOL 201 and SCIE 201) | F, S, SI

This course introduces students to principles of biology including basic concepts in biochemistry and bioenergetics, cell biology, genetics, speciation, ecology and conservation biology. It introduces students to the modern techniques and applications in biological sciences especially those relevant to biotechnology, biomedical applications and the sustainable development of natural resources in the environment.

**BIOL 311 | INTRODUCTION TO BIOTECHNOLOGY (3-0-3)**

Prerequisite: ENGL 101, BIOL 201 or SCIE 201, MATH 111 (or higher) | F

This course is designed to introduce students to the basic principles of biotechnology and its applications. It will introduce students to fundamental scientific concepts in molecular biology and biotechnology emphasizing modern, cutting-edge emerging tools and applications in this area. Medical applications of biotechnology, industrial bio-manufacturing, bioremediation, forensic analysis, cloning and transgenic techniques, and aquaculture are some of the topics
that students will be introduced to in this course. Students will have an opportunity to consider the ethical implication of emerging biotechnologies and their impact on communities.

BUSI 101 | INTRODUCTION TO BUSINESS (3-0-3)  
_F, S, SI, SII_  
An introductory survey of the business world, with consideration of the structure and forms of business enterprise, the nature of business relationships, and the diversity and choice of business careers. This course explores perceptions and misperceptions of business and its role in society, in a multi-cultural setting.

BUSI 201 | BUSINESS COMMUNICATIONS (3-0-3)  
Prerequisites: BUSI 101, ENGL 101 | _F, S, SI, SII_  
Students in this course will learn the dynamics of human interaction in the workplace. The focus of the course is designed to increase the student’s understanding and implementation of effective communication behaviors and skills exhibited through written and oral communication forms. The fundamentals of business communication will introduce rhetorical principles, cultural adaptation and compositional practices necessary for successful communication in a range of professional and academic settings.

BUSI 211 | BUSINESS ETHICS (3-0-3)  
Prerequisite: BUSI 201 (also applies to non-Business Majors) (not open to students who have previously been granted credit for PHIL 222) | _F, S, SI_  
This course introduces students to the ethical context of business operating domestically as well as internationally. This course introduces students to a cooperative framework, which will embrace the foundations of regional differences and influences with respect to ethical decision making. The difficult issue of ethical relativism and other problems associated with multiple ethical systems are examined from theoretical as well as case-based applied perspectives.

BUSI 221 | PERSONAL FINANCIAL MANAGEMENT (3-0-3)  
Prerequisite: MATH 160 (not open to students in the Finance Major) | _F_  
This course covers fundamentals of personal finance including salary and compensation, budgeting, savings, investments, renting, establishing a home, property acquisition, installment contracts, purchase acquisition, scams and frauds, credit, insurance, retirement, taxes, and other financial issues.

BUSI 301 | BUSINESS RESEARCH (3-0-3)  
Prerequisites: BUSI 101, QUAN 201 | _F, S, SI_  
Business analysts, managers and other professionals engaged in managerial and supervisory tasks are required to conduct research projects, or to supervise staff undertaking programs under their direction and to evaluate proposals and work completed by contracted professionals. To fulfill these responsibilities, managers must possess knowledge of research methodologies and techniques and be competent in their application.

This course explores the role of research in business decision-making. The aim is to introduce students to the principal stages, terminology, concepts, processes and methodologies used in conducting research, and reporting and reviewing the results of research, and to enhance skills, knowledge and competencies in conducting research. Also, a major part of this course is dedicated to the development and execution of a business research project.
BUSI 311 | BUSINESS LAW I (3-0-3)
Prerequisites: BUSI 101, BUSI 211 | F, S, SI
This course serves as an introduction to the issues arising in the legal environment in which businesses operate. Consideration is given to the law of contracts, business torts, warranties, agency law and business formation including potential liability exposure.

BUSI 312 | BUSINESS LAW II (3-0-3)
Prerequisite: BUSI 311 | F, S
This course is a continuation of the introductory business law course and examines the following areas of law: corporate mergers, sales and lease contracts, negotiable instruments, debtor-creditor relationships including secured transactions and creditors rights and bankruptcy, intellectual property and internet law, securities regulations, the international legal environment and labor and employment law including discrimination.

BUSI 321 | BUSINESS IN THE INTERNATIONAL ENVIRONMENT (3-0-3)
Prerequisite: ECON 202 | F, S, SI
Consideration is given to comparative analysis of market conditions and business practices in the global economy, with an emphasis on international economic factors and institutions, including trade, financing, exchange rates, development and government policies. Selected topics in international management are covered.

BUSI 331 | MANAGEMENT OF INFORMATION SYSTEMS (3-0-3)
Prerequisites: COMP 101, MATH 160 | F, S, SI, SII
This course introduces students to the dynamic environment of Information Systems (IS) and Information Technology (IT). IS and IT influence every aspect of business. This course has 3 main topics: (1) using IS/IT for competitive advantage, (2) core IS/IT skills and management, and (3) IS/IT as an agent of change in all functional areas of business.

BUSI 401 | CONTEMPORARY BUSINESS ISSUES (3-0-3)
Prerequisites: POLS 200, ANTH 201, ECON 201, HIST 252 | Upon demand
This seminar-style course asks students to explore current issues in business. The primary focus of the course is business. In addition, all students are expected to look at the historical, political, and cultural factors involved. The course is designed to allow students to explore a primary area of interest while maintaining the interrelationships of all major areas of the BAIS degree. This course is also open to non-BAIS students.

BUSI 481 | INTERNSHIP (3-0-3)
Prerequisite: Senior status and approval of the Chair | Upon demand
With the aid of a supervising instructor, and under the direct supervision of a member of the host organization, the student participates in a practical onsite internship in which theoretical principles are applied to work situations. Upon the end of the internship, the student submits a report to the supervising instructor.

CHEM 201 | GENERAL CHEMISTRY (3-0-3)
Corequisite: ENGL 101 | F, S, SI
Fundamental laws and theories of chemical reactions. Topics include atomic structure, bonding theory, stoichiometry, properties of solids, liquids, and gases; chemical thermodynamics, electrochemistry, and kinetics; introduction to organic chemistry.
COMM 101 | INTRODUCTION TO GLOBAL MEDIA (3-0-3)
Corequisite: ENGL 101 | F, S
The course provides an overview of the history of mass communication and the events responsible for the globalization of mass media. It offers an introduction to the theories and practices of globalized media, with particular emphasis on the rise of digital media.

COMM 102 | RESEARCH FUNDAMENTALS (1-0-1 CREDITS)
Corequisite: ENGL 102 | F, S
This course is an introduction to the modern tools of information gathering that are essential for today’s media professionals. Students will learn the use of library resources and Internet-based search. They will be taught the application of the most commonly used protocols for writing papers and citing sources. Another important component of this course is to familiarize students with the elements and development of research papers, the legal issues that relate to research and accessing public records, and what constitutes plagiarism.

COMM 103 | MEDIA, CULTURE AND SOCIETY (3-0-3)
Prerequisite: COMM 101, Corequisite: ENGL 102 | F, S
This course offers more in-depth examination of topics addressed in COMM 101, Introduction to Global Media. It adopts a critical approach while examining the relationship between the media and the larger society, encompassing related cultural and political issues. It provides knowledge and understanding of the dominant theories and current research in media effects.

COMM 201 | MEDIA ECONOMICS AND RESEARCH (3-0-3)
Prerequisites: COMM 102, MATH 111/160 | F
Students will gain a basic understanding of media economics, including for-profit media owned by private companies/individuals and non-profit government owned or subsidized media. They will learn the basic research methods and statistical tools used to measure readers/viewers. Students will also learn how to assess the influences of the economic model on decision-making for news, entertainment and other media industries.

COMM 202 | ETHICAL AND LEGAL RESPONSIBILITIES IN THE MASS MEDIA (3-0-3)
Prerequisite: COMM 103 | S
Using a case study approach, this course provides students with an understanding of the traditions of media-related law that might be used as paradigms in countries with evolving media systems. It explores the ethical duties that accompany journalism, entertainment, advertising, and public relations.

COMM 221 | MEDIA WRITING SKILLS (3-0-3)
Prerequisite: ENGL 102 | F
This course introduces the basics of writing techniques for print, broadcast, and online media. The print section will focus on sharpening students’ writing, reporting, news judgment and critical thinking. The broadcast and online sections will focus on writing in a clear, concise and conversational style for television, radio and film, and the evolving principles of writing, editing and presentation for the Web. The course also covers journalistic ethics and professional standards related to writing.
COMM 222 | MULTIPLATFORM STORYTELLING (3-0-3)
Prerequisite: COMM 221, COMM 231 | S
Different media require different storytelling skills. Continuing the themes of COMM 221, this course provides training in writing for multiple media platforms, ranging from ink on paper to multimedia venues. The course also emphasizes new media technologies.

COMM 223 | WRITING FUNDAMENTALS (3-0-3)
Prerequisite: ENGL 102 | F
This course allows students to explore the fundamental elements of screenwriting through writing exercises, writing short scripts, and discussing students’ work and the work of fellow screenwriters. In the process, students begin to find their own voices as writers and discover what stories they want to tell.

COMM 231 | STUDIO (1-1-1)
This course allows the students to have their initial experience with production and post-production equipment. Throughout the semester they will be taught to work with the camera, lights, sound, editing and TV studio equipment. The course is delivered as a set of hands-on workshops during which students practice using all of the School’s digital equipment and studio facilities.

COMM 241 | INTRODUCTION TO PRODUCTION (3-0-3)
Prerequisites: COMM 223, COMM 231 | S
This course introduces the most important aspect of narrative filmmaking – the roles of the actor and the director in forming the story through developing an understanding of character. Students will explore the use of blocking, subtext, story refinement and acting/performance. Students will also gain an understanding of the roles and responsibilities of each crew position on a large scale production by working as crew members on advanced projects.

COMP 101 | INTRODUCTION TO COMPUTERS (3-0-3)
Prerequisite: COMP 101 | F, S, SI, SII
After an introduction to the Internet and HTML, students will learn how to navigate through The World Wide Web (WWW), restrict their search of Internet sources, retrieve and edit information, and create and receive email. After reviewing and critiquing websites that illustrate various formats and purposes, students will create a hypothetical company, organization or personality and then devise an informative and appealing web page.

COMP 103 | THE INTERNET (3-0-3)
Prerequisite: COMP 101 | F, S, SI, SII
After an introduction to the Internet and HTML, students will learn how to navigate through The World Wide Web (WWW), restrict their search of Internet sources, retrieve and edit information, and create and receive email. After reviewing and critiquing websites that illustrate various formats and purposes, students will create a hypothetical company, organization or personality and then devise an informative and appealing web page.

COMP 110 | INTRODUCTION TO COMPUTING SCIENCE (3-0-3)
Prerequisite: COMP 101, MATH 099 or higher | Upon demand
This course introduces students to the impact of computing science in today’s world. Students will explore the history and evolution of computing science and the effect of computing in areas such as Health Care, Business, and Scientific Research. The course explores current philosophies of design of computer systems’ architecture such as object-oriented and service-oriented system design. The course also introduces some basic computing concepts such as the use of binary systems, data structures, and the role of operating systems.
COMP 120 | PROBLEM SOLVING AND ALGORITHMS (3-0-3)
Prerequisite: COMP 110 | Upon demand
This course introduces students to the basic aspects of programming. Students learn basic skills of designing and developing algorithms and appreciate the role of algorithms in computing. Students explore techniques of developing algorithms to search and sort data using recursion functions. The course also explores techniques of developing programs that will read information from and output to text files.

COMP 180 | FUNDAMENTALS OF PROGRAMMING (3-0-3)
Prerequisite: Placement by Computer Proficiency Examination or COMP 101 | F, S, SI
Fundamentals of programming in common microcomputing languages. Program structure, procedural statements, input/output, file handling, and basic algorithms. Applications including sorting and matching.

CSCI 100 | DISCRETE MATHEMATICS FOR COMPUTER SCIENCE (3-3-4)
Prerequisites: Placement by ACCUPLACER™ or MATH 099 | F, S, SI
This course surveys topics in mathematics which apply to Computer Science. These include propositional logic and proof methods, counting methods, Boolean algebra, recursions, Algorithms and their complexity, and Matrices. Lab sessions using a math modeling tool will emphasize these concepts.

CSCI 101 | ADVANCED DISCRETE MATHEMATICAL STRUCTURES FOR COMPUTER SCIENCE (3-0-3)
Prerequisites: CSCI 100 | S
This course builds on student's elementary knowledge of Discrete Structures. The course will cover the theory and applications of computational models utilizing discrete mathematical models in discrete probability, relations, graphs, trees, Boolean algebra, and modeling computation.

CSCI 140 | INTRODUCTION TO COMPUTER SCIENCE (3-2-3)
Prerequisites: Placement by ACCUPLACER™ or COMP 101 | F, S, SI
This course introduces different computer science concepts including hardware, software, applications and ethics. It introduces students to core topics in language-independent problem solving and computational thinking. The course introduces and uses Python to quickly engage students in mapping a problem description into the computational domain. The course also introduces C++ as a language for scientists and engineers. Moreover, the course illustrates different programming language constructs through a series of programming laboratory sessions in both Python and C++.

CSCI 210 | INTRODUCTION TO COMPUTER NETWORKS (3-0-3)
Prerequisites: Placement by ACCUPLACER™ or COMP 101 | S
This course presents the OSI model and its instantiation in TCP/IP emphasizing the value of standards. An overview of the 7 layers is discussed focusing on Transport, Network, and Physical layers. IP addressing and Ethernet are also discussed towards the end of the course.

CSCI 230 | INTRODUCTION TO DATA MODELING AND INFORMATION SYSTEMS (3-0-3)
Prerequisites: CSCI 100 | F
This course introduces students to the data modeling process and database implementation fundamentals, and relational concepts. Students are introduced to common
data models and modeling tools. Emphasis is made on algorithm selection and identifying cultural factors in data model.

**CSCI 240 | OBJECT ORIENTED APPLICATIONS DEVELOPMENT (3-0-3)**
*Prerequisites: CSCI 140 | S, SI*
This course introduces students to Object Orientation as a programming design philosophy. It will cover programming concepts such as encapsulation, abstraction, inheritance and polymorphism using the JAVA programming language. In addition the course will address other programming concepts such as Graphical User Interface (GUI) programming, recursion, and collection handling.

**CSCI 250 | INTRODUCTION TO COMPUTER ARCHITECTURE AND ORGANIZATION (3-0-3)**
*Prerequisites: CSCI 100 | S*
This course provides an introduction to the standard and alternative computer architectures and organizations. It focuses on the design and function of the fundamental computer components that represent and process digital data, system software and hardware structure, behavior, and interfaces.

**CSCI 315 | OPERATING SYSTEMS THEORY AND PRACTICE (3-2-3)**
*Prerequisites: CSCI 210, CSCI 250 | F*
This course introduces basic operating system concepts such as memory management, CPU scheduling, storage management, inter-process communications, multi-threading models, distributed systems and basic security issues. It provides laboratory training on developing basic OS utilities under the Linux Kernel.

**CSCI 340 | DATA STRUCTURES AND ALGORITHMS (3-0-3)**
*Prerequisites: CSCI 240 | F*
This course covers the fundamental data structures and related algorithms. The investigated structures include static and dynamic stacks, queues, lists, tables, trees and graphs. It introduces and evaluates algorithms such as searching, sorting, hashing, and graph traversal methods.

**CSCI 342 | PROGRAMMING LANGUAGES CONCEPTS (3-2-3)**
*Prerequisites: CSCI 340 | S*
This course is intended to describe how programming languages work. It introduces programming languages as a class of formal languages that describe solutions to computational problems. The course introduces different programming languages paradigms including logic, functional, and object orientation and highlights their design tradeoffs. The course discusses programming languages syntax and semantic structures, types, data and control abstractions, scope of variables, type checking, parameter passing and concurrency. Moreover, the course illustrates these programming language concepts through a series of programming laboratory sessions.

**CSCI 346 | ENTERPRISE AND DISTRIBUTED COMPUTING (3-0-3)**
*Prerequisites: CSCI 240 | S*
This course provides solid understanding of multi-tier enterprise systems. This would include analysis and design of such systems, Development of web enabled user interfaces that communicate with distributed components to execute a particular functionality, and handling of multi-tier services, e.g. databases, messaging, etc. The course will also explore open source technologies and get students acquainted with their position and role in the industry.
CSCI 350 | PRINCIPLES OF SOFTWARE ENGINEERING (3-0-3)
Prerequisites: CSCI 240 | S
This Course covers modern software engineering methods and principles that enable development of quality software coupled with the use of UML to model computer software components, pathways, and processes. The software life cycle is covered from planning to production.

CSCI 398 | INTERNSHIP (3-0-3)
Prerequisites: Junior Status | SI
With the aid of a supervising instructor and under the direct supervision of a member of the host organization, the student participates in a practical onsite internship in which theoretical principles are applied to work situations. Upon the end of the internship, the student submits a report to the supervising instructor.

CSCI 420 | ROUTING AND SWITCHING (3-2-3)
Prerequisites: CSCI 315 | F
This course covers switching protocols and multiple static and dynamic routing protocols explaining the differences between distance vector and Link-state protocols. Students will learn how to connect routers and switches in a LAN.

CSCI 425 | NETWORK MANAGEMENT AND PLANNING (3-0-3)
Prerequisites: CSCI 315 | S
This course covers network management structures and protocols. In addition, it explores network management and monitoring practices for better network planning. Students will learn to develop SNMP agents and managers along with the corresponding management information base (MIB).

CSCI 430 | DATABASE MANAGEMENT SYSTEMS ARCHITECTURE AND DESIGN (3-0-3)
Prerequisites: CSCI 230, CSCI 340 | F
The course explores the Database Management Systems’ (DBMS) architecture and design techniques. It focuses on the different algorithms that can be used to design and implement the different components that makeup a DBMS. The course introduces an array of concepts including multi-level indexing and files structures, query processing and optimization, and transaction processing and concurrency control. Moreover, this course covers Database Management Systems’ security, high availability and recovery techniques. New trends in designing DBMS are briefly described.

CSCI 435 | DATA WAREHOUSING AND MINING (3-0-3)
Prerequisites: CSCI 230 | F
The aim of this course is to introduce students to key elements knowledge discovery in Databases (KDD) . The course explores the link between Data mining and Data warehousing with emphasis on decision support as an innovative approach to information management. The course will utilize MATLAB as a mathematical language for Data Mining.

CSCI 437 | DISTRIBUTED DATABASE MANAGEMENT SYSTEMS (3-0-3)
Prerequisites: CSCI 435 | S
This course is an introduction to management of distributed database systems. It explores distributed databases design techniques and architecture. It focuses on Query Processing, Distributed concurrency control, transaction management, query processing, Distributed Object database management and database interoperability.

CSCI 440 | FUNDAMENTALS OF GAME DESIGN AND DEVELOPMENT (3-2-3)
Prerequisites: CSCI 346 | F
This course covers the fundamentals of computer game design and software development. This course focuses on the
design and development of games’ core components, the design and development of games’ concepts, mechanics, user interface, leveling system, and basic game AI.

CSCI 442 | MOBILE APPLICATIONS (3-2-3)
Prerequisites: CSCI 340 | F
This course provides an introduction to mobile computing, the theory and paradigms of wireless networks, mobile devices’ technology, architecture, and applications. This course also covers the challenges and innovations of mobile device applications, their design and development paradigms, and technologies.

CSCI 456 | DESIGN PATTERNS (3-0-3)
Prerequisites: CSCI 350 | F
This course provides an introduction to the theory of reusable software components in software engineering through software standard design patterns. It covers advanced concepts in software development methodology using design patterns and the design of highly modular applications and systems.

CSCI 460 | NETWORK DATA SECURITY (3-2-3)
Prerequisites: CSCI 315 | F
This course covers the basics of data security and discusses the security threats related to computer systems/networks and how to defend against them. Topics covered include access control, vulnerability assessments as well as security audits and policies.

CSCI 462 | CRYPTOGRAPHY (3-0-3)
Prerequisites: CSCI 460 | S
This course covers the basic concept of a cryptography and cryptosystems. It examines the different kinds of cryptosystems in use today; namely, un-keyed, secret-key and public-key cryptosystems as well as covering wireless network security and virtual private networks.

CSCI 470 | ADVANCED GAME DESIGN AND DEVELOPMENT (3-2-3)
Prerequisites: CSCI 240, CSCI 250 | S
This course covers the architecture, design, and software development of different paradigms of game engines. It focuses on the design and development of game engines’ core components, the essential elements of computer games’ Artificial Intelligent, genetic algorithms, and neural networks.

CSCI 472 | INTRODUCTION TO ARTIFICIAL INTELLIGENCE (3-0-3)
Prerequisites: CSCI 435 | S
In this course students are exposed to introductory concepts and methods of Artificial Intelligence such as intelligent agents, Planning, Learning, reasoning, perception, Robotics, Game theory and game search trees. Students will be using LISP as a programming language.

CSCI 474 | COMPUTER GRAPHICS TECHNIQUES (3-0-3)
Prerequisites: CSCI 240 | S
This course goes through the essential concepts and general algorithms in the computer graphics field. It covers the basic formulas, algorithms and hardware behind a still or animated geometrical model drawn on a computer screen.
CSCI 490 | CAPSTONE PROJECT (3-0-3)
Prerequisites: Senior Status | S
Under the instructor’s supervision, students should design and implement a complete enterprise caliber system. The suggested framework includes desktop, web and mobile application developments, database solutions, network and distributed computing, and multi-media applications.

DESI 201 | BASIC PRINCIPLES OF 2D DESIGN (0-6-4)
Corequisites: DESI 203, DESI 204 | F, S, SI
This foundation class introduces the elements and principles of art through black and white two dimensional projects. Students develop a vocabulary for art through class critique, presentation, and reading assignments. Students learn basic skills of craftsmanship and how to solve visual problems.

DESI 202 | BASIC PRINCIPLES OF 3D DESIGN (0-6-4)
Prerequisite: DESI 201, Corequisites: DESI 205, ARTS 200 | F, S, SI
Relief or free-standing sculpture is common in commercial art such as packaging design, displays, exhibition signage, window decoration, etc. This foundation level course introduces students to the basics of design in three dimensions: height, width, and depth. Students learn to think three-dimensionally and explore the potential of a variety of media. Practical applications in the design world and a conceptual approach with art historical references are emphasized through slide lectures and discussions.

DESI 203 | COLOR THEORY AND PRACTICE (0-4.5-3)
Corequisites: DESI 201, DESI 204 (not applicable to Interior Design majors) | F, S, SI
This is a theoretical and practical course examining the visual forces of color and color relationships in traditional and electronic mediums. The foundation level class is essential to all design students. Through knowledge of color principles, the ability to manipulate hue, value and chroma as well as the sensitivity to aesthetic and psychological qualities is developed in the class. The student also learns proper electronic applications of CMYK color from print, and RGB color for the web and broadcast.

DESI 204 | FREEHAND DRAWING I (0-6-4)
Corequisites: DESI 201, DESI 203 (not applicable to Interior Design majors) | F, S, SI
A continuation of part I (DES103), this course continues student’s practice of composition, tone, and composition. Additionally, students study the human figure, gesture drawing, and explore different drawing media. Students are introduced to different drawing techniques in a historical context.

DESI 210 | FIGURE DRAWING (0-6-4)
Prerequisite: DESI 204 | F
Working from live models, students learn the basic fundamentals of drawing the human body in proportion and scale. Through the use of primarily black and white media, the student uses line and tone to structure the human figure.
DESI 401 | ADVANCED DRAWING (0-6-4)  
Prerequisite: DESI 205 or DESI 210 | S  
Using the drawing media of their choice, students will push their drawing skills to a higher level through a series of in-depth drawing projects. A personal style will be emphasized.

DPST 209 | SPECIAL TOPICS IN DIGITAL PRODUCTION AND STORYTELLING (2-2-3)  
Upon demand  
The course aims at presenting various topics in Digital Production and Storytelling that are of interest to the students and the instructor. The course intends to widen and deepen the students’ understanding of various issues related to the broadcast industry.

DPST 301 | THE GLOBAL ART OF ENTERTAINMENT (3-0-3)  
Prerequisite: ENGL 103, COMM 103 | Upon demand  
This course provides an overview of the entertainment industry's history and economics. It introduces the students to the basics of the profession's scriptwriting, performance, and production techniques.

DPST 302 | MEDIA AND PUBLIC SERVICE (3-0-3)  
Prerequisites: COMM 241, COMM 222 | S  
This course explores the role of media in promoting health, education, public safety, and issues of public concern. A case study approach will involve students in research and planning media campaigns in these fields.

DPST 322 | WRITING COMEDY (2-2-3)  
Prerequisite: COMM 241 | F  
This course helps students understand a half hour comedy: how to create it, how to write it, and how to develop its characters and punch lines in a professional atmosphere of a comedy writing room.

DPST 342 | PRODUCING AND DIRECTING COMEDY (2-2-3)  
Prerequisite: DPST 322 | S  
The script written in the previous semester in DPST 322 is digitally produced in a way that the students will learn the fundamentals of directing the sitcom from all aspects. Students participate in acting, directing actors, shooting, editing, light design and sound design.

DPST 361 | ONLINE COMMUNITIES (2-2-3)  
Prerequisite: ENGL 103, COMM 103 | F  
This course examines the establishment, workings, and effects of online communities. It explores the development of Web 1.0 to Web 2.0 along with virtual communities. The students will scrutinize such online tools as blogs, social networks, business networking, virtual worlds, and other online communities.

DPST 362 | GAMES OF THE DIGITAL WORLD (3-0-3)  
Prerequisites: ENGL 103, COMM 103 | Upon demand  
Analyzes digital games and playfulness as a form of communication, with particular attention to the creation of games, ethical issues, and gamer communities.

DPST 401 | CURRENT ISSUES IN DIGITAL PRODUCTION AND STORYTELLING (3-0-3)  
Prerequisites: ENGL 103, COMM 103, and Junior Status | Upon demand  
Examines a range of topics not covered or covered only briefly in other courses. These may include particular aspects of television, cinema, and online entertainment, new media industry business models, the significance of interactive online features, consumers as
participants in creating media products, and other matters with which graduating students should have some familiarity.

**DPST 422 | WRITING DRAMA (2-2-3)**
Prerequisite: DPST 322 | F
This course will fully immerse the students in the episodic series writing process. It also teaches students an appreciation of outstanding TV series from a writing perspective and how to complete a teleplay based on a current hour-long TV series.

**DPST 441/JOUR 441 | THE DOCUMENTARY (2-2-3)**
Prerequisite: COMM 241 (for DPST students), COMM 222 (for JOUR students) | F
This course provides an overview of the history, theory, and genres of documentary films. Students learn to analyze and critique a variety of historical and contemporary documentaries, while developing and producing short documentaries through team work.

**DPST 444 | PRODUCING AND DIRECTING DRAMA (2-2-3)**
Prerequisite: DPST 342, DPST 422 | S
The scenes that have been written in DPST 422 are digitally produced and directed in this course. Preproduction, digital production and post-production techniques of dramatic scenes, including scenes shot on location and others in sound stages with a singled camera, are taught to students.

**DPST 461 | INTERNSHIP (3-0-3)**
Prerequisite: Senior status
A carefully supervised internship with a media organization approved by the faculty supervisor. Students are required to submit a detailed ongoing journal and a final report as defined by the faculty supervisor.

**DPST 462 | DIGITAL PRODUCTION AND STORYTELLING PROJECT (3-0-3)**
Prerequisite: DPST 441/JOUR 441 and approval of Department head
This course is designed to demonstrate the students’ professional abilities. Students will complete a comprehensive project individually or in small groups, in addition to smaller group projects. Projects include screenplays, TV entertainment programs, radio programs, films, and other audio visual programs.

**ECON 201 | PRINCIPLES OF MICRO-ECONOMICS (3-0-3)**
Prerequisite: MATH 160 | F, S, SI, SII
Economic theory of the firm; resource allocation and price determination; the free market supply/demand mechanism; and pure and imperfect competition models are analyzed. Students must receive at least a C grade in this course in order to register for additional Economics Major courses.

**ECON 202 | PRINCIPLES OF MACRO-ECONOMICS (3-0-3)**
Prerequisite: ECON 201 | F, S, SI, SII
Factors determining aggregate economic performance; employment, output, income, price level, economic growth and fluctuations, monetary and fiscal governmental policy; and evolution of economic doctrines are studied. Students must receive at least a C grade in this course in order to register for additional Economics Major courses.

**ECON 302 | MONEY AND BANKING (3-0-3)**
Prerequisites: ECON 202 and completion of ECON 201 with a grade of C or higher | F, S
This course covers the nature of monetary and banking theory; banking history; measurement factors used in determining economic activity; interrelationship of commercial banking system and foreign
exchange transactions; balance of international payments; and financial intermediaries. In this course, we will learn about the determinants and impact of interest rates, the stock market, central and commercial banks operation and international financial architecture.

**ECON 310 | HISTORY OF ECONOMIC THOUGHT (3-0-3)**
Prerequisites: ECON 202 and completion of ECON 201 with a grade of C or higher | F, SI
Students completing this course will have obtained in depth knowledge of the history of economic thought, and its relationship to the rise of capitalism as a social, and increasingly global system. It is of important that students majoring in economics understand the historical context in which it has developed. Such knowledge allows students to better grasp complex economic phenomena such as the organization of capital markets, as well as the production and distribution of wealth, form both a historical and contemporary perspective.

**ECON 312 | INTERMEDIATE MICROECONOMICS (3-0-3)**
Prerequisites: ECON 202 and completion of ECON 201 with a grade of C or higher | F, S
This course provides students with a more advanced treatment of the topics covered in principles of microeconomics. Particular emphasis is placed on resource allocation and price determination, as determined by consumers’ and firms’ behaviors. The course explores in detail the concepts of equilibrium and non-competitive markets. It also includes an introduction to game theory, and an advanced treatment of welfare economics, beyond that covered in principles courses.

**ECON 313 | INTERMEDIATE MACROECONOMICS (3-0-3)**
Prerequisites: ECON 202 and completion of ECON 201 with a grade of C or higher | F, S
Macroeconomics is the study of aggregate economic variables such as total production, the general price level, overall employment, total investment and savings, etc. in a specific country. The task of macroeconomists is to understand the fundamental relationships between these variables in order to make better predictions about the economy and advice on public policy. In this course, we will learn about macroeconomic variables and institutions, and use standard macroeconomic models in an attempt to understand why economies experience recessions and booms and what policy options governments might use to avoid decrease (or promote increases) in the standards of living.

**ECON 401 | INDUSTRIAL ORGANIZATION (3-0-3)**
Prerequisite: Completion of ECON 201 with a grade of C or higher | S
The course begins with an examination of basic theoretical models of the behavior of firms under different market structures such as perfect competition, oligopoly and monopoly. The focus then shifts to the applications of economics in antitrust cases. Industry cases and applications of antitrust policies are studied with an emphasis on the structure-conduct-performance approach to industrial organization.

**ECON 441 | PUBLIC FINANCE (3-0-3)**
Prerequisites: ECON 202 and completion of ECON 201 with a grade of C or higher | F
The focus of this course is on the economics of the public sector. Topics covered include the government budget and its impact on resource allocation, income distribution and economic stabilization; the government budgeting process and the principles and problems of budget determination, including both tax and expenditure aspects; tax shifting and incidence; and fiscal and debt management policies.

ECON 442 | OIL AND ENERGY ECONOMICS
(3-0-3)
Prerequisites: ECON 312, ECON 313 | S
The course provides students with an overview of the economics of energy markets, as well as the determinants of recent and historical price trends in the industry. Students are provided with an introduction into energy trading, and how such trading is influenced by economic and political events.

ECON 460 | APPLIED ECONOMETRICS
(3-0-3)
Prerequisites: ECON 312, QUAN 301 | F, S
Econometrics is the application of statistical methods for the purpose of testing economic and business theories. Economic analysis and forecasting require a solid understanding of the principles of econometrics. This course will introduce students to the skills used in empirical research including, but not limited to, data collection, hypothesis testing, model specification, regression analysis, violations of regression assumptions and corrections, dummy variables and limited dependent variable models. Extensive focus will be on the intuition and application of econometric methods. This course is a more practical approach to econometrics. We will focus on using theory and software to application of econometrics to every-day problems. More importantly we’ll cover the practical issues of choosing a research topic, obtaining data and conducting analysis.

ECON 491 | SPECIAL TOPICS IN ECONOMICS
(3-0-3)
Prerequisite: Senior status or approval of the Chair and completion of ECON 201 with a grade of C or higher | Upon demand
This course represents a critical study into the theory, research and practical applications of an advanced topic in economic, one that is not covered in other economics courses. The specific topics will be determined by the interest of students and the instructor.

ECVL 200 | ENGINEERING GRAPHICS AND VISUALIZATION
(3-0-3)
Prerequisite: COMP 180 | S, SI
Principles of engineering drawing, geometric modeling, multi-view projections, and computer-aided graphics. Three-dimensional representation, geometric perspectives, and solid modeling. Applications in engineering design, including dimensioning, drafting standards, and specifications.

ECVL 260 | STATICS W/LAB
(3-2-3)
Prerequisites: ECVL 200, MATH 220, PHYS 201 | F, S
Forces, moments, and equivalent system of forces. Equilibrium of particles and rigid bodies in two and three dimensions. Center of gravity, distributed forces, and internal forces. Analysis of simple structures. Friction and moment of inertia.

ECVL 265 | DYNAMICS
(3-0-3)
Prerequisites: ECVL 260, MATH 231 | S, SI
Kinematics and kinetics of rigid bodies in plane motion. Work, kinetic energy, impulse and momentum in translational and rotational motion. Vibration analysis of undamped and damped SDOF systems.
ECVL 268 | MECHANICS OF MATERIALS W/ LAB (3-3-4)
Prerequisite: ECVL 260 | F, S
Analysis of stresses and strains in two and three dimensions. Stress transformation and Mohr’s circle. Torsion of circular sections, bending of beams, shear flow, and buckling of axially loaded members.

ECVL 305 | GEOMATICS W/LAB (3-2-3)
Prerequisites: ENGG 200, ENGG 222 | F, SI
Spatial data collection methods including surveying, leveling, and traversing. Adjustment, error correction, and total station measurements. Geometric design of roadways and highways, and cut and fill sections. Lab and field work.

ECVL 310 | ENGINEERED MATERIALS W/ LAB (3-3-4)
Prerequisites: CHEM 201, ECVL 268, ENGG 200 | F, S

ECVL 330 | FLUID MECHANICS W/LAB (3-2-3)
Prerequisites: ECVL 265, MATH 240 | F, S
Mechanics of fluids with emphasis on control volume analysis of flowing fluids using kinematics, continuity, energy, and momentum principles. Introduction to open channel flow and applications to real fluids.

ECVL 340 | ENVIRONMENTAL ENGINEERING W/LAB (3-2-3)
Prerequisites: BIOL 201, CHEM 201, ENGG 200 | F, S
Environmental engineering issues associated with water, air, and land pollution. Risk assessment, groundwater contamination, environmental chemistry, global climate change, and sustainable technologies.

ECVL 350 | TRANSPORTATION ENGINEERING W/LAB (3-2-3)
Prerequisite: ECVL 305 | F, S
Introduction to geometric design of roadway alignments and cross sections. Parking studies and parking design. Design of flexible and rigid pavement. Introduction to traffic operations, roadway safety, and transportation planning.

ECVL 360 | STRUCTURAL ANALYSIS I (3-0-3)
Prerequisites: ECVL 268, MATH 230 | F, S
Determination of internal forces and deflections in statically determinate trusses, beams and frames. Introduction to analysis of statically indeterminate structures. Compatibility equations, three-moment equation, and moment distribution.

ECVL 368 | REINFORCED CONCRETE DESIGN I (3-0-3)
Prerequisites: ECVL 310, ECVL 360, ENGG 255 | F, S
Methodologies and codes for design of reinforced concrete elements. Design of members for flexure, shear, and bond development. Detailing of continuous beams, one-way slabs, short columns, and footings. Design project.

ECVL 370 | GEOTECHNICAL ENGINEERING I W/LAB (3-3-4)
Prerequisites: ECVL 310, ECVL 330 | F, S
Introduction to engineering classification, mechanical behavior, and compaction of soils. Effective stresses and seepage. Spatial stress distribution and consolidation. Introduction to shear strength, foundation design, and site exploration.
**ECVL 380-389 | LABORATORY TOPICS IN CIVIL ENGINEERING (0-3-1)**

*Prerequisite: Approval of the Dean | Upon demand*

Laboratory topics of interest to students and faculty which are not available in the existing Civil Engineering curriculum can be offered through this course. Prior approval of the course material and syllabus by the Dean is required.

**ECVL 399 | FIELD EXPERIENCE IN CIVIL ENGINEERING (1-8-2)**

*Prerequisites: ECVL 350, ECVL 360, ECVL 370, PSPK 101 | SI*

Practical field experience, involving work on real civil engineering projects. Technical work under the supervision of a civil engineer, with emphasis on design and construction. Professional and ethical issues in the engineering workplace.

**ECVL 420 | CONSTRUCTION ENGINEERING AND MANAGEMENT (3-0-3)**

*Prerequisite: ECVL 399 | F*

Fundamental concepts in planning, design, and construction of civil engineering projects. Introduction to project scheduling, cost estimating, controls, procurement, construction productivity, value engineering, and quality assurance.

**ECVL 422 | INFRASTRUCTURE MANAGEMENT SYSTEMS (3-0-3)**

*Prerequisite: ECVL 420 | S*

Design of integrated systems for management of civil infrastructure. Life-cycle cost analysis, service life prediction, deterioration modeling, optimization and resource allocation, and data modeling. Role of critical infrastructure in society. Design project.

**ECVL 430 | HYDROLOGY (3-0-3)**

*Prerequisites: ECVL 330, ENGG 200 | F (even years)*

**ECVL 433 | HYDRAULIC ENGINEERING (3-0-3)**

*Prerequisite: ECVL 330 | S*

Applications of fluid mechanics to engineered and natural hydraulic systems. Open channel flow, fluid drag, pipe networks, design of hydraulic structures, and environmental hydraulics. Computational methods in hydraulics. Design project.

**ECVL 440 | SUSTAINABLE ENGINEERING DESIGN (3-0-3)**

*Prerequisite: ECVL 340 | F (odd years)*

Implications of sustainability for engineering design and practice. LEED, life cycle analysis, and environmental impact assessment. Models, software tools, and applications in water management, construction material selection, and energy use.

**ECVL 444 | WATER AND WASTEWATER ENGINEERING (3-0-3)**

*Prerequisites: ECVL 330, ECVL 340 | F*

Unit operations in water, wastewater, and groundwater treatment. Design of water and wastewater treatment operations and processes using bench-scale experiments and software. Preliminary cost estimates. Design project.

**ECVL 451 | PAVEMENT ENGINEERING (3-0-3)**

*Prerequisites: ECVL 370, ECVL 350 | S (even years)*

Analysis and design of flexible and rigid pavements for highways and airfields. Advanced technologies and materials for pavements. Performance evaluation and rehabilitation of distressed pavement.
**ECVL 455 | TRAFFIC ENGINEERING (3-0-3)**
*Prerequisite: ECVL 350 | F*

**ECVL 460 | STRUCTURAL ANALYSIS II (3-0-3)**
*Prerequisite: ECVL 360 | S (even years)*

**ECVL 462 | STRUCTURAL DYNAMICS (3-0-3)**
*Prerequisites: ECVL 265, ECVL 360 | S (odd years)*
Response of single and multiple DOF systems to dynamic excitation under free and forced vibration. Frequency response analysis and response spectra of linear systems. Introduction to earthquake engineering.

**ECVL 464 | BRIDGE ENGINEERING (3-0-3)**
*Prerequisite: ECVL 368 | S (even years)*

**ECVL 466 | STRUCTURAL STEEL DESIGN (3-0-3)**
*Prerequisites: ECVL 310, ECVL 360 | F*
Behavior of structural steel in tension and compression. Design methods for tension and compression members and beams. Design and analysis of welded and bolted connections. Design project.

**ECVL 468 | REINFORCED CONCRETE DESIGN II (3-0-3)**
*Prerequisite: ECVL 368 | S (odd years)*
Short columns under biaxial bending, slender columns, and torsion in beams. Direct design and equivalent frame method for two-way slabs, and flat slabs. Design of prestressed concrete for flexure and shear, and loss of prestress.

**ECVL 470 | GEOTECHNICAL ENGINEERING II (3-0-3)**
*Prerequisite: ECVL 370 | F*
Design and analysis of geotechnical structures, including shallow and deep foundations, and earth retaining structures. Analysis and remediation of slope instability. Ground improvement techniques. Design Project.

**ECVL 475 | FOUNDATION DESIGN AND CONSTRUCTION (3-0-3)**
*Prerequisite: ECVL 470 | S (odd years)*
Design of shallow and deep foundations using settlement-based criteria and LRFD. Design and construction of shoring, cofferdams and dewatering methods for site excavations. Site investigation, assessment of in-situ soil properties, and evaluation of recommendations for foundation engineering reports.

**ECVL 480-489 | SPECIAL TOPICS IN CIVIL ENGINEERING (3-0-3)**
*Prerequisite: Approval of the Dean | Upon demand*
Topics of interest to students and faculty which are not available in the existing Civil Engineering curriculum can be offered
through this course. Prior approval of the course material and syllabus by the Dean is required.

**ECVL 499 | CIVIL ENGINEERING DESIGN PROJECT (3-3-4)**
Prerequisite: ECVL 399, Corequisites: ECVL 420, ECVL 470 | \( F, S \)
Interdisciplinary course covering a broad range of civil engineering topics. Integrated team design project involving structural and geotechnical design, transportation planning, environmental assessment, construction management, cost estimates, plans and specifications.

**EECE 200 | LINEAR CIRCUIT ANALYSIS I W/LAB (3-3-4)**
Prerequisite: PHYS 202, Corequisite: MATH 231 (students will not receive credit for both EECE 200 and EECE 201) | \( F, S \)

**EECE 201 | ELECTRIC CIRCUIT THEORY (3-0-3)**
Prerequisites: MATH 231, PHYS 202 (students will not receive credit for both EECE200 and EECE201) | \( F, S \)

**EECE 205 | LINEAR CIRCUIT ANALYSIS II W/LAB (3-3-4)**
Prerequisites: EECE 200, MATH 231 | \( S, SI \)
Analysis of sinusoidal steady-state systems. Frequency response and Bode plots. Circuit analysis using mathematical transforms, convolution integrals, state variable methods, and transfer functions. Simulation software applications.

**EECE 240 | DIGITAL SYSTEM DESIGN W/LAB (3-3-4)**
Prerequisites: EECE 200, MATH 230 | \( S, SI \)
Introduction to digital logic design. Boolean algebra and switching theory, logic minimization and K-maps, combinational design, programmable logic, state elements, synchronous sequential design, and basic memory structure.

**EECE 250 | INTERMEDIATE PROGRAMMING (3-0-3)**
Prerequisite: COMP 180 | \( F, S \)
Object-oriented programming for advanced problem solving. Abstract classes, inheritance, and polymorphism. Advanced flow control
instructions, abstract data types, I/O streams, and memory management. Elementary data structures.

**EECE 300 | MICROELECTRONIC DEVICES AND CIRCUITS I, W/LAB (3-2-3)**
*Prerequisites: EECE 205, CHEM 201 | F*
Conceptual and functional description of the characteristics of microelectronic devices, semiconductors, PN junctions, diode circuits, BJT and FET’s. Load-line analysis, biasing and small analysis, digital logic circuits. Design Project.

**EECE 305 | MICROELECTRONIC DEVICES AND CIRCUITS II (3-0-3)**
*Prerequisite: EECE 300 | S*
Analysis and design of electronic circuits and systems. Single-stage and multistage amplifiers, frequency response, feedback amplifiers, power amplifiers, oscillators, memory and data converter circuits. Advanced digital technologies.

**EECE 310 | APPLIED ELECTROMAGNETICS I (3-0-3)**
*Prerequisites: EECE 205, MATH 240 | F*

**EECE 315 | APPLIED ELECTROMAGNETICS II W/LAB (3-2-3)**
*Prerequisites: EECE 310, ENGG 255 | S*

**EECE 320 | SIGNALS AND SYSTEMS W/LAB (3-2-3)**
*Prerequisites: EECE 205, ENGG 222 | F*
Introduction to signals and systems, including time and frequency-domain representations of signals and linear time-invariant systems. Laplace transform and z-transform. Applications in analog and digital filters, communication systems and linear feedback systems.

**EECE 323 | FUNDAMENTALS OF DIGITAL SIGNAL PROCESSING (3-0-3)**
*Prerequisite: EECE 320 | S*

**EECE 326 | COMMUNICATION SYSTEMS I W/LAB (3-2-3)**
*Prerequisites: EECE 320, ENGG 300 | S*
Random processes. Analysis of amplitude and frequency modulations. Sampling, quantization and pulse amplitude modulation, Frequency and time division multiplexing, Baseband pulse transmission and the effects of noise and inter-symbol interference.

**EECE 330 | ELECTRIC POWER SYSTEMS W/LAB (3-2-3)**
*Prerequisites: EECE 205, ENGG 222 | S*
Balanced three phase real and reactive power. Power factor and power factor correction. System model and per unit
analysis. Transmission line parameters and performance. Power flow and usage for system planning and design.

**EECE 340 | INTRODUCTION TO MICROPROCESSORS W/LAB (3-2-3)**

*Prerequisites: EECE 240, EECE 250 | F*

Introduction to architecture, operation, and application of microprocessors. Assembly programming language, address decoding, and system timing. Parallel, serial, and analog I/O, interrupts and direct memory access. Interfacing to static and dynamic RAM.

**EECE 345 | COMPUTER ARCHITECTURE (3-0-3)**

*Prerequisite: EECE 340 | S*

Instruction set architecture (ISA) design and analysis. High-level languages, compilers, and ISA interaction. Simple and pipelined datapath/control path processor design. Memory hierarchy and caches. Performance evaluation and analysis.

**EECE 350 | DATA STRUCTURES AND ALGORITHMS (3-0-3)**

*Prerequisites: EECE 250, MATH 250 | F*

Abstract data types and data representation in sets, lists, trees and graphs. Storage allocation and collection techniques. Basic algorithms for manipulation and characterization of stored data. Performance characterization and evaluation.

**EECE 355 | SOFTWARE ENGINEERING (3-0-3)**

*Prerequisites: EECE 350, ENGG 255 | S*

UML modeling and use case diagrams. Requirements elicitation, object models, and system design. Mapping models to code, code optimization, and testing. Configuration management, software maintenance, and lifecycle design methodologies.

**EECE 360 | DATA COMMUNICATION AND NETWORKS (3-0-3)**

*Prerequisites: EECE 250, ENGG 300 | S*

**EECE 380-389 | LABORATORY TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING (0-3-1)**

*Prerequisite: approval of the Dean | Upon demand*

Laboratory topics of interest to students and faculty which are not available in the existing Computer or Electrical Engineering curricula will be offered through this course. Prior approval of the course material and syllabus by the Dean is required.

**EECE 398 | FIELD EXPERIENCE IN ELECTRICAL ENGINEERING (1-8-2)**

*Prerequisites: EECE 300, EECE 326, EECE 330, PSPK 101 | SI*

Practical field experience, involving work on real electrical engineering projects. Technical work under the supervision of an electrical engineer. Professional and ethical issues in the engineering workplace.

**EECE 399 | FIELD EXPERIENCE IN COMPUTER ENGINEERING (1-8-2)**

*Prerequisites: EECE 340, EECE 350, EECE 360, PSPK 101 | SI*

Practical field experience, involving work on real computer engineering projects. Technical work under the supervision of a computer engineer. Professional and ethical issues in the engineering workplace.

**EECE 410 | ANTENNA THEORY (3-0-3)**

*Prerequisite: EECE 315 | F (odd years)*

Antenna parameters such as radiation pattern, directivity and gain, polarization, input impedance, radiation efficiency. Wire,
array, aperture, and microstrip antenna. Software-based antenna design. Antenna measurements.

**EECE 414 | OPTICAL FIBER COMMUNICATIONS (3-0-3)**
*Prerequisite: EECE 315 | S (even years)*
Introduction to optical fibers, optical propagation, step index fibers, graded index fibers, absorption and dispersion in optical fibers, optical fiber cables and connectors, optical sources, optical detectors, optical fiber systems.

**EECE 416 | MICROWAVE ELECTRONICS (3-0-3)**
*Prerequisites: EECE 305, EECE 315 | S (odd years)*
Scattering parameters, the ZY Smith chart, design of matching networks. Basic considerations in active networks, stability, gain and noise. Design of different types of amplifiers such as LNA, HGA, MGA. Software lab for designing amplifiers design.

**EECE 426 | COMMUNICATION SYSTEMS II (3-0-3)**
*Prerequisite: EECE 326 | F*

**EECE 428 | WIRELESS COMMUNICATION (3-0-3)**
*Prerequisite: EECE 326 | S*

**EECE 430 | ENERGY ENGINEERING (3-0-3)**
*Prerequisite: EECE 330 | F*
Introduction to electromechanical power conversion and transformers. Synchronous machines, asynchronous (induction) machines, and operating principles of AC and DC machinery. Introduction to alternative and renewable energy with emphasis on solar and wind energy.

**EECE 433 | ELECTRIC DRIVES (3-0-3)**
*Prerequisite: EECE 330 | S*
Basic AC and DC variable speed motor drives. Variable voltage and variable frequency drives for induction motors, including flux vector control. Fundamentals of power electronics for motor drives. Design of system interface, control, and commissioning.

**EECE 440 | EMBEDDED SYSTEM DESIGN W/LAB (3-2-3)**
*Prerequisite: EECE 340 | F*

**EECE 442 | SYNTHESIS WITH HDL (3-0-3)**
*Prerequisite: EECE 340 | S*
Fundamental concepts, techniques, and tools for computer-aided design of digital systems. Modeling, simulation, and verification of digital systems using hardware descriptive languages at the register transfer level (RTL).
EECE 445 | ADVANCED COMPUTER ARCHITECTURE (3-0-3)
Prerequisite: EECE 345 | F
Comprehensive coverage of the architecture and system issues that confront the design of high performance workstation/PC computer architectures. Quantitative evaluation of computer architectures.

EECE 448 | DIGITAL INTEGRATED CIRCUIT DESIGN (3-0-3)
Prerequisite: EECE 340 | S
VLSI design process in CMOS technology. Advanced CMOS transistor modeling. CMOS gates timing and power modeling. Interconnect modeling and analysis techniques. SPICE circuit simulation. Digital chip design and fabrication. Digital memory design.

EECE 450 | OPERATING SYSTEMS (3-0-3)
Prerequisites: EECE 345, EECE 350 | F
Fundamental issues related to the design of operating systems. Processes and threads. Scheduling, synchronization, and deadlock prevention. Operating system memory and storage management. I/O management, file systems, and security.

EECE 452 | DATABASE ENGINEERING (3-0-3)
Prerequisite: EECE 355 | S (even years)
Database modeling and design of relational databases. Schema implementation, entity relationship modeling, and table normalization. SQL and advanced SQL. Storage allocation and management. Embedded database systems.

EECE 455 | DIGITAL IMAGE PROCESSING (3-0-3)
Prerequisite: EECE 323 | F (even years)

EECE 458 | COMPILER CONSTRUCTION (3-0-3)
Prerequisites: EECE 345, EECE 350 | S (odd years)
Introduction to the design and construction of compilers. Compilation goals, organization of a translator, grammars and languages, symbol tables, lexical analysis, parsing, code generation, and introduction to optimization.

EECE 460 | NETWORK DESIGN AND SIMULATION (3-0-3)
Prerequisite: EECE 360 | F
Design of Local Area Networks (LAN) and Wide Area Networks (WAN). Design of asynchronous transmission mode (ATM) systems. Network simulation using simulation software. Network performance management.

EECE 470 | SYSTEMS AND CONTROLS (3-0-3)
Prerequisites: EECE 300, EECE 320 | F
EECE 480-489 | SPECIAL TOPICS IN ELECTRICAL AND COMPUTER ENGINEERING (3-0-3)
Prerequisite: approval of the Dean | Upon demand
Topics of interest to students and faculty which are not available in the existing Electrical and Computer Engineering curricula will be offered through this course. Prior approval of the course material and syllabus by the Dean is required.

EECE 498 | ELECTRICAL ENGINEERING DESIGN PROJECT (3-3-4)
Prerequisite: EECE 398, Corequisite: EECE 470 | F, S
Interdisciplinary course covering a broad range of electrical engineering topics. Integrated team design project involving software and hardware design within realistic constraints, cost estimates, plans and specifications.

EECE 499 | COMPUTER ENGINEERING DESIGN PROJECT (3-3-4)
Prerequisite: EECE 399, Corequisites: EECE 440, EECE 450 | F, S
Interdisciplinary course covering a broad range of computer engineering topics. Integrated team design project involving software and hardware design within realistic constraints, cost estimates, plans and specifications.

EECE 499 | COMPUTER ENGINEERING DESIGN PROJECT (3-3-4)
Prerequisite: EECE 399, Corequisites: EECE 440, EECE 450 | F, S
Interdisciplinary course covering a broad range of computer engineering topics. Integrated team design project involving software and hardware design within realistic constraints, cost estimates, plans and specifications.

EMEC 200 | ENGINEERING GRAPHICS AND VISUALIZATION (3-0-3)
Prerequisite: COMP 180 | S, SI
Principles of engineering drafting, geometric modeling, multi-view projections, and computer-aided graphics. Three-dimensional representation, geometric perspectives, and solid modeling. Applications in engineering design, including dimensioning, specifications and tolerances.

EMEC 210 | STRUCTURE AND PROPERTIES OF MATERIALS W/LAB (3-3-4)
Prerequisites: CHEM 201, PHYS 202 | F, S
Physical properties of solid materials at the macroscopic and microscopic levels. Atomic bonding, crystal structure, chemical bonding, phase transformation, dislocation, and fracture. Engineering properties of metals, alloys, ceramics, polymers, and composite materials. Introduction to nanomaterials. Laboratory experiments.

EMEC 220 | APPLIED MECHANICS I W/LAB (3-2-3)
Prerequisites: EMEC 200, MATH 220, PHYS 201 | F, S
Vector mechanics, forces, moments, free-body diagrams, and static equilibrium of rigid bodies. Distributed forces, body forces, center of gravity, and moment of inertia. Torsion of shafts, shearing, and bending of beams. Engineering applications, including trusses, bars, and friction devices. Laboratory experiments.

EMEC 225 | APPLIED MECHANICS II (3-0-3)
Prerequisite: EMEC 220, MATH 231 | S, SI
Review of particle dynamics, including energy and momentum. Kinematics of rigid bodies in two- and three-dimensional motion. Kinetics of rigid bodies, impulse and momentum in translational and rotational motion. Introduction to viscous and
frictional damping. Free and forced vibration of SDOF systems.

**EMEC 320 | SOLID MECHANICS I (3-0-3)**
Prerequisites: EMEC 210, EMEC 225 | F, S
Analysis of stresses and strains in two and three dimensions. Principal stresses, maximum shear stress, Mohr circle, and stress transformation. Shear force and bending moment diagrams. Extension, torsional rotation, bending, and buckling of machine elements. Stresses and strains in membranes, pressure vessels, and pipes.

**EMEC 330 | FLUID DYNAMICS W/LAB (3-3-4)**
Prerequisites: EMEC 225, MATH 240 | F
Review of fluid statics, barometry, and buoyancy. Dynamics of fluids with emphasis on control volume analysis of flowing fluids using kinematics, continuity, energy, and momentum principles. Local analysis using continuity and Navier-Stokes Equations. Viscous flow analysis, boundary layers, pipe flow, and drag. Dimensional analysis and similitude. Laboratory experiments.

**EMEC 340 | THERMODYNAMICS (3-0-4)**
Prerequisites: EMEC 225, MATH 231 | F

**EMEC 345 | HEAT AND MASS TRANSFER W/LAB (3-2-3)**
Prerequisites: EMEC 330, EMEC 340 | S

**EMEC 350 | DESIGN OF MECHANICAL SYSTEMS W/LAB (3-2-3)**
Prerequisites: EMEC 320, ENGG 255 | S
Design of machine elements, including springs, fasteners, shafts, gears, cams, and bearings. Mechanical power transmission. Static and cyclic failure mechanisms of machine components. Lubrication, friction, wear, and dimensional tolerances. Integration and assembly of machine elements. Laboratory design experience.

**EMEC 360 | ELECTRONICS AND INSTRUMENTATION W/LAB (3-3-4)**
Prerequisites: EECE 201, ENGG 200 | F
Analog and digital measurement, instrumentation, and data acquisition systems. Noise reduction and frequency domain techniques. Linear and non-linear calibration of instruments, and error analysis. Applications including strain, displacement, velocity, acceleration, flow rate, pressure, and temperature. Lab experiments and documentation.

**EMEC 365 | CONTROL SYSTEMS W/LAB (3-2-3)**
Prerequisites: EMEC 360, ENGG 222 | S
Principles of system dynamics and feedback in open- and closed-loop systems. Sequencing control, linear feedback systems, non-linear systems, and discrete systems. System stability and closed-loop system analysis and design using proportional, integral, and derivative
elements. Software-based simulation of system dynamics and control.

**EMEC 380-389 | LABORATORY TOPICS IN MECHANICAL ENGINEERING (0-3-1)**

*Prerequisite: Approval of the Dean | Upon Demand*

Laboratory topics of interest to students and faculty which are not available in the existing Mechanical Engineering curriculum will be offered through this course. Prior approval of the course material and syllabus by the Dean is required.

**EMEC 399 | FIELD EXPERIENCE IN MECHANICAL ENGINEERING (1-8-2)**

*Prerequisites: EMEC 345, EMEC 350, EMEC 360, PSPK 101 | SI*

Practical field experience, involving work on real mechanical engineering projects. Technical work under the supervision of a mechanical engineer. Professional and ethical issues in the engineering workplace.

**EMEC 400 | COMPUTER-AIDED MECHANICAL DESIGN (3-0-3)**

*Prerequisite: EMEC 350 | S*

Project-based implementation of CAD, CAE, and CAM systems for mechanical production. Geometric modeling, prototyping, and product development using software applications. Limitations on CAD and CAE systems, including economic constraints, safety, sustainability, and manufacturability.

**EMEC 420 | SOLID MECHANICS II (3-0-3)**

*Prerequisite: EMEC 320 | S (odd years)*

**EMEC 433 | TURBOMACHINERY (3-0-3)**

*Prerequisites: EMEC 330, EMEC 340 | S*

**EMEC 435 | ENGINEERING AERODYNAMICS (3-0-3)**

*Prerequisite: EMEC 330 | S (even years)*

Principles of subsonic aerodynamics, including airfoils, force and moment coefficients, lift, and drag. Kelvin circulation theorem, thin airfoil theory, vortex panel method, and pressure integration. Design of wings, power and thrust, and lifting line theory. Aircraft design, control, stability, and flight takeoff and landing. Safety and reliability implications.

**EMEC 438 | COMPUTATIONAL FLUID DYNAMICS (3-0-3)**

*Prerequisites: ENGG 222, EMEC 330 | S (odd years)*

Flow of compressible fluids and advanced dynamics of fluids. Numerical and computational modeling of fluid flow and fluid transport. Introduction to finite difference and finite element method solutions. Software implementation
including mesh generation, selection of model parameters, solution techniques, and interpretation of results.

**EMEC 440 | ENERGY SYSTEMS W/LAB**  
(3-2-3)  
*Prerequisite: EMEC 345 | F*  

**EMEC 444 | DESIGN OF HVAC SYSTEMS**  
(3-0-3)  
*Prerequisite: EMEC 345 | F*  

**EMEC 447 | INTERNAL COMBUSTION ENGINES (3-0-3)**  
*Prerequisite: EMEC 440 | F*  

**EMEC 452 | MECHANICAL VIBRATIONS (3-0-3)**  
*Prerequisite: EMEC 320 | S (even years)*  
Response of undamped and damped SDOF to harmonic forced vibration. Fourier transform, convolution methods, frequency-domain analysis, and applications in random and transient vibration. System resonance, frequency response analysis, and response spectra. Eigenvalues and modes of vibration of multiple DOF systems.

**EMEC 455 | MOTION SYSTEM DESIGN (3-0-3)**  
*Prerequisites: EMEC 350, EMEC 365 | F*  
Design and modeling of electro-hydraulic and electro-mechanical motion systems. Characteristics of hydraulic actuators, variable speed drives, and variable power systems. Motion and position sensors, including encoders, LVDTs, and accelerometers. Industrial PLC, servo systems, Nyquist stability, and digital control algorithms.

**EMEC 460 | MANUFACTURING ENGINEERING AND TECHNOLOGY (3-0-3)**  
*Prerequisite: EMEC 365 | F*  
EMEC 466 | DESIGN OF ROBOTIC SYSTEMS (3-0-3)
Prerequisites: EMEC 350, EMEC 365 | S
Design, modeling, and simulation of robotic and mechatronics systems. Kinematics and differential motion, precision, and payload. Mechanical design, actuators, sensors, control, and autonomous navigation. Implications of robotic system deployment in terms of safety, security, ethics, and economy.

EMEC 480-489 | SPECIAL TOPICS IN MECHANICAL ENGINEERING (3-0-3)
Prerequisite: Approval of the Dean | Upon demand
Topics of interest to students and faculty which are not available in the existing Mechanical Engineering curriculum will be offered through this course. Prior approval of the course material and syllabus by the Dean is required.

EMEC 499 | MECHANICAL ENGINEERING DESIGN PROJECT (3-3-4)
Prerequisite: EMEC 399, Corequisites: EMEC 440, EMEC 460 | F, S
Interdisciplinary course covering a broad range of mechanical engineering topics.

Integrated team project involving design and prototyping of a mechanical system or product within realistic constraints, including documentation of cost estimates, plans and specifications.

ENGG 200 | ENGINEERING STATISTICS (3-0-3)
Prerequisite: MATH 220 | S, SI
Introduction to statistics and probability in engineering. Discrete and continuous distributions, sampling, and inference of mean and variance. Hypothesis testing, design of experiments and statistical quality control of engineering components and systems.

ENGG 222 | NUMERICAL METHODS IN ENGINEERING W/LAB (3-2-3)
Prerequisites: COMP 180, MATH 230, MATH 231 | S, SI
Formulation and software implementation of numerical solutions to engineering problems. Numerical differentiation and integration, curve fitting, and interpolation. Solutions and engineering applications of nonlinear equations, systems of equations, and initial and boundary-value problems.

ENGG 255 | ENGINEERING DESIGN AND ECONOMICS (3-0-3)
Prerequisites: BIOL 201, PHYS 202 | F, SI
Introduction to the engineering design process. Specifications, product synthesis, iterative analysis, prototyping, testing, evaluation, and economic constraints. Time value of money, equivalence, rate of return, and benefit-cost analysis.

ENGG 300 | PROBABILITY AND RANDOM VARIABLES (3-0-3)
Prerequisite: MATH 220 | F
Introduction to probability and statistics in engineering. Axioms of probability, conditional probability and Bayes theorem. Random variables and probability distributions. Central limit theorem.

ENGL 101 | COMPOSITION AND RHETORIC (3-0-3)
Prerequisite: ENGL 100 with a P or P+, or placement by International TOEFL® and TWE or another internationally-recognized exam | F, S, SI, SII
This course develops students’ ability to write unified, cohesive and coherent essays. The
rhetorical modes focused on in depth are Exemplification, Comparison-and-Contrast, and Cause-and-Effect. Because English 101 focuses on the revision stage of the writing process, students will engage in thoughtful analysis of their own as well as others’ writing. Students will explore the Reading/Writing connection and develop those reading skills which will be required throughout their academic and professional careers. Three process essays are required in the course.

**ENGL 102 | ADVANCED COMPOSITION AND RESEARCH (3-0-3)**
Prerequisite: ENGL 101 | F, S, SI, SII
This course, the 2nd in the English sequence of the AUD Arts and Sciences Core, builds upon the basic expository skills developed in ENGL 101. ENGL 102 introduces students to the process of producing discussions in the various rhetorical styles of Argument as well as the proper inclusion of outside source material using proper MLA guidelines in order to avoid plagiarism.

**ENGL 103 | INTRODUCTION TO LITERATURE (3-0-3)**
Prerequisite: ENGL 102 | F, S, SI, SII
ENGL 103 is the 3rd course in the English sequence of the Arts and Sciences Core at AUD. The course gives students the opportunity to interact with texts in the genres of fiction, drama, poetry and essay. Texts represent a wide range of authors, cultures and perspectives. The course reinforces skills students acquired in ENGL 101 and ENGL 102, specifically critical reading, forming and supporting an argument, and research.

**ENGL 210 | CREATIVE WRITING (3-0-3)**
Prerequisite: ENGL 103 | F, S
The class introduces students to the various genres of creative writing—short story, creative non-fiction, and poetry. In this course students are exposed to examples of each genre; they participate in workshops evaluating both published and their own work. Over the course of the semester, students produce a portfolio of work in the genre(s) focused on that term. Specific course focus will be determined by the instructor.

**ENGL 211 | BRITISH LITERATURE FROM THE OLD ENGLISH PERIOD TO RESTORATION (3-0-3)**
Prerequisite: ENGL 103 | F (even years)
This course involves the study of major works and literary movements in British literature from the Old English period to, and including, the Restoration and the 18th century. Readings include those by Chaucer, Shakespeare, Swift, and Pope. The contributions of female authors are highlighted in various time periods.

**ENGL 212 | BRITISH LITERATURE FROM ROMANTIC TO PRESENT (3-0-3)**
Prerequisite: ENGL 103 | S (even years)
This second course in the British Literature series involves the study of the major works and literary movements in British literature from the Romantic period to the present. The course begins with an extensive study of the Romantic poets, then moves on to the fiction of the Victorian Age and the early Twentieth Century, before focusing on the modern poets.
ENGL 221 | AMERICAN LITERATURE FROM DISCOVERY TO RECONSTRUCTION (3-0-3)
Prerequisite: ENGL 103 | F (odd years)
This course involves the study of major works and literary movements in American literature from the time of Discovery until the post-Civil War Reconstruction. The course begins with literature from explorers and Native Americans and proceeds to literary works produced by colonists and immigrants, and then short fiction and philosophical treatises. The course culminates with a study of literature from the American Civil War period.

ENGL 222 | AMERICAN LITERATURE FROM THE CIVIL WAR TO THE PRESENT (3-0-3)
Prerequisite: ENGL 103 | S (odd years)
This second course in the American Literature sequence involves the study of major works and literary movements in American literature from the American Civil War to the present. The works are produced by Native American, African American, Female and Expatriate authors as well as social commentators. Special attention is paid to determining what makes all of these works “American.”

ENGL 301 | WORLD LITERATURE FROM THE ANCESTS TO 1650 (3-0-3)
Prerequisite: ENGL 103 | F (odd years)
This course offers a survey of world literature from ancient times through the middle of the 17th century. The readings include epics such as Gilgamesh and the Odyssey; stories-within-stories, such as the Decameron and The Thousand and One Nights; novels and dramas; and Paradise Lost.

ENGL 302 | WORLD LITERATURE FROM 1650 TO THE PRESENT (3-0-3)
Prerequisite: ENGL 103 | S (odd years)
This course provides students with an exploration of literature(s) from various parts of the globe from the middle of the 17th century to the present. Readings include those from authors from Europe, Asia, Africa, South America, and the Middle East. Common themes between authors and texts are discussed.

ENGL 305 | THE EPIC (3-0-3)
Prerequisite: ENGL 103 | F (even years)
This course exposes students to the study of representative works of epic literature from pre-literate societies to today. The course examines the literary, cultural, and human significance of the epic literature of the Western and non-Western literary traditions.

ENGL 311 | WORLD MYTHOLOGY (3-0-3)
Prerequisite: ENGL 103 | S (even years)
This course covers three central categories contained in bodies of mythology throughout the world: Creation Myths, Fertility Myths and Hero Myths. A cross-cultural analysis of similarities and differences of the mythology in each category is central to the course presentation.

ENGL 312 | BIOGRAPHY/AUTOBIOGRAPHY (3-0-3)
Prerequisite: ENGL 103 | F (even years)
This course examines biography/autobiography as a literary genre. The course focuses on the characteristics of the genre and the personal, cultural and global impact of the genre.

ENGL 313 | CHILDREN’S LITERATURE (3-0-3)
Prerequisite: ENGL 103 | Upon Demand
This course explores the historical and cultural
ENGL 314 | COMING-OF-AGE NOVELS
(3-0-3)
Prerequisite: ENGL 103 | F (odd years)
This course examines numerous coming-of-age novels from various cultures to explore the potential “sameness” of the experience for the protagonists.

ENGL 315 | CONTEMPORARY FEMALE AUTHORS (3-0-3)
Prerequisite: ENGL 103 | S (odd years)
This course examines the literary works produced by women authors from the midpoint of the 20th century to the present. Genres to be discussed include prose, poetry and essay.

ENGL 316 | PRIZE-WINNING AUTHORS (3-0-3)
Prerequisite: ENGL 103 | S (even years)
This course exposes students to works (both in total and in part) produced by those authors recognized by either the Nobel or Booker Prize Committee as outstanding. Authors and works discussed may change according to the instructor.

FINA 301 | PRINCIPLES OF FINANCE (3-0-3)
Prerequisites: ACCG 201, QUAN 201 | F, S, SI
The Principles of Finance course begins with cash-flow projections and evaluation of financial strength and weaknesses. Capital structure is dealt with followed by cost of capital and evaluation of capital investment opportunities. Students must receive at least a C grade in this course in order to register for additional Finance Major courses.

FINA 311 | CORPORATE FINANCE (3-0-3)
Prerequisite: completion of FINA 301 with a grade of C or higher | F, S
This course studies the principles and practices of managerial finance and considers financial instruments, sources and applications of funds, financial ratios, capital market analysis, capital budgeting, investments, and dividend decisions.

FINA 321 | FINANCIAL MARKETS AND INSTITUTIONS (3-0-3)
Prerequisite: completion of FINA 301 with a grade of C or higher | F, S
This course looks at managing the business of managing money. Students study the market structure of global financial services including sources of funds, packaging, management, marketing and distribution of products and services. This course is an overview of the theory and practice of risk management, investment management, investment banking and market making.

FINA 331 | RISK AND INSURANCE (3-0-3)
Prerequisite: completion of FINA 301 with a grade of C or higher | S
This course introduces basic risk theory and elementary risk management principles and techniques. Topics covered include individual life insurance and annuity products; property/liability insurance, life/health insurance, and selected social insurance programs; insurers and their operations; guidelines for efficient purchase and use of insurance products.
FINA 401 | INTERNATIONAL TRADE AND FINANCE (3-0-3)
Prerequisites: ECON 202 and completion of FINA 301 with a grade of C or higher | S
This advanced elective course considers the current theories and the practical consequences of international trade. A variety of forms of commercial policy as a means of regulating trade are examined. Internal financial flows and exchange rate mechanisms are also considered. The domestic consequences for organizations of exchange rate policy are examined.

FINA 411 | INVESTMENT AND PORTFOLIO MANAGEMENT (3-0-3)
Prerequisite: FINA 311 | F, S, SI
This course is an analysis of the nature and underlying theory of investments and its utilization by the individual investor and portfolio manager. Topics include capital market theory, portfolio theory and management, options contracts, interest rate futures, factors influencing security prices, and the workings of the New York and London Stock Exchanges.

FINA 431 | REAL ESTATE FINANCE AND INVESTMENT (3-0-3)
Prerequisite: completion of FINA 301 with a grade of C or higher | S
This course is an introduction to the fundamental concepts, principles, analytical methods and tools used for making investment and finance decisions regarding real estate assets. A key objective of this course is to recognize the unique features that distinguish real estate investments from securities investments and from the corporate finance framework of investment decision making.

FINA 441 | INTERNATIONAL INVESTMENT MANAGEMENT (3-0-3)
Prerequisite: FINA 311 | F, S, SI
This course surveys and evaluates techniques of investment analysis and portfolio management within an international context. Practical implications of the theories of efficient capital markets and hedging models form a central theme of this course.

FINA 451 | FINANCIAL MODELING AND EMPIRICAL ANALYSIS (3-0-3)
Prerequisite: FINA 311 | F, S, SI
The objectives of the course are to provide students with an understanding of the theories and methodologies of financial modeling and empirical analysis; to enable students to perform financial analysis using computer models; and to apply financial principles in making corporate decisions. The MS Excel is used as a vehicle for numerically solving and graphically interpreting problems that arise in areas such as financial statement analysis, portfolio management, option valuation, bond and stock valuation and analysis, and foreign exchange.

FINA 461 | DERIVATIVE SECURITIES (3-0-3)
Prerequisite: FINA 411 | F, S
Topics to be covered in this course include the principles and pricing of options, futures and forward contracts, and swaps; arbitrage, hedging and advanced futures and options strategies. In this course, the concepts of portfolio risk and insurance and financial innovations are examined along with the use of derivative securities in corporate financial management.
FINA 491 | SPECIAL TOPICS IN FINANCE (3-0-3)
Prerequisite: Senior status or approval of the Chair | Upon demand
This course is a critical study of theory and research related to selected topics in finance. The specific topics of the course will be determined by the interests of the students and the instructor.

FREN 101 | ELEMENTARY FRENCH I (3-0-3)
F, S, SI
This course provides the student with an oral and written approach to beginning French grammar and conversation, with special emphasis on communication skills. Individual daily work with language tapes is an essential part of the program.

FREN 102 | ELEMENTARY FRENCH II (3-0-3)
Prerequisite: FREN 101 or equivalent | S, SI
This course is a continuation of French 101, with expansion of vocabulary and possibilities of expression.

FREN 201 | INTERMEDIATE FRENCH I (3-0-3)
Prerequisite: FREN 102 or equivalent | F, SI
This course continues the development of French language and culture from FREN 102, using an oral and written approach to advance French grammar and conversation, with emphasis on communication skills.

FREN 202 | INTERMEDIATE FRENCH II (3-0-3)
Prerequisite: FREN 201 or equivalent | S, SI
This course is a continuation of FREN 201, with greater depth and using more complex language and maturity of expression and comprehension. Students encounter a wide range of current affairs, special topics like art, architecture and science, and issues of cultural and moral values.

GEOG 101 | WORLD GEOGRAPHY (3-0-3)
S
This course presents the important principles basic to the proper understanding of the world in which we live. Emphasis is placed on the study of the changing world map and the importance of this to human, economic, and political relationships.

GRAD 202 | HISTORY OF GRAPHIC DESIGN (3-0-3)
Prerequisites: ARTS 201, VICD 206, VICD 251 | S
This class traces the events and achievements that have shaped graphic design from its beginnings to the present day electronic revolution. The course is taught through a series of lectures and research projects. Students will learn about innovative concepts and technologies throughout the history of solving visual problems.

GRAD 251 | GRAPHIC DESIGN I (0-6-4)
Prerequisites: VICD 251, VICD 206, Corequisites: GRAD 202, VICD 207 | S
Graphic design is the translation of ideas and concepts into structural order and visual form. It is the art of books, magazines, advertising, packaging and propaganda. This course aims to familiarize students with a basic language and processes of graphic design as applied to the various specializations and design applications. Students will learn to understand and manipulate visual meaning and concept development, through research, sketching, visual editing, arrangement of design elements and various other topics to prepare for successive classes within the program.
GRAD 351 | GRAPHIC DESIGN II (0-6-4)
Prerequisites: VICD 207, VICD 251, GRAD 202, GRAD 251, Corequisite: VICD 351 | F
This course takes a broader approach to creative design thinking, and encourages exploration of wider visual sources, media and methods of expression. Skills of visual judgment and critical assessment are developed through projects and critiques which set out more complex and expansive frames of reference, both in terms of research and visual vocabulary. Emphasis is placed upon graphic simplification, symbol creation, the various applications and functions of graphic symbols within contemporary design practice.

GRAD 451 | GRAPHIC DESIGN III (0-6-4)
Prerequisites: GRAD 351, VICD 351, Corequisite: VICD 451 | S
This course continues the approach to creative development established in GRAD 351. The course one of the most essential aspects of graphic design: branding and corporate identities. The students will be expected to develop a whole branding strategy for a given institution and will develop the brand’s image though the logo/symbols, color, type and graphic elements palettes, and will apply these palettes to a number of design applications (2D and 3D). It will introduce students to the various environmental and monumental graphic design (indoor/outdoor signage and public art), and will address issues of place-making and way-finding. The course will lead to an extensive corporate identity manual.

GRAD 452 | PACKAGE DESIGN (0-4.5-3)
Prerequisites: GRAD 351, VICD 207 | SI
Package design and production play a vital role in promotion. This course encompasses not only the design of the individual package, but also the design of the carton and shipping carton. The student becomes involved in areas of market research and sales promotion and in identifying consumer likes and dislikes as they relate to packaging. Also included in the course will be visits to firms dealing exclusively in package and production.

GRAD 453 | POSTER DESIGN (0-4.5-3)
Prerequisites: GRAD 351, VICD 207 | SI
Posters a vital role in promotion and communication media. This course will introduce students to the power of the poster, its history, its various functions as a promotional design application, and the developments of its printing and production techniques, through a series of slide presentations and design projects.

GRAD 454 | BOOK DESIGN (0-4.5-3)
Prerequisites: GRAD 351, VICD 207 | S
This course will introduce students to designing all sorts and types of books. It will focus on various aspects of typographic and typesetting conventions, image/type/visual sequencing for layout purposes, and will also cover non-conventional aspects of artist books and various production and binding techniques. Instruction will be given through showing samples and assigning projects.

GRAD 478 | INTERNSHIP IN GRAPHIC DESIGN (3-1-3)
Prerequisites: all Design Core and all Graphic Design Major; Corequisite: WEBD 201 | F, S, SI
Students spend 25+ hours/week employed by an advertising and or graphic design agency. Under the joint supervision of the Chair and their supervisor in the workplace, the student’s progress against a skills inventory tailored to their chosen field of specialization. Grade assessment is influenced by the supervisor’s evaluation of the student as a potential entry-level employee.
HIST 201 | AMERICAN HISTORY FROM THE BEGINNINGS TO RECONSTRUCTION (3-0-3)
Prerequisite: ENGL 102 | F (odd years)
This course examines the history of what ultimately became the United States of America. HIST 201 traces the development of the New World from discovery, through colonization, the war for independence, up through and including the Civil War and Reconstruction. The course focuses on how the various political, cultural, and social issues of the various time periods combined to influence the landmark events in the development of the nation.

HIST 202 | AMERICAN HISTORY FROM THE CIVIL WAR TO THE PRESENT (3-0-3)
Prerequisite: ENGL 102 | S (odd years)
This course is a continuation of HIST 201. The course focuses on those elements after the Civil War which contributed to the formation of the American democracy and how the nation established itself as a world leader. Special attention is paid to the World Wars and other conflicts in which America has played a central role. In addition, the continued development of cultural diversity within its borders is explored. The course culminates in a discussion of where the nation seems to be heading at the beginning of the 21st century.

HIST 212 | EUROPEAN HISTORY FROM THE RENAISSANCE TO THE PRESENT (3-0-3)
Prerequisite: ENGL 102 | F (even years)
This course covers the time period during which appeared the most significant intellectual, political, and social concepts which formed the foundation of the modern world. Special attention is paid to the individuals, the movements, and the –isms (i.e., Communism, Socialism) which were involved in the landmark events during the time period studied.

HIST 251 | WORLD HISTORY FROM BEGINNINGS TO 1500 (3-0-3)
Prerequisite: ENGL 102 | S (even years)
This course covers the most significant events in World History from the beginnings of recorded time to 1500. The course takes a cause-and-effect approach to the study of historical occurrences. In addition, special emphasis is placed on the isolated nature of many early civilizations and then the beginnings of connections of peoples through trade, empire, and exploration.

HIST 252 | WORLD HISTORY FROM 1500 TO THE PRESENT (3-0-3)
Prerequisite: ENGL 102 | S, SI
This course covers the most significant events in World History from 1500 to the Present. Emphasis is placed on the continued pattern of connection and interdependence among peoples, nations, and regions of the world.

HIST 310 | THE U.S. IN WORLD AFFAIRS (3-0-3)
Prerequisite: ENGL 102 | F
This course provides an understanding of the major issues and trends facing the U.S. in the contemporary international system.

HIST 350 | REVOLUTION (3-0-3)
Prerequisites: ENGL 102, HIST 252 | S
This course examines the conditions which are necessary for revolutionary movements to emerge and revolutions to occur. Touching upon some historically well-known conflicts
referred to as “revolutions,” the course focuses primarily on the revolutionary movements and revolutions which have taken place in the 20th century. Additional aspects to be discussed include the immediate aftermath and lasting impacts of the revolutions. Special attention is paid to Asia, Latin America, and the Middle East.

**HIST 401 | CONTEMPORARY HISTORICAL ISSUES (3-0-3)**

*Prerequisites: POLS 200, ANTH 201, ECON 201, HIST 252 | Upon demand*

This seminar-style course asks students to explore current issues in history. The primary focus of the course is history. In addition, all students are expected to look at the cultural, political, and business factors involved. The course is designed to allow students to explore a primary area of interest while maintaining the interrelationships of all major areas of the BAIS degree. This course is also open to non-BAIS students.

**HUMN/SCIE/SCIE 275/475 | SPECIAL TOPICS IN HUMANITIES OR SOCIAL SCIENCES OR NATURAL SCIENCES (3-0-3)**

*Upon demand*

Topics in the Arts and Sciences not covered by other course offerings. The specific topics will be determined by student/instructor interest. Students should check with the Registrar to ascertain course classification (i.e., Humanities or Social Sciences or Natural Sciences).

**IDES 101 | FREEHAND DRAWING AND COLOR THEORY (2-4-4)**

*F, S (Upon demand)*

In the first part of this course, students learn the fundamentals of color theory as they relate to the interior environment and surface texture. This includes hue, value, intensity, additive/subtractive theory, aesthetic and psychological implications. In the second part students will apply color-theory into a sequential hands-on exercises and practices. This ranges from a volumetric, tonal, and textural study to various types of perspective, isometric and compositional sketches and drawings.

**IDES 102 | INTERIOR DESIGN STUDIO I (2-4-4)**

*Prerequisite: IDES101 | S, SI (Upon demand)*

This is a foundation studio course which introduces technical drafting and perspective drawing. Students will learn basic interior drafting vocabulary as well as sketching and formal one and two-point perspectives. The studio will integrate the above as part of the design process.

**IDES 201 | INTERIOR DESIGN STUDIO II (0-8-4)**

*Prerequisite: IDES 102 | F, S (Upon demand)*

This studio-based course teaches the fundamentals of two/three-dimensional design and model making techniques as they relate to interior architecture and space analysis.

**IDES 202 | INTERIOR DESIGN STUDIO III (2-4-4)**

*Prerequisite: IDES201 | S, SI (Upon demand)*

This foundation course introduces the principles and application of interior design such as unity, balance, proportion, scale, rhythm, and emphasis. Students will also learn how to prepare a document and
presentation concerning client analysis, selection of finishes, and mood and sample board techniques. Anthropometrics and ergonomics will be reviewed and an orientation to the profession at local and national levels will be achieved. Additionally, students learn multiple methods of color rendering and presentation techniques in various media. The rendering techniques vary from design development color sketches to a full-color, high standard of presentation.

IDES 214 | TEXTILES FOR INTERIORS (3-0-3)
Prerequisite: IDES 101 | S, SII
This course is a study of textiles, patterns and specifications in relation to Interior Design and Interior Architecture.

IDES 261 | HISTORY OF INTERIOR DESIGN I (3-0-3)
Prerequisite: ENGL 101 | F, SI
A series of illustrated lectures and special presentations which examines the development of architecture and interior design of the ancient world through the Classical Revival period. Knowledge of the language of architecture, its terminology and recognition of period styles are required. Emphasis is placed on the historical and intellectual context of selective examples of architecture and interior design, along with their environmental and social relevance.

IDES 266 | RESOURCES AND MATERIALS (3-0-3)
Prerequisite: IDES 102 | S, SII
This course introduces students to the recognition and specification of appropriate resources and materials used in interior design and also the inherent characteristics of those materials. The student learns the application techniques and code regulations that influence a designer's selection. The student will be familiar with the local market materials, prices, and strongly initiated towards the use of new building technologies. Preliminary cost estimating is also introduced.

IDES 268 | COMPUTER-AIDED DESIGN (CAD) I (3-0-3)
Prerequisites: IDES 102 or ARCH 101, ENGL 101 | F, SI
In this course, the student is introduced to the fundamentals of computer drafting and the tools used in this technique. Students will learn a basic computer drafting vocabulary, line weights and values, as well as the skills necessary to produce floor plans, furniture plans, interior elevations, building sections, and reflected ceiling plan.

IDES 270 | DIGITAL DESIGN ILLUSTRATION (3-0-3)
Prerequisites: ENGL 102, COMP 101, IDES 268 | S, SII
The subject focus for this course is the language of architectural exterior and interior design illustrations. Emphasis is on the tools necessary to create skillful enhancement of CAD drawings and turn them into digitally manipulated images which include entourage. Students are required to draft 2D floor plans, elevations, sections and 3D mass model an existing building for the sole purpose of generating accurate shadows. These are then used as backgrounds for applying specific drawing type rendering techniques. The importance of appropriate color, texture, scale, tone, light and typography is stressed in the various stages of production. The end product is a combination of rendered images and text thoughtfully laid out to represent and communicate an idea.
IDES 280 | THREE-DIMENSIONAL DESIGN (3-0-3)
Prerequisites: ARCH 102 or IDES 202 | F, SI
This is an elective course in which students study three-dimensional form and space using appropriate tools and materials. A three-dimensional sensibility is developed through the use of research, analysis and study models. The conventions of plan, elevation and section are utilized to construct a furnished scale model of a project incorporating interior elements and finishes.

IDES 301 | INTERIOR DESIGN STUDIO IV (2-4-4)
Prerequisite: IDES 202 | F, S (Upon demand)
This is a fundamental course in which the student develops a residential interior. The course includes lectures, in-class assignments, on-site investigation, field trips and critiques. The student will accomplish projects and learn essential skills such as client analysis, programming, space planning, code analysis, furniture and finish selection. In addition, electrical, lighting, and plumbing requirements are introduced and a set of working drawings is required.

IDES 302 | INTERIOR DESIGN STUDIO V (0-8-4)
Prerequisite: IDES 301 | S, SI (Upon demand)
This is a fundamental course in the design of business environments. Through studio projects, lectures and field trips, the student develops a commercial interior that includes critical client analysis, complex programming, space planning, and the use of open-office systems. The student is also introduced to relevant accessibility codes/legislation and standard building and fire safety codes as they pertain to commercial design. In this course also the student produces advanced working drawings techniques, specifications and emphasizing on specific interior detailing technical skills for commercial spaces.

IDES 351 | FURNITURE DESIGN (3-0-3)
Prerequisites: IDES 201, IDES 266 | S, SII
This course focuses on the issues related to customized furniture design including construction, styles, function, technical aspects and costs. Through the study of the human form and by researching appropriate materials and construction techniques, students develop a design for a furniture prototype from conception to construction.

IDES 362 | HISTORY OF INTERIOR DESIGN II (3-0-3)
Prerequisite: IDES 261 | F, SI
A series of illustrated lectures and special presentations that examines the development of architecture and interior design of the western world through the late Classical Revival period to the recent past. Knowledge of the language of architecture, its terminology and recognition of period styles are required. Emphasis is placed on the historical and intellectual context of selective examples of architecture and interior design, along with their environmental, technological, economic and social relevance. The works of several modern masters will be examined in particular.

IDES 363 | INTERIOR LIGHTING (3-0-3)
Prerequisites: IDES 102, MATH 111 | F, SI
This course introduces the student to fundamentals of interior lighting design, recognition of light sources and systems, and light measurement and calculation. Students learn to analyze the spatial requirements for light, select proper systems, calculate the level of lighting, draw reflected ceiling plans, lighting legends and lighting schedules. Emphasis is placed on communicating a design solution by accomplishing projects that are application oriented.
INDIA 369 | BUILDING SYSTEMS AND CODES (3-0-3)
Prerequisites: IDES 202, IDES 266, IDES 268 | F, SI
In this course, the student is introduced to the basic elements of construction and building systems, including structural, plumbing, electrical and mechanical. Emphasis is placed on the development of a related vocabulary and a critical understanding of the interaction between the design idea and the construction method.

INDIA 370 | WORKING DRAWINGS AND DETAILING (3-0-3)
Prerequisites: IDES 301, IDES 369 | S, SII
The course emphasizes the various existing and emerging technologies, materials, assemblies and their characteristics. The influences of building codes, industry standards and programmatic requirements on the selection of both structural and non-structural elements are discussed. The course exposes the Student to construction drawings and detailing and develops an understanding of the relationship between drawings and specifications. The student also develops interior detailing technical skills, emphasizing flooring, walls, fireplaces, stairs, doors, windows, light fixtures, and built-in furniture assembly and details for residential and commercial spaces.

INDIA 374 | HOSPITALITY DESIGN (3-0-3)
Prerequisite: ARCH 202 or IDES 301 | Upon demand
This advanced course emphasizes the hospitality industry and requires the completion of a project from preliminary programming and space planning, utilizing anthropometric theory, through to the selection of furnishings and finishes that are ergonomically correct. Comparative analysis, code/legislation and relevant research and presentation techniques will also be covered in this course.

INDIA 400 | INTERIOR DESIGN STUDIO VI (0-8-4)
Prerequisite: IDES 302 | F, S (Upon demand)
This advanced studio course emphasizes design according to international and universal codes regulating aspects of health and safety for special population groups. Students learn to develop design skills as well as technical skills and the process of producing efficient working drawings.

INDIA 402 | INTERIOR DESIGN STUDIO VII (0-12-6)
Prerequisites: IDES 400 and all 300 series required courses, Approval of the Chair | S, SI (Upon demand)
This is a capstone course which consists of a research study followed by design. Students will analyze a building type in terms of program, norms, building codes, form and function, architectural party and site selection and apply the latter to design interiors that demonstrate high professional skills and ethics.

INDIA 423 | PROFESSIONAL BUSINESS AND PORTFOLIO (3-0-3)
Prerequisite: IDES 302 | S, SI
Specific to the practice of Interior Design, this course, through lectures and presentations, is constructed to introduce business practices and procedures to final year students. The course will relate to private practice and the various members of the design and construction teams. Students will demonstrate their knowledge and understanding of contemporary professional practice through examinations and assignments. Lectures and studio exercises will assist students in marketing themselves by developing the communication skills necessary for
professional practice. Field trips to design offices and building sites supplement instruction and specialists may contribute to class discussions. Students are required to produce portfolios, including electronic, to a professional standard. Interviews by a jury, comprising interior design professionals both practitioners and academics, will constitute the final examination.

IDES 461 | INNOVATIVE DESIGN (3-0-3)
Prerequisites: Four studio courses | SI, SII
This is an advanced course, which involves the research and application of design theory to a competition project. Students will prepare competition entries from conceptual diagrams, preliminary design and code analysis to final presentation. Student projects may emphasize “green” design and/or experimental technology and materials.

IDES 462 | HISTORIC RESTORATION (3-0-3)
Prerequisites: ARCH 253, ARCH 301 or IDES 261, IDES 301 | F, SI
This is an advanced design studio course that requires in-depth research of an historic property in need of restoration. Students identify and analyze the predominant style as evidenced by the interior and exterior detailing, and conduct on-site investigation, prepare as built drawings, design development drawings and presentation boards. Part of the course includes the preparation of a written research document and the application of the research to the design.

IDES 466 | COMPUTER-AIDED DESIGN (CAD) III (3-0-3)
Prerequisite: IDES 463 | F, S
This is an advanced computer aided drafting course focused on three-dimensional modeling. Students learn how to translate two-dimensional plans and elevations into three-dimensional drawings in order to utilize these drawings for design presentations. Students are required to generate fully rendered perspectives, including photorealistic perspectives. Students are also introduced to animations.

IDES 467 | COMPUTER-AIDED DESIGN MANAGEMENT (3-0-3)
Prerequisite: IDES 463 | S, Upon demand
In this advanced course, the student is introduced to the principles of streamlining CAD communication between design and construction in an effort to reduce cost and schedule. Students learn how to set up and drive usage of international industry CAD standards. The course covers fundamentals such as licensing, templates and standards centralization, support, and troubleshooting, use of XREF, field attributes, and the tools used to customize tool palettes. Automation is looked at more in depth and detail. Although the course is intended for those who will be managing projects in a networked environment, single users who wish to advance their CAD skills and knowledge are welcomed. Each student produces a written CAD manual which includes respective electronic CAD standard files.
IDES 469 | LIGHTING DESIGN II (3-0-3)
Prerequisites: IDES 302, IDES 463 | F, S
In this advanced computational lighting design and analysis course, the student is introduced to a range of rapid and exacting digital lighting simulation techniques. The course provides the student with an understanding of the theoretical aspects of lighting design and analysis as well as the knowledge of tools to enhance the integration of lighting analysis into the architectural or interior design process. This is a project oriented course and each student will be required to apply these learned simulation techniques successively onto a previous design project.

IDES 470 | SPECIAL TOPICS IN INTERIOR DESIGN (3-0-3)
Prerequisite: Approval of the Chair | F, S
This is an advanced course in which students participate in topics to be selected by the instructor, with the approval of the Chair, and which develops an aspect of design and/or presentation. Research, critical analysis, application of the research and analysis to the design and presentation will be required in this course.

IDES 472 | KITCHEN AND BATH DESIGN (3-0-3)
Prerequisite: IDES 301 | S, SII
This is an advanced studio course where students are introduced to specific design conditions, products, finishes, and codes/litigation applicable to the kitchen and bathroom market. The student will have an understanding of plumbing, electrical, and accessibility concerns with respect to this industry. Customized cabinetry, installation techniques and product integration are highlighted. This course uses both the imperial and metric systems of measurement.

IDES 473 | VIRTUAL ENVIRONMENTS (3-0-3)
Prerequisite: IDES 466 | F, S, SI, SII
This is an advanced course which introduces students to the principles of web authoring and Virtual Reality Modeling Language (and its evolving successor, X3D). Students are required to set up on-line portfolios of their architecture and interior design projects as well as include 3D CAD models as web based interactive virtual environments. This is done with the objective of sharing online design projects and in some 3D cases, quickly and easily allowing for customization by any visiting web site user.

IDES 474 | BUILDING INFORMATION MODELING I (3-0-3)
Prerequisite: IDES 268 | F, SI
In this advanced course, the student is introduced to the principles of BIM, which stands for Building Information Modeling. Also known as “Virtual Building” or “Intelligent Building Simulation” BIM is 3D, 4D and 5D. It is an integrated multi-dimensional database. Drawings, building views, calculations, quantity take offs, collision detection, energy efficiency analysis, structural analysis, construction scheduling, etc. are by-products of and automatically
derived from BIM. It is a revolutionary technology that CAD is already quickly evolving into. It promises huge savings in cost and time as it integrates architecture, interior design, engineering, construction, and operations for the entire lifecycle of a building. This BIM introductory course explores the implications of this evolving technology and covers BIM essential tools in application.

**IDES 475 | BUILDING INFORMATION MODELING II (3-0-3)**
*Prerequisite: IDES 474 | S, SII*
In this BIM II sequence course, students build on the principles and application essentials learned in BIM I. Students are required to focus on case studies that relate to owners and facility managers, architects, interior designers and engineers, contractors and fabricators. Advanced BIM application tools are introduced for students to exercise some of the BIM by-products such as project collaboration, visualizations, lighting simulations, quantity take offs and clash detection.

**IDES 478 | INTERNSHIP (0-3-3)**
*Prerequisites: IDES 268, IDES 301, and senior status | F, S, SI, SII*
With the aid of the supervising instructor from the Department in which a student is enrolled, the student participates in a practical “on-site” internship in which theoretical principles are applied to work situations under professional supervision.

**IDES 479 | INTERNSHIP A (0-3-3)**
*Prerequisites: IDES 478*
This course emphasizes focused professional development for the senior student prior to entering the profession as a graduate designer and follows on from the generalized experience gained from completing IDES478. As a consequence senior students are required to demonstrate knowledge and experience of interior design project management systems primarily through completing a case study of a recently completed or ongoing project at the host office. Essential documentation produced will also include a course file and a professional diary, the latter which will detail the student’s daily office and site experience.

The role of a faculty practical training supervisor is central to the success of this course in terms of placing, advising and periodically supervising students while liaising with the professional designer counterpart in the host company, before evaluating final course materials submitted.

**ILLS 251 | ILLUSTRATION I (0-6-4)**
*Prerequisites: all Foundation courses, except ARTS 201 | Upon demand*
This course explores concepts and methods employed in traditional and contemporary illustration. Emphasis is placed upon development of ideas and the exploration of varied media. The course encourages a creative and open approach to visual thinking and problem solving.

**ILLS 351 | ILLUSTRATION II (0-4.5-3)**
*Prerequisites: ILLS 251, VICD 206, Corequisites: VICD 207 | Upon demand*
Students develop further their own personal approach towards illustration. Emphasis continues to be placed on broader thinking and use of a wider range of materials. More challenging projects are undertaken in such areas as sequential and narrative illustration, and professional aspects of illustration are introduced.
**IMED 251 | INTRODUCTION TO INTERACTIVE MEDIA (0-6-4)**
*Prerequisites: VICD 207, GRAD 251 | S*
Introduction to Interactive Media introduces the student to current interactive software and hardware while providing experience developing multimedia materials that contain sound, graphic, animation, and interactive components. Students will gain hands-on experience through a series of practical skills-building tasks.

**IMED 351 | ADVANCED PROJECTS IN INTERACTIVE MEDIA (0-4.5-3)**
*Prerequisites: IMED 251 | F*
Advanced Projects in Interactive Media is an advanced studio course in interface, spatial design and interactivity. Students will experiment with current software and hardware to explore strategies of interactivity with an emphasis on innovative ways to conceptualize and design interactive projects. Students will gain a strong understanding of the cultural context of interactive media.

**INST 498 | INTERNATIONAL STUDIES CAPSTONE I (3-0-3)**
*Prerequisite: Senior status | F*
This course provides students with the fundamentals of conducting research. In addition, it is during this course that students receive approval for their project which involves all of the core areas of the Bachelor of Arts degree in International Studies. This project must be approved prior to students’ enrollment in INST 499.

**INST 499 | INTERNATIONAL STUDIES CAPSTONE II (3-0-3)**
*Prerequisite: Successful completion of INST 498 | S*
This course involves the production of the approved project from INST 498. Students meet on a weekly basis with their instructor to discuss progress and/or challenges to completing the project. Students are ultimately required to given an oral presentation to a panel prior to final completion of the course. INST 499 is a requirement for graduation for all students in the Bachelor of Arts in International Studies program.

**ITAD 310 | OBJECT ORIENTED PROGRAMMING AND DESIGN (3-0-3)**
*Prerequisites: ITCC 222, ITCC 230; Corequisites: ITCC 200, ITCC 210 or with approval of the Chair | F*
This course emphasizes the concepts, terminology, best practices, and practical applications of developing object-oriented software solutions. On this course, you’ll experience a mixture of theory and practice. On the theoretical side, object oriented concepts such as inheritance, polymorphism, composition, interfaces and much more will be covered in detail. However, the lessons on this course aren’t devoted exclusively to object-oriented theoretical concepts. On the contrary, students will be able to apply all concepts on a practical level using Visual Studio.NET, a heavy-duty fully object oriented development environment.

**ITAD 330 | PRINCIPLES OF SOFTWARE ENGINEERING (3-0-3)**
*Prerequisite: ITCC 230 | S*
This course covers modern software engineering methods and principles that enable development of quality software coupled with the use of UML to model computer software components, pathways,
and processes. The software life cycle is covered from planning to production.

**ITAD 350 | INTRODUCTION TO GAME DESIGN AND DEVELOPMENT (3-0-3)**  
*Prerequisite: ITAD 310 | S*  
Conceptualize, design, architect interactive computer games for different genres using different technologies. Develop game core components, players input processing, display of graphics and using sound, managing game state and objects.

Furthermore, this course will provide practical experience in developing software applications for mobile devices. This course will also cover the challenges and opportunities of software application development of the enterprise Mobile Commerce and the latest mobile application innovations for the wireless internet.

**ITAD 400 | MOBILE APPLICATION DESIGN AND DEVELOPMENT (3-0-3)**  
*Prerequisite: ITAD 350 | F*  
This course provides a detailed analysis of current mobile wireless network technologies from the software development perspective. This course will provide an introduction to the essentials of mobile wireless applications technologies including a variety of topics such as mobile devices, wireless networks, mobile application architectures, micro-browsers, mobile and wireless security, and messaging technology. In addition, this course will introduce students to thin-client and smart client applications development for mobile wireless devices with cross-platform support. Furthermore, this course will provide practical experience in developing software applications for mobile devices. This course will also cover the challenges and opportunities of software application development of the enterprise Mobile Commerce and the latest mobile application innovations for the wireless internet.

**ITAD 410 | 3D ADVANCED GAME AND SIMULATION DESIGN (3-0-3)**  
*Prerequisite: ITAD 330, ITAD 350 | F*  
This course is all about advanced 3D Computer Game environments conceptualization, design, architecture, and development using real-time interactive 3D game simulation engines and immersive virtual environments.

**ITAD 411 | PRINCIPLES OF OPEN SOURCE AND ENTERPRISE COMPUTING WITH JAVA (3-0-3)**  
*Prerequisite: ITAD 310 | F*  
This course provides solid understanding of multi-tier enterprise systems in the Java world. This would include analysis and design of such systems, Development of JSP, Servlets and EJbs, and handling of multi-tier services, e.g. JDBC, JMS, etc. The course will also explore open source technologies and get students acquainted with their position and role in the industry. Some open source technologies that will be used include Eclipse and ant.

**ITAD 420 | OBJECT ORIENTED DESIGN PATTERNS (3-0-3)**  
*Prerequisites: ITAD 330, ITAD 350 | S*  
This course provides an introduction to advanced software development methodology using object-oriented software design patterns. The course focuses on the design of Object-oriented software applications using software design patterns to provide highly modular and highly reusable software components. An emphasis is placed upon understanding all of the standard software design patterns and the best practices surrounding the use of these patterns in the software industry.

**ITAD 430 | ENTERPRISE SYSTEM ARCHITECTURE AND INTEGRATION (3-0-3)**  
*Prerequisites: ITAD 400, ITAD 411 | S*  
The course offers a solid foundation in concepts surrounding distributed architectures, including logical and physical architectures, business objects and distributed
objects. The course explores several alternatives for system architectures and investigates their effect on system scalability, fault tolerance and performance. A large proportion of the course is dedicated to the construction of XML Web Services as a technology for solving problems of integrating applications across the enterprise and between disparate companies over the Internet.

ITAD 450 | CAPSTONE PROJECT (3-0-3)
Prerequisites: ITAD 400, ITAD 411, ITAD 420 | S
This capstone course provides a genuine real life software development experience prior to graduation. The course utilizes the material presented from all previous courses and aims to design and implement a complete enterprise caliber system. The course is centered on a major project where your instructor will be acting mainly as an advisor. However, there will be a lecture component covering practical aspects of designing a framework capable of supporting the enterprise. The suggested framework covers the full spectrum of application development for the enterprise, including database access, business object building, distributed computing, reporting, and presentation clients for the desktop, the web and mobile devices.

ITCC 100 | DISCRETE MATHEMATICAL STRUCTURES FOR IT (3-0-3)
Prerequisite: Placement by ACCUPLACER™ or a grade of P or P+ in MATH 099 | F, S, SI
Survey of mathematics that is applied to information technology. Topics include propositional logic, elementary set theory, counting methods, mappings, relations, graphs, Boolean algebra, coding of binary information.

ITCC 101 | ADVANCED DISCRETE MATHEMATICAL STRUCTURES FOR IT (3-0-3)
Prerequisite: ITCC 100 | F, S
This course will give students in-depth knowledge of Discrete Structures, which are an integral part of the Computer and Information Technology curriculum. In this course, students learn how theory and applications complement each other to form computational models utilizing discrete mathematics models in probability, relations, graphs, trees, Boolean algebra.

ITCC 110 | INTRODUCTION TO COMPUTER SYSTEMS (3-0-3)
Corequisite: ITCC 100 | F, S
This is the first computer hardware and operating systems course. Students are first given a conceptual overview of operating system elements (processes, scheduling, memory management, input/output, file systems) and computer hardware components (processors, memory, disk drives, peripherals). This theoretical treatment of operating systems is supplemented by hands-on activities, including work with the Unix and Windows file systems.

ITCC 200 | INTRODUCTION TO NETWORKS (3-0-3)
Prerequisite: ITCC 110 | F
This course covers the primary physical components of a network (routers, hubs, switches, media, etc). Network communication is presented at the conceptual level via the OSI reference model, and then at a practical level with TCP/IP. The TCP/IP portion of the course covers IP addressing, subnetting, and important TCP/IP services and utilities. Emphasis will be given to networking structures, functions, performance, and management.
ITCC 210 | INTRODUCTION TO DATA MODELING (3-0-3)
Prerequisite: ITCC 110 | F
A presentation of the data modeling process and database implementation fundamentals. Data modeling, SQL fundamental relational concepts, the process of normalization, relational algebra, and guidelines for mapping a data model into a relational database will be covered. Students will model a multimedia or text-only information problem and implement it with a commercially available database package on a single machine.

ITCC 222 | WEBSITE MANAGEMENT AND DESIGN (3-0-3)
Prerequisite: ITCC 100 | S
This course aims to provide a comprehensive and complete source of web knowledge that will allow students to obtain proficiency in web development techniques with emphasis on how to plan, architect, develop, and deploy technologically advanced websites, applications and services. The course addresses issues surrounding the effective design of a website including page layout, user interface design, graphic design, content flow and site structure. Furthermore, students will be exposed to several current and emerging internet standards such as SHTML, Cascading style sheets, DHTML, client side JavaScript, and XML. Finally, the course will also introduce popular web development and design tools that will significantly reduce the development efforts and also tools that will enhance the look and feel of the application.

ITCC 230 | INTRODUCTION TO PROGRAMMING (IT) (3-0-3)
Prerequisite: ITCC 110 | S
This course provides an introduction to systematic computer problem-solving using an object-oriented computer language. Emphasis is placed upon application requirement analysis, algorithm development and program implementation. This course is designed for Individuals who are getting started in computer programming or software development. It emphasizes techniques of problem solving, structured programming and modular design. The programming language for the course is C#. The student will learn principals of computer software design, algorithm writing, software engineering principles, procedures, functions, loops, arrays, file handling and much more. The important skills, which govern programming, are abstract ones. The ability to see patterns and to abstract from specific examples to the more general case is crucial. Being able to think logically so students can predict in advance the behavior of a system working to a fixed set of rules is essential. This course will help students build the skills and imagination they need in order to be able to take real world problems and develop useful software applications for them.

ITDD 302 | DATABASE APPLICATION DEVELOPMENT USING JAVA (3-0-3)
Prerequisite: ITCC 210, Corequisites: ITCC 200, ITCC 222, ITCC 230 or with approval of the Chair | S
This course allows students to extend various programming techniques to more advanced problems and solutions using the Java programming language. These concepts will be applied as a connection to a popular database is established using JDBC. In addition, the course will address various computing concepts like sorting, searching, collection handling, Graphical User Interface (GUI) programming, multi-threading, and basic networking.
ITDD 310 | ADVANCED SQL PROGRAMMING (3-0-3)
Prerequisite: ITCC 210, Corequisites: ITCC 200, ITCC 222, ITCC 230 or with approval of the Chair | F
The course describes the statements used to manipulate data and to work with tables, indexes, and views. Users will also be able to describe the functioning of cursors, stored procedures, triggers, and transactions. It teaches students how to create stored procedures, manage distributed data, and transactions, and work with locks. The students will also learn how to optimize the query execution plan developed by SQL Server. Our Introduction to PL/SQL programming course is aimed at power users and application developers. In this class we build the foundation of how to program within the Oracle database using the PL/SQL language. Topics included include basic PL/SQL syntax, the anonymous block structure, functions, procedures packages and triggers.

ITDD 404/ITAD 411 | PRINCIPLES OF OPEN SOURCE AND ENTERPRISE COMPUTING WITH JAVA (3-0-3)
Prerequisite: ITDD 302 | F
See the course description for ITAD 411.

ITDD 410 | ADVANCED DATABASE ADMINISTRATION I (3-0-3)
Prerequisites: ITDD 302, ITDD 310 | F
This Course offers new DBA’s the foundation that they will need to operate effectively in the role of an Oracle Database Administrator. This course introduces concepts that database administrators and database operators will face on a day to day basis. It includes basic Oracle setup and configuration, user administration and management, spacing considerations and some simple backup and networking concepts. At the end of the class students will be familiar with the Oracle architecture and will be able to perform routine administration tasks.

ITDD 415 | ADVANCED DATABASE ADMINISTRATION II (3-0-3)
Prerequisite: ITDD 410 | S
This class builds on the material presented in our Database Administration I class. This course introduces advanced topics concerning Oracle database administration that DBA’s will want to know in order to perform effectively. This class covers the Oracle architecture in depth. All aspects of an Oracle setup are discussed including multiple buffer pools, best practices concerning logging and rollback, partitioning, LOB support, and archiving. At the end of the class the students will be familiar with the majority of the architectural components and will be able to effectively setup and administer a complete Oracle system. Some additional concepts in terms of backup and recovery procedures and tuning operations are also discussed.

ITDD 420 | ADVANCED DBMS DESIGN AND ARCHITECTURE (3-0-3)
Prerequisites: ITDD 302, ITDD 310 | F
The aim of this course is to explore the subject of Database Management Systems architecture features and design techniques. The course investigates the features and capabilities of DBMS such as implementation of Business Intelligence applications, the design and implementation of user interfaces and the use of performance analysis tools. The course also covers DBMS high availability techniques such as log shipping, replication, mirroring and clustering.

ITDD 440 | ADVANCED DATABASE APPLICATION DESIGN (3-0-3)
Prerequisite: ITDD 420 | S
This course expands the concepts of database development into the area of developing and implementing database applications.
The course explores forms and reports development and the integration of database systems with other front-end and back-end systems.

**ITDD 450 | SENIOR PROJECT (3-0-3)**  
*Prerequisites: ITDD 404, ITDD 410, ITDD 420 | S*  
This course is the capstone for this major. Under the supervision of the instructor, students will research and explore the latest technologies and theoretical and practical areas of system design, and will be required to implement an infrastructure to support a small organization.

**ITID 310 | OPERATING SYSTEM PRINCIPLES (3-0-3)**  
*Prerequisite: ITCC 200, Corequisites: ITCC 210, ITCC 222, ITCC 230 or with approval of the Chair | F*  
In this course students will be introduced to a range of OS concepts. Topics include process management, Threads, CPU scheduling, process synchronization, memory management, and storage management. Particular emphasize will be given to teaching students these concepts as they pertain to the Linux operating system.

**ITID 315 | NETWORK OPERATING SYSTEM SERVICES (3-0-3)**  
*Prerequisite: ITID 310 | S*  
Student in this course will receive in-depth understanding of the directory service concept following the Windows Active Directory model. Emphasis is given to the creation and maintenance of Active Directory, use of dynamic DNS, server roles, sites and replication, domain users and groups, and domain group policy objects. In addition, topics like DNS, DHCP, WINS, Routing, Remote Access, and IP Security will be covered.

**ITID 320 | INTRODUCTION TO ROUTING AND SWITCHING (3-0-3)**  
*Prerequisite: ITID 320 | S*  
This course covers a range of network protocols along with TCP/IP subnetting and supernetting, as well as important TCP/IP services and utilities. Routers are discussed along with the various routers’ applications in a network. A great emphasis on the network design is covered to insure students have the necessary knowledge and experience in building a working network.

**ITID 322 | ADVANCED ROUTING AND SWITCHING (3-0-3)**  
*Prerequisite: ITID 320 | S*  
This course teaches advanced topics in Networking. Students are first introduced to advanced routing algorithms and switching techniques which include classless Routing, OSPF, EIGRP, Switching Configuration, Spanning-Tree Protocol, Virtual LANs and Virtual Trunking Protocols. In addition, topics addressing WAN connectivity would be covered. This includes scaling IP Addresses, WAN technologies, Point-To-Point protocol, ISDN and DDR, and Frame Relay.

**ITID 325 | WIRELESS NETWORKS (3-0-3)**  
*Prerequisite: ITID 320 | S*  
This course introduces the concept of network transition media focusing on line coding and wireless transmission. Topics like wireless protocols and different types of wireless technologies are discussed. Finally, emphasis is given to the use of wireless transmission and its integration to a wired-LAN.
**ITID 410 | INTRODUCTION TO NETWORK SECURITY (3-0-3)**  
*Prerequisite: ITID 310 | F*

This course covers the concept of network security starting by covering the different levels of network attacks. Cryptography and authentication techniques are covered with practical examples that are based on Digital Certificates and Digital Signatures. Emphasis is then shifted to cover the different types of security detection and prevention along with implementation techniques to improve the security level of a given network.

**ITID 415 | INFORMATION SECURITY (3-0-3)**  
*Prerequisite: ITID 410 | S*

This course teaches the concepts of network security of clients and servers. Topics such as IPSEC and SSL security protocols, Firewall, and Proxy are covered and implemented. Emphasis is then shifted to securing different operating system platforms such as the Unix server. Students also learn different security techniques like securing a remote connection and securing a WLAN.

**ITID 430 | FAULT TOLERANT NETWORK SERVERS (3-0-3)**  
*Prerequisite: ITID 315 | F*

This course covers fault tolerance in network servers through a solid understanding of the functionality and management of the kernel of a Network Operating System. It discusses the various techniques used to achieve fault tolerance such as mirroring, load balancing, clustering, and replication. Students also learn how to replace failed components in minimal service interruption by implementing hot add memory, hot swap hard drives, hot plug PCI, and redundant power supplies.

**ITID 440 | NETWORK MANAGEMENT AND PLANNING (3-0-3)**  
*Prerequisites: ITID 322, ITID 325 | F*

This course introduces the students to the fundamental concepts and protocols in the field of network management and planning. During the introductory phase, students will learn about the TMN model proposed by ITU-T to describe the four essential layers of network management: element, network, service, and business levels. Students will also be introduced to the ISO standard model FCAPS: Fault, configuration, Accounting, Performance and Security. In addition, they will get an overview of the existing protocols: the Simple Network Management Protocol (SNMP), Common Management Information Protocol and Common Management Information Services (CMIP/CMIS), Operation/Administration/Maintenance and Provisioning (OAM&P), and Remote Network Monitoring (RMON). Further ahead, focus will shift to the popular SNMP protocol versions 1, 2 and 3, and the structure of Managed Information Base (MIB) according to the SMIv1 descriptions. The course should also discuss desktop vs. web-based management techniques. Towards the end of the course, after covering the most important aspects of network management, students should be ready to get into the topic of network planning. In particular, they will be introduced to network planning and design methodologies, case study requirements and network assessment methods, Infrastructure selection and implementation plans.

**ITID 450 | SENIOR PROJECT (3-0-3)**  
*Prerequisites: ITID 410, ITID 430 | S*

This course is the capstone for this major. Under the supervision of the instructor,
students will research and explore the latest technologies and theoretical and practical areas of system design, and will be required to implement an infrastructure to support a small organization.

**ITPE 310 | MANAGEMENT INFORMATION SYSTEMS (3-0-3)**
*Upon demand*

This course provides an overview of information systems in the business world. It presents an organizational view of how to use information technology to create competitive firms, manage global organizations, and provide useful products and services to customers. Topics include hardware, software, databases, telecommunications systems, the strategic use of information systems, the developments of information systems, and social and ethical issues involved with information systems.

**ITPE 320 | SYSTEM ANALYSIS AND DESIGN (3-0-3)**
*Upon demand*

This course presents students with real-world system analysis skills and techniques within the framework of the systems development life cycle (SDLC). Examples and cases are drawn from actual systems projects that enable students to learn in the context of solving problems, much like the ones they will encounter on the job. A blend of traditional development with an emphasis on the latest major software trends, outsourcing, application service providers, ERP, and more provide a well-rounded understanding of fundamental topics. Students will find concepts easy to understand through the clear writing style combined with figures that illustrate current technology and concepts.

**ITPE 330 | IT IN BUSINESS (3-0-3)**
*Upon demand*

Current issues in the information technology in business. IT relationship to business competition and strategy, the business value of information systems, the use of computer systems to achieve strategic advantage, to support managerial decision-making, to process organizational transactions, to achieve operational control, and to augment personal communications, information resource management, organization, social, legal and ethical issues from information systems.

**ITPE 390 | INTERNSHIP IN IT (3-0-3)**
*Prerequisite: completed 100 credits of the program | F, S, SI, SII*

In this course, the student can gain real-life work experience by working on an IT project for an IT company. Internships can only be taken after finishing two years of study at AUD or equivalently after 100 credits. Usually, this means in the summer months at the end of second year or third year in the program.

**ITPE 391-399 | SPECIAL TOPICS IN IT (3-0-3)**
*Prerequisite: approval of the Chair | Upon demand*

Topics of interest to students and faculty which are not available in the existing IT curriculum will be offered through this course. Prior approval of the course material and syllabus by the IT Chair is required.

**ITPE 410 | MANAGING IT RESOURCES (3-0-3)**
*Prerequisite: MGMT 341 | Upon demand*

This course introduces the fundamental concepts of management and applies them to IT. It examines the use of IT in business
processes and the management issues of integrating IT into organizational processes to gain competitive advantage. Topics include: management, organizations and information systems, development life cycle, project management and systems engineering, processes reengineering, and organizational learning.

**ITPE 420 | IT STRATEGIC MANAGEMENT**
(3-0-3)
*Prerequisite: Senior status | Upon demand*
This course is a capstone course that includes a review of both IT business models, strategies, and policies utilized in managing a market driven company and IT career strategies for the student. The course examines the interaction of corporate structure, geographic coverage, and marketing, and looks at the creation and implementation of strategic initiatives. Students will identify career goals and work on interviewing, resume development, and writing cover letters. This course provides an opportunity for students to draw upon and integrate materials from the earlier courses.

**ITPE 421 | INFRASTRUCTURE TECHNOLOGIES, MODELS, PERFORMANCE AND CAPACITY PLANNING**
(3-0-3)
*Prerequisites: ITAD 330, ITAD 350 | F*
This course examines the fundamental technological requirements for setting up and operating an e-business, with a special focus on infrastructure (hardware and software). The course also offers a comprehensive guide to planning and building E-business sites. Students will be exposed to several performance and capacity planning methods that will allow them to correctly analyze and project site needs and performance. The objective is to create sites that will increase customer confidence, provide better customer service, reduce operating costs, manage tradeoffs between cost and performance, anticipate and handle peak demands and increase enterprise competitive advantage. Furthermore, the course also investigates Web Farms as a technology that will enable web applications to be highly available, stable and scalable. Prerequisites are waived for BBA candidates.

**ITST 275 | INTERNATIONAL STUDY TOUR**
(3-0-3)
*Prerequisites: ENGL 101, COMP 101, sophomore status | F*
Students journey to exciting international cities for a look at the pacesetters in art, design, and business. To receive credit, students must submit a paper covering various aspects of the trip. Prior to departure, requirements and possible paper topics are discussed by the group and the faculty members, who serve as guides and chaperones for the trip. For those students who obtain the Provost’s approval to take this course as a Professional Elective (or equivalent) in their major, a discipline-specific code will substitute the ITST on the student’s transcript (e.g., BUSI, IDES, VICD.)

**JOUR 301 | VISUALIZING NEWS**
(2-2-3)
*Prerequisite: COMM 222 | F*
This course introduces students to basic design elements used to make a news story visually effective. Imagery such as still photography, television video, and video designed specifically for the web will also be explored. The course will follow a typical production workflow, including layout and design, the use of typography and color,
preparing images and graphic elements for print, the web, and other media platforms.

**JOUR 302 | NEWSROOM MANAGEMENT AND DECISION MAKING (3-0-3)**
*Prerequisite: COMM 222 | S*
This course requires students to examine decision-making in the newsroom, explore illustrative case studies and develop their own assessments of what constitutes a good decision and how to make one. More often than not, there are no absolutely right answers, but the goal is making a better decision through thoughtful discussions of the type that take place daily in professional newsrooms.

**JOUR 321 | REPORTING (2-2-3)**
*Prerequisite: COMM 222 | F*
This course is an introduction to the practice and craft of gathering and writing information for news media. Students will develop sound news judgment and writing skills that will enable them to produce and edit content across multiple platforms. As much as possible, the course will be responsive to actual news, both local and international.

**JOUR 322 | ADVANCED REPORTING (2-2-3)**
*Prerequisite: JOUR 321 | S*
This course covers advanced concepts of news gathering, interviewing and writing. Each student will choose a beat to cover for the duration of the semester, developing stories from that beat. In addition, students will select a newsworthy topic and develop a 2,500-word story due at the end of the term.

**JOUR 323 | EDITORIAL AND CRITICAL WRITING (3-0-3)**
*Prerequisites: COMM 222, ENGL 103 | Upon demand*
Provides intensive evaluation of students’ opinion writing, including editorials, op ed columns, arts and entertainment criticism, and opinion pieces related to sports, business, politics, and other fields.

**JOUR 401 | CURRENT ISSUES IN JOURNALISM (3-0-3)**
*Prerequisite: Senior status | Upon demand*
Examines a range of topics not covered or covered only briefly in other courses. These may include coverage of business, environmental issues, sports, conflict, and other matters with which graduating students should have some familiarity.

**JOUR 402 | CONTEMPORARY PERSPECTIVES IN JOURNALISM (3-0-3)**
*Prerequisite: Senior status | Upon demand*
A capstone seminar in which students analyze and discuss in a sophisticated way critical issues in the news business, ranging from media economics to the impact of news coverage on societal institutions.

**JOUR 441/DPST 441 | THE DOCUMENTARY (2-2-3)**
*Prerequisite: COMM 241 (for DPST students) or COMM 222 (for JOUR students) | F*
This course provides an overview of the history, theory, and genres of documentary films. Students learn to analyze and critique a variety of historical and contemporary documentaries, while developing and producing short documentaries through team work.

**JOUR 461 | MEDIA AND POLITICS IN THE MIDDLE-EAST (2-2-3)**
*Prerequisite: ENGL 103, COMM 103, and Junior status | F*
This course examines the role of the international media in the politics of the Middle East. It addresses questions such as:
How have the international media covered conflicts in the region? What does it take to fully engage the attention of the international press? How does the press balance national interests with objectivity? In attempting to answer these questions, students will also look at the media’s role in shaping the course of events in the region and judging the outcome.

**JOUR 462 | CAPSTONE PROJECT (2-2-3)**
*Prerequisite: Senior status | S*
This course provides individual or small groups of students working with a faculty advisor the opportunity to design and carry out an independent venture, such as an extensive research paper, an online magazine article, or other complex journalism project.

**JOUR 463 | INTERNSHIP (3-0-3)**
*Prerequisite: Senior status | S*
A carefully supervised internship with a media organization approved by the faculty supervisor. Students are required to submit a detailed ongoing journal and a final report as defined by the faculty supervisor.

**MATH 111 | MATHEMATICS FOR THE ARTS (3-0-3)**
*Prerequisite: placement by ACCUPLACER™ or a Grade of P or P+ in MATH 099 | F, S, SI*
This course surveys traditional and contemporary topics in mathematics, such as counting techniques, probability and statistics, and the mathematics of personal finance. It includes basic geometry of interest to students applicable in the arts program.

**MATH 160 | MATHEMATICS WITH BUSINESS APPLICATIONS (3-0-3)**
*Prerequisite: placement by ACCUPLACER™ or a Grade of P or P+ in MATH 099 | F, S, SI, SII*
This course introduces the main mathematical tools used in the business environment. The focus of attention is on developing the basic concepts of calculus, such as functions, derivatives, and integrals. Topics from probability and various applications to business are also explored.

**MATH 191 | PRECALCULUS (3-3-4)**
*Prerequisite: placement by SAT or ACCUPLACER™, or MATH 099 with a grade of P | F, S, SI*

**MATH 195 | PRECALCULUS FOR ARCHITECTURE (3-3-4)**
*Prerequisite: placement by SAT or ACCUPLACER™, or MATH 099 with a grade of P | F, S, SI*
Geometry; properties and applications of polynomials, exponentials, logarithmic and trigonometric functions; applied trigonometry; conic sections; and theory of equations.

**MATH 205 | CALCULUS FOR ARCHITECTURE (3-0-3)**
*Prerequisite: MATH 195 | F, S, SI*
This course reviews the basic concepts of differentiation and integration for functions of one variable. Topics include limits and continuity, derivatives and integrals and their
applications, the Fundamental Theorem of Calculus, and the calculus applied to parametric curves and polar graphs.

**MATH 210 | CALCULUS I (3-0-3)**
Prerequisite: placement by ACCUPLACER™, or MATH 191 with a grade of C or higher | F, S, SI
Differential and integral calculus applied to functions of a single variable. Derivatives, applications of derivatives, indefinite and definite integrals and applications of integrals. Polynomial, rational, radical, trigonometric, inverse trigonometric, exponential, logarithmic and hyperbolic functions.

**MATH 220 | CALCULUS II (3-0-3)**
Prerequisite: MATH 210 with a grade of C or higher | F, S, SI

**MATH 230 | LINEAR ALGEBRA AND COMPLEX VARIABLES (3-0-3)**
Prerequisite: MATH 220 with a grade of C or higher | F, S
Linear systems, matrices, vector spaces and linear independence. Linear transformations, determinants, eigenvalues, and applications. Complex numbers in Cartesian and polar planes. Complex functions including trigonometric and hyperbolic functions. Cauchy's integral theorem.

**MATH 231 | DIFFERENTIAL EQUATIONS (3-0-3)**
Prerequisite: MATH 220 with a grade of C or higher | F, S

**MATH 240 | MULTIVARIABLE CALCULUS (3-0-3)**
Prerequisite: MATH 230 | S

**MATH 250 | DISCRETE MATHEMATICS (3-0-3)**
Prerequisite: MATH 220 | F
Introduction to the mathematical foundation of computing, including logical reasoning, sets, relations, and functions. Introduction to Boolean algebra and switching theory. Mathematical induction and counting. Complexity and analysis of algorithms. Recurrence, graph theory, and trees.
MATH 310 | MATHEMATICS -- A JOURNEY THROUGH TIME AND SPACE (3-0-3)
Prerequisite: MATH 111 or higher | F
This course examines the content of historical documents that trace the roots of arithmetic, algebra and geometry from ancient times until the 13th century. The sources come from a variety of civilizations and cultures, and reveal common threads in the development of mathematics due to the needs of society, along with differences caused by cultural influences.

MATH 320 | INVESTIGATIONS, PROBLEMS, AND MODELS -- CONTEMPORARY PROBLEM SOLVING (3-0-3)
Prerequisite: MATH 111 or higher | S
A variety of thinking processes and specific techniques are introduced for defining and solving problems and for building mathematical models. Those tools are then used by students in games of strategy, mathematical problems and real-world situations, with the prime directive being: “Solve that problem!”

MATH 330 | MAKING DECISIONS FROM INTERPRETING DATA (3-0-3)
Prerequisite: MATH 111 or higher | Upon demand
This is an introductory course in statistics, which deals with the study of variability, uncertainty and decision-making. Statistics is increasingly applicable to most disciplines and to everyday life. This course introduces the basic principles from contemporary usage, with consideration for appropriateness, contextual relevance and interpretation.

MCOM 301 | PRINCIPLES OF ADVERTISING AND INTEGRATED MARKETING COMMUNICATIONS (IMC) (3-0-3)
Prerequisite: MKTG 301 | F, S, SI
This is the foundation course in Integrated Marketing Communications (IMC), covering its basic concepts and methods. Advertising is viewed from the perspective of being simply one of several promotional tools instrumental in brand building. Segmentation, target audience selection and positioning are given ample attention; and the role of data and databases in communication strategy formulation is reviewed. Basic media concepts are also studied, and students learn how to apply their knowledge to the task of determining media objectives and strategies. The organization and functioning of the modern communication agency are considered. Special attention is given to the creative product across all media and tools. IMC values and perspectives permeate coverage of all topics. Students must receive at least a C grade in this course in order to register for additional Marketing Communications Major courses.

MCOM 311 | STRATEGIC WRITING FOR ADVERTISING AND INTEGRATED MARKETING COMMUNICATIONS (IMC) (3-0-3)
Prerequisite: completion of MCOM 301 with a grade of C or higher (may not be used by students concentrating in Marketing Communications or Marketing/Marketing Communications to satisfy their professional elective requirements) | F
This course provides the student with a solid background in developing and writing strategic and persuasive messages for multimedia advertising and Integrated Marketing Communications (IMC).
MCOM 331 | PUBLIC RELATIONS MANAGEMENT (3-0-3)
Prerequisite: completion of MCOM 301 with a grade of C or higher | S
This course will expose you to the fundamentals of Public Relations (PR) concepts and provide insights into how these concepts are applied by practitioners in the real world. It is designed to give you an overview of basic Public Relations theory and to introduce you to elements of Public Relations practice through topics such as Employee Relations, Crisis Management, Public Issue Campaigns, and Standards and Ethics in Public Relations.

MCOM 401 | CREATIVE EXECUTION FOR IMC (3-0-3)
Prerequisite: completion of MCOM 301 with a grade of C or higher | S
This course reviews the concept of IMC and focuses on creative development in several disciplines: advertising (TV, press and radio), sales promotion, public relations, etc. Students learn not only how to evaluate executions in these disciplines but experience the rewards and frustrations of creative development, as they are challenged to conceive a variety of creative pieces. Effective correspondence and executional integration is considered in depth, and the student's familiarity with TV and print production techniques is enhanced. Emphasis is placed on the successful completion of out-of-class creative projects.

MCOM 411 | MEDIA PLANNING AND BUYING (3-0-3)
Prerequisite: completion of MCOM 301 with a grade of C or higher | F
This course presents an overview of the media planning and buying functions within the IMC process. Basic measurements and calculations are reviewed as are the media performance measures of reach, frequency, effective frequency and GRP’s. The relationship between marketing strategy and media planning is established, and the strategic media planning process is covered in detail. Other topics: intermedia comparisons, quantitative and qualitative media evaluation, media negotiation as practiced in the Middle East, media research, media budget determination and allocation, media testing and experimentation and new media. Teaching methods consist of lecture, discussion (including case studies), and out-of-class projects.

MCOM 421 | IMC STRATEGY AND MANAGEMENT (3-0-3)
Prerequisite: MCOM 401 | F
As indicated by its title, this is the major's course in IMC strategy and management. The pivotal role of decision-making in communications strategy formulation and agency management provides the context for the course. The variables in decision-making are identified and the contribution of empirical research to issue-resolution is studied in depth. Students learn how to apply the five steps in Schultz’ value-based IMC model: customer identification, customer valuation, message/incentive planning, ROCI and post-program analysis and planning. Other specific topics considered: brand equity management, brand valuation, and the structural and human resource dimensions of agency management. While the lecture method of instruction prevails, ample opportunity is given for in-class discussion. Out-of-class projects revolve around real world case histories.
MCOM 431 | IMC CAMPAIGN DEVELOPMENT (3-0-3)
Prerequisite: MCOM 421 | S
This is the capstone course of the advertising major. Students spend the entire term working in teams to prepare two major Advertising & IMC campaigns. The response consists of a fully developed IMC strategy and plan, together with solutions across a wide variety of communications disciplines. Class times are used for instructor facilitation, team meetings and lecture/discussion on topics germane to the campaigns.

MCOM 481 | STUDY INTERNSHIP (3-0-3)
Prerequisites: MCOM 431, Senior status and approval of the Chair | F, S, SI
Students spend 25+ hours/week employed by an advertising agency/communications firm. Under the joint supervision of the faculty supervisor and their supervisor in the workplace, students’ progress against a skills inventory tailored to their chosen field of specialization. Grade assessment is influenced by the supervisor’s evaluation of the student as a potential entry-level employee. Students must provide the faculty supervisor with a copy of their résumé five weeks prior to the beginning of the term of the Internship.

MCOM 491 | SPECIAL TOPICS IN IMC (3-0-3)
Prerequisite: completion of MCOM 301 with a grade of C or higher and senior status or approval of the Chair | Upon demand
This course is a special in-depth project undertaken by the MCOM Major under the direction of the Chair or is a critical study of theory and research related to advanced topics in IMC. The interests of the students and the instructor will determine the specific topics of this course.

MEST 101 | ELEMENTARY ARABIC I (3-0-3)
F, S, SI
An introduction to Modern Standard Arabic. Skills in speaking, listening, reading and writing are developed. Not open to native speakers of Arabic.

MEST 102 | ELEMENTARY ARABIC II (3-0-3)
Prerequisite: MEST 101 | F, S, SI
This is a continuation of MEST 101 and continues to develop the four skills in language acquisition – reading, writing, listening, and speaking – to further refine the student’s ability to communicate in Arabic at the intermediate level. Not open to native speakers of Arabic.

MEST 201 | INTERMEDIATE ARABIC I (3-0-3)
Prerequisite: MEST 102 | F, SI
This is a continuation of MEST 102, with increased emphasis on vocabulary acquisition. Not open to native speakers of Arabic.

MEST 202 | INTERMEDIATE ARABIC II (3-0-3)
Prerequisite: MEST 201 | S, SI
This course is the sequel to MEST 201 and continues to develop the four skills in language acquisition – reading, writing, listening, and speaking – to further refine the student’s ability to communicate in Arabic at the intermediate level. Not open to native speakers of Arabic.

MEST 210 | AN INTRODUCTION TO MIDDLE EAST HISTORY (3-0-3)
Prerequisite: ENGL 102 | F, S, SI
This course will examine the rise of Islam in the lands of the Near East as a distinctive period in the history of the region, beginning with the eclipsing of the Byzantine and Sasanid empires in the early 7th century and ending with the collapse of the Ottoman Empire in the aftermath of WWI.
MEST 275/375/475 | SPECIAL TOPICS IN MIDDLE EASTERN STUDIES (3-0-3)
Upon demand
A critical study of theory and research related to topics in Middle Eastern studies not covered by other courses. The specific topics will be determined by interests of the students and the instructor.

MEST 301 | ARABIC PROFICIENCY I (3-0-3)
F, S
A course in Modern Standard Arabic at the advanced level designed to provide Arabic-speaking B.C.I.S. Majors with the linguistic skills (writing, reading, speaking, listening) that serve as a solid foundation for journalistic expression in Arabic. Emphasis is placed on grammar review, vocabulary acquisition, and composition. Several modern literary texts are used in the course. This course is open only to students with significant prior knowledge/study of Arabic.

MEST 302 | ARABIC PROFICIENCY II (3-0-3)
Prerequisite: MEST 301 | S
This is a continuation of MEST 301, with expansion of vocabulary and capability of expression, both orally and in writing.

MEST 310 | ISLAMIC CIVILIZATION (3-0-3)
Prerequisite: ENGL 102 | F, S
This course explores various aspects of Islam as a civilization and the key achievements made by those who participated in the pursuit of knowledge under the cultural aegis of Islam. Developments in the fields of philosophy, mathematics, astronomy and medicine are some of the major themes highlighted as the course charts the role of Islamic civilization in the transmission of knowledge and ideas to the Mediterranean, Europe and beyond.

MEST 315 | HISTORY OF THE MODERN MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | F
This course concentrates on the emergence of the modern Middle East by examining its transformation into nation states following the collapse of the Ottoman Empire after WWI, the mandate period and the end of colonial rule. The course will focus on key events and developments across the region from Egypt to Iran, and from Turkey to the Gulf States during the last century.

MEST 317 | MIDDLE EASTERN LITERATURE IN TRANSLATION (3-0-3)
Prerequisite: ENGL 103 | S
This course considers a representative sample of Arabic prose, short stories, novels and plays with a brief account of critical background of the various genres.

MEST 318 | CULTURES OF THE MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | F, SI
This course provides an overview of the various cultures in the Middle East within an anthropological framework. Concepts such as ‘family’, ‘gender’ and ‘society’ are used as the basis for comparison of various cultural groups in the region.

MEST 319 | POLITICS IN THE MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | S, SI
This course looks at the political structures and systems of governance across the contemporary Middle East as well as the
historical factors that led to their formation. The course also examines the complex but significant relationship between local politics and politics at the level of state and government within individual Middle East countries in order to explain how this relationship has shaped policies both at the regional and at the international levels.

**MEST 320 | THE QUR’AN: TEXT, HISTORY, AND MEANING (3-0-3)**  
Prerequisite: ENGL 102 | F  
This course examines the historical aspects of the Qur’an, such as the period of its ‘revelation’, its subsequent codification and the tradition of its interpretation. The course also focuses on the contents of the Qur’an as well as its place in various Muslim intellectual traditions, both medieval and modern.

**MEST 323 | ISLAM: HISTORICAL AND SOCIETAL ASPECTS (3-0-3)**  
Prerequisite: ENGL 102 | F, S, SI  
This course is a study of the Islamic religious tradition and its development during various historical periods. The course focuses on the beliefs and practices of Muslims across diverse cultural landscapes as well as on the major schools of thought within Islam. The scope of the course extends to the contemporary period to include an analysis of modern intellectual movements.

**MEST 327 | ISLAMIC POLITICS (3-0-3)**  
Prerequisite: ENGL 102 | F  
This course will focus on Islam as the language of politics at both the societal level and at the level of state and government. It will examine the influence of the teachings of Islam and Islamic political thought on the organization of society in the Muslim world, and account for the emergence of Islamic states, Islamist movements and the contemporary phenomenon of ‘political Islam’.

**MEST 329 | ISLAMIC ART AND ARCHITECTURE (3-0-3)**  
Prerequisite: ENGL 102 | F, S, SI  
This course is a general survey of Islamic art in its various forms from its beginnings in the 7th century to the early modern period. The development will be traced through the examination of architecture, manuscript illustration, textiles, pottery and other art forms.

**MEST 330 | THE ANCIENT NEAR EAST (c. 3500 B.C.E.-100 C.E.) (3-0-3)**  
Prerequisite: ENGL 102 | F  
This course surveys the history of this region from the period beginning with the rise of Sumerian city-states to the Jewish revolts of the 1st century C.E., taking in along the way some of the most significant inventions and innovations by ancient Egyptian and Mesopotamian civilizations. Parallel developments in the early history of monotheistic belief are also examined. This course contains an ancient language ‘familiarization’ component (Akkadian or Aramaic).

**MEST 333 | THE MIDDLE EAST IN LATE ANTIQUITY (c. 250 – 800 C.E.) (3-0-3)**  
Prerequisite: ENGL 102 | S  
This course examines a spectrum of intellectual (philosophical), gnostic and religious traditions (Judaic-Christian, Manichaean, Mandaeans) that cut across an ethnic mosaic of Middle Eastern communities living under the shadow of one of the two immense imperial systems of the period, the Byzantine Roman empire and the Persian Sassanian empire. The course contains an
MEST 343 | BUSINESS IN THE MODERN MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | S
This course offers descriptive and prescriptive approaches to the economies of the Middle East. The course examines the current status of the economies in the region and how they developed. In addition, discussion will focus on economic challenges in the region. Suggestions for addressing these challenges as well as the consequences of ignoring them will also be discussed.

MEST 350 | RELIGIONS OF THE MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | S
This course examines the beliefs, practices and institutions of the three Abrahamic faiths in the Middle East: Islam, Christianity, and Judaism. This course also considers the shared origins and histories of these three religions, in particular the history of their interaction and interdependence in the Middle East.

MEST 352 | CONFLICTS IN THE MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | F
This course examines the conflicts which have taken place in the Middle East since the end of the World War II. These conflicts include those between nations, cultures, and ideologies.

MEST 353 | WOMEN AND GENDER IN THE MIDDLE EAST (3-0-3)
Prerequisite: ENGL 102 | S
This course explores traditional gender roles in Middle East society, historically and in modern times. It focuses on the lives of key female figures in Middle East history with a view to delineating societal attitudes towards women in the region up to the modern day. The course also examines the role played by religion and religious authorities in the formation and confirmation of such attitudes. In addition, the imperatives of contemporary Middle Eastern women's voices are surveyed as these manifest themselves in film, literature and other intellectual output.

MEST 380 | THE GULF: CULTURE AND ECONOMICS SINCE 1970 (3-0-3)
Prerequisite: ENGL 102 | SI
This course looks at the modernization of the Gulf region since the withdrawal of Great Britain in 1971. It analyzes the advancements and the dynamics taking place in the Gulf in the political and economic sectors.

MEST 381 | NORTH AFRICA: NATION, SOCIETY, AND CULTURE (3-0-3)
Prerequisite: ENGL 102 | S (odd years)
This course examines the art, literature, and other aspects of culture in the nations of North Africa and how these important aspects have contributed to the shaping of those societies during various important recent historical periods.

MEST 382 | THE LEVANT: ARAB LANDS OF THE EASTERN MEDITERRANEAN (3-0-3)
Prerequisite: ENGL 102 | F (odd years)
This course focuses on the area extending from the Turko-Syrian border to Syro-Palestine, encompassing also present-day Lebanon and Jordan. The region is analyzed in terms of cultural continuity and religious diversity against the background of major political events.
MEST 383 | IRAQ: REINVENTING THE NATION (3-0-3)
Prerequisite: ENGL 102 | F (even years)
This course surveys the history of the modern nation-state of Iraq in its religious, social and political dimensions. The background and long aftermath of both the Iraq-Iran War and the First Gulf War constitute some of the major focus of the course along with developments within the country since the fall of the Baath regime in 2003.

MEST 384 | EGYPT: LITERATURE SINCE 1952 (3-0-3)
Prerequisite: ENGL 102 | S (even years)
This course examines the intricate relationship which has existed in Egypt between creative writers and the state since the coup d’etat of 1952. It explores the ways in which creative writers have navigated between the narrow straits of governmental restrictions and societal mores and how these writers have ultimately shaped current Egyptian culture.

MGMT 301 | PRINCIPLES OF MANAGEMENT (3-0-3)
Prerequisite: BUSI 101, ENGL 102 | F, S, SI, SII
This course combines the elements of management (planning, organizing, implementing, controlling and evaluating) and applies leadership principles and characteristics to the exercise of these functions. Management and leadership as topics of study are analyzed and compared. Interpersonal skills required for effective leadership are explored. Students must receive at least a C grade in this course in order to register for additional Management Major courses.

MGMT 313 | OPERATIONS MANAGEMENT I (3-0-3)
Prerequisites: completion of MGMT 301 with a grade of C or higher and QUAN 201 | F, S, SI
This course provides a study of the drivers of quality, customer satisfaction, efficiency and productivity in service and manufacturing enterprises. Topics include product and service design, quality management, facility location and layout, materials management, scheduling, project management, and supply chain management.

MGMT 314 | BUSINESS PROCESS SIMULATION (3-0-3)
Prerequisites: MGMT 313, QUAN 301 | S
This course builds on the queuing theory introduced in QUAN 301 by providing in-depth analysis in solving waiting time problems. The theoretical aspects are followed through the use of Visual Interactive Discrete Event Simulation software. This software is used for solving real cases.

MGMT 321 | ORGANIZATIONAL BEHAVIOR (3-0-3)
Prerequisite: completion of MGMT 301 with a grade of C or higher | F, S, SI
Organizational behavior is the interdisciplinary field of study that investigates the impact of individuals, groups, and structure on the behavior of organizations, and how organizations manage their environments. The course covers the major theories, concepts, and tools that are employed in the field. Through the application of theoretical knowledge to exercises and case studies, students arrive at a better understanding of human behavior in the work environment.

MGMT 331 | HUMAN RESOURCE MANAGEMENT (3-0-3)
Prerequisite: completion of MGMT 301 with a grade of C or higher | F, S, SI
This is an introduction to the principles and practice of human resource management.
The role of human resources in the modern business organization will be the main focus. Students will develop proficiency in solving human resource problems through lectures and case studies. The course provides instruction that will help current and aspiring managers to better understand the human resource functions in international, as well as, in the local economies.

**MGMT 341 | PROJECT MANAGEMENT**
(3-0-3)
Prerequisites: QUAN 201 and completion of MGMT 301 with a grade of C or higher | F, S, SI
This course draws upon the applied fields of organization behavior, management theory/science, and finance to develop a theoretical and very practical understanding of project management for students. The practical learning from this course is accomplished primarily through team-based project simulations.

**MGMT 401 | INTERNATIONAL MANAGEMENT**
(3-0-3)
Prerequisites: MGMT 321 and completion of MGMT 301 with a grade of C or higher | F, S
Upon completion of this course, students are familiar with the globalization of markets and the economic interdependence of nations. In addition, the course develops skills that will assist students in designing, implementing and evaluating global strategies. Moreover, the socioeconomic, institutional, and structural variables underlying management practices, with a focus on human resources management in North America, Western Europe, Japan, East Asia, and the Arabian Gulf are considered.

**MGMT 431 | LEADERSHIP**
(3-0-3)
Prerequisite: MGMT 321 | F, SI
This course aims to provide students with a basic understanding of the role of leadership in the modern organization. Topics covered include different theories and definitions of leadership, organizational goals and the leader’s role, leadership vs. management, leadership traits and characteristics, leadership styles and cultural differences, transformational leadership, charismatic leadership, transactional leadership, and gender and leadership. Case studies will be used to illustrate various leadership concepts, traits and styles in action.

**MGMT 441 | ENTREPRENEURSHIP**
(3-0-3)
Prerequisite: completion of MGMT 301 with a grade of C or higher | F, SI
This course is an overview of small business management and includes methods and procedures for establishing a small business; problem solving techniques required for successful operations; entrepreneurial traits and risks; location selection; and franchising.

**MGMT 451 | SUPPLY CHAIN MANAGEMENT**
(3-0-3)
Prerequisite: completion of MGMT 301 with a grade of C or higher | F
This course examines the planning and management of the production and distribution of goods and services as an integrated process which connects suppliers, producers, retailers and the transportation system. Different components of this process are analyzed sequentially, including location choice, distribution system design, selection of suppliers and distributors, contracting issues, partnership formation, inventory policies, production plans and electronic data interchange.
MGMT 461 | MANAGING CHANGE AND INNOVATION (3-0-3)
Prerequisite: MGMT 313 | F, S, SI
The world is a constantly changing place. Once accepted ways of doing business often fail to provide organization much needed growth. Organizations that do not successfully innovate and adapt to their new environments, grow old and weary and die. The history of business is replete with examples of once successful companies that fail and a few that managed to innovate and change. Contrary to what many think it is not the creative new idea but it is the execution of the idea that poses the biggest hurdle. It is vital and interesting to know what specific challenges successful established organizations face to execute innovative and change ideas. In this class we will focus on these challenges through our readings and analyses of several case studies.

MGMT 491 | SPECIAL TOPICS IN MANAGEMENT (3-0-3)
Prerequisite: Senior status or approval of the Chair | Upon demand
This course is a critical study of theory and research related to selected topics in management. The specific topics of this course will be determined by the interests of the students and the instructor.

MGMT 499 | STRATEGIC MANAGEMENT (3-0-3)
Prerequisites: Senior status and completion of all Business Foundation and Core courses, and at least three required Major Electives | F, S, SI
This course introduces students to the elements of the strategic management theory and process including environmental analysis; internal analysis and diagnosis; generic strategy alternatives; strategic choice; and implementation.

MKTG 301 | PRINCIPLES OF MARKETING (3-0-3)
Prerequisite: BUSI 101 | F, S, SI, SII
This course will expose you to the fundamentals of marketing concepts and provide insights into how these concepts are applied by practitioners in the real world. It is designed to give you an overview of basic marketing theory and to introduce you to the elements of marketing practice through topics such as buyer behavior, marketing research, developing marketing goods and services, pricing, distribution, and promotion. Students must receive at least a C grade in this course in order to register for additional Marketing Major courses.

MKTG 311 | SALES MANAGEMENT (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | F, S
The course is designed to equip students with a theoretical and practical understanding of effective sales management. Students will be furnished with the skills necessary to manage a sales department efficiently. Students will learn how to set selling objectives, to design marketing policies and selling strategies, to organize sales departments for firms of varying size, to coordinate a sales force, to recruit and train sales people, and to analyze markets from a sales perspective.

MKTG 321 | RETAIL MANAGEMENT (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | F, SI
The course offers challenging opportunities for those who choose a management level career in the retail business area. It introduces students to the many diverse forces that exert their influence over the retail trade industry. The course covers basic concepts and methods of retail management. It also exposes students to current retail practices and various retailing career opportunities.
MKTG 361 | MARKETING RESEARCH (3-0-3)
Prerequisites: QUAN 201 and completion of MKTG 301 with a grade of C or higher | F, S
The course will enable students to systematically study, conduct, and evaluate marketing research activities within a firm. Students will be exposed to survey planning, questionnaire construction, interviewing, data collection, data analysis, demand analysis and forecasting, and population sampling procedures.

MKTG 371 | E-MARKETING (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | F, S
The purpose of this course is to extend marketing theory and management to the e-business environment. The course will cover recent developments in e-marketing technologies, e-marketing strategies, the segmentation of e-markets, e-marketing communication and promotion, new product development and pricing policy in e-markets, and performance evaluation for the marketing function of the e-business firm.

MKTG 401 | CONSUMER BEHAVIOR (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | F, S
The emphasis of this course is on the descriptive and conceptual analysis of consumer buying behavior with a focus on the theory and research essential to the understanding of individual choice behavior.

MKTG 411 | SERVICES MARKETING (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | S
The course will enable students to focus on the unique challenges of managing services and delivering quality service to customers. It will discuss how services are different from physical products, why they are different, and what strategies result from these differences. Students will appreciate the attraction, retention, and building of strong customer relationships through quality service and will recognize this as the foundation for a strong customer relationship management.

MKTG 421 | INTERNATIONAL MARKETING (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher | S, SI
The course incorporates marketing concepts into the framework of the world market place and international business. Students will be exposed to key global topics such as market segmentation; international physical distribution, pricing, and product life cycle; and regulations and embargoes and their effects on international marketing strategy.

MKTG 471 | STRATEGIC MARKETING MANAGEMENT (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher and senior status or approval of the Chair | F, S
The course enables students to view the marketing function of an organization from a strategic point of view. Planning, decision-making, implementation of product/price, promotion, advertising, and distribution and other management issues are discussed as they relate to market segmentation, consumer behavior and marketing communications. The course is based on case studies and product analyses.
MKTG 491 | SPECIAL TOPICS IN MARKETING (3-0-3)
Prerequisite: completion of MKTG 301 with a grade of C or higher and senior status or approval of the Chair | Upon demand
This course is a critical study of theory and research related to selected topics in marketing. The interests of the students and the instructor will determine the specific topics of this course.

NYST 275 | NEW YORK STUDY TOUR (3-0-3)
Prerequisites: sophomore status; ENGL 101 and COMP 101 | Upon demand
Students spend an action packed week studying in the “Big Apple.” From the bright lights of Broadway to the world famous art museums throughout the city, students will find the trip a valuable learning experience. Students and faculty visit various design houses and business firms. This gives students the opportunity to interact with some of the most successful people in the industry. The group also attends a Broadway production. For those students who obtain the Provost’s approval to take this course as a Professional Elective (or equivalent) in their major, a discipline-specific code will substitute the NYST on the student’s transcript (e.g., BUSI, IDES, VICD.)

PHIL 201 | INTRODUCTION TO PHILOSOPHY/LOGIC (3-0-3)
Corequisite: ENGL 102 | F, S, SI
This course is a survey of fundamental problems in several major divisions of philosophy, such as axiology, logic, philosophy of religion, epistemology and metaphysics. This course offers an overview of the basic aims, approaches and types of issues in philosophy, while enabling students to explore the place of philosophy in the development and justification of personal values.

PHIL 222 | PROFESSIONAL ETHICS (3-0-3)
Prerequisite: ENGL 102 (not open to students who have previously been granted credit for BUSI 211) | F, S, SI
This course discusses professional workplace responsibility within the context of meta-ethics and applied ethics. Specific topics include professional interests of clients and employers, safety and liability, public welfare, whistle-blowing, and legal obligations. It also reviews professional codes of ethics and examines case studies involving professional ethics.

PHIL 310 | ETHICS AND MORAL PHILOSOPHY (3-0-3)
Prerequisite: PHIL 201 | S
This course offers an introduction to the history of moral philosophy and an exploration of contemporary ethical debates. Through the reading of various foundational texts, both ancient and modern, this course provides an overview of the basic aims, approaches, and types of moral reasoning. Emphasis is on placing debates within a global context and encouraging students to develop their own philosophical perspectives.
PHIL 320 | METAPHYSICS AND THE STUDY OF HUMAN EXISTENCE (3-0-3)
Prerequisite: PHIL 201 | F
This course provides the study of human existence through metaphysics – the branch of philosophy concerned with questioning “What is real?” Through the reading of foundational texts, both ancient and modern, this course offers a detailed assessment of the history and development of metaphysical inquiry and its relevance to significant, contemporary philosophical questions. Emphasis is on placing significant philosophical questions in a broad human context and encouraging students to develop their own philosophical perspectives.

PHOT 201 | PHOTOGRAPHY I (0-4.5-3)
Prerequisites: ARTS 200, completed Foundation, Corequisites: ARTS 201, VICD 206 | F
An intensive exploration of photography as an expressive medium. Initially, specific assignments introduce students to basic camera and darkroom operations; students will then take on more extended problems requiring self-direction. Non-manipulation of subject and the traditional 'found moment' are emphasized. A final portfolio is required for this course.

PHOT 202 | HISTORY OF PHOTOGRAPHY (3-0-3)
Prerequisites: ARTS 201, PHOT 201, VICD 206, Corequisites: PHOT 251, VICD 207 | S
This course is a survey of 19th and 20th century photography, emphasizing its relation to aesthetic and cultural practices and values, as well as technical developments that have shaped the nature of the photographic image. Emphasis will be given to the diverse uses of photography such as the illustrated press; amateur photography; advertising, and fashion photography; political/social photography; educational and documentary photography; and photography as a medium of artistic expression.

PHOT 251 | PHOTOGRAPHY II (0-6-4)
Prerequisites: ARTS 201, PHOT 201, Corequisites: PHOT 251, VICD 207 | S
This course introduces archival black and white printing techniques, advanced film studies, and advanced darkroom skills. Slides presentations and readings in photographic history and criticism will be included as well as weekly student critiques. A final portfolio is required for this class.

PHOT 252 | STUDIO I (0-6-4)
Prerequisites: PHOT 202, PHOT 251, VICD 207, Corequisite: PHOT 351 | F
This course will cover a multitude of lighting techniques used in photography, including natural lighting, flash lighting, portable lighting, and low lighting. The practices and principles involved in commercial photography will be reviewed, as well as the functions of the medium format camera.

PHOT 350 | PHOTOGRAPHY FOR DESIGNERS (0-6-4)
Prerequisites: GRAD 251, VICD 207 | S
This course introduces students to the basic principles of professional standard digital photography with an emphasis on the effective use of photographic imagery in design-based work. Students will learn how to operate SLR digital cameras and manipulate imagery utilizing contemporary digital imaging. This course will challenge aspiring young creative’s to employ photographic images in a subtle yet informed manner to create complex and persuasive visual messages.
PHOT 351 | PHOTOGRAPHY III (0-4.5-3)
Prerequisites: PHOT 202, PHOT 251, VICD 207, Corequisite: PHOT 252 | F
This course is a beginning digital color photography course. Topics covered will include: photo color theory, digital cameras, scanning, Adobe Photoshop, and archival ink jet printing. A final portfolio is required.

PHOT 352 | STUDIO II (0-4.5-3)
Prerequisites: PHOT 252, PHOT 351, Corequisite: PHOT 353 | S
This course will introduce the myriad of issues that surround studio portraiture. Large format photography will also be introduced and thoroughly reviewed. Printing will be done in black and white and in color.

PHOT 353 | PHOTOGRAPHY IV (0-6-4)
Prerequisites: PHOT 252, PHOT 351, Corequisite: PHOT 352 | S
This is an intermediate course in digital color photography. Students will be assigned projects that explore the limits to digital photography. Advanced Photoshop techniques, color management techniques, advanced digital output are some of the topics covered. A final portfolio is required for this course. Students will design projects highlighting their own unique interests.

PHOT 451 | STUDIO III (0-4.5-3)
Prerequisites: PHOT 352, PHOT 353 | F
This course focuses on the potential of constructed narrative in photography. The limits to telling the truth, as a visual representation, will be tested. Alternative forms of production and display are encouraged. Students will create their own study topics.

PHOT 452 | CONTEMPORARY TRENDS IN PHOTOGRAPHY (0-4.5-3)
Prerequisite: PHOT 451 | S
This course will introduce photography majors to a wide variety of issues and approaches relevant to current photographic practice. The topic covered in this class will change each semester dependent upon the latest trends in the global photographic community. Sample topic areas include, advanced digital manipulation, pseudo-documentary photography, large format photography, and video based photography. A final portfolio is required.

PHOT 456 | PHOTOJOURNALISM (0-4.5-3)
Prerequisite: PHOT 451 | Upon demand
This class is an actual functioning design studio. The students will work on in-house and real life projects for community groups, charity group and non-profit organizations. The class gives the student practical experience and published portfolio pieces.

PHOT 478 | INTERNSHIP IN PHOTOGRAPHY (3-0-3)
Prerequisites: All Design Core and all Photography Major, Corequisite: PHOT 452 | F, S, SI
Students spend 25+ hours/week employed by a photographer or photography studio. Under the joint supervision of the Chair and their supervisor in the workplace, the student’s progress against a skills inventory tailored to their chosen field of specialization. Grade assessment is influenced by the supervisor’s evaluation of the student as a potential entry-level employee.

PHYS 201 | INTRODUCTORY PHYSICS I W/ LAB (3-3-4)
Corequisite: MATH 210 | F, S, SI
Motion in two and three dimensions, Newton’s laws, concepts of energy and
potential, rotation, Gravitational fields, statics, fluid dynamics and thermodynamics.

**PHYS 202 | INTRODUCTORY PHYSICS II W/ LAB (3-3-4)**
Prerequisites: PHYS 201, MATH 210 | *F, S, SI*
Mechanical waves, electrostatics and electrodynamics, DC and AC circuits, Maxwell’s equations, properties of light including interference and diffraction.

**POLS 200 | INTRODUCTION TO POLITICAL SCIENCE (3-0-3)**
Prerequisite: ENGL 102 | *F, SI*
This course provides students with an overview of contemporary political issues and strategies for examining them. The course discusses various ways groups of people have tried to govern themselves justly and effectively. Focus is on practical as well as theoretical explanations of different political systems and ideologies.

**POLS 201 | COMPARATIVE POLITICAL SYSTEMS (3-0-3)**
Prerequisite: POLS 200 | *F (even years)*
This course is a broad overview of various current political structures, some at different points of development, in representative nations in the world outside of the United States. Special emphasis is placed on political theory. Political systems may include democracies (established and developing), authoritarian regimes, and religious-based political systems.

**POLS 320 | THE UNITED NATIONS (3-0-3)**
Prerequisite: POLS 200 | *S (odd years)*
This course provides information to students about the historical development and current status of the United Nations. Discussion centers around the various branches of the UN and their effectiveness in addressing serious on-going global concerns. The course ultimately focuses on the future relevance of the UN and its contributions to global governance and cooperation.

**POLS 325 | INTERNATIONAL ORGANIZATIONS (3-0-3)**
Prerequisite: POLS 200 | *F (odd years)*
This course introduces students to the roles various international organizations play in the overall attempts to address various global issues. The first half of the course is dedicated to intergovernmental organizations (IGOs); the second half focuses on non-governmental organizations (NGOs). Discussions revolve around organizations which target similar global issues.

**POLS 401 | CONTEMPORARY POLITICAL ISSUES (3-0-3)**
Prerequisites: POLS 200, ANTH 201, ECON 201, HIST 252 | Upon demand
This seminar-style course asks students to explore current issues in politics. The primary focus of the course is politics, but all students are expected to look at the historical, business, and cultural factors involved as well. The course is designed to allow students to explore a primary area of interest while maintaining the interrelationships of all major areas of the BAIS degree. This course is also open to non-BAIS students.

**PRIN 201 | PRINTMAKING I (0-6-4)**
Prerequisite: DESI 205 | *S*
This introductory course explores various forms of traditional and contemporary printmaking, with emphasis on practical and historical knowledge of the tools and materials used in the production of the serial or multiple in art.
PRIN 202 | PRINTMAKING II (0-4.5-3)  
Prerequisite: PRIN 201 | S  
This course explores traditional and contemporary intaglio and relief printmaking practices. With emphasis given on technical problem solving and self-expression within the printmaking genre.

PSPK 101 | PUBLIC SPEAKING (3-0-3)  
Prerequisite: ENGL 102 | F, S, SI, SII  
This course develops confidence and poise in the public speaker. Students learn to 1) apply current developments in communications and social psychology as they prepare narrative, persuasive, informative and descriptive speeches, and 2) demonstrate understanding of the interaction between speaker, speech and audience.

PSYC 201 | GENERAL PSYCHOLOGY I (3-0-3)  
F, S, SI, SII  
This course is designed to introduce students to the various theories and contributions in the field of psychology. It includes the topics of learning, memory, language development, perception, theories of emotion, personality theory, child development and social psychology.

PSYC 313 | SOCIAL PSYCHOLOGY (3-0-3)  
Prerequisite: PSYC 201 | S  
This course is intended to introduce the students to the basic concepts and topics in the field of social psychology. Topics in this course include the social self, attitudes and persuasion, attribution theory, groups, prosocial behavior and altruism, attraction, nonverbal communication, aggression, prejudice and discrimination, the impact of the environment on behavior, social psychology, and the legal system, and social psychology of health.

PSYC 415 | PSYCHOLOGY OF ADVERTISING AND MASS MEDIA (3-0-3)  
Prerequisite: PSYC 201 | S  
This course examines the role of mass media and the effects of advertising in issues of sex roles, sexual attitudes and violence. Emphasis is placed on behavioral, psychological, and physiological reactions on the acquisition of imitative response.

QUAN 201 | INTRODUCTION TO BUSINESS STATISTICS (3-0-3)  
Prerequisite: MATH 160 | F, S, SI, SII  
This foundation course in descriptive and inferential statistics is inclusive of probability, discrete and continuous distributions, correlation and linear regression, confidence intervals and hypothesis testing.

QUAN 301 | QUANTITATIVE METHODS FOR DECISION-MAKING (3-0-3)  
Prerequisite: QUAN 201 | F, S, SI  
This is an advanced course in the quantitative techniques used in managerial decisions. Building upon foundation coursework in statistics, students participate in advanced applications of deterministic and probabilistic models of decision theory, linear programming, simulation, and dynamic programming.

SCIE 201 | NATURAL SCIENCES FOR TODAY (3-0-3)  
Corequisite: ENGL 101 (students will not receive credit for both BIOL201 and SCIE201) | F, S, SI  
This course introduces students to basics of life sciences including topics that address health and disease, the diversity of life on Earth, and the environment. The course integrates current issues to teach biological concepts. Topics covered include cellular structure, dietetics, genetics in health and disease, evolutionary relationships and
environmental sciences. This course is designed to fulfill the Arts and Sciences requirement in Natural Sciences for all students who are non-Engineering majors.

**SCIE 311 | PRINCIPLES OF ENVIRONMENTAL SCIENCES (3-0-3)**
*Prerequisite: SCIE 201 or BIOL 201, ENGL 102, MATH 111 or higher | S*
This course is designed to introduce students to the basic principles of environmental sciences. The course will cover important environmental themes such as biodiversity, environmental conservation, population issues, pollution, waste management strategies, and sustainable development. Students will have an opportunity to examine contemporary environmental issues and international environmental policies which directly impact their lives.

**SCIE 341 | PUBLIC HEALTH (3-0-3)**
*Prerequisite: SCIE 201 or BIOL 201, ENGL 102, MATH 160 | Upon demand*
This course introduces public health as an interdisciplinary science concerned with topics central to the health of populations and their physical, mental, and social well-being. The course focuses on current pertinent public health problems, assessing causation and examining intervention and management strategies from personal, social, and organizational levels.

**SCUL 201 | SCULPTURE I (0-6-4)**
*Prerequisites: DESI 202, DESI 204 | F*
Sculptural concerns of mass, volume, scale, line and plane are explored in naturalistic and abstract formats. Students will work with clay, plaster, wood and metal. Issues pertaining to site-specific sculpture, assemblage and installation will also be addressed.

**SCUL 202 | SCULPTURE II (0-4.5-3)**
*Prerequisite: SCUL 201 | F*
This course emphasizes the development of a personal style utilizing traditional sculptural methods and materials. The course also incorporates a series of lectures that introduce contemporary trends in sculptural practice.

**SOCI 101 | INTRODUCTION TO SOCIOLOGY (3-0-3)**
*F, S, SI*
This introductory course to sociology provides students with an understanding of how individuals within various societies interact both as individuals and as members of various groups within those societies. The course examines what motivates individuals to form and belong to groups, and how those groups affect change within a given society. The course also examines unequal power relationships between different groups in a given society.

**SOCI 217 | CROSS-CULTURAL RELATIONS (3-0-3)**
*Prerequisite: SOCI 101 | F, SI*
This sociology course examines the dynamics of communication and understanding between cultures and nations. It employs a linguistic and anthropologic approach to solving the universal problems of ethnocentrism and cultural misinterpretation. The course explores the basic structure of language and the roles which syntax, semantics and kinesics play in successful cross-cultural communication. It introduces the
anthropological concept of cultural diversity and provides the student with practical insight into how to overcome those perceptual barriers, which often hinder people from appreciating the cultural point of view of others.

**SOCI 340 | TECHNOLOGY AND SOCIETY (3-0-3)**
*Prerequisite: SOCI 101, ENGL 102 | S*
This course examines the complex nature of the relationship between technological advancements and the societies in which those advancements take place. The primary focus of the course will be the technological advancements which have taken place between the middle of the 20th century and the present day. Discussion will focus on the societal effects of the most recent technological developments. Among other areas, the course focuses on significant technological advancements in the fields of energy, health, war, the environment, and communication.

**SPAN 101 | ELEMENTARY SPANISH I (3-0-3)**
*F, S, SI*
Long recognized for its cultural significance, the Spanish language continues to grow in importance in the design and business communities. This course provides students with oral and written approaches to beginning Spanish grammar skills. Individual daily work with language tapes is an essential part of the program.

**SPAN 102 | ELEMENTARY SPANISH II (3-0-3)**
*Prerequisite: SPAN 101 or equivalent | S, SI*
This course is a continuation of Spanish 101, with expansion of vocabulary and possibilities of expression.

**SPAN 201 | INTERMEDIATE SPANISH I (3-0-3)**
*Prerequisite: SPAN 102 or equivalent | F, SI*
This course continues the development of Spanish language and culture from SPAN 102, using an oral and written approach to advance Spanish grammar and conversation, with emphasis on communication skills.

**SPAN 202 | INTERMEDIATE SPANISH II (3-0-3)**
*Prerequisite: SPAN 201 or equivalent | S, SI*
This is a continuation of SPAN 201, featuring practice in speaking, reading and writing with emphasis on cultural and literary readings, composition and grammar review. This completes the series of four language courses where the aim continues toward a higher level of language acquisition to maximize each student’s language skills.

**STUD 401 | STUDIO ART: SEMINAR (3-0-3)**
*Prerequisites: SCUL 202, PRIN 202, VICD 211, ARTS 201, PHOT 251, Corequisite: ADST 401 | F*
This seminar course provides the opportunity for students of various studio practices to discuss traditional and contemporary issues in art theory and practice, with the view of informing their own art making. Visual material, directed readings, exhibitions and studio visits, and invited speakers will present the issues, and students will respond through in class dialog, written work, and presentations.

**STUD 402 | STUDIO ART: THESIS (3-0-3)**
*Prerequisite: STUD 401, Corequisite: ADST 402 | S*
This course will culminate in an extensive written work that describes the influences,
intentions, and explains the conceptual and formal choices of the individual student regarding their personal body of work as it has evolved through Advanced Studio I and II.

**UNIV 100 | THE UNIVERSITY EXPERIENCE**

(1-0-0)

_ F, S, SI_

This course serves as students’ introduction to American university life. The content of the course is designed to give students an understanding of how a modern American university functions, their role as students at the university, and the most important skills involved in successfully fulfilling that role. These skills include critical thinking, problem solving and conflict resolution strategies. Students are introduced to many of the academic skills and philosophies which will ultimately be developed to higher levels in specific required and major courses.

**VICD 206 | COMPUTER GRAPHICS I**

(0-4.5-3)

_Prerequisites: ARTS 200, DESI 202, DESI 205 | F, S_

Through lecture, demonstration and practical experience the course covers the basics of page layout programs and image handling, utilizing various DTP software programs.

**VICD 207 | COMPUTER GRAPHICS II**

(0-4.5-3)

_Prerequisite: VICD 206 | F, S_

In this course the student learns advanced image and graphic manipulation, the transfer of files between programs (using EPS, Tiff, and Pict formats), color and resolution theory—a fully integrated system of design exploring the possibilities of the sophisticated equipment and design software.

**VICD 210 | PAINTING I**

(0-6-4)

_Prerequisites: DESI 203, DESI 204 | S_

Taught from a fine arts perspective, this course introduces students to contemporary and traditional painting techniques and studio practices. Nearly all of the assignments consist of painting from sight, beginning with black and white, and include still-life, landscape, and the figure.

**VICD 211 | PAINTING II**

(0-4.5-3)

_Prerequisite: VICD 210 | F_

Building upon their formal understanding of painting, each student will be encouraged to pursue a more personal approach to the development of imagery as means of expression. Formal skills will be enhanced through the study of more complex subject matter including the figure. Approaches of 20th century painters will be examined.

**VICD 251 | TYPOGRAPHY I**

(0-6-4)

_Prerequisites: ARTS 200, completed Foundation, Corequisite: ARTS 201 | F_

Developing sensitivity towards the use of varied lettering and typographic forms is an essential foundation for visual communication students. This course encourages a broad, creative approach to the subject, as well as explaining the history and methodology of modern typography and lettering in practical terms.

**VICD 252 | GALLERY MANAGEMENT**

(3-0-3)

_Prerequisite: completed Foundation | S_

This course will provide students with the knowledge and training necessary to manage and operate exhibitions in public and private galleries, public spaces, and alternative sites. Topics covered include gallery design, art sales, art and gallery marketing, precious object care and handling. Students will be asked to manage and operate the Visual Communication Gallery at AUD during their enrollment at which time they will practice how to plan for, install, and document artwork.
VICD 351 | TYPOGRAPHY II (0-4.5-3)
**Prerequisites:** GRAD 202, GRAD 251, VICD 207, VICD 251, Corequisite: GRAD 351 | F
This course introduces students to the various historical developments of type design and technical developments through a series of slide presentations and projects. The course will focus on the understanding of style and design detail both in relation to cultural/art contexts and technical possibilities. The course develops an understanding of structure and engineering of type within design. The concern will be with compositional thinking through examination of various historical publications.

VICD 358 | SPECIAL TOPICS IN VISUAL COMMUNICATION I (0-4.5-3)
**Prerequisites:** junior status and approval of the course instructor | SI
In consultation with their Chair, the students or a faculty member will choose a design project which involves a particular aspect of visual communication. The specific interests of both the students and the instructor will determine the actual course content.

VICD 361 | PERFORMANCE AND INSTALLATION STUDIO (0-6-4)
**Prerequisites:** VICD 207, GRAD 251 | F
This course introduces the student to a broad range of performance forms and installation art. Students will investigate the content and concepts of the physical self and its relationship to space, audience, technology, and society. Students are encouraged to engage in collaborative and group work and to experiment in developing individual aesthetic sensibilities. Assignments provide an introduction to the fundamental tools and techniques of these art forms.

VICD 412 | PAINTING III (0-4.5-3)
**Prerequisite:** VICD 211 | Upon demand
In this course students pursue a more personal approach to the development of imagery as a means of expression. Both representational and non-representational subject matter may be pursued, including painting on location. Painting as a process from studies to finished works will be emphasized, with consideration given to presentation, exhibition, and marketing of work.

VICD 450 | COMMUNITY SERVICE WORKSHOP (3-0-3)
**Prerequisites:** junior status and approval of the course instructor | Upon demand
This class is an actual functioning design studio. The students will work on in-house and real life projects for community groups, charity group and non-profit organizations. The class gives the student practical experience and published portfolio pieces.

VICD 451 | TYPOGRAPHY III (0-6-4)
**Prerequisites:** VICD 351, GRAD 351, Corequisite: GRAD 451 | S
This course will be concerned with creating a personal style and the bringing together of all relevant typographic elements and skills. The course will focus on type design and the technological aspects of digital font development software (with special emphasis on Arabic and/or non-Latin fonts).

VICD 453 | PRODUCTION DESIGN (0-4.5-3)
**Prerequisites:** GRAD 351, VICD 351 | F
In this course, the student will be introduced to the various production techniques used in graphic design. The understanding of both manual and computer-aided procedures will
enlighten each student to the production phase which is important to the execution, presentation and publication of final designs.

**VICD 455 | SENIOR PROJECT (0-6-4)**
*Prerequisite: approval of the Chair | F*
Senior design project is a comprehensive project, which is designed to evaluate the student’s ability to perform on a professional level. It is an individual project that utilizes all the skills the student has learned during the duration of their education in the program. Proper execution of the project will determine if the student is ready to enter and compete in his or her chosen discipline.

**VICD 456 | BUSINESS PRACTICES AND FINAL PORTFOLIO (3-0-3)**
*Prerequisite: Senior status | F, S*
This course is a capstone class that examines the professional environment of the graphic designer/commercial artist. It offers a framework for understanding the career structures, job responsibilities and employment opportunities (including how to establish freelance practice) within the working field. With the background knowledge gained through the series of explanatory lectures, advice from guest speakers from the industry and visits to working studios and agencies, the student is well prepared to make informed decisions about his or her future career plan. The class, is also teaches the student how to present hardcopies (print) of his or her artwork in a creative professional manner that will show a prospective employer what a student can offer them. Proper completion of the portfolio and collateral materials will determined if the student is ready to enter and compete in his or her chosen discipline.

**VICD 458 | SPECIAL TOPICS IN VISUAL COMMUNICATION II (0-4.5-3)**
*Prerequisites: junior status and approval of the course instructor | SI*
In consultation with their Chair, the students or a faculty member will choose a design project which involves a particular aspect of visual communication. The specific interests of both the students and the instructor will determine the actual course content.

**VICD 499 | SENIOR PORTFOLIO (0-9-6)**
*Prerequisite: Senior status | S*
This senior portfolio course has three aims. First, students are required to create and execute a professional project within their discipline. Second, they will construct a professional portfolio composed of their best projects. Third, they will investigate the professional practices within their field in preparation for entering the workplace.

**VIDE 252 | INTRODUCTION TO VIDEO PRODUCTION (0-4.5-3)**
*Prerequisites: VICD 207, GRAD 251 | F*
This course functions as an introduction to video. Students will learn to use current software, techniques, and equipment and begin to think about sound and sequence with their moving images while developing video projects. Students will gain a beginning understanding of the history of video.

**VIDE 262 | INTRODUCTION TO SOUND (0-4.5-3)**
*Prerequisites: VICD 207, GRAD 251 | S*
This course functions as an introduction to sound design. Students will learn the basic
principles of acoustics, sound recording and production as well as a beginning understanding of theories and history of sound design. Through projects, students will explore aspects of sound design for a wide range of media.

VIDE 352 | INTERMEDIATE PROJECTS IN VIDEO (0-4.5-3)
Prerequisite: VIDE 252 | F
This course functions as an intermediate video class, providing the student with a chance to experiment with the many iterations of video. Through projects, screenings and readings students will explore video in both linear and non-linear formats. Students will gain a strong understanding of the cultural context of video.

VIDE 362 | ADVANCED SOUND DESIGN STUDIO (0-4.5-3)
Prerequisite: VIDE 262 | Upon demand
In Advanced Sound Design Studio students will experiment with sound design techniques and technologies. Projects will explore the ideas of sound aesthetics and emotive influence while allowing for experimentation in execution and installation. Students will gain a strong understanding of the cultural context of sound design.

VIDE 452 | ADVANCED VIDEO PRODUCTION (0-4.5-3)
Prerequisites: VIDE 352 | Upon Request
This is an advanced video class in which the student will work independently on self-defined projects. Students will work with the technical and experimental foundation they have built in order to create advanced level video projects. Off campus presentations of projects is expected.

WEBD 201 | FUNDAMENTALS OF WEB DESIGN (0-6-4)
Prerequisites: VICD207, VICD251 | S
This course introduces many of the basic concepts, issues and techniques related to designing and developing Web sites. During the course, students will learn about Design specifically for the Web, image processing, navigation, and information architecture. Students will learn how to create Web sites manually and with the use of popular Web design software.

WEBD 351 | DESIGN CONCEPTS FOR THE WEB (0-4.5-3)
Prerequisites: WEBD 201 | F
In this course students will apply the fundamentals covered in WEBD201. This course offers the opportunity for students to experiment with the web and its far reaching potential as both a space for both artistic and commercial practice. Students will gain a strong understanding of the social and cultural contexts of the web.

WEBD 451 | ADVANCED WEB TECHNIQUES (0-4.5-3)
Prerequisites: WEBD 351, IMED 251, VIDE 252 | F
The intent of this course is to provide a self-guided experience that integrates the material contained in required courses of the Digital Media major. Through this course students will be expected to explore the use of video, animation, and sound into static and dynamic Web sites. Special focus will be placed on experimentation of innovative processes.

WEBD 455 | WEB DEVELOPMENT (0-4.5-3)
Prerequisite: WEBD 351 | Upon demand
This course provides an introduction to many of the basic programming languages that are
integral to all mid-to-large web development projects. Emphasis is placed on identifying the correct programming languages for specific jobs and specific server configurations.

**WLDC 201 | WORLD CULTURES I (3-0-3)**
Prerequisite: ENGL 102 | F
A survey of the culture, ideas, and values of human civilization from their origins in Prehistory to the 17th Century. Emphasis is on the intellectual and artistic achievements of the ancient Middle East, Classical Greece and Rome, the Christian and Arab/Islamic Middle Ages, and Renaissance Italy showing how culture reflects and influences economic, social, and political development. Students are exposed to the creative process by reading from primary works of literature and philosophy and critically reviewing works of art, music, theater and dance, both in and out of class.

**WLDC 250 | MUSIC TRADITIONS OF THE WORLD (3-0-3)**
Prerequisite: ENGL 102 | Upon demand
This course provides students with an understanding of the fundamental tenets of music. Students then apply this understanding to various traditional musical styles from throughout the world. The majority of these musical styles are from non-Western cultures.

**WLDC 301 | RELIGIONS OF THE WORLD (3-0-3)**
Prerequisites: WLDC 202 | Upon demand
This course surveys all of the most widely recognized (practiced) global religions (Buddhism, Christianity, Hinduism, Islam, and Judaism) as well as other, more regionally located religions (i.e., Jainism, Shinto, Zoroastrianism). Readings from various sacred texts are explored. The course also examines what is/is not traditionally regarded as a “religion.” Also explored is the interconnection between religion and the culture(s) with which they are most closely associated.

**WLDC 401 | CONTEMPORARY CULTURAL ISSUES (3-0-3)**
Prerequisites: POLS 200, ANTH 201, ECON 201, HIST 252 | Upon demand
This seminar-style course asks students to explore current issues in culture. The primary focus of the course is culture, but all students are expected to look at historical, political, and business factors involved as well. The course is designed to allow students to explore a primary area of interest while maintaining the interrelationships of all major areas of the B.A.I.S. degree. This course is also open to non-B.A.I.S. students.
nspired educators and practitioners in the business and professional communities comprise AUD's international faculty. Faculty members, in addition to having appropriate academic credentials and contributing to knowledge in their disciplines, often are or have been actively involved professionals. Students and faculty share a close and special bond which comes from dedication and commitment to a discipline and its associated professions.

Khaldoun Ababneh, Assistant Professor of Management
Ph.D. (2008), McMaster University; M.B.A., Tennessee State University; M.P.A., Tennessee State University; B.A., Yarmouk University

Joan Abdallah, Adjunct Instructor in Social Sciences
M.S.W. (1986), Sacramento State University; B.S., University of the Pacific

Kamal Abdel-Malek, Professor of Arabic Literature
Ph.D. (1992), McGill University; M.A., McGill University; B.A., Simon Fraser University

Chafik Abid, Associate Professor of Decision Sciences
Ph.D. (2005), Laval University; Graduate Diploma, Laval University; M.B.A., Laval University; B.Sc., Université du Sud (SFAX, Tunisia)

Shadi Abouzeid, Associate Professor of Decision Sciences
Ph.D. (2000), University of Strathclyde; M.Sc., University of Strathclyde; B.B.A., American University of Beirut

Azhar Abu Ali, Adjunct Instructor in Psychology
Ph.D. (2003), California School of Professional Psychology; M.A., California School of Professional Psychology; B.A., George Washington University

Mohammed Abu-Ali, Associate Professor of Economics
Ph.D. (2003), George Mason University; M.A., George Mason University; M.A., Catholic University of America; M.A., Catholic University of America; B.S., La Roche College

Thana Alaaraji, Adjunct Instructor in Mathematics (Developmental)
M.Sc. (1979), Leeds University; B.Sc. (Hons), University of Baghdad

Moh’d Al-Azzam, Associate Professor of Economics
Ph.D. (2006), Louisiana State University; M.S., Louisiana State University; M.A., Eastern Michigan University; B.A., Mu’tah University
Alex Albani, Assistant Professor of Architecture and Interior Design  
M.Arch. (1994), University of California at Berkeley; M.A., University of California at Berkeley; B.Arch., City University of New York

Suzanne Albanus, Instructor in Art History  
Ph.D. (2000), James Cook University; B.Ed., Murdoch University; B.A., Murdoch University

Nadera Al-Borno, Adjunct Instructor in Computing Science  
M.Sc. (1986), Imperial College, University of London; B.S., Kuwait University

Mulhim Al-Doori, Associate Professor of Computing Science  
Ph.D. (1995), Edinburgh University; M.Sc., Hull University; Post-graduate Diploma, Strathclyde University; B.Sc., Glasgow University

John Alexander-Smith, Professor of Architecture and Interior Design  
Ph.D. (1989), University of Aberdeen; D.A., Robert Gordon University; B.Sc., Robert Gordon University

Sandra K. Alexander, Assistant Professor of Humanities  
Ph.D. (2002), University of Oxford; M.Phil., University of St. Andrews; B.A., University of California at Irvine

Hala Al Madfai, Adjunct Instructor in Interior Design  
M.A. (2001), Auckland University of Technology; B.A., University of Baghdad

Sherine Amer, Adjunct Instructor in Civil Engineering  
M.Sc. (1993), Cairo University; B.Sc., Cairo University

Amal Amleh, Assistant Professor of Mathematics  
Ph.D. (1998), University of Rhode Island; M.S., University of North Carolina; B.S., Bethlehem University

Alaa K. Ashmawy, Dean of the School of Engineering and Professor of Civil Engineering  
Ph.D. (1995), Purdue University; M.S.C.E., Purdue University; B.Sc. (Hons), Alexandria University

Wassim Bahr, Assistant Professor of Architecture and Interior Design  
Ph.D., Università degli Studi di Firenze; Laurea, Università degli Studi di Firenze

Shahin Bahrami, Associate Professor of Management  
D.B.A. (1985), George Washington University; M.S., George Washington University; B.S., North Carolina State University

Maaz Barakat, Adjunct Instructor in Accounting  
M.B.A. (1986), American University of Beirut; B.A., American University of Beirut; C.P.A., State of California

Sharad Barkataki, Chair of Management and Assistant Professor of Management  
Ph.D. (2006), Purdue University; M.S., Purdue University; B.A., University of Minnesota

Wael Bazzi, Assistant Professor of Electrical and Computer Engineering  
Ph.D. (2004), University of Waterloo; M.E., American University of Beirut; B.E., American University of Beirut
Eric Benson, Associate Professor of Decision Sciences
Ph.D. (1994), University of Maryland; M.A., University of Maryland; M.S., North Carolina State University; B.Sc., University of Liberia

Jinane Mounsef Biri, Instructor in Electrical and Computer Engineering
Cand. Ph.D., Arizona State University; M.E. (2003), American University of Beirut; B.E., Notre Dame University

Steven Buigut, Chair of Finance, Accounting and Economics and Associate Professor of Economics
Ph.D. (2006), Georgia State University; M.A., Georgia State University; M.Phil., Moi University; B.Sc. (First Class Hons.), Egerton University (Kenya)

Luis Castañeda, Assistant Professor of Graphic Design
M.A. (2006), Post St. Joost Academy; B.F.A., Parsons School of Design

Rebecca Cathcart, Assistant Professor of Communication and Information Studies
M.A. (2007), New York University; B.A., Smith College

Carine Chadarevian, Adjunct Instructor in French
Ph.D. (2007), Université Lumière, Lyon 2; Maîtrise, Université Lumière Lyon 2; Diplôme D’Études Approfondies, Université Saint-Esprit de Kaslik; License, Université Saint-Esprit de Kaslik

Chadi R. Chamoun, Chair of Interior Design and Assistant Professor of Architecture and Interior Design
Ph.D.Arch.Des. (2009), University College London; M.Phil., University College London; M.Arch., State University of New York at Buffalo; B.Arch., Lebanese American University

Anna Maria Chehab, Instructor in English and Coordinator of the Center for English Proficiency (CfEP)
M.Ed. (2006), Framingham State College

Mohamed Nabyl Chenaf, Chair of Architecture and Associate Professor of Architecture and Interior Design
Ph.D. (1989), University of Nottingham; Degree in Architecture, EPAU (Algiers)

James Robert Clements, Assistant Professor of English
Ph.D. (2008), University of Cambridge; M.A., University College (London); B.A., University of Toronto

Catherine Cook, Assistant Professor of English
M.A. (1998), Concordia University; B.A. (Hons), Nipissing University

Kenneth Curtis, Assistant Professor of Visual Communication
M.F.A. (2007), West Texas A&M University; M.A., West Texas A&M University; B.S., Eastern New Mexico University

Kassim Dakhlallah, Assistant Professor of Finance
Ph.D. (2003), Claremont Graduate University; M.A., Florida International University; B.A., Florida International University

Evangelos Dedoussis, Associate Professor of Management
Ph.D. (1992), Griffith University; M.A., Waseda University; B.B.A., Athens University of Economics and Business

Jusri Eldin DeVries, Associate Professor of Interior Design
M.F.A. (1990), Michigan State University; M.A., Michigan State University; M.A., Michigan State University, B.I.A., Helwan University
Huma Ehtisham, Adjunct Instructor in Humanities  
M.Ed. (1997), University of Aberdeen; B.A., University of Notre Dame

Nadia Mousa Eliewat, Assistant Professor of Communication and Information Studies  
M.F.A. (2010), Red Sea Institute of Cinematic Arts; B.F.A., University of Jordan

Adnan El Nasan, Assistant Professor of Computer Science  
Ph.D. (2003), Rensselaer Polytechnic Institute; M.S., Rochester Institute of Technology; B.Sc., Jordan University of Science and Technology

Amira El Soussi, Adjunct Instructor in English (CfEP)  
M.Ed. (2007), Framingham State College; B.A., American University of Beirut

Hanaa El Sayed, Assistant Professor of Decision Sciences  
Ph.D. (2009), Okayama University; M.Sc., Alexandria University; B.Sc., Alexandria University

Hicham El Zabadani, Assistant Professor of Computer Science  
Ph.D. (2006), University of Florida; M.S., Lebanese American University; B.S., Lebanese American University

Albert Fakhoury, Assistant Professor of Architecture and Interior Design  
D.E.A. (1996), Lebanese University; D.E.S., Lebanese University

Dina Faour, Assistant Professor of Advertising (Creative)  
M.Digital.Des. (2006), Queensland College of Art; B.G.D., American University of Beirut

Assaad Farah, Assistant Professor of Management  
Ph.D. (2011), University of Bath; M.Sc., Concordia University; B.Eng., Concordia University

María García, Assistant Professor of Marketing Communications  
Ph.D. (2011), University of Missouri-Columbia; M.S., Florida International University; B.A., University of Illinois at Chicago

Tina Marie Gates, Adjunct Instructor in Arts and Sciences  
M.A. (1997), George Mason University; B.S., Southwest Missouri State University

Richard Gauvain, Assistant Professor of Middle Eastern Studies  
Ph.D. (2003), University of Glasgow; M.Th., University of Glasgow; B.D., University of Glasgow

Mohammad Ghanim, Assistant Professor of Civil Engineering  
Ph.D. (2008), Michigan State University; M.S., Michigan State University; B.Sc., An-Najah National University

Perri Giovannucci, Associate Professor of English  
Ph.D. (2005), University of Miami; M.A., Wayne State University; B.A., Wayne State University

Deniz Gökbalp, Assistant Professor of Social Sciences  
Ph.D. (2007), University of Texas at Austin; M.A., University of Texas at Austin; B.A., Koç University (Istanbul)

Cory Lowell Grewell, Assistant Professor of English  
Ph.D. (2008), Northeastern University; M.A., California State University at Bakersfield; B.A., The Master’s College

William Gueraiche, Assistant Professor of Social Sciences  
Ph.D. (1992), Université de Toulouse-Le Mirail; Maîtrise, Université de Toulouse-Le Mirail; Licence, Université de Toulouse-Le Mirail
Marcelo Guimarães Lima, Associate Professor of Art History  
Ph.D. (1988), University of New Mexico;  
M.F.A., University of New Mexico;  
M.A., University of New Mexico;  
B.A., Universidade de São Paulo

Eric Hart, Associate Professor of Mathematics  
Ph.D., (1986), University of Iowa;  
M.A., University of Washington;  
B.S., Boise State University

James Henry, Assistant Professor of English  
M.A. (1997), Cleveland State University;  
B.A., City College of New York

John Higgins, Assistant Professor of English  
Ph.D. (2011), University of California at San Diego;  
M.A., University of Chicago;  
B.A., Northwestern University

Fadi Haddad, Assistant Professor of Digital Production and Storytelling (effective, Spring 2012)  
M.F.A. (2010), The Red Sea Institute of Cinematic Arts;  
B.F.A., University of Jordan

Damien P. Horigan, Associate Professor of Business Administration  
LL.M, National University of Singapore;  
J.D., University of Hawaii at Manoa;  
M.A., University of New Brunswick;  
B.A., University of Hawaii at Hilo

Feras Hamza, Coordinator and Associate Professor of Middle Eastern Studies  
D.Phil. (2001), University of Oxford;  
M.Phil., University of Oxford;  
B.A. (First Class Honours), University of London

Samar Ibrahim, Adjunct Instructor in Arts and Sciences  
M.S. (2006), University of Maryland University College;  
B.S., American University of Beirut

Eric Hart, Associate Professor of Mathematics  
Ph.D., (1986), University of Iowa;  
M.A., University of Washington;  
B.S., Boise State University

Sara Kamal, Assistant Professor of Marketing Communications  
Ph.D. (2009), University of Texas at Austin;  
M.A., University of Texas at Austin;  
B.A., George Washington University

Mounir Karam, Adjunct Instructor in Civil Engineering  
M.S.C.E (1983), Wayne State University;  
B.S.C.E., Lawrence Technological University

Maya Iskandarani, Adjunct Instructor in Business Administration  
M.B.A. (1998), American University of Beirut;  
B.S., American University of Beirut;  
B.B.A., American University of Beirut

John Katsos, Assistant Professor of Business Administration  
J.D. (2011), George Washington University;  
M.B.A., George Washington University;  
B.A., Haverford College

Gail Sullivan Hammill, Assistant Professor of English  
Ph.D. (2002), University of Pittsburgh;  
M.A., University of Pittsburgh;  
B.A., University of Pittsburgh

Chuloh Jung, Associate Professor of Architecture  
Ph.D. (2007), Yonsei University;  
M.Arch I, Harvard University;  
M.Des.S. Harvard University;  
B.S., Yonsei University

Georges Kachaamy, Assistant Professor of Architecture  
Ph.D. (2007), University of Tokyo;  
Diplôme d’Études Supérieures, Académie Libanaise des Beaux-Arts (Université de Balamand)

Saman Ibrahim, Adjunct Instructor in Arts and Sciences  
M.S. (2006), University of Maryland University College;  
B.S., American University of Beirut

Samar Ibrahim, Adjunct Instructor in Arts and Sciences  
M.S. (2006), University of Maryland University College;  
B.S., American University of Beirut
Miriam Khalil, Instructor in Business Administration
M.S. (2005), Lebanese American University; B.S., Lebanese American University

Nilesh Khare, Assistant Professor of Management
Ph.D. (2010), Ohio State University; B.E., Malaviya National Institute of Technology (India)

Khalid Khawaja, Associate Dean of the School of Engineering and Associate Professor of Computer Science
Ph.D. (1995), Purdue University; M.S., Purdue University; B.S., Purdue University

Peiman Kianmehr, Assistant Professor of Civil Engineering
Ph.D. (2010), University of Waterloo; M.Sc., Mazandaran University; B.Sc., Shiraz University

Krassen Krestev, Associate Professor of Graphic Design
MDes. (2004), Royal Art Academy (The Hague); MDes., University of Brabant; Diploma, National Academy of Arts (Sofia)

Ronald Lackland, Assistant Professor of Accounting
Ph.D. (2009), Birmingham City University Business School; M.Sc., Birmingham City University Business School; P.G.C.E., Birmingham City University Business School; M.B.A., Franklin University; B.B.A., Mount Vernon Nazarene University

Sarah Lahti, Associate Professor of Visual Communication
M.F.A. (2000), University of Cincinnati; B.F.A., University of Cincinnati; B.Phil., Miami University

Louay Khraish, Assistant Professor of Communication and Information Studies
Ph.D. (2009), University of Texas at Dallas; M.S., The New School; B.F.A., University of North Texas

Annamaria Lambri, Assistant Professor of Architecture and Interior Design
M.A. (2001), Scuola Politecnica di Design (Milan); Laurea, Politecnico di Milano

Valerie Laux-Le Guyon, Assistant Professor of Physics
Ph.D. (1997), Université des Sciences et Technologies de Lille; D.E.A., Université de Rennes I; Maîtrise, Université de Rennes I

Dennis Lee, Assistant Professor of Marketing
Ph.D. (2007), University of Queensland; M.B.A., University of La Verne; B.Sc., The National University of Singapore

Gerald Legé, Dean of the School of Arts and Sciences and Associate Professor of Mathematics
Ed.D. (2003), Columbia University; M.A., Columbia University; A.B., University of California at Berkeley

Tarek Mady, Chair of Marketing and Marketing Communications and Associate Professor of Marketing
Ph.D. (2004), Old Dominion University; M.S., Louisiana State University; B.Sc., Alexandria University

Reza Khosravani, Chair of Electrical and Computer Engineering and Associate Professor of Electrical Engineering
Ph.D. (2000), University of Southern California; M.Sc., Sharif University of Technology; B.Sc., Sharif University of Technology

Salwa Khoury, Adjunct Associate Professor of Economics
Ph.D. (1987), University of California at Davis; M.A., University of Southern California; B.A., California State University; B.A., American University of Beirut
Zara Mahmood, Adjunct Instructor in Visual Communication
M.A. (2006), University College for the Creative Arts (Surrey); B.A., National College of Arts, Lahore, Pakistan

Sohaib Majzoub, Assistant Professor of Computer Engineering
Ph.D. (2010), University of British Columbia; M.E., American University of Beirut; B.E., Beirut Arab University

Tala Makhlouf, Instructor in Business Administration
M.Sc. (2000), Nottingham University; B.A., American University of Beirut

Lina Dajani Malas, Adjunct Instructor in Business Administration
M.B.A. (1990), University of Virginia; B.A., Baylor University

Wathiq Mansoor, Professor of Computer Engineering
Ph.D. (1990), Aston University; M.Sc., University of Technology (Baghdad); B.Sc., University of Baghdad

Abraham Mansouri, Assistant Professor of Mechanical Engineering
Ph.D. (2008), University of Alberta; M.A.Sc., Azad University of Tehran; B.A.Sc., Azad University of Tehran

Lance Edward de Masi, Assistant Professor of Marketing Communications
M.B.A. (1977), Indiana University; M.A., Indiana University; B.A., St. John Fisher College; Honored, Ph.D. Hum. Lit., Schiller International University (London)

Robbie McLaughlan, Assistant Professor of English
Ph.D. (2010), University of Glasgow; M.Litt., University of Glasgow; MA (Hons), University of Glasgow

Bradley Moody, Associate Professor of Digital Media
M.F.A. (2003), Rensselaer Polytechnic Institute; B.S., Skidmore College

Carol Melhem-Moufarrej, Associate Dean of the Mohammed Bin Rashid School for Communication and Assistant Professor of Communication and Information Studies
Ph.D. (2002), University of Massachusetts at Amherst; M.P.H., American University of Beirut; B.S., American University of Beirut

Karim Mimouni, Associate Professor of Finance
Ph.D. (2007), McGill University; M.Sc., École des Hautes Études Commerciales (Montréal); B.B.A., Institut des Hautes Études Commerciales (Tunis)

Susan Montaquila, Associate Dean of the School of Business Administration and Associate Professor of Business Administration
J.D. (1976), Wake Forest University; B.A., University of North Carolina at Chapel Hill

Meis Moukayed, Associate Professor of Natural Sciences
Ph.D. (2002), University of Cambridge; B.Sc. (First Class Hons), Brunel University

Ali Nabavi, Assistant Professor of Mathematics
Ph.D. (2000), Ohio State University; M.S., Ohio State University; Diplôme, Université Paris 7

Dina Nader, Adjunct Instructor in Business Administration
M.A. (2003), University of Leicester; B.A., University of Balamand

Jihad Nader, Professor of Finance
Ph.D. (1987), University of Toronto; M.B.A., American University of Beirut; B.B.A., American University of Beirut

Mai Naji, Adjunct Instructor in Natural Sciences
M.S. (2000), University of Missouri; B.S., University of Maryland
Kevin Nawn, Coordinator of English and the Writing Center and Assistant Professor of English
M.Ed. (2004), Delta State University; B.A., Framingham State College

Tram Nguyen, Assistant Professor of English
Ph.D. (2008), University of Alberta; M.A., Wilfrid Laurier University; B.A., McGill University

Hicham Nicolas, Adjunct Instructor in Computing Science
M.Sc. (2004), University of Hull; B.S., Fairfax University

Linda Nubani, Adjunct Instructor in Interior Design
Ph.D. (2006), University of Michigan at Ann Arbor; M.S., University of Michigan at Ann Arbor; M.S., University of Cincinnati; B.F.A., The American University in Dubai

Mahmood Pedram, Assistant Professor of Marketing
Ph.D., Purdue University; M.S., Purdue University; B.S., Purdue University

John Michael Phillips, Assistant Professor of English (CfEP)
Ph.D. (1996), University of Southern California; M.A., University of Southern California; MATESTL & TESL Certificate, University of Southern California, B.A., University of Southern California

Anna Karolina Piotrowska, Assistant Professor of Art History
Ph.D. (2009), New York University; M.A., New York University, B.A., Harvard University

David Poindexter, Chair and Associate Professor of Visual Communication
M.F.A. (1990), Florida State University; B.F.A., Kansas City Art Institute; B.A., University of Missouri-Columbia

Majid Poshtan, Associate Professor of Electrical Engineering
Ph.D. (2000), Tulane University; M.Sc., University of New Brunswick; B.Sc., Tehran University

Raymond Prucher, Assistant Professor of Advertising (Creative)
M.F.A. (2003), State University of New York at Stony Brook; B.F.A., Southern Illinois University

Colin Reaney, Associate Professor of Sculpture
M.F.A. (1986), University of Tasmania; Diploma, Darling Downs Institute of Advanced Education (Queensland)

Amer Rghei, Professor of Architecture and Interior Design
Ph.D. (1992), University of Waterloo; M.Arch., McGill University; B.Sc., Al-Fateh University

Noor Ain Rizvi, Adjunct Instructor in Mathematics (Developmental)
M.S. (2007), University of Chicago; B.S., Lahore University of Management Sciences

Shireen Roughani, Adjunct Instructor in Psychology
M.Ed. (2005), George Mason University; B.A., George Mason University

Jessica J. Russell, Assistant Professor of English
Cand. Ph.D., Argosy University; M.Ed. (1996), Plymouth State College; B.A., Whitworth College
Elias Saqan, Chair and Associate Professor of Civil Engineering
Ph.D. (1995), University of Texas at Austin; M.S., University of Texas at Austin; B.S.C.E., University of Houston

Fadi Sayegh, Adjunct Instructor in Business Administration
M.Eng. (2004), Concordia University; B.S., Northwestern University

Nahida Shahbal, Adjunct Instructor in Arts and Sciences
M.A. (1984), University of Illinois; B.A., Nairobi University

Hamid Shafiee, Associate Professor of Electrical Engineering
Ph.D. (1992), University of Minnesota; M.S., Iowa State University; B.S., Iowa State University

Ahmed Sharaan, Instructor in Business Administration
M.B.A. (2008), Western Kentucky University; M.A., Western Illinois University; B.A., York University

Edgar Small, Coordinator of Construction Management and Associate Professor of Civil Engineering
Ph.D. (1999), State University of New York at Buffalo; M.Eng., State University of New York at Buffalo; B.S., State University of New York at Buffalo

Haitham Solh, Assistant Professor of Mathematics
Ph.D. (2009), Louisiana State University; M.Ed., University of Southern Mississippi; B.Sc., The Lebanese University

Kwon Joong Son, Assistant Professor of Mechanical Engineering
Ph.D. (2009), University of Texas at Austin; M.S., Carnegie Mellon University; B.S., Pohang University of Science and Technology

Oumar Sy, Visiting Associate Professor of Finance
Ph.D. (2006), McGill University; M.Sc., École des Hautes Études Commerciales (Montréal); B.A.A., École des Hautes Études Commerciales (Montréal)

Philip Tabakow, Associate Professor of English
Ph.D. (1991), University of Denver; M.A., University of Cincinnati; B.A., University of Cincinnati

Ph.D. (1988), University of Houston; M.B.A., University of Houston; M.A., University of Houston; B.A., University of Houston

Tala Vaziri, Assistant Professor of Architecture and Interior Design
Cand. Ph.D., University of Technology (Vienna); Diplom-Ingenieur, University of Technology (Vienna)

Carmen Velica, Instructor in English (CfEP)
Ph.D. (2005), Alexandru Ioan Cuza University; M.A., Dunarea de Jos University; B.A., Dunarea de Jos University

Hind Zantout, Adjunct Instructor in Mathematics
Ph.D. (2000), Kingston University; M.Sc., Kingston University; B.S., American University of Beirut

Susan Zeidan, Associate Professor of Management
Ph.D. (2006), Victoria University; M.B.A., Oklahoma City University; B.S., The Lebanese University

Hassan Zeineddine, Assistant Professor of Management Information Systems
Ph.D. (2009), University of Ottawa; M.Sc., University of Windsor; B.S., American University of Beirut

Nadia Wardeh, Assistant Professor of Middle Eastern Studies
Ph.D. (2008), McGill University; M.A., McGill University; B.A., University of Jordan

Panos Xidonas, Associate Professor of Finance (effective, Spring 2012)
Ph.D. (2010), National Technical University of Athens; M.Sc., National Technical University of Athens; B.Sc. University of Athens
TUITION, FEES AND EXPENSES
2011-2012
The standard academic year is comprised of the Fall (September) and Spring (January) semesters. There are two Summer sessions (May and July).

The university evaluates institutional tuition and fees in the second semester of each academic year, and rates may be subject to change at the beginning of the following academic year.

UNDERGRADUATE PROGRAMS

**Fall and Spring Semesters**
- Tuition (less than 12 credit hours) AED 3,000 per credit
- Tuition (12 to 16 credit hours) AED 34,500 per semester
- Tuition Overload (over 16 credit hours) AED 2,300 per credit

**Summer Sessions**
- Tuition (less than 7 credit hours) AED 3,000 per credit
- Tuition (7 to 9 credit hours) AED 20,700 per session
- Tuition Overload (over 9 credit hours) AED 2,300 per credit

**GRADUATE PROGRAM**
- Tuition (3 credit hours) AED 9,600
- Tuition (6 credit hours) AED 19,200
- Tuition (9 credit hours) AED 28,800

**Additional Modules, if required:**
1. Micro-Economics AED 2,000
2. Accounting AED 2,000
3. Finance AED 2,000
4. Statistics AED 1,500

**INTENSIVE ENGLISH LANGUAGE PROGRAM**

**Fall and Spring Semesters**
- Tuition AED 28,000 per semester

**Summer Sessions**
- Tuition AED 20,000 per session

**SERVICES FEE**
- Services Fee for Undergraduate and IELP students, AED 100 per semester, (AED 50 per summer session)

* Scholarships appearing in this Catalog.

* designated for labs and activities
FAMILY TUITION WAIVER
For families who have more than one son/daughter enrolled simultaneously at AUD as full-time undergraduates, a tuition remission of 25% is given to each offspring (sibling) after the first. Students who qualify for this waiver must, upon registration, complete a form available at the Finance Office. Scholarship students are not eligible for a Family Tuition Waiver.

STUDY ABROAD PROGRAM IN MIDDLE EASTERN STUDIES
[Includes tuition and fees for 5 classes (15 hours), housing and some classroom-related activities]

Tuition and Fees US$12,082 (of which US$274 is refundable at the end of the semester if no dorm damage has occurred)

EXPLANATION OF FEES AND EXPENSES
Application Processing Fee:
A non-refundable application processing fee of AED 200 must accompany the Application for Admission.

Reservation Deposit:
A reservation deposit (non-refundable) of AED 5,000, which is fully applied toward tuition, is required upon acceptance for admission (provisional or other). Due to the high number of applicants, students are requested to pay this deposit within two months of the start of the term of entry. No application will be accepted after this date without the reservation deposit. The reservation deposit is non-refundable unless the application is rejected by the Admissions Office.

Entrance Exam Fee:
AED 300 (non-refundable)

Late Registration Fee:
A late registration fee of AED 1,000 will be charged for those registering after the final advising and registration date set for the semester (see University Academic Calendars).

Books:
Students are responsible for buying their own books. Book expense is not included in the tuition.

Graduation Processing Fee:
A non-refundable diploma fee of AED 500 will be billed to students earning degrees.

Middle Eastern Studies Certificate fee:
A non-refundable fee of AED 200 will be billed to students to cover processing and production of the Middle Eastern Studies Certificate.

Part-Time Students:
A student taking less than 12 credit hours per semester is considered part-time. The fee per 1 credit hour is AED 3,000.

Health Insurance (Mandatory):
A fee of AED 1,000 per year is mandatory for Health Insurance. Students showing proof of having their own private health insurance plan will be exempted.

Housing (optional):
Accommodation is provided by semester for those who wish student housing. The non-refundable housing fees per semester are:

AED 8,500 (shared)
AED 12,500* (single).

A one-time, refundable security deposit of AED 1,000 is required. This one-time security deposit is payable with the student’s first housing payment. Housing charges are subject to change. In the summer sessions, housing fees are AED 5,700 for a shared room and AED 8,500 for a single room*.

* Single rooms are not available and will not be guaranteed at all. In the event that there are cancellations and there is availability of rooms, applications for single rooms will be considered.
A housing reservation fee of AED 2,500 is required to reserve a place in the dormitories. This is payable according to the following schedule:

<table>
<thead>
<tr>
<th>Semester</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spring, 2012</td>
<td>November 15, 2011</td>
</tr>
<tr>
<td>Summer I, 2012</td>
<td>March 25, 2012</td>
</tr>
<tr>
<td>Summer II, 2012</td>
<td>May 20, 2012</td>
</tr>
<tr>
<td>Fall, 2012</td>
<td>May 27, 2012</td>
</tr>
</tbody>
</table>

The balance of the student housing fee must be paid in full one month before the beginning of the semester or summer session. Failure to pay the housing fee in full may result in the cancellation of the dorm reservation. **In such cases, the housing reservation fee will not be refunded.**

**Student Residence Visa (optional):**
Only full-time students are eligible. Visa fee, AED 1,000. Passport deposit of AED 2,000 is refundable **only upon cancellation of visa.**

**Study Tours (optional):**
AUD Study Tours are scheduled annually. The fee, which is determined annually, covers roundtrip transportation and hotel accommodations. Students are responsible for their meals. Students may earn three hours of academic credit upon satisfactory completion of requirements set by the trip instructor. Previous Study Tour locations have included New York, Paris, Milan and Florence.

**PAYMENT POLICIES**
Tuition and fees are due upon registration, unless a student is registering online, in which case the deadline for payment established by the Registrar’s Office must be respected. Students can pay by cash, check, and bank drafts at the AUD branch of the Commercial Bank of Dubai. Credit Card payments may be made at the AUD Finance Office subject to a handling fee of roughly 1.5%.

Tuition and fees may also be paid by bank transfer or by filling the credit card authorization form on the following page.

**Bank Transfer:** Payable to the “American University in Dubai”, account number 1000351229 at the Commercial Bank of Dubai, Dubai Head Office, swift code: CBDUAEADDXB. Include student name and I.D.# on the payment details.
**Credit Card (paid via written authorization):** by filling out the following information and faxing this sheet to AUD Finance Office +9714-3994566. Only Visa and Master Cards are accepted and will carry an additional handling fee of 2.0% of the total amount paid.

A student not physically present in Dubai who wishes to pay by credit card will be required to fill-out a form containing the following information:

I authorize The American University in Dubai to charge an amount of AED ......................... plus handling fees as stated above to my credit card details mentioned below.

Name:  

Signature:  

Credit Card Type (Visa, Mastercard):  Expiry Date:  

Credit Card Number: - - - -  

UAE Tel. No.( ) Other Tel. No.( )  

Fax No. ( )  

Date:  Student Name:  

I.D. #:  Payment Details:  

**Outstanding Balances**

A student cannot register until all outstanding balances are cleared. Payments will be credited toward outstanding balances before being applied to current registration charges. Transcripts, grades, diploma and certifications will not be issued for students who have not met their financial obligations.

**Refund Policy**

Refunds are governed by the following regulations and will be processed within 30 days of request:

**(1) Tuition (except IELP)**

In the event that a student withdraws or is dismissed from all classes during the term, refunds of tuition and fees will be calculated according to the following schedule:

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>During the first week*</td>
<td>75%</td>
</tr>
<tr>
<td>During the second week**</td>
<td>50%</td>
</tr>
<tr>
<td>During the third week</td>
<td>25%</td>
</tr>
<tr>
<td>After the third week</td>
<td>0%</td>
</tr>
</tbody>
</table>

**Students who submit non-negotiable checks will be charged an AED 200 non-refundable administrative fee and will henceforth be required to make future payments in the form of cash or bank transfer.**
In the event that a student withdraws from partial classes during the term, refunds will be calculated according to the following schedule:

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Until the end of Drop/Add***</td>
<td>100%</td>
</tr>
<tr>
<td>After Drop/Add</td>
<td>0%</td>
</tr>
</tbody>
</table>

(2) Tuition (IELP)

<table>
<thead>
<tr>
<th>Schedule</th>
<th>Refund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Until the end of Drop/Add</td>
<td>75%</td>
</tr>
<tr>
<td>After Drop/Add</td>
<td>0%</td>
</tr>
</tbody>
</table>

The one-time, housing security deposit is refundable at the end of the semester if no dorm damage has occurred.

(3) Housing Fees and Charges

The one-time, housing security deposit is refundable at the end of the semester if no dorm damage has occurred.

The housing reservation fee is non-refundable and nontransferable unless the student’s application for admission is rejected or the student cancels his/her admission one month prior to the start of the semester for which he/she has paid.

* 100% for new students in the first semester of attendance with the exception of the reservation and enrollment deposit of AED 5,000 which is non-refundable.
** Sunday-Thursday
*** The refund amount will be a credit to the student’s account and carried forward to the following semester. Non-returning students will receive a refund within 30 days of submitting a request form. Check the AUD Academic Calendar for dates of Drop/Add.

Note: AUD has a Refund Policy specific to legal residents of the U.S. State of Georgia. This Policy has been written to be in compliance with Standard Nine of Georgia’s Minimum Standards and Criteria for NPEC Institutions. The existence of this Policy is announced during Student Orientation and referenced at the time of exit from AUD (during the account settlement process) of any Georgia resident who requests a refund. A copy of this Policy is available in the Finance Office, the Registrar’s, and the office of the Director of Institutional Effectiveness.
